Independent Auditor's Report

To the Members of Mahindra Electric Automobile Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Mahindra Electric Automobile Limited (the "Company") which comprise the balance sheet as at 31 March 2025, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its loss and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Management's and Board of Directors Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty

exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2 A. As required by Section 143(3) of the Act, we report that:

a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2(B)(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

c. The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

e. On the basis of the written representations received from the directors as on various dates in April 2025 is taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act.

f. The modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(A)(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2(B)(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

a. The Company has disclosed the impact of pending litigations as at 31 March 2025 on its financial position in its financial statements - Refer Note 37 to the financial statements.

b. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 34 to the financial statements.

c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

d (i) The management has represented that, to the best of their knowledge and belief, as disclosed in the Note 41 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(ii) The management has represented that, to the best of their knowledge and belief, as disclosed in the Note 41 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.

e. The final dividend paid by the Company during the year, in respect of the same declared for the previous year, is in accordance with Section 123 of the Act to the extent it applies to payment of dividend. The Company has not proposed any dividend for the current year.

f. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software except that the audit trail was not enabled at the database level to log any direct data changes for such accounting software used for maintaining the books of account till 05 July 2024. Further, where audit trail (edit log) facility was enabled and operated throughout the year for the accounting software, we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure A to the Independent Auditor's Report on the Financial Statements of Mahindra Electric Automobile Limited for the year ended 31 March 2025

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, plant and equipment by which all Property, plant and equipment are verified once in three years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) The Company does not have any immovable property (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The inventory, has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company was not required to file any quarterly returns or statements with such banks.

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, provisions of clauses 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not given any loans, or provided any guarantee or security as specified under Section 185 and 186 of the Companies Act, 2013 ("the Act"). In respect of the investments made by the Company, in our opinion the provisions of Section 186 of the Act have been complied with.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for the products traded by it. Accordingly, clause 3(vi) of the Order is not applicable.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the undisputed statutory dues including Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues have generally been regularly deposited by the Company with the appropriate authorities.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues were in arrears as at 31 March 2025 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues, which have not been deposited with the appropriate authorities on account of any dispute.

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.

(c) In our opinion and according to the information and explanations given to us by the management, the Company has not obtained any term loans. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) The Company does not hold any investment in any subsidiaries, associates or joint ventures (as defined under the Act) during the year ended 31 March 2025. Accordingly, clause 3(ix)(e) is not applicable.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies (as defined under the Act).

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of fully or partly convertible debentures during the year. In our opinion, in respect of private placement of preference shares made during the year, the Company has duly complied with the requirements of Section 42 of the Act. The proceeds from issue of preference shares have been used for the purposes for which the funds were raised except for Rs 40,000 lakhs which were unutilised as they were raised towards the end of the year. Further, the Company has not made any preferential allotment of shares and Section 62 of the Act is not applicable.

(xi) (a) During the course of our examination of the books and records of the Company and according to the information and explanations given to us, considering the principles of materiality outlined in Standards on Auditing, we report that no fraud by the Company or on the Company has been noticed or reported during the year.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) We have taken into consideration the whistle blower complaints received under the vigil mechanism established voluntarily by the Company during the year and shared with us while determining the nature, timing and extent of our audit procedures.

(xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports of the Company issued till date for the period under audit.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) has more than one CIC as part of the Group. The Group has four CICs as part of the Group

(xvii) The Company has incurred cash loss of Rs 6,166 lakhs in the current financial year. The Company has not incurred cash loss in the previous financial year

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Act pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

Annexure B to the Independent Auditor's Report on the financial statements of Mahindra Electric Automobile Limited for the year ended 31 March 2025

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra Electric Automobile Limited ("the Company") as of 31 March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to the financial statements for the year ended 31 March, 2025

1 General information

Mahindra Electric Automobile Limited ('the Company') is a limited company incorporated in India. The address of its registered office is Mahindra Electric Automobile Limited, Mahindra Tower, Pandurang Budhkar Marg, Nr. Door darshan Kendra, Worli, Mumbai, Maharashtra - 400018. The company is engaged in the business of designing, developing, manufacturing, fabricating, assembling, selling, buying, re-selling, importing, and all kinds of services related to electric vehicles (incl. parts).

2 Material Accounting Policies

a) Statement of compliance and basis of preparation and presentation

These financial statements of the company have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

These financial statements were approved by the company's Board of directors and authorised for issue on **22 April 2025**.

b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values.

c) Measurement of fair values

A number of accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The company has established policies and procedures with respect to the measurement of fair values.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

d) Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

i) Useful lives of property, plant and equipment and other intangible assets

The Company reviews the useful lives of property, plant and equipment and other intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation expense in future periods.

ii) Provision for product warranties

The Company recognises provision for warranties in respect of the products that it sells. The arrangement for warranty is back to back with the manufacturer i.e., Mahindra & Mahindra Limited. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

iii) Fair value of financial assets and financial liabilities

The Company measures certain financial assets and liabilities on fair value basis at each balance sheet date or at the time they are assessed for impairment. Fair value measurement that are based on significant unobservable inputs (Level 3) requires estimates of operating margin, discount rate, future growth rate, terminal values, etc. based on management's best estimate about future developments.

iv) Impairment of tangible and intangible assets - Refer Note 2(g)

v) Recoverability of deferred tax asset on unabsorbed losses and depreciation - Refer Note 2(o) and Note 8

e) Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related accumulated depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the statement of profit or loss.

The management's estimate of useful lives are in accordance with Schedule III to the Companies Act, 2013, other than the following asset classes, based on the company's expected usage pattern supported by technical assessment:

Asset Class		Useful lives
i)	Plant and equipment	2-20 years as the case may be
ii)	Vehicles	5 years

f) Intangible assets

Intangible assets under development

The Company expenses costs incurred during research phase to profit or loss in the year in which they are incurred. Development phase expenses are initially recognised as intangible assets under development until the development phase is complete, upon which the amount is capitalised as intangible asset.

Intangible assets

Intangible assets are initially recognised at cost.

Subsequent to initial recognition, intangible assets with definite useful lives are amortised on a straight line basis so as to reflect the pattern in which the asset's economic benefits are consumed and are reported at cost less accumulated amortisation and accumulated impairment losses, if any.

Notes to the financial statements for the year ended 31 March, 2025

The intangible assets are amortised over the estimated period of benefit as below:

Asset Class	Useful lives
i) Development expenditure	5 years
ii) Computer Software	3 years

The amortisation period for intangible assets are reviewed annually and changes in expected useful lives are treated as changes in estimates.

g) Impairment of Assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash-generating unit, as the case may be, is estimated and impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

When an impairment loss subsequently reverses, the carrying amount of the asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) earlier.

Intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

h) Inventories

Finished Goods and Spares are carried at cost or net realizable value which ever is lower. Cost is determined on the basis of the weighted average method and comprises of all cost of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

i) Foreign exchange transactions and translation

Transactions in foreign currencies i.e. other than the Company's functional currency of Indian Rupees are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the functional currency using exchange rates prevailing at that date. Non-monetary items measured at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value is determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on transactions entered into in order to hedge certain foreign currency risks (refer policy on Derivative Financial Instruments and Hedge Accounting).

j) Financial Instruments

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets: All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

Financial liabilities and equity instruments: Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual agreements and the definitions of a financial liability and an equity instrument.

Equity Instrument: An equity instrument is any contract that evidences a residual interest in assets of an entity after deducting all its liabilities. Equity instrument issued by the company are recognised at the proceeds received, net of issue costs. Repurchase of company's own equity instrument is recognised and deducted directly in equity. No gain or loss is recognised in the statement of Profit & Loss on the purchase, sale, issue or cancellation of the company's own equity instruments.

Financial liabilities: All the financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through Profit & Loss.

k) Derivative financial instruments and hedge accounting

The Company enters into derivative financial instruments, primarily foreign exchange forward contracts, to manage its exposure to foreign exchange. The Company designates certain hedging instruments, which include derivatives in respect of foreign currency risk, as either fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

Derivatives are initially recognised at fair value at the date the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

The Company designates certain hedging instruments, which include derivatives in respect of foreign currency risk, as either fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges. At the inception of the hedge relationship, the Company documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

l) Impairment of financial assets

The Company applies the Expected Credit Loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables and loans, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of

Notes to the financial statements for the year ended 31 March, 2025

income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

m) Revenue Recognition

Sale of Goods or services

Revenue from sale of goods are recognised based on consideration specified in the contract upon satisfaction of performance obligation which is at a point in time, generally on delivery of the goods, when control of the goods is transferred to customers.

The Company recognises revenue from sale of goods or services at the amount of transaction price (excluding variable consideration that is constrained), that is allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects it to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of third parties.

An amount of consideration can vary because of discounts, rebates, incentives etc. which are explicitly stated in the contract or are as per customary business practices. The consideration can also vary where the entitlement is contingent on occurrence or non-occurrence of a future event. The Company includes variable consideration as part of transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income / expense, as applicable.

Mutual fund and interest income

Mutual fund income is accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

Government Grants

The Company, directly or indirectly through a consortium of Mahindra Group companies, is entitled to various incentives from government authorities. Government grants are recognised when there is a reasonable assurance that the same will be received and all attached conditions will be complied with.

Government grants that are revenue in nature, are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

Government grants that are capital in nature, are recognised in profit or loss on a systematic basis over useful life of assets.

n) Employee Benefits

Provident Fund

Contributions to Provident Fund are made to regional provident fund commissioners and are charged to profit or loss as incurred. The Company is liable for the contribution and any shortfall in interest between the amount of interest realised by the investments and the interest payable to members at the rate declared by the Government of India. The shortfall and remeasurement thereof, if any, based on actuarial valuation is recognised through Other Comprehensive Income (OCI).

Gratuity, post retirement medical benefit and post retirement housing allowance schemes

The liability towards gratuity, post retirement medical benefit are determined by independent actuaries, using the projected unit credit method. Past services are recognised at the earlier of the plan amendment / curtailment and the recognition of related restructuring costs / termination benefits.

The liability towards long term compensated absences are determined by independent actuaries using the projected unit credit method. The obligation on long term compensated absences and other defined benefit plan are measured at the present value of estimated future cash flows using a discount rate that is determined by reference to the market yields of Indian government securities for the estimated term of the obligations.

Remeasurement gains / losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

o) Income taxes

Current tax

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax assets and liabilities are recognised for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilised. Deferred tax is also recognized in respect of carried forward tax losses. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities arising from deductible temporary differences are only recognised to the extent that it is probable that there will be sufficient taxable profits to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Notes to the financial statements for the year ended 31 March, 2025

p) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of these cash flows (when the effect of the time value of money is material).

Provisions for the expected cost of warranty obligations are recognised at the time of sale of the relevant products, at the best estimate of the expenditure required to settle the Company's obligation. The arrangement for warranty is back to back with the manufacturer i.e., Mahindra & Mahindra Limited. The provisions are reviewed at each Balance Sheet date and adjusted to reflect the current best estimate.

q) Leases

The Company recognises a Right-of-Use asset and a lease liability at the lease commencement date. The Right-of-Use asset is initially measured at cost.

The Right-of-Use assets are subsequently depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. In addition, the Right-of-Use asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at amortised cost at the present value of the future lease payments, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using the incremental borrowing rate.

It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the Right-of-Use asset, or is recorded in profit or loss if the carrying amount of the Right-of-Use asset has been reduced to zero.

The Company has elected not to recognise Right-of-Use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified Ind AS 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

32 Employee Benefits

General description of defined benefit plans

Gratuity

There is a gratuity plan which is covering all employees. The benefit payable is greater of the amount calculated as per the payment of Gratuity Act or the company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Risk exposure

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Inflation risk

The present value of some of the defined benefit plan obligations are calculated with reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Life expectancy

The present value of defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants, both during and after the employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Notes to the financial statements for the year ended 31 March, 2025

34 Financial instruments

Financial Risk Management Framework

In the course of its business, the Company is exposed to a certain financial risks namely credit risk, market risk & liquidity risk. The Company's primary focus is to achieve better predictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The financial risks are managed in accordance with the risk management policy as approved by Board of Directors of the Company.

