The New Connected Urban GT 125cc Scooter

Paris, April 25th - Peugeot Motocycles is revolutionising the GT/Compact GT sector with the arrival of the Peugeot Pulsion on the market. With this addition to its current range of 125cc models, Peugeot Motocycles confirms its position as a key player in urban mobility and enhances its premium offer.

This latest innovation is the first scooter in the range to incorporate a new technology owned by the Peugeot Motocycles brand: i-Connect, inspired by the Peugeot i-Cockpit. Peugeot Pulsion represents a unique urban riding experience with all the safety of a two-wheeler in line with its times. The city is its favourite playground.

With its excellent ease of handling and agility in the city, Peugeot Pulsion carries technologies that are unique in the GT/Compact GT sector and introduces by itself a new segment: "Urban GT".

Peugeot Pulsion is developed and manufactured at the Mandeure factory in France, the historical home of the company.

There will be three versions of the Peugeot Pulsion available:
