Mumbai, February 19, 2025 – Mahindra Group, a global leader in innovation and technology, and Anduril Industries, an American technology company that specialises in autonomous systems, today announced a strategic partnership aimed at co-developing and co-producing state-of-the-art Autonomous Maritime Systems, advanced AI-enabled Counter Unmanned Aerial System (CUAS) technologies and innovative Command and Control (C2) software. The collaboration seeks to strengthen regional security by deploying next-generation autonomous solutions and enhancing capabilities for maritime operations.

The partnership focuses on developing modular Autonomous Underwater Vehicles (AUVs) that can be rapidly deployed for Security, Surveillance, Survey, and Reconnaissance missions, significantly enhancing underwater operational capabilities. It also aims to develop advanced Counter-Unmanned Aerial Systems (CUAS) technologies capable of detecting and neutralizing

drone threats, providing enhanced protection against unmanned aerial systems.

In parallel, the collaboration will focus on developing a sensor fusion platform to integrate multiple sensor technologies into a flexible, open API architecture, streamlining integration processes and accelerating the adoption of advanced technologies across complex security programs.

Speaking on the partnership Mr. Vinod Sahay, Group Executive Board Member, Mahindra Group said, "Partnering with Anduril Industries marks a significant milestone in Mahindra Group's commitment to developing advanced security and autonomous technologies. This collaboration combines our deep engineering expertise with Anduril's innovative solutions to deliver cutting-edge capabilities that enhance security and address emerging threats."

Mr. Greg Kausner, SVP- Global Defence, Anduril Industries, stated: Global security forces face a rapidly evolving set of threats from both emerging unmanned systems and legacy manned platforms, and Autonomy is key to maintaining a credible protection. Anduril is thrilled to announce our partnership with Mahindra — we believe that our two companies together are well poised to bring cutting edge autonomy-enabled capabilities to the Indian market.

About Mahindra Group

Founded in 1945, the Mahindra Group is one of the largest and most admired multinational federation of companies with 260000 employees in over 100 countries. It enjoys a leadership position in farm equipment, utility vehicles, information technology and financial services in India and is the world's largest tractor company by volume. It has a strong presence in renewable energy, agriculture, logistics, hospitality and real estate. The Mahindra Group has a clear focus on leading ESG globally, enabling rural prosperity and enhancing urban living, with a goal to drive positive change in the lives of communities and stakeholders to enable them to Rise.