(a) Market Risk Management

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates etc. could affect the Company's income or the value of its holdings of financial instruments including cash flow. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximising the return.

Notes to the financial statements for the year ended 31 March, 2025

(b) Currency Risk

The Company's exposure to currency risk relates primarily to the company's operating activities i.e.. Purchases where the transactions are denominated in a currency other than the Company's functional currency.

The Company's foreign currency exposures are managed in accordance with its Foreign Exchange Risk Management Policy which has been approved by its Board of Directors. The Company's hedges its foreign currency risk mainly by way of Forward Covers. Other derivative instruments may be used if deemed appropriate.

The carrying amounts of the company's foreign currency exposure at the end of the reporting period are as follows:

Rupees Lakhs

Particulars	Euro	Pounds	Yen	Korean Won	USD Dollar	Total
As at 31 March, 2025						
Financial Liabilities	**3,847.56**	**1,627.10**	**–**	**–**	**12,958.12**	**18,432.78**
As at 31st March, 2024						
Financial Liabilities	1,475.46	962.46	506.33	45.00	8,914.50	11,903.75

The Company's outstanding forward exchange contracts are not accounted as hedges. Notional value of the same is as given below:

Rupees Lakhs

Particulars	2025	2024
Buy currency		
- USD/INR	**9,975.50**	8,071.68
- EUR/INR	**–**	3,102.99
- GBP/INR	**409.87**	–

Sensitivity Analysis of unhedged foreign currency exposure

Foreign Currency Sensitivity

The following table demonstrate the sensitivity to a reasonably possible change in exchange rates, with all other variables held constant

Rupees Lakhs

Particulars	10% Increase - 2025	10% Decrease - 2025	10% Increase - 2024	10% Decrease - 2024

Pounds	**121.72**	**121.72**	96.25	96.25
Yen	**–**	**–**	50.63	50.63
Korean Won	**–**	**–**	4.50	4.50

(b) Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company usually deals with creditworthy counterparties and obtain sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The exposure is continuously monitored.

(c) Liquidity risk management - Maturity profile of non - derivative financial liabilities

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

36 Issue of Compulsorily Convertible Preference Shares

Mahindra & Mahindra Limited (M&M), the holding company, executed a Securities Subscription Agreement and Shareholders' Agreement with British International Investment Plc ('BII'), whereby M&M and BII have agreed to invest upto Rs. 1,92,500 lakhs each, in tranches, subject to the terms and conditions as stipulated in the aforesaid agreement(s). M&M have invested Rs. 34,000 lakhs in equity share and BII have invested Rs.65,000 lakhs Compulsorily Convertible Preference Shares ('CCPS') respectively in FY 2025

Mahindra & Mahindra Limited and Jongsong Investments Pte Limited (Temasek) have executed a binding agreement with Temasek. In FY 2025, Temasek have invested Rs. 90,000 lakhs Series A Compulsorily Convertible Preference Shares.

CCPS is convertible compulsorily and automatically into such number of equity shares determined as per a pre-determined formula at the conversion date, as per terms and conditions of the agreement(s) entered between the Company, BII and Temasek. Since the CCPS is convertible into variable number of equity shares of MEAL, it has been classified as financial liability at fair value through profit or loss in the financial statements of the Company. The fair value of CCPS issued as at 31 March 2025 is Rs. 3,05,640 lakhs (2024: Rs 1,50,000 lakhs).

37 Contingent liability and Commitment

(a) There are no contingent liability as on 31 March 2025.

(b) The estimated amount of contracts remaining to be executed on capital account and not provided for as at 31 March 2025 is Rs. 1,06,942.89 lakhs (2024: 1,98,104.19 lakhs)

38 Segment reporting

The Company currently operates in a single reportable segment of four wheeler electric passenger vehicles. Consequently, the requirement for a separate disclosure under Ind AS 108 - "Operating Segments" is not applicable. For geographical disclosure of revenue refer note 23. All non current assets are located in India.

39 Leases

The Company has taken on lease vehicles during the period for its operation. Leases of motor vehicles generally have lease terms between 2 and 5 years.

In accordance with the requirements under Ind AS 116, Leases, the Company has recognized the lease liability and ROU assets at the present value of the future lease payments discounted at the incremental borrowing rate prevailing during the period.

The movement in carrying value of Right of Use assets during the period ended 31 March 2025 is provided in Note 4.

The following is the movement in lease liabilities during the period ended 31 March 2025

INDEPENDENT AUDITOR'S REPORT

To the Members of NBS International Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of NBS International Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Change in Equity and the Statement of Cash Flows for the year then ended and notes to the financial statements, including summary of material accounting policies and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our Report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Financial Statements and Auditor's report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements, that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether

the Company has adequate internal financial controls with reference to the financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
    b) In our opinion, proper books of account as required by law have been kept by the Company so far, it appears from our examination of those books except for the matters stated in paragraph 3(f) below on reporting under Rule 11(g).
    c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Change in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
    d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
    e) On the basis of written representations received from the directors as on 31 March 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025, from being appointed as a director in terms of Section 164(2) of the Act.
    f) With respect to the adequacy of the internal financial controls with reference to the financial statements and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
    g) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2 (b) above on the reporting under Section 143(3)(b) and paragraph 3(f) below on reporting under Rule 11(g).
3. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
    a) The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note 30 to the financial statements.
    b) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
    c) There were no amounts required to be transferred to the Investor Education and Protection Fund by the Company.
    d) (i) The management has represented that, to the best of it's knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

        (ii) The management has represented, that, to the best of it's knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(iii) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.

e) The Company has not declared or paid any dividend during the year and has not proposed final dividend for the year.

f) Based on our examination which includes test checks, the Company has used an accounting software for maintaining its books of accounts which has feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in software except that the audit trail was not enabled at the database level to log any direct data changes for such accounting software used for maintaining the books of account during the period 1 April 2024 to 3 July 2024. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

4. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the Company has not paid or provided remuneration to its directors during the year. Accordingly, compliance with the provision of Section 197(16) read with schedule V of the Act is not required.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS OF NBS INTERNATIONAL LIMITED FOR THE YEAR ENDED 31 MARCH 2025

(Referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date)

1) (a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of its Property, Plant and Equipment and relevant details of Right of Use Assets.

(B) The Company has maintained proper records showing full particulars of its Intangible assets.

(b) According to information and explanations given to us, and on the basis of our examination of the records of the Company, the Company has a regular program of physical verification of its Property, Plant and Equipment (including Right of Use Assets) so as to cover all the assets once every three years, which in our opinion, is reasonable having regard to size of the Company and nature of its assets. In accordance with this programme, Property, Plant and Equipment were physically verified by the management during the year and no material discrepancies were noticed on such verification.

(c) According to information and explanations given to us, and on the basis of our examination of the records of the Company, the Company does not have any immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, reporting under clause 3(i)(c) of the Order is not applicable.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use Assets) and Intangible assets during the year.

(e) According to information and explanations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the "Benami Transactions (Prohibition) Act, 1988 (45 of 1988)" and Rules made thereunder.

2) (a) According to information and explanations given to us, the inventory has been physically verified by the management at reasonable intervals during the year and in our opinion the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in aggregate for each class of inventory were noticed on such verification by the Management.

(b) The Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point of time during the year. Accordingly, the provision of clause 3(ii)(b) of the Order is not applicable to the Company.

3) According to information and explanations given to us, the Company has not made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, reporting under clause 3(iii) of the Order are not applicable.

4) According to information and explanations given to us, the Company has not granted any loan, secured or unsecured, or provided any guarantee or security to the parties covered under section 185 of the Act during the year. With respect to investments provision of Section 186 of the Act have been complied with.

5) According to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits. Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.

6) According to the information and explanations given to us, the requirement for maintenance of cost records specified by the Central Government under Section 148(1) of the Act is not applicable to the Company during the year.

7) (a) According to the information and the explanations given to us, the Company has been regular in depositing undisputed statutory dues including Goods and Services Tax, provident fund, employees' state insurance, income tax, sales tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues with the appropriate authorities. No undisputed amounts payable in respect of aforesaid statutory dues were outstanding as on the last day of the financial year for a period of more than six months from the date they became payable.

(b) According to information and explanations given to us, and record of the Company examined by us, there were no statutory dues referred to in sub-clause (a) that have not been deposited on account of any dispute except following:

Name of the Statue	Nature of dues	Amount* (Rs. in lakhs)	Period to which the amounts relate	Forum where dispute is pending
Income Tax Act, 1961	Income tax	93.43	FY 2011-2012	Commissioner of Income tax (Appeals)

* net of amount paid under protest Rs. 50.00 lakhs

8) According to information and explanations given to us and on the basis of our examination of the records of the Company, no transactions which have not been recorded in the books of accounts, were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

9) (a) According to information and explanations given to us, the Company has not defaulted in repayment of dues to any lender. Accordingly, reporting under clause 3(ix)(a) of the Order is not applicable.

(b) According to information and explanations given to us, the Company is not a declared willful defaulter by any bank or financial institution or other lender.

(c) According to information and explanations given to us, the Company has not obtained any term loan and there are no unutilised term loans at the beginning of the year. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable.

(d) According to information and explanations given to us, and overall examination of the financial statements of the Company, we report that no funds raised on short term basis have been used for long term purposes by the Company.

(e) According to information and explanations given to us, the Company did not have any subsidiary or associate or joint venture during the year. Accordingly, reporting under clause 3(ix)(e) and 3(ix)(f) of the Order are not applicable.

10) (a) According to the information and explanations given to us, the Company has not raised moneys by way of public offer (including debt instruments) during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable.

(b) According to information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable.

11) (a) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanation given to us, we report that no fraud by the Company or on the Company has been noticed or reported during the year.

(b) According to information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed in Form ADT- 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules 2014 with the Central Government, during the year and upto the date of this report.

(c) As represented to us by the management, there were no whistle blower complaints received by the Company during the year.

12) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, reporting under clause 3(xii) of the Order is not applicable.

13) According to the information and explanations given to us, in our opinion, transactions with related parties are in compliance with Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.

14) (a) In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports of the Company for the period under audit.

15) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with them during the year. Accordingly, provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company.

16) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934). Accordingly, reporting under clause 3(xvi)(a) of the Order is not applicable.

(b) According to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities.

(c) According to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India.

(d) According to the information and explanations given to us, the Group has 4 CICs.

17) According to the information and explanations given to us, the Company has not incurred any cash losses in the financial year covered by our audit and in the immediately preceding financial year.

18) There has been no resignation of the statutory auditors during the year. Accordingly reporting under clause 3(xviii) of the Order is not applicable.

19) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

20) According to the information and explanations given to us, the Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there is no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Act or special account in compliance with the provision of Section 135(6) of the Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS OF NBS INTERNATIONAL LIMITED FOR THE YEAR ENDED 31 MARCH 2025

(Referred to in paragraph 2(f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of NBS International Limited ("the Company") as of 31 March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal financial controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Notes to the financial statements for the year ended 31 March 2025

1. A) **General Information:**

NBS International Limited ('the Company'), is a wholly owned subsidiary of Mahindra & Mahindra Limited having its registered office at Mumbai. The Company is engaged in the business of sales & servicing of motor vehicles.

2. **Material Accounting Policies**

a) **Statement of compliance**

The financial statements of the Company have been prepared in accordance with and in compliance, in all material aspects, with the Indian Accounting Standards (Ind AS) (i.e the Companies (Indian Accounting Standards) Rules, 2015 as amended) notified under the section 133 of the Companies Act, 2013 (the Act) and other relevant provisions of the Act.

These financial statements of the Company for the year ended 31 March 2025 were approved by the Company's Board of Directors and authorised for issue on 17 April 2025.

b) **Basis of preparation and presentation**

The financial statements have been prepared on accrual and going concern basis in accordance with historical cost convention, except for certain financial instruments and defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The accounting policies are applied consistently to all the periods presented in the financial statements.

