- ***The first authentic 7-seater electric SUV, built on the INGLO skateboard for unmatched space and performance.***

Mumbai, November 1, 2025: Mahindra has officially unveiled the name of its next all-electric SUV — **XEV 9S**, the big, bold, and authentic 7-seater electric SUV built on Mahindra's advanced **INGLO platform**. Designed to bring together power, presence, and pure electric performance, the XEV 9S marks a new chapter in Mahindra's all-electric evolution.

Unlike re-engineered ICE vehicles, the XEV 9S is born electric — purpose-built on Mahindra's INGLO skateboard architecture. This flat-floor design liberates generous cabin space, enabling clever flexibility like sliding second-row seats,

ensuring every passenger enjoys first-class comfort. The skateboard architecture also gives the XEV 9S an inherently low centre of gravity, enhancing both stability and ride comfort — perfect for big families with big plans.

At its heart, the XEV 9S is about making space for everything you love — your people, your passions, and your life. It's for those who live large, travel together, and refuse to compromise on electric performance or presence.

The world will get its first full look at the **Mahindra XEV 9S** during the ***'Scream Electric'*** event in Bengaluru on ***27th November 2025*** — a grand celebration marking one year of Mahindra's all-electric journey and its growing INGLO portfolio.

Because when it comes to going electric — Mahindra believes bigger is better.
