Partnership to accelerate digital transformation & application modernization using low-code and legacy process optimization technologies

Dallas – January 10, 2022: Tech Mahindra, a leading provider of digital transformation, consulting and business re-engineering services, has partnered with Pyze, a leader in low-code process and business value analytics, to provide cutting-edge enterprise modernization solutions. The partnership is aimed at accelerating digital transformation and application modernization using low code and legacy process optimization.

Through this partnership, low-code developers, IT teams, and business teams will be able to reduce process inefficiencies faster. It will further enable organizations to improve user productivity and adoption, and maximize ROI of process transformation and application modernization projects. Tech Mahindra and Pyze will work towards implementing data-driven improvement approach which will analyse process workflows based on origin and

termination points. It will map and segment case workflows to identify bottlenecks & flag automation opportunities, workflow design improvements, UX and employee training needs.

Lakshmanan Chidambaram, President – Americas, Tech Mahindra said, *"The COVID-19 pandemic has ushered in a new reality. At a time when even the disruptors have been disrupted, being an adaptable, digital enterprise is of paramount importance. Tech Mahindra is committed to help enterprises adapt and transform. By retaining focus on digital transformation, we continue to research, innovate, and leverage next-gen technologies such as predictive analytics to provide enterprise modernization solutions and enhance customer experience. Our partnership with Pyze is in line with our NXT.NOWTM framework, to enable enterprises to make data-driven business decisions and support their digital transformation journeys."*

As part of the partnership, Tech Mahindra and Pyze will leverage their domain expertise to help global customers identify business cases for application modernization by leveraging low code technology platforms.

Scott Ritchie, Vice President, Business Development, Pyze said, *"We are delighted to enter into this partnership with Tech Mahindra to enable customers to accelerate digital transformation and increase the ROI of their efforts by deploying new services and modernizing their existing technology stacks. As the leader in Digital Transformation Analytics, Pyze' capabilities are a natural complement to Tech Mahindra's services. Through this partnership, we*

aim to maximize the business value of the modernization projects and adoption of low code platforms. With the joint offering, customers can enhance the execution of workflows and business processes by implementing a continuous improvement development strategy that delivers better applications and processes with each release. Our broad platform support capabilities coupled with Tech Mahindra's expertise will enable customers to unlock greater value and better ROI."

Tech Mahindra believes in DigitALL philosophy for comprehensive business transformation. Digital technologies catalyse the transformations – they humanize businesses by helping them think, sense, connect, communicate, secure and act better than before. As part of NXT.NOWTM framework, which aims to enhance 'Human Centric Experience', Tech Mahindra focuses on investing in emerging technologies and solutions that enable digital transformation and meet the evolving needs of the customer.