All assets and liabilities have been classified as current or non-current as per the Companies normal operating cycle and other criteria set out in the Division II of Schedule III of the Act. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when:

— It is expected to be realised or intended to be sold or consumed in normal operating cycle
— It is held primarily for the purpose of trading
— It is expected to be realised within twelve months after the reporting period, or
— It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

— It is expected to be settled in normal operating cycle; or
— It is held primarily for the purpose of trading; or
— It is due to be settled within twelve months after the reporting period; or
— There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The financial statements are presented in Indian Rupees (Rs.) which is also the Company's functional currency. All values are rounded to the nearest lakhs (and decimal thereof), unless otherwise indicated.

c) **Measurement of fair value**

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedures with respect to the measurement of fair values.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

— Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
— Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
— Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

d) **Use of estimates and judgements.**

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

In the process of applying the Company's accounting policies, management has made the following judgements, estimates and assumptions which have significant risk of causing a material adjustment to the carrying amounts recognised in the financial statements:

(i) Useful lives of property, plant and equipment and intangible assets

The Company reviews the useful lives of property, plant and equipment and intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation expense in future periods.

(ii) Provision for doubtful trade receivables

The Company is not significantly exposed to credit risk. At present, the Company provides for credit loss/ doubtful receivables as required under Ind AS 109 'Financial Instrument' on the basis of ageing of receivables and judgement about recoverability of amount on evaluation of individual receivables.

(iii) Deferred tax assets

Deferred tax assets are recognised to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets in respect of carry forward of unused tax losses or unused tax credit have been recognised to the extent of available taxable temporary differences.

(iv) Defined benefit plans

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increase and mortality rates, etc. Due to complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to change in these assumptions. All assumptions are assumed at each reporting date.

e) **Material accounting policies**

1. **Property, plant & equipment and intangibles**

Property, plant & equipment and intangible assets are carried at cost of acquisition or construction less accumulated depreciation/ amortisation and accumulated impairment losses, if any. Cost includes the purchase price (including duties & non-refundable taxes) borrowing cost, any directly attributable cost of bringing the asset to its working condition and location for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Depreciation/amortisation is provided on straight-line basis so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful life, except assets costing less than or equal to Rs. 5,000 which are depreciated fully in the year of purchase.

The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis. The management's estimate of useful lives is in accordance with Schedule II of the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:

	Asset Class	Useful lives
(i)	Certain items of plant and machinery	1 - 15 years
(ii)	Office equipment	1 - 5 years
(iii)	Vehicles	5 years
(iii)	Intangibles – computer software	5 years
(iv)	Furniture & Fixtures	1 - 5 years

Leasehold Improvements are amortized over the period of lease or estimated period of useful life of such improvement, whichever is lower.

When an asset is scrapped or otherwise disposed off the cost and relevant accumulated depreciation are removed from the books of accounts and resultant profit or loss, if any, is reflected in statement of profit and loss.

2. Impairment of assets

At the end of each reporting period, the management reviews the carrying amounts of its property, plant & equipment and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the management estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

3. Inventories

Inventories are measured at the lower of cost or net realisable value. The cost of inventory comprise of all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Finished goods (vehicles) cost is determined using specific identification of cost. Spare parts & accessories cost is determined using weighted average cost formula.

4. Revenue from contract with customer

The Company derives revenues primarily from sale and servicing of motor vehicles.

Ind AS 115 "Revenue from Contracts with Customers" provides a control-based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

- Identify the contract(s) with a customer;
- Identify the performance obligations;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations; and
- Recognise revenue when or as an entity satisfies performance obligation.

Revenue from contract with customer is recognised when control of the goods or services are transferred to the customer at an amount that reflect the consideration to which the Company expects to be entitled in exchange of the goods and services. Revenue excludes amount collected on behalf of the third parties. Revenue is net of discounts, duties and GST. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

Sales of goods:

The Company recognizes revenue from sale of goods measured at the fair value of the consideration received or receivable, upon satisfaction of performance obligation which is at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods.

Sale of services:

Service income is recognized as per the terms of the contract on satisfaction of performance obligation towards rendering of such services.

Interest income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

5. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116 and this may require significant judgment. The Company also uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend or terminate the lease if the Company is reasonably certain based on relevant facts and circumstances that the option to extend or terminate will be exercised. If there is a change in facts and circumstances, the expected lease term is revised accordingly.

The discount rate is generally based on the interest rate specific to the lease being evaluated or if that cannot be easily determined the incremental borrowing rate for similar term is used.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The Company as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and restoration cost, less any lease incentives received.

The right-of-use assets are subsequently depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. In addition, the right-of-use asset is reduced by impairment losses, if any.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. When a lease liability is remeasured, the corresponding adjustment of the lease liability is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

6. **Employee Benefits**

Short term employee benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present obligation and the amount can be estimated reliably.

Defined contribution plans – Provident fund, ESIC and Labour welfare fund

The Company's contribution paid/payable during the year to Provident fund, ESIC and Labour welfare fund are recognised in profit or loss.

Defined benefit plan - Gratuity

Company's liability towards gratuity is determined by independent actuaries, using the projected unit credit method. Past services are recognised at the earlier of the plan amendment/curtailment and the recognition of related restructuring costs/termination benefits. Remeasurement of defined benefit plans, comprising of actuarial gains or losses are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Long - term compensated absences

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of expected future payments to be made in respect of services provided by employees up the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

7. **Taxation**

Tax expense for the period comprise of current and deferred tax. Tax expense is recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(i) **Current Tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) **Deferred Tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

8. **Segment**

Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole. The Company's business activity primarily falls within a single business segment, i.e., Automative as primarily segment. There is no geographical segment, thus there are no additional disclosures to be provided under Ind AS 108 - "Operating Segments". There have been no other reportable segments identified by chief operating decision makers.

f) **Standards issued but not yet effective**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable w.e.f. 01 April 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have ahy significant impact in its financial statements.

Staff welfare expenses	**50.49**	65.62
Total	**1,856.93**	1,679.27

(a) Defined contribution plan

The Company's contribution to provident fund aggregating Rs.76.88 lakhs (31 March 2024 : Rs.72.88 lakhs) has been recognised in the statement of profit or loss under the head employee benefits expense.

(b) Defined benefit plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The gratuity benefits payable to the employees are based on the employee's service and last drawn salary at the time of leaving. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the Company. There are no minimum funding requirements for a gratuity plan and the Company has chosen not to fund the gratuity liabilities. A provision based on actuarial valuation as at year end using projected unit credit method is accounted. The only regulatory framework which applies to such plans is if the Company is covered by the Payment of Gratuity Act, 1972 then the Company is bound to pay the statutory minimum gratuity as prescribed under this Act. The plan is of defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the Company that any adverse salary growth or demographic experience can result in an increase cost of providing these benefits to employees in future. Since the benefits are lumpsum in nature the plan is not subject to any longevity risks.

Defined benefit plans – as per actuarial valuation as at year end

Note No. 27 - Financial instruments

a) Capital management

The Company's capital management strategy is to effectively determine, raise and deploy capital so as to create value for its shareholders. The same is done through a mix of equity and debt as may be appropriate. The Company ensure adequate capital at all time and manage its capital so as to safeguard its ability to continue as a going concern and optimise return to its shareholders.

The Board of Directors monitors the return on capital as well as dividend, to shareholders. The Company will take appropriate steps in order to maintain or if necessary adjust its capital structure.

There is no change in the overall capital risk management strategy of the Company compared to last year. Total capital of the company is as under :

(Currency: Indian Rupees in Lakhs)

c) Financial risk management framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

(i) Market risk

Market risk is the risk that changes in market prices – such as interest rates will affect the entity's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. There has been no significant changes to the entity's exposure to market risk or the methods in which they are managed or measured.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's current debt obligations with floating interest rates.

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for both derivative and non-derivative instruments at the end of reporting period.

(Currency: Indian Rupees in Lakhs)

Particulars	Increase / decrease in basis points	Effect on profit / (loss) for the year
31-Mar-25	**+100**	**(3.00)**
	-100	**3.00**
31-Mar-24	+100	(3.00)
	-100	3.00

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

(iii) Credit risk

The Company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the balance sheet date. The Company continuously monitors defaults of customers and the other counter parties, identified either individually or by Company and incorporates this information into its credit risk controls. The Company's management considers that all the financial assets are not impaired for each of the reporting date under review, are of good credit quality, including those that are past due.

In respect of trade and other receivables, the Company is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Concentration of credit risk to any counterparty did not exceed 10% of gross monetary assets at any time during the year.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses. In respect of financial assets, the maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of financial asset.

Liquidity Risk

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Note No. 28 - Segment information

(a) The Company's business activity falls within a single operating business segment viz. 'Automotive'.

This operating segment is reported in a manner consistent with the internal reporting provided to the Chief Executive Officer of the Company regarded as the Chief Operating Decision Maker ("CODM").

The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segment. The CODM reviews revenue and gross profit as the performance indicator for this segment. All other activities of the Company revolve around this operating segment. Hence there are no separate reportable primary segments. Company deals into trading and servicing of vehicles.

(b) All the non-current assets of the Company are located in India.

(c) Revenue from major products and services

(Currency: Indian Rupees in Lakhs)

Particulars	**As at 31 March 2025**	As at 31 March 2024
Sale & service of vehicles and other operating income	**54,292.76**	47,968.78

(d) Revenues from transactions with a single external customer does not amount to 10% or more of an entity's revenues during the year ended 31 March 2025 and 31 March 2024.

(e) Since there is single segment there is no difference in measurement of profit & loss and measurement of assets and liabilities.

INDEPENDENT AUDITOR'S REPORT

To the members of Mahindra Automotive Australia Pty Ltd

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Mahindra Automotive Australia Pty Ltd (the Company), which comprises the statement of financial position as at 31 March 2025, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, and the directors' declaration.

In our opinion the accompanying financial report of Mahindra Automotive Australia Pty Ltd, is in accordance with the *Corporations Act 2001*, including:

(i) Giving a true and fair view of the Company's financial position as at 31 March 2025 and of its financial performance for the year ended on that date; and

(ii) Complying with Australian Accounting Standards – Simplified Disclosures and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's *responsibilities for the audit of the Financial Report* section of our report. We are independent of the Company in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The directors are responsible for the other information. The other information obtained at the date of this auditor's report is information included in the Directors' report, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards – Simplified Disclosures and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (http://www.auasb.gov.au/Home.aspx) at:
http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf

This description forms part of our auditor's report.

BDO Audit Pty Ltd

Randall Bryson
Director
Brisbane, 15 April 2025

DIRECTORS' DECLARATION FOR 31 MARCH 2025

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Australian Accounting Standards - Simplified Disclosures, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the company's financial position as at 31 March 2025 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

Sachin Arolkar
Director

India, 15th April, 2025

Ashutosh Vidwans
Director

India, 15th April, 2025

AUDITOR'S INDEPENDENCE DECLARATION 31 MARCH 2025

DECLARATION OF INDEPENDENCE BY RANDALL BRYSON TO THE DIRECTORS OF MAHINDRA AUTOMOTIVE AUSTRALIA PTY LTD

As lead auditor of Mahindra Automotive Australia Pty Ltd for the year ended 31 March 2025, I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Mahindra Automotive Australia Pty Ltd and the entities it controlled during the period.

The above statement of cash flows should be read in conjunction with the accompanying notes.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

Note 1. Material accounting policy information

The accounting policies that are material to the company are set out below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

Mahindra Automotive Australia Pty Ltd (the company) has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with the Australian Accounting Standards - Simplified Disclosures issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities.

The company does not have 'public accountability' as defined in AASB 1053 *Application of Tiers of Australian Accounting Standards* and is therefore eligible to apply the 'Tier 2' reporting framework under Australian Accounting Standards.

Revenue recognition

The company recognises revenue as follows:

(i) <u>**Sale of goods**</u>

Revenue from the sale of agricultural equipment, motor vehicles, parts, and accessories are recognised at the point in time when control of the goods transfers to the customer. This typically occurs when the invoice is raised, and payment is received. Physical delivery of the goods may occur subsequent to invoicing; however, this does not impact the timing of revenue recognition, as control is considered to have passed upon settlement and title transfer.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

All other revenue is recognised in accordance with AASB 15 Revenue from contracts with customers (AASB 15), when performance obligation is satisfied and control is transferred. All revenue is stated net of the amount of goods and services tax (GST).

