Company Statement

Mahindra Offers Proactive Inspection of Premature Wear of Engine Parts Due To Contaminated Fuel In A Suspect Batch Of Less Than 600 Vehicles

Mumbai, July 19, 2021: Mahindra & Mahindra Ltd. (M&M Ltd.), one of the leading automobile companies in India and the world's largest tractor company by volume, announced proactive inspection and replacement of diesel engines in some of its vehicles manufactured at Nashik factory for suspicion of premature wear of engine parts due to contaminated fuel that was received in the factory on a particular date, and was filled in the select batch. This is a limited batch of less than 600 vehicles manufactured between 21st June to 2nd July 2021 and is keeping in line with the company's customer centric approach.

The inspection and subsequent rectification will be carried out free of cost for all customers, who will be individually contacted by the company. In an endeavor to ensure a hassle-free experience for its customers, the company is proactively carrying out this activity. This action is also in compliance with voluntary code on vehicle recall.

About Mahindra

Founded in 1945, the Mahindra Group is one of the largest and most admired multinational federation of companies with 260,000 employees in over 100 countries. It enjoys a leadership position in farm equipment, utility vehicles, information technology and financial services in India and is the world's largest tractor company by volume. It has a strong presence in renewable energy, agriculture, logistics, hospitality and real estate.

The Mahindra Group has a clear focus on leading ESG globally, enabling rural prosperity and enhancing urban living, with a goal to drive positive change in the lives of communities and stakeholders to enable them to Rise.