Trade and other receivables

The average credit period on sales of goods is 60 days. No interest is charged on outstanding trade receivables.

The company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Inventories

New vehicles

New vehicles are valued at the lower of cost and net realisable value on a unit by unit basis.

Spare parts and accessories

Vehicle spare parts and accessories and agriculture equipment are valued at the lower of cost and net realisable value.

Costs for vehicles comprises of purchase and delivery costs, net of rebates and discounts received or receivable.

Stock in transit is stated at the lower of cost and net realisable value. Cost comprises of purchase and delivery costs, net of rebates and discounts received or receivable.

Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment.

Depreciation is calculated on a straight-line or diminishing value basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Plant and equipment	10-20%
Computer equipment	20-40%
Furniture and fittings	10-20%
Motor vehicles	20-30%

Leasehold improvements are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

Right-of-use assets

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the company expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life.

The company has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss on a straight line basis.

Trade and other payables

The amounts are unsecured and are usually paid within 30 days of recognition, except for related party payables which are on terms of between 60 and 180 days.

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Loans and borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount and any consideration paid is recognised in profit or loss.

Lease liabilities

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Provisions

Provisions are recognised when the company has a present (legal or constructive) obligation as a result of a past event, it is probable the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

Revenue from contracts with customers involving sale of goods

When recognising revenue in relation to the sale of goods to customers, the key performance obligation of the company is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

Net realisable value of inventories

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The level of the provision is assessed by taking into account the recent sales experience, the ageing of inventories and other factors that affect inventory obsolescence.

Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the company's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The company reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

Warranty provision

In determining the level of provision required for warranties the company has made judgements in respect of the expected performance of the vehicles, the number of customers who will actually claim under the warranty and how often, and the costs of fulfilling the conditions of the warranty. The provision is based on estimates made from historical warranty data associated with similar products and services.

Note 3. Revenue

	2025 $	2024 $
Revenue from contracts with customers		
New vehicle sales	**134,328,377**	123,902,856

	27,450	18,204
	1,086,348	1,047,039

Note 11. Property, plant and equipment (continued)

Reconciliations

Reconciliations of the written down values at the beginning and end of the current financial year are set out below:

	Plant and equipment $	Furniture and fittings $	Motor Vehicles $	Computer equipment $	Total $
Balance at 1 April 2024	98,621	428,960	501,254	18,204	1,047,039
Additions	75,491	138,435	67,959	21,595	303,480
Depreciation expense	(42,499)	(77,527)	(131,796)	(12,349)	(264,171)
Balance at 31 March 2025	131,613	489,868	437,417	27,450	1,086,348

Note 12. Right-of-use assets

	2025 $	2024 $
Non-current assets		
Land and buildings - right-of-use	**2,960,755**	2,960,755
Less: Accumulated depreciation	**(894,119)**	(257,182)
	2,066,636	2,703,573
Plant and equipment - right-of-use	**53,137**	53,137
Less: Accumulated depreciation	**(35,082)**	(25,297)
	18,055	27,840
	2,084,691	2,731,413

The company leases property, plant and equipment under agreements of between 5 to 10 years with, in some cases, options to extend. The leases have various escalation clauses. On renewal, the terms of the leases are renegotiated.

Reconciliations

Reconciliations of the written down values at the beginning and end of the current financial year are set out below:

	Land & Buildings $	Plant & Equipment $	Total $
Balance at 1 April 2024	2,703,573	27,840	2,731,413
Depreciation expense	(636,937)	(9,785)	(646,722)
Balance at 31 March 2025	**2,066,636**	**18,055**	**2,084,691**

Note 13. Trade and other payables

	2025 $	2024 $
Current liabilities		
Trade payables	**61,615,124**	51,434,234
Accrued expenses	**1,204,096**	1,706,574

	64,232,560	54,048,845

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

Note 14. Borrowings

	2025 $	2024 $
Current liabilities		
Bank loans	**3,000,000**	3,000,000

Bank loan

(i) The bank loan is a short term loan provided to the company under an uncommitted trade advance facility agreement. The current term of the loan is 74 days and will expire on 13 May 2025. The loan is not secured and the variable interest rate is 6.066%, interest is charged daily.

There have been no breaches of terms or default of principal, interest, sinking fund or redemption terms during the current or prior reporting periods.

Note 15. Lease liabilities

	2025 $	2024 $
Current liabilities		
Lease liability	**613,321**	610,192
Non-current liabilities		
Lease liability	**1,534,371**	2,163,154
	2,147,692	2,773,346
Future lease payments		
Future lease payments are due as follows:		
Not later than one year	**749,083**	700,623
Later than one and not later than five years	**1,717,322**	2,467,726
	2,466,405	3,168,349

Significant leasing arrangements

Lease liabilities are secured by the assets leased and represent the discounted future rentals payable by the company. Leased assets include property, plant and equipment. These leases are negotiated for an average term of 10 years and are fixed for an average of 5 years with an option to extend for a further 5 years at the then prevailing market rate.

Note 16. Provisions

	2025 $	2024 $
Current liabilities		
Annual leave	**215,426**	204,768
Lease make good	**–**	365,345
Warranties	**227,618**	580,799
Dealer support - Registration and third party insurance	**2,178,492**	2,471,793
Other	**2,138,287**	748,304
	4,759,823	4,371,009
Non-current liabilities		
Long service leave	**151,519**	131,525
	4,911,342	4,502,534

Lease make good

The provision represents the present value of the estimated costs to make good the premises leased by the company at the end of the respective lease terms.

Dealer support

The provision represents the present value of the estimated costs that will be incurred with respect to supporting the dealers as per the current dealer agreements. This provision covers a reimbursement to the dealers of registration and third party insurance costs, the estimated costs of signage to be installed at the dealers premises and other general incentives estimated to be payable to the dealers. Each dealer support provision is estimated based on current stock held with the dealers at the end of the period.

Warranties

The provision represents the estimated warranty claims that are not covered by the ultimate parent company in respect of vehicles sold which are still under warranty at the reporting date. The provision is estimated based on historical warranty claim information, sales levels and any recent trends that may suggest future claims could differ from historical amounts.

Movements in provisions

Movements in each class of provision during the current financial year, other than employee benefits, are set out below:

2025	Lease make good $	Warranties $	Dealer support-registration $	Other $
Carrying amount at the start of the year	365,345	580,799	2,471,793	748,304
Additional provisions recognised	–	460,207	12,807,102	9,136,907
Amounts used	(365,345)	(813,388)	(13,100,403)	(7,746,924)
Carrying amount at the end of the year	–	227,618	2,178,492	2,138,287

Note 17. Issued capital

	2025 Shares	2024 Shares	2025 $	2024 $
Ordinary shares - fully paid	4,575,000	4,575,000	4,575,000	4,575,000

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

Note 18. Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Note 19. Key management personnel disclosures

Compensation

The aggregate compensation made to members of key management personnel of the company is set out below:

	2025 $	2024 $
Aggregate compensation	**477,681**	383,014

In addition to this other directors and key management of the entity are paid compensation at ultimate parent level.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

Note 20. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by BDO Audit Pty Ltd, the auditor of the company, and its network firms:

	2025	2024
	$	$
Audit services - BDO Audit Pty Ltd		
Audit of the financial statements	**65,000**	59,840
Other services - BDO Services Pty Ltd		
Preparation of the financial statements and tax return	**12,500**	10,400
Other accounting and advisory work	**1,500**	1,200
	14,000	11,600

Note 21. Contingent assets

At 31 March 2025, the company has no contingent assets (2024: $Nil).

Note 22. Contingent liabilities

In the opinion of the directors, the company did not have any contingent liabilities at 31 March 2025 (2024: $Nil).

THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS AT 31 MARCH 2025

PURSUANT TO ARTICLE 14 OF LEGISLATIVE DECREE 39/2010

TO THE SHAREHOLDER OF MAHINDRA EUROPE S.R.L.

Report on the audit of the financial statements

Opinion

We have audited the accompanying Financial Statements of Mahindra Europe S.r.l. ("the Company"), which comprises the Balance Sheet as at March 31st, 2025, and the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended.

In our opinion, the annual Financial Statements at 31 March 2025 comply with the provisions which discipline the criteria for the drafting of the same; they have been drawn up clearly and give a true and correct representation of the Company's equity and financial situation and economic result.

Basis of opinion

We carried out the audit in accordance with international auditing standards (ISA Italy). Our responsibilities under these standards are further described in the Responsibilities of the independent auditors for auditing the financial statements section of this report. We are independent of the Company in accordance with the rules and principles in matters of ethics and independence applicable in the Italian legal system to the auditing of balance. We believe that we have obtained sufficient appropriate audit evidence upon which to base our opinion.

Disclosure reminders

The automotive market, as set out in Explanatory Note to which reference is made, continues to experience significant change linked to European legislation that continues to favour engines that use renewable energy over traditional fuels. In this context, the Company had already communicated to the sales network, composed of distributors and dealers, the termination of commercial relationships with 24 months' notice that expired last year. The Company justified this decision with the need to change its business model in relation to the changed market conditions, favouring the large fleet and rental segment. From the information collected, the Company will continue to support customer needs as required by European and national legislation. We believe that, through adequate support from the Shareholder, it is possible to maintain the assumption of business continuity even in this particular moment of transition.

Responsibility of the Directors and of the Statutory auditor for the financial statements

The Directors are responsible for preparing the financial statements that provide a true and fair view in compliance with the Italian regulations governing the accounting criteria, preparation and, within the terms established by law, for that part of the internal control they deem necessary to enable the preparation of financial statements that do not contain material errors due to fraud or unintentional behaviour or events. The Directors are responsible for assessing the Company's ability to continue operate as a going concern and, in preparing the financial statements, for the appropriateness of the use of the going concern assumption, as well as for an adequate information on the subject. The Directors use the going concern assumption in preparing the financial statements unless they have assessed that the conditions exist for the liquidation of the Company or for the interruption of the activity or they have no realistic alternatives to such choices.

The Statutory auditor is responsible for supervising, within the terms established by law, the process of preparing the Company's financial information.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to acquire reasonable assurance that the financial statements as a whole do not contain significant errors, due to fraud or unintentional behaviour or events, and to issue an audit report that includes our opinion. Reasonable certainty means a high level of certainty which, however, does not provide the guarantee that an audit carried out in accordance with international auditing standards (ISA Italy) will always identify a significant error, if any. Errors may derive from fraud or from unintentional behaviour or events and are considered significant if it can reasonably be expected that they, individually or as a whole, are able to influence the economic decisions taken by users on the basis of the financial statements. As part of the audit performed in accordance with international auditing standards (ISA Italy), we exercised professional judgment and maintained professional skepticism throughout the duration of the audit. Furthermore,

- we have identified and assessed the risks of significant errors in the financial statements, due to fraud or unintentional behaviour or events; we have designed and performed audit procedures in response to these risks; we have obtained sufficient appropriate audit evidence on which to base our opinion. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting a material misstatement resulting from unintentional behaviour or events, as fraud may involve the existence of collusion, forgery, intentional omissions, misrepresentations or overrides of internal control;
- we have acquired an understanding of the internal control relevant for the purposes of the audit in order to define appropriate audit procedures in the circumstances and not to express an opinion on the effectiveness of the Company's internal control;

- we have reached a conclusion on the appropriateness of the use by the directors of the going concern assumption and, based on the audit evidence obtained, on the possible existence of a significant uncertainty regarding events or circumstances that may give rise to significant doubts on the ability of the Company to continue to operate as a going concern. In the presence of a material uncertainty, we are required to draw attention in the audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to reflect this circumstance in the formulation of our opinion. Our conclusions are based on the audit evidence obtained up to the date of this report. However, subsequent events or circumstances may cause the Company to cease to operate as a going concern;
- we have evaluated the presentation, structure and content of the financial statements as a whole, including the information, and whether the financial statements represent the underlying transactions and events in order to provide a correct representation.

We have communicated to those charged with governance, identified at an appropriate level as required by the Italy ISAs, among other matters, the planned scope and timing of the audit and significant findings, including any significant deficiencies in internal control identified in the course of the audit.

Report on other laws and regulations

Judgment pursuant to art. 14, paragraph 2, letter e), of Legislative Decree 39/2010

The Directors of Mahindra Europe S.r.l. are responsible for preparing the management report of Mahindra Europe S.r.l. as at 31 March 2025, including its consistency with the related financial statements and its compliance with the law. We have carried out the procedures indicated in the auditing standard (SA Italia) n° 720B in order to express an opinion on the consistency of the management report with the financial statements of Mahindra Europe S.r.l. as at 31 March 2025 and on its compliance with the law, as well as to issue a statement on any material misstatements.

In our opinion, the management report is consistent with the financial statements of Mahindra Europe S.r.l. as at 31 March 2025 and is drawn up in compliance with the law. With reference to the declaration referred to in Article 14, paragraph 2, letter e), of Legislative Decree 39/2010, issued on the basis of the knowledge and understanding of the company and the related context acquired during the auditing activity, we have nothing to report.

"EURO amounts are translated for convenience into Indian Rupees at the exchange rate of Rs 92.655 = Euro 1 which is the average of the telegraphic transfer buying and selling rates quoted by the Mumbai Branch of State Bank of India on 31st March 2025".

A lakh is a unit in the Indian numbering system equal to one hundred thousand (100.000).

This Financial Statement is in agreement with results of accountant records.

For The Board of Directors:

Sachin Arolkar

Mumbai, 15th April 2025 *Chairman*

Notes to the financial statements at 31/03/2025

Indian Rupees at the exchange rate of INR 92,655 = Eur 1

A lakh is a unit in the Indian numeric system equivalent to one hundred thousand (100.000).

Introduction

Dear Quotaholder,

The financial statements for the fiscal year ended 31/03/2025 is submitted for your verification and approval. The fiscal year FY2025 ended with a profit equal to Euro 5.056 / INR 4,68 Lakhs, after income taxes of Euro 32.783/INR 30,38 and amortization and depreciation for a total of Euro 24.503 / INR 22,70.

Area of Business

Mahindra Europe Srl carries out its activities in the sector of distribution of motor vehicles and spare parts, as official importer of Mahindra vehicles in the European markets like Italy, Spain, & other Eastern Europe countries.

Major events occurred during the company's fiscal year

The significant events that occurred during the year are as follows:

The Company has renewed the necessary type-approval extensions with related waivers from the Ministry of Transport for its range of vehicle KUV100, in line with the requirements of the applicable regulations. The Company obtained the renewal of the existing credit line with Bank of America Merrill Lynch and closed the credit line with Intesa San Paolo Bank. The credit line is mainly used to finance the import of goods from India. The credit line is settled at market conditions and guarantee the Company adequate financial resources to run its business. During the financial year, the Company managed trade credit through the factoring company Ifitalia of the BNP Paribas Group.

The Company received a tax audit by the Tax Authority (Guardia di Finanza) which closed on 11th November, 2022. The PVC drawn up by the audit body contained a single finding relating to the dispute over the methodology adopted by the company for transfer prices. This dispute to increase tax base for FY19 by € 548,445.

During the financial year, The Company contested the notice from Tax agency with support from Deloitte who had prepared the transfer pricing document. During the current financial year company settled with the tax agency by paying additional taxes & interest on a revised tax base of € 449,420.

The automotive market continues to experience a significant change linked to European regulations that continue to favour vehicles using renewable energy sources over traditional fuels. The available analyses, prepared by the major trade associations, have not yet identified a unanimous customer preference, despite a clear orientation of the European Commission.

In February 2022, the Board of Directors had approved the re-evaluation and restructuring of Mahindra Europe's European business model for a period of 2 years, in response to the changing market dynamics and changes in customer preferences. According to the prevailing market practice in Europe, Mahindra Europe had given a 2-year notice to dealers/distributors for the termination of the existing relationship.

At the end of the notice period, in April 2024, Mahindra Europe entered into new agreements with the network for the resale of spare parts and after-sales assistance, which are still active.

The sale of vehicles continued during the fiscal year ended 31/03/2025 through transactional agreements for fleet deals with rental companies and car re-sellers.

Mahindra Europe will further restructure its operations for continuing to provide high-quality service and parts support through a network of authorized service centres. This initiative is part of our broader commitment to uphold and enhance customer satisfaction and support, even as we evolve our business strategies.

Currently, the activities in progress are concentrated on assistance activities for the After sales network and customers and also through the distribution of spare parts. In this context, it is believed that the assumptions of business continuity still exist.

Layout criteria

The criteria adopted for the preparation of the financial statements at 31/03/2025 take into account the changes introduced into Italian legislation by legislative decree 139/2015, through which EU Directive 2013/34 was implemented. As a result Legislative decree 139/2015 amended the Italian accounting principles issued by the Italian Accounting Body OIC (Organismo Italiano di Contabilità).

The financial statements have been drawn up in accordance with arts. 2423 of the Italian Civil Code, as appears from these Notes, which have been prepared pursuant to art. 2427 of the Italian Civil Code and are an integral part of the financial statements within the meaning and for the purposes of art. 2423.

Financial statement figures are expressed in whole Euro and INR/Lakhs by rounding off the relevant amounts to the nearest whole number. Any rounding-off differences were recorded under the item "INR/Lakhs Rounding-off reserve" included among the Shareholders' equity. Pursuant to article 2423(6) of the Italian civil code, the notes were drawn up in units of thousands of Euro and INR/Lakhs/ (in whole Euro and INR/Lakhs).

The explanatory note presents the information of the balance sheet and income statement items in the order in which the related items are indicated in the respective financial statements.

Valuation criteria

(article 2427(1)(1) of the Civil Code, OIC 12)

The Financial Statements submitted to you is drawn up in abbreviated form as the requirements of art. 2435 bis, 1st paragraph. In order to provide, however, broader and more comprehensive information on the progress of the company stakeholders, in the area in which it operates, it was deemed appropriate to accompany it with the Directos' Report.

The valuation of the items in the financial statements was made based on general criteria of prudence and competence, on going-concern basis.

The application of the prudence principle involved the individual valuation of the elements making up the individual items or items of the assets or liabilities, to avoid offsetting between losses that should have been recognized and profits that should not be recognized as unrealized.

In compliance with the accrual principle, the effect of transactions and other events has been recognized and attributed to the year to which these transactions and events refer, and not to the year in which the related cash movements take place (collections and payments).

In application of the principle of relevance, the obligations regarding recognition, evaluation, presentation and disclosure were not respected when their observance had irrelevant effects in order to give a true and correct representation.

The consistent application of accounting principles over time ensures the comparability of the company's financial statements drawn up in different fiscal years.

The recognition and presentation of the balance sheet items was made taking into account the substance of the transaction or contract.

The Company has not made use of the right to exempt from the ordinary rules relating to business continuity.

Exceptional cases pursuant to art. 2423, fifth paragraph, of the Civil Code

(article 2423 (5) of the Civil Code)

There have been no exceptional cases that have made it necessary to resort to exceptions pursuant to art. 2423 paragraph 5 of the Civil Code.

Changes in accounting principles

The Company has not changed the accounting principles.

As regards the application of the national accounting standards OIC 15 (credits) and OIC 19 (debts), relatively the application of the amortized cost criterion and the discounting of the expected cash flow of the correspondent nominal value of the credit / debit, the company makes use of the relevant presumptions of irrelevance for credits and debts with a maturity of less than twelve months, the effects being irrelevant with respect to the results that would be obtained with the pre-reform criteria, since the sale and purchase transactions are negotiated with deferred payments at market rates and with a negligible amount of transaction costs.

Problems of comparability and adaptation

The evaluation criteria adopted in the preparation of the financial statements closed on 31/03/2025 were the same used for the preparation of the financial statements for the previous fiscal year, therefore it was not necessary to calculate the previous cumulative effect of the change in principle.

Appraisal criteria applied

(Ref. Art. 2426, first paragraph, Civil Code)

Fixed assets

Intangible assets

These have been recorded at their historical purchase cost net of the relevant yearly amortisation charged to the individual items.

The costs relating to industrial patent rights and intellectual property rights, licenses, concessions and trademarks whose effects regard several different years are depreciated over a period of 5 business years, while the costs for the approval of vehicles are amortized over a period of 3 business years.

Software licenses were recorded in the assets and are amortized over a period of 2 business years.

Improvements to third party assets are amortized with rates depending upon the duration of the contract.

In the event that, regardless of the depreciation booked, a permanent loss of value occurs, the asset is written down accordingly. If in the following years the reasons for the write-down cease to exist, the original value, adjusted by depreciation, is restored.

Tangible assets

These have been recorded at their purchase cost and are adjusted by the relevant accumulated depreciation.

The book value includes any ancillary costs and the costs incurred for the use of the asset, less any trade discounts and any significant cash discounts.

The depreciation charged to profit and loss account has been calculated on the basis of the remaining useful life of the assets, taking into account their use, destination and economic-technical life, which we believe are well reflected by the following rates, unchanged compared to the previous fiscal year and halved in the year in which the asset has entered operation:

Type of Asset	**% Depreciation**
Specific Plants & Equipments	15%
Generic Systems	10%
Electronic Machines	20%
Passenger Vehicles	25%
Commercial Vehicles	20%
Office furniture & equipments	12%
Others	10%

In the event that, regardless of the depreciation booked, a permanent loss of value occurs, the fixed assets are written down accordingly. If in the following years the reasons for the write-down cease to exist, the original value, adjusted by depreciation, is restored.

The company has not made use of the right to suspend the depreciation rates for the 2020 financial year provided for in Article 60, paragraphs 7-bis to 7-quinquies of Law Decree 104/2020.

The company has not made use of the right to revalue tangible fixed assets as required by Article 110 of Law Decree 104/2020 (converted by Law 126/2020).

Finance lease transactions

Finance lease transactions are shown in the financial statements using the net asset method, by charging the lease payments to the profit and loss account on an accrual's basis. The additional information required by the law on the representation of finance lease agreements under the financial method is contained in a specific section of the notes.

The Company did not take advantage of the suspension of the payment of leasing fees as provided for in Article 56, paragraph 2, letter c), of Law Decree no. 18/2020 (converted by law no.27 of 24 April 2020), therefore the Company has not rescheduled the duration of the financial lease.

Accounts receivable

The amortised cost method was not applied since its effects are immaterial for the purpose of giving a true and fair view. Therefore, accounts receivables have been recorded at their presumed realisable value, without prejudice for the possibility to apply time discounting. The adjustment of the nominal value of receivables to the assumed realizable value is obtained through a reserve for bad debts, taking into consideration the general and industrial economic conditions and country risk.

Accounts receivable recorded in the financial statements before the fiscal year starting 1 January 2016 have been recorded at their presumed realisable value since, as provided by accounting principle OIC 15, it was decided not to apply the amortised cost method and time discounting.

The nominal value of the accounts receivable was adjusted to the presumed realisable value by a bad debt reserve, having regard also to any indicators of permanent impairment.

Accounts receivable originally due within one year and subsequently transformed into long-term receivables were recorded in the balance sheet among financial assets.

Accounts receivables are written off when the contractual rights to receive the relevant cash flows have been extinguished or when the risks in connection with the payment of the receivables have been transferred.

Accounts payable

The amortised cost method was not applied since its effects are immaterial for the purpose of giving a true and fair view. Therefore, accounts payable have been recorded at their nominal value, without prejudice for the possibility to apply time discounting.

Accounts payable recorded in the financial statements before the fiscal year starting 1 January 2016 have been recorded at their nominal value since, as provided by accounting principle OIC 19, it was decided not to apply the amortised cost method and time discounting.

Accrued income/liabilities – pre payments / deferred income

These have been determined on an accruals basis.

With regard to accrued income / liabilities and prepayments/deferred income of a duration exceeding one year, we checked the conditions for their original entry and adopted any necessary changes.

Inventory

Raw materials, auxiliary materials and finished products have been recorded at the lower of purchase or manufacturing cost and realisable value as inferred from market trend, applying the weighted average cost method for spare parts and the specific cost method for vehicles.

Production cost includes the direct and indirect costs incurred during production, which are necessary for stocks to be in the current place and conditions.

On 31/03/2025 the company has not goods-in-process and work-in-progress goods.

The value thus obtained is then adjusted by the "provision for stock obsolescence" in order to take into account those goods which are expected to be realised at a value lower than cost.

Any stocks which were written down but in respect of which in subsequent years the reasons for the write-down to their realisation value ceased to exist, were restored to their original value.

Securities

The company does not hold any securities.

Shareholdings

The company does not hold any shareholdings in subsidiary and affiliated.

The shareholdings included among current assets, which do not represent a long-term investment, have been valued at the lower of purchase cost and realisable value as inferred from market trend.

Treasury shares

The company does not hold any treasury shares.

Derivative financial instruments

The company does not hold any derivative financial instruments.

Provisions for contingent liabilities and charges

These provisions are set aside for the coverage of losses or liabilities that are certain or likely to arise, but whose amount or date of occurrence could not be determined at the year-end.

The provisions have been measured on a prudential and accruals basis and no generic funds without economic justification were created.

Any potential liabilities were carried to the financial statements and recorded in the relevant provisions as they were considered likely to arise and their amount could be reasonably estimated.

Provision for employees' leaving indemnity (TFR)

This consists of the amounts actually accrued in favour of the employees pursuant to the law and the current collective bargaining agreements, taking into account any elements of remuneration paid on a continuous basis.

The provision includes the total payments accrued for employees at the year-end net of any advances paid, and assuming termination of their employment relationship at such date.

The provision does not include any amounts accrued starting from 1 January 2007 that have been paid into complementary pension schemes pursuant to legislative decree no. 252 dated 5 December 2005 (or transferred to the special-purpose fund managed by the Italian social security authority - INPS).

Income taxes

The provision for taxes has been set aside on an accruals basis and includes the following:

- accruals in respect of the taxes paid or to be paid for the year, determined at the current rates and in accordance with the rules in force;
- the amount of deferred tax assets or liabilities in respect of temporary differences which arose or were written off in the year;
- any adjustments to the balance of deferred taxes to account for changes in the tax rates occurred/for the introduction of the new tax during the year.

Deferred IRES assets and liabilities are calculated on the temporary differences between the assets and liabilities determined in accordance with civil code principles and the corresponding tax values, solely with regard to the company.

Current IRAP and any deferred IRAP assets and liabilities are determined solely with regard to the company.

Recognition of income

Proceeds from sales are recognised at the time of the transfer of ownership which usually coincides with the delivery or forwarding of the goods;

Financial income and income from the provision of services is recognised on an accruals basis.

Revenue and proceeds, costs and charges related to transactions in foreign currency are determined at the exchange rate in force at the date when the relevant transaction takes place.

Only the accrued portion of the income and costs related to buy/sell-back transactions, including the difference between the spot price and the forward price, is recognised.

Adjustment criteria

The company not applied the adjustment criteria.

Criteria for the translation of accounts in foreign currency

Accounts payable and receivable denominated in foreign currency and recorded at the exchange rates in force on the date of the transaction, are retranslated at the exchange rates ruling at the year-end as determined by Bank of Italy.

In particular, assets and liabilities which constitute assets and liabilities in foreign currency are recorded at the spot exchange rate ruling at the year-end and the relevant exchange gains and losses have been taken to the Profit and Loss Account under item 17bis “Exchange gains and losses”.

Any net gain deriving from the adjustment of the items in foreign currency to the year-end exchange rates is included in the result for the year and, at the time of the financial statements approval and appropriation of the operating result to the legal reserve, the part which is not offset against the loss for the year, if any, is apportioned to a reserve which is not distributable until the gain is realised.

Non-current assets and liabilities in foreign currency are recorded at the exchange rate ruling at the time of purchase.

No significant effects of the changes to the exchange rates occurred between the year-end and the financial statements preparation date. (article 2427(1)(6-bis) of the Civil Code).

Commitments, guarantees and potential liabilities

Commitments, which are not recorded in the balance sheet, consist of obligations assumed by the company vis-à-vis third parties and arising from legal arrangements with mandatory effects but not yet implemented by either party. Commitments include both commitments in respect of which both the relevant execution and amount is known (for instance, on buy/sell-back transactions) and commitments which are definitely going to be executed but whose amount is unknown (for example, agreement with a price adjustment clause). The amount of the commitments is their nominal value as inferred from the relevant documentation.

The company didn't provide guarantees include personal guarantees and collaterals.

The Company has not made use of the right not to charge the depreciation rates for the year 2022 to the income statement, furthermore the Company has not made use of the right to obtain the revaluation of tangible fixed assets.

No review of the useful life of capital assets has been made during the financial year.

Increases and decreases refers to the purchase and sale of company vehicles.

Write-downs and reversals of write-downs made during the year

(article 2427(1)(2) and (3-*bis*) of the Civil Code)

No tangible fixed assets were subject to previous revaluations or devaluations.

Total revaluations of tangible assets at the year-end

(Article 2427(1)(2) of the civil code)

No monetary revaluations has been made.

Contributions toward investments

The company during the year ended 31/03/2025 has not applied for contributions toward investments.

Finance lease transactions

The company has in place one main finance lease agreements. We set out below the information regarding the lease agreements pursuant to article 2427 (1)(22) of the civil code:

- lease agreement no. 00928065/001 dated 09/06/2009;
- term of the agreement 216 months;
- asset industrial building;
- cost of the asset in INR/Lakhs 1.573,56/ Euro 1.698.300;
- initial higher lease payment (maxicanone) of INR/Lakhs 236,03/ Euro 254.745 made on 11/06/2009;

Description	Amount (EUR)

Finished products and goods	6.507	(3.742,73)	2.764,17
Total	**6.507**	**(3.742,73)**	**2.764,17**

Accounting policies have been applied consistently with the prior year as explained in the introduction to these notes.

The adopted assessment does not significantly differ from the one using the current cost approach.

The increase in vehicles in stock is majorly due to sales of the KUV100 model.

The item vehicles in stock refers to cars in storage at the Ariccia headquarters and at the depository company located in Livorno.

There are no commitments contractually undertaken for works and services still to be performed at year end.

The Company has not used its stock obsolescence provision.

Any contractual undertakings in respect of works and services to be carried out at the year-end.

II. Accounts receivable

Total	764,49	34,93	799,42	787,32	12,09

The company took advantage of the possibility not to follow the amortised cost method and not to time discount accounts receivable.

Therefore, accounts receivable have been recognised at their presumed realisable value.

The item “Credits towards the Controlling company” includes the credit for repairs and services rendered on behalf or to the benefit of the parent company.

The company used during the financial year, deferred tax tax assets of Euro 189.827 / INR/Lakhs 175,88 relating to previous tax losses, following a tax assessment proposal by Revenue Agency relating to the fiscal year ended 31/03/2018.

Break-down of the accounts receivable by geographical area

Current year's result				4,68	
At the current year-end	1.316,77	69,61		4,68	1.682,22

The share capital amounts to Euro 1.421.151 - INR/Lakhs 1.316,77 and is made up of quotas with a nominal value of 1 Euro, held by and fully available to the sole shareholder as no burdens exist on them. At year-end the shares subscribed are paid in as the total amount of the share capital was fully paid-up.

B) Provision for contingent liabilities and charges
(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2025	Balance at 31/03/2024	Difference
259.959	350.149	(90.190)

INR

Balance at 31/03/2025	Balance at 31/03/2024	Difference
240,87	324,43	(83,57)

EUR

	Provision for pension and similar benefits	Provision for taxes, including deferred taxes	Derivative financial instruments	Other provisions companies	Total
Value at the beginning of the year				350.149	350.149
Changes in the year:				90.190	90.190
Increases as a result of changes in the fair value					
Decreases as a result of changes in the fair value					
Total changes				(90.190)	(90.190)
Value at the end of the year				259.959	259.959

INR

	Provision for pension and similar benefits	Provision for taxes, including deferred taxes	Derivative financial instruments	Other provisions companies	Total
Value at the beginning of the year				324,43	324,43
Changes in the year:				83,57	83,57
Increases as a result of changes in the fair value					
Decreases as a result of changes in the fair value					
Total changes				(83,57)	(83,57)
Value at the end of the year				240,87	240,87

The increases are in connection with the accrual for the year, while decreases consist of amounts used in the year.

The item "Other provisions" at 31/03/2025, of INR/Lakhs 240,87 Eur 259.959 is composed as follows: (article 2427(1)(7) of the civil code).

Description	EUR As at 31/03/2025
Fund for warranties	**27.863**
Fund for legal claim	**130.007**
Fund for tax claim	**102.089**
TOTAL	**259.959**

Description	INR As at 31/03/2025
Fund for warranties	**25,82**
Fund for legal claim	**120,46**
Fund for tax claim	**94,59**
TOTAL	**240,87**

The decrease relate to provisions for the year. The company set aside during the year:

Euro 130.007 INR/Lakhs 120,46 against legal risks arising in the Spanish market and to cover any claims raised by a former external professional of the company, remaining the same of previous year;

Euro 102.089 INR/Lakhs 94,59 for risks for tax assessment by the Revenue Agency for greater tax base relating to the financial year ended 03/31/2019 and relating to transfer pricing disputes with the Parent Company, decrease by Euro 90.190 INR/Lakhs 83,57 due to the payment to the Tax Agency.

The accrual to these provisions was justified by the fact that (i) the other provisions were made to the Warranty fund, because it has been considered not adequate to cover contract discrepancies between what has been acknowledged by the Company and what has been received by the Parent company.

During the year, the value of the provision for warranty was reinstated for a value deemed appropriate.

C) Indemnity for Employees leaving the Company
(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2025	Balance at 31/03/2024	Difference
140.868	159.674	(18.806)

INR

Balance at 31/03/2025	Balance at 31/03/2024	Difference
130,50	147,95	(17,42)

The difference can be described as follows.

EUR

	Indemnity for Employees leaving company
Value at the beginning of the year	**159.674**
Changes in the year:	**13.147**
Decrease for utilization	**(310953)**
Total changes	**(18.806)**
Value at the end of the year	**140.868**

INR

	Indemnity for Employees leaving company
Value at the beginning of the year	**147,95**
Changes in the year:	**12,18**
Decrease for utilization	**(29,61)**
Total changes	**(17,42)**
Value at the end of the year	**130,52**

The provision consists of the amounts payable at 31/03/2025 to the employees on the company's payroll at that date, net of any advances paid.

This consists of the amounts accrued in favour of the employees pursuant to the law and the current collective bargaining agreements, taking into account any elements of remuneration paid on a continuous basis.

The provision includes the total amounts accrued at 31 December 2006 for employees at the year-end, net of any advances paid, and assuming termination of their employment relationship at such date.

The provision does not include any amounts accrued starting from 1 January 2007 that have been paid into complementary pension schemes pursuant to legislative decree no. 252 dated 5 December 2005 (or transferred to the special-purpose fund managed by the Italian social security authority - INPS).

During the year, the company accrued € 31.820 INR/Lakhs 29,48 for this indemnity, of which € 18.673 INR/Lakhs 17,30 transferred to the complementary pension fund and € 13.147 INR/Lakhs 12,18 to the TFR fund. The use of Euro 31.952/ INR/Lakhs 29,61 refers to the liquidation of five employees who left the job during the year.

In the year after 31/03/2025 employees are not expected to receive an estimated employees' leaving indemnity as a result of incentivised dismissals and corporate reorganisation plans.

D) Accounts payable

(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2025	Balance at 31/03/2024	Difference
6.567.516	6.497.201	70.315

INR

Balance at 31/03/2025	Balance at 31/03/2024	Difference
6.085,13	6.019,98	65,15

The balance can be broken down by due date as follows (article 2427(1)(6) of the Civil Code):

EUR

	Value at the beginning of the year	**Changes in the year**	**Value at the end of the year**	**Falling due within one year**
Accounts payable to banks	654	443	1.097	1.097
Accounts payable to suppliers	541.274	215.648	756.922	756.922
Accounts payable to controlling companies	5.726.555	(367.560)	5.358.995	5.358.995
Taxes payable	60.392	59.032	119.424	119.424
Accounts payable to social security institutions	35.156	(274)	34.882	34.822
Other accounts payable	133.171	163.026	296.197	296.197
Total	**6.497.201**	**70.315**	**6.567.516**	**6.567.517**

INR

	Value at the beginning of the year	**Changes in the year**	**Value at the end of the year**	**Falling due within one year**
Accounts payable to banks	0,33	0,41	1,02	1,02
Accounts payable to suppliers	501,52	199,81	701,33	701,33
Accounts payable to controlling companies	5.305,94	(340,56)	4.965,38	4.965,38
Taxes payable	55,96	54,70	110,65	110,65
Accounts payable to social security institutions	32,57	(0,25)	32,32	32,32
Other accounts payable	123,39	151,05	274,44	274,44
Total	**6.019,98**	**65,15**	**6.085,13**	**6.085,13**

The balance of the accounts payable to banks at 31/03/2025, in an amount of INR/Lakhs 1,02 / Eur 1.097 total amount debit for credit card, corresponds to the full payable including principal amount, interest and ancillary charges which have come to maturity and can be collected.

The item “Advances” includes any advances from customers on goods and services not yet supplied or rendered; this item includes advance payments, as earnest money or otherwise, received in connection with the sale of tangible, intangible and financial fixed assets.

Accounts payable from suppliers are recognised at their nominal value of net of trade discounts; cash discounts are recorded upon payment. The nominal value of these payables has been adjusted in case of returns or allowances (invoice adjustments) by the corresponding amount agreed with the other party.

The company took advantage of the possibility not to follow the amortised cost method and/or not to time discount accounts payable since 2016.

The company adopted the following accounting policies: no time discounting of accounts payable due within one year; no time discounting of accounts payable if the effective interest rate does not significantly differ from market rate; no adoption of the amortised cost method for accounts payable due within one year, no adoption of the amortised cost method if transaction costs, commission fees and any other difference between initial value and value on expiry are of negligible amount.

Regarding the accounts payable to controlled companies and undertakings under control by the controlling companies, we note that they refer to vehicles’ and spare parts’ supplies under normal market conditions.

The item “Tax liabilities” only includes the actual taxes payable, while any likely tax liabilities or tax liabilities whose amount or date of occurrence is doubtful or deferred tax liabilities, are recorded in item B.2 of the liabilities section of the balance sheet (Provision for taxes).

The accounts payable falling due within one year does not include accounts payable backed by covenants.

No significant changes occurred in the amount of Tax liabilities.

In the tax payables item are registered IVA debt Eur 99.390 INR/Lakhs 92,09 and WHT Eur 13.524 INR/Lakhs 12,53 and IRES Eur 6.331 INR/ Lakhs 5,87.

Accounts payable secured by collaterals on corporate assets

The accounts payable are not secured by collaterals on corporate assets (article 2427(1)(6) of the Civil Code):

EUR

	Accounts payable secured by collaterals on corporate assets

Costs of raw materials, subsidiary materials, consumables and goods and costs of services

They are closely related to the information provided in the Directors' report and to point A (Revenue) of the Profit and loss account.

Personnel costs

This item includes all employee costs, including bonuses, promotions, cost-of-living increases, untaken holidays and the provisions made pursuant to the law and the national collective bargaining agreements.

During the financial year the Company has not used help from Government to mitigate the adverse economic effect related to Covid-19 like extraordinary redundancy fund (C.I.G.S.).

The reduction in personnel costs is due to the leaving of 2 human resources.

Depreciation of tangible assets

Depreciation has been calculated on the basis of the useful life of the assets and their contribution to the production process.

The Company accrued the depreciation related the financial year closed as at 31/03/2025.

Other write-downs of fixed assets

The item is not reflected in the present financial statements.

Write-downs of accounts receivable included among current assets and of liquid assets

The item is not reflected in the present financial statements.

Accruals to provisions for contingent liabilities and charges

The company set aside during the year:

Euro 130.007 INR/Lakhs against legal risks arising in the Spanish market and to cover any claims raised by a former external professional of the company;

Euro 192.279 INR/Lakhs for risks for tax assessment by the Revenue Agency for higher tax base relating to the financial year ended 31/03/2019 and relating to disputes on transfer prices with the Parent Company.

During the financial year, the company closed the tax assessment by paying taxes and interest of Euro 90,190.

Other accruals

The item is not reflected in the present financial statements.

Miscellaneous running costs

They refer to taxes other than income tax, subscriptions and other charges.

The company has not entered expenses for exceptional amount or incidence.

(article 2427(1)(16-bis) of the civil code)

As required by law, we set out below the amount of fees charged for services rendered by the audit company firm and by entities that are members of its network:

Description	EUR Fee
Audit of annual accounts	9.936
Total fees due to the auditor or audit company	9.936

Description	INR Fee
Audit of annual accounts	8,93
Total fees due to the auditor or audit company	8,93

The members of the Board of Directors renounced the remuneration due for the position held in the Mahindra group companies.

The independent Director's fee is Eur 5.469 INR/Lakhs 4,93.

Information on significant events which occurred after the end of the financial year

During 2024, the problems related to the Russian-Ukrainian military conflict and the explosion of the inflation rate continued to manifest themselves at an international level, in particular with regard to energy supply costs. Our company was not affected by the conflict, as it was not involved in the markets in question, while the increase in the costs of raw materials and international transport were absorbed with adjustments to the sales price lists. The Company has entered into commercial agreements with leading Italian rental companies to maintain and strengthen its position on the market. The Board of Directors, in light of what is reported in this explanatory note and in the management report, believes that the negative international events will not have an effect on the company's continuity in the next 12 months.

Information on the company which prepares the consolidated financial statements for the larger/smaller set of companies which the company is a member of in a capacity as controlled undertaking

As required by law, we set out below the information pursuant to article 2427(1)(22-quinquies and sexies) of the civil code.

We invite the Quota Holder to approve the financial statements in their current form and all the single items, year.

The Chairman of the Board of Directors
Sachin Arolkar

INDEPENDENT AUDITORS' REPORT

To the Shareholder of Mahindra and Mahindra South Africa Proprietary Limited

Opinion

We have audited the financial statements of Mahindra and Mahindra South Africa Proprietary Limited (the company) set out on pages herein, which comprise the statement of financial position as at 31 March 2025, and the statement of profit or loss and other comprehensive income, the statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Mahindra and Mahindra South Africa Proprietary Limited as at 31 March 2025, and its financial performance and cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the financial statements section of our report. We are independent of the company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Mahindra and Mahindra South Africa Proprietary Limited Annual Financial Statements for the year ended 31 March 2025", which includes the Directors' Report as required by the Companies Act of South Africa. Other information does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Statements

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with the IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

ACCOUNTING POLICIES

1. Material accounting policies

Management has considered the principles of materiality in IFRS Practice Statement 2 Making Materiality Judgements, and only those accounting policies which are considered material have been presented in these annual financial statements.

1.1 Basis of preparation

The annual financial statements have been prepared on the going concern basis in accordance with, and in compliance with, IFRS Accounting Standards as issued by the International Accounting Standards Board and International Financial Reporting Standards Interpretations Committee ("IFRS IC") interpretations issued and effective at the time of preparing these annual financial statements and the Companies Act of South Africa as amended.

The annual financial statements comply with the requirements of the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council.

The annual financial statements have been prepared on the historic cost convention, unless otherwise stated in the accounting policies which follow and incorporate the material accounting policies set out below. They are presented in Rands, which is the company's functional currency.

These accounting policies are consistent with the previous period.

1.2 Significant judgements and sources of estimation uncertainty

The preparation of annual financial statements in conformity with IFRS requires management, from time to time, to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Key sources of estimation uncertainty

Impairment testing

The company reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. When such indicators exist, management determines the recoverable amount by performing value in use and fair value calculations. These calculations require the use of estimates and assumptions.

Useful lives of property, plant and equipment

Management assesses the appropriateness of the useful lives of property, plant and equipment at the end of each reporting period. The useful lives of all assets are determined based on company replacement policies for the various assets. Individual assets within these classes, which have a significant carrying amount are assessed separately to consider whether replacement will be necessary outside of normal replacement parameters.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Computer equipment	Straight line	4 years
Computer software	Straight line	5 years
Furniture and fixtures	Straight line	3 years
Leasehold improvements	Straight line	3 years
Motor vehicles	Straight line	4 years
Motor vehicles - Held for rental	Straight line	4 years
Office equipment	Straight line	6 years
Plant and machinery	Straight line	3 years

Contract liabilities

The fair value of contract liabilities from service plans is management's best estimate of the company's future income and cost based on the estimated service cost that would occur for the selected models over a period of three to five years adjusted for inflation and possible price increases in parts and labour used in the service of the selected model.

Provision for warranties

Warranty provisions are management's best estimate of the company's liability (after the expected reimbursement from the manufacturer) on vehicles under two, three or five year warranties based on the current year warranty claims occurred. The cost per day calculated on those claims is used to estimate the future cost for the remaining warranty days under consideration.

The warranty provision has been discounted to present value and the incremental amount pertaining to the current financial year has been adjusted in cost of sales.

Fair value estimation

The fair values of financial instruments measured at amortised cost are disclosed should it be determined that the carrying value of these instruments do not reasonably approximate their value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities; or

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; or

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Recoverability of receivables

The company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast direction of conditions at the reporting date, including the time value of money, where appropriate.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

Determination of net realisable value of inventory

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The write down is included in cost of sales.

1.3 Financial instruments

Financial instruments are recognised when the company becomes a party to the contractual provisions. They are measured, at initial recognition, at fair value plus transaction costs, if any, except for financial instruments at fair value through profit or loss which exclude transaction costs.

The material accounting policies for each type of financial instrument held by the company are presented below:

Trade and other receivables

Trade and other receivables, excluding, when applicable, VAT and prepayments, are measured, subsequent to initial recognition, at amortised cost.

The amortised cost is the amount recognised on the receivable initially, minus principal repayments, plus cumulative amortisation (interest) using the effective interest method of any difference between the initial amount and the maturity amount, adjusted for any loss allowance.

The accounting policy for impairment of trade and other receivables is set out in the loss allowances and write offs accounting policy.

Trade and other receivables include amounts which have been denominated in India Rupees and US Dollars, however these are minimal. Foreign exchange gains or losses are recognised in profit or loss.

Gains or losses arising on the derecognition of trade and other receivables are included in profit or loss in derecognition gains (losses) on financial assets at amortised cost, the details of which are included in note 19.

Impairment - Expected credit losses and write offs

Loss allowances are recognised for expected credit losses on trade and other receivables.

The company measures the loss allowance for trade and other receivables at an amount equal to lifetime expected credit losses (lifetime ECL).

A provision matrix is used as a practical expedient when determining expected credit losses. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast conditions.

The measurement of expected credit losses incorporates the probability of default, loss given default and the exposure at default, taking the time value of money, historical data and forward-looking information into consideration.

The movement in credit loss allowance is recognised in profit or loss with a corresponding adjustment to the carrying amount of the instrument through a loss allowance account.

The company writes off an instrument when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Instruments written off may still be subject to enforcement activities under the company's recovery procedures. Any recoveries made are recognised in profit or loss.

Trade and other payables

Trade and other payables, excluding VAT and amounts received in advance, are classified as financial liabilities subsequently measured at amortised cost.

Trade and other payables include amounts which have been denominated in India Rupees and US Dollars, however these are minimal. Foreign exchange gains or losses are recognised in profit or loss.

Cash and cash equivalents

Cash and cash equivalents are recognised initially at the transaction price.

Subsequently, these are measured at amortised cost using the effective interest method.

Derecognition

The company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the company retains substantially all the risks and rewards of ownership of a transferred financial asset, the company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

The company derecognises financial liabilities when its obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non cash assets transferred or liabilities assumed, is recognised in profit or loss.

1.4 Tax

Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities (assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax base used for taxation purposes.

A deferred tax liability is recognised for all taxable temporary differences.

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The deferred tax rate applied to assets is determined by the expected manner of recovery. Where the expected recovery of the asset is through sale, the capital gains tax rate is applied. The normal tax rate is applied when the expected recovery is through use. A combination of these rates is applied if the recovery is expected to be partly through use and sale.

Deferred tax assets are reviewed at each reporting date and are reduced if it is no longer probable that the related tax benefit will be realised. Such reductions are reversed when the probability of future taxable profits improves. The review by management has not resulted in the reduction of the deferred tax assets.

Tax expenses

The income tax expense consists of current and deferred tax and is recognised in profit or loss.

1.5 Leases

The company assesses whether a contract is, or contains a lease, at the inception of the contract.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

No contracts were identified that required specific judgement as to whether they contained leases.

Company as lessee

A lease liability and corresponding right of use asset are recognised at the lease commencement date, for all lease agreements for which the company is a lessee, except for short term leases of 12 months or less, or leases of low value assets. For these leases, the company recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

Lease liability

Lease liabilities are initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect lease payments made. Interest charged on the lease liability is included in finance costs.

Right-of-use assets

Right-of-use assets are presented as a separate line item on the Statement of Financial Position.

They are measured initially at the initial amount of the lease liability plus upfront payments and initial direct costs.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated, from commencement date, over the shorter period of lease term and useful life of the underlying asset.

The residual value, useful life and depreciation method of each asset are reviewed at the end of each reporting period. No material changes were made.

1.6 Inventories

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the entity.

Write downs and reversals of write downs of inventories are included as part of the cost of goods sold.

1.7 Impairment of assets

Management assesses, at the end of each reporting period, whether there is any indication that an asset, such as property, plant and equipment, may be impaired. If any such indication exists, then the recoverable amount of the asset is determined.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. If the recoverable amount cannot be determined for an individual asset, then it is determined for the cash generating unit to which the asset belongs.

An impairment loss is recognised for an asset (or a cash-generating unit) if the recoverable amount of the asset or cash generating unit is less than the carrying amount. The impairment loss is determined as the difference between the two amounts. For cash generating units, the impairment loss is allocated to reduce the carrying amount of goodwill included in the cash-generating unit and then to the other assets on a pro-rata basis.

Impairment losses are recognised immediately in profit or loss.

1.8 Share capital and equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Ordinary shares are classified as equity.

1.9 Provisions and contingencies

Provisions are recognised when:

- the company has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the present value of the expenditure expected to be required to settle the obligation.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement shall be recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement shall be treated as a separate asset. The amount recognised for the reimbursement shall not exceed the amount of the provision.

Provisions are not recognised for future operating losses.

If an entity has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
  - the business or part of a business concerned;
  - the principal locations affected;
  - the location, function, and approximate number of employees who will be compensated for terminating their services;
  - the expenditures that will be undertaken; and
  - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

After their initial recognition contingent liabilities recognised in business combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised.

1.10 Revenue from contracts with customers

Revenue comprises consideration received or receivable on contracts entered into with customers for the sale of goods and services in the ordinary course of the entities' activities. The performance obligation is identified as the distinct goods and services as agreed in the contract(s). Revenue is shown net of trade discounts, volume rebates and value added tax and is recognised when the entity satisfies its' performance obligations as set out in the contracts entered into with its customers. Revenue is recognised at the amount of the transaction price that is allocated to each performance obligation and this is determined at the amount as depicted in the contract for the exchange of the goods and services. Where a contract has multiple performance obligations, the transaction price is allocated to the performance obligations in the contract by reference to their relative standalone selling prices.

The principles of IFRS 15 are applied using the following five-step model:

- Identify the contract(s) with a customer
- Identify the performance obligations in the contract

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contract
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Revenue streams

- Sale of spares
- Sales of vehicles
- Sale of service plan
- Sale of construction equipment
- Commission income and recoveries

Revenue is recognised when an entity satisfies a performance obligation as control is passed, either over time or at a point in time. The above revenue is recognised at a point in time, except for Service plans which is recognised over time. Service Plan is recognised by reference to the stage of completion of the transaction at the end of the reporting period.

Contract liabilities relates to Service Plan Revenue and is reflected under Liabilities in the Statement of Financial Position.

Amounts not yet invoiced, for which revenue has been recognised are reflected under trade and other receivables.

Costs incurred on assembly of vehicles which do not yet meet the revenue recognition criteria are capitalised to inventories as work-in-progress and are expensed when the five principles of IFRS 15 are met.

Interest is recognised, in profit or loss, using the effective interest rate method.

1.11 Cost of sales

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The related cost of providing services recognised as revenue in the current period is included in cost of sales.

1.12 Translation of foreign currencies

Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in Rands, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items are translated at the end of the reporting period using the closing rate.

Cash flows arising from transactions in a foreign currency are recorded in Rands by applying to the foreign currency amount the exchange rate between the Rand and the foreign currency at the date of the cash flow.

Refer to the individual accounting policies for financial instruments for the detailed foreign exchange accounting policies.

1.13 Levies

IFRIC 21 addresses the issue of when to recognise a liability to pay a levy. The Interpretation defines a levy, and specifies that the obligating event that gives rise to the liability is the activity that triggers the payment of the levy, as identified by legislation. The Interpretation provides guidance on how different levy arrangements should be accounted for, in particular, it clarifies that neither economic compulsion nor the going concern basis of financial statements preparation implies that an entity has a present obligation to pay a levy that will be triggered by operating in a future period. The company has inventory stored in a bonded warehouse where duties, levies and taxes are due once the inventory leaves the bonded warehouse, or 24 months, whichever are earlier.

2. New Standards and Interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the company has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• Supplier finance arrangements- amendments to IAS 7 and IFRS 7	01 January 2024	The impact of the amendments is not material.
• Non-current liabilities with covenants- amendments to IAS 1	01 January 2024	The impact of the amendments is not material.
• Lease liability in a sale and leaseback	01 January 2024	The impact of the amendments is not material.
• Classification of Liabilities as Current or Non-Current- Amendment to IAS 1	01 January 2024	The impact of the amendments is not material.

2.2 Standards and interpretations not yet effective

The company has chosen not to early adopt the following standards and interpretations, which have been published and are mandatory for the company's accounting periods beginning on or after 01 April 2025 or later periods:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• IFRS 18 Presentation and Disclosure in Financial Statements	01 January 2027	Unlikely there will be a material impact
• Amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards.	01 January 2026	Unlikely there will be a material impact
• Amendments to IFRS 7 Financial Instruments: Disclosures	01 January 2026	Unlikely there will be a material impact
• Amendments to IFRS 9 Financial Instruments	01 January 2026	Unlikely there will be a material impact
• Amendments to IAS 7 Statement of Cash-flows Cost Method	01 January 2026	Unlikely there will be a material impact
• Amendments to IFRS 9 and IFRS 7: Amendments to the Classification and Measurement of Financial Instruments.	01 January 2026	Unlikely there will be a material impact
• Lack of exchangeability- amendments to IAS 21	01 January 2025	Unlikely there will be a material impact

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

Plant and machinery	52,816	–	(52,816)	–	–
	26,379,595	27,071,438	(3,446,742)	(10,849,729)	39,154,562

During the year an amount of R40,227,866 (2024: R26,316,040) was included in the vehicle additions, which was transferred from Inventory to Property, Plant and Equipment and is excluded from the cash additions as well as the cash generated from operations in the statement of cash flows.

4. Right-of-use assets

The company leases various buildings as the need arises. Lease contracts are typically made for fixed periods between 3 years to 5 years. Lease contracts are negotiated on an individual basis and contain a wide range of different terms and conditions.

The lease contracts do not impose any covenants.

Details pertaining to leasing arrangements, where the company is lessee are presented below:

	2025			2024		
	Gross carrying amount	Accumulated depreciation	Net carrying amount	Gross carrying amount	Accumulated depreciation	Net carrying amount
Buildings and infrastructure	**9,515,602**	**(1,518,058)**	**7,997,544**	7,475,668	(6,498,578)	977,090

Reconciliation of right-of-use assets - 2025

	Opening balance	Additions	Terminations	Depreciation	Total
Buildings and infrastructure	**977,090**	**9,392,827**	**(572,699)**	**(1,799,674)**	**7,997,544**

Reconciliation of right-of-use assets - 2024

	Opening balance	Additions	Terminations	Depreciation	Total
Buildings and infrastructure	2,417,313	–	–	(1,440,223)	977,090

5. Deferred tax

Deferred tax asset

	2025	2024
Deferred revenue less Section 24C allowance	**2,054,027**	1,518,299
Lease liabilities	**2,307,783**	455,553
Prepaid expenses	**(2,938,318)**	(410,937)
Provisions	**4,409,279**	19,613,142
Right-of-use assets	**(2,159,337)**	(263,814)
Tax losses available for set off against future taxable income	**–**	288,425
Total deferred tax asset	**3,673,434**	21,200,668

Reconciliation of deferred tax asset

	2025	2024
	R	R
At beginning of year	**21,200,668**	34,981,637
Increases (decrease) in tax loss available for set off against future taxable income-gross of valuation allowance	**(288,425)**	288,425
Taxable / (deductible) temporary difference on interest on deferred revenue	**535,728**	230,961
Taxable / (deductible) temporary difference on lease liabilities	**1,852,230**	(610,776)
Taxable / (deductible) temporary difference on prepaid expenses	**(2,527,381)**	(194,597)
Taxable / (deductible) temporary difference on provisions	**(15,203,863)**	(13,883,842)
Taxable / (deductible) temporary difference on right-of-use assets	**(1,895,523)**	388,860
	3,673,434	21,200,668

The deferred tax assets and the deferred tax liability relate to income tax in the same jurisdiction, and the law allows net settlement. Therefore, they have been offset in the statement of financial position.

Management expects sufficient future taxable income in the company to enable the company to realise the deferred tax asset.

6. Retirement benefits

Defined contribution plan

It is the policy of the company to provide retirement benefits to all its employees. A defined contribution provident fund which is subject to the Pensions Fund Act exists for this purpose. The scheme is funded by company and employee contributions only, which are charged to the income statement as they are incurred. The total company contributions to such scheme in 2025 was R3,259,654 (2024: R2,704,582).

The company is under no obligation to cover any unfunded benefits.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

7. Loans receivable

Loans receivable are presented at amortised cost, which is net of loss allowance, if any, as follows:

Supplier enterprise development loan	3,565,000	3,565,000

The loan is unsecured, interest free and repayable on demand.

Exposure to credit risk

Loans receivable inherently exposes the company to credit risk, being the risk that the company will incur financial loss if counterparties fail to make payments as they fall due.

Fair value of loans receivable

The fair value of loans receivable approximates their carrying amounts.

8. Inventories

	2025 R	2024 R
Agricultural produce	**621,345**	621,345
Goods in transit	**335,311,887**	180,537,973
Motor vehicles	**918,769,285**	779,475,106
Spares	**157,979,190**	151,351,370
	1,412,681,707	1,111,985,794
Provision for write down of inventories to net realisable value motor vehicles, spares and agricultural produce	**(1,959,212)**	(11,302,622)
	1,410,722,495	1,100,683,172

Inventory pledged as security

Inventories were pledged as security for overdraft facilities of the company. Refer to note 29 for full details on the facilities granted to the company.

9. Trade and other receivables

	2025 R	2024 R
Financial instruments:		
Trade receivables	**182,544,811**	145,344,707
Deposits	**2,906,762**	839,061
Non-financial instruments:		
Prepayments	**78,397,031**	47,376,313
Total trade and other receivables	**263,848,604**	193,560,081

Financial instrument and non financial instrument components of trade and other receivables

	2025 R	2024 R
At amortised cost	**185,451,573**	146,183,768
Non-financial instruments	**78,397,031**	47,376,313
	263,848,604	193,560,081

Trade and other receivables pledged as security

Trade and other receivables were pledged as security for overdraft facilities of the company. Refer to note 29 for full details on the facilities granted to the company.

Exposure to credit risk

Trade receivables inherently expose the company to credit risk, being the risk that the company will incur financial loss if customers fail to make payments as they fall due.

In order to mitigate the risk the company deals with reputed banks and customers and also demands bank guarantees or purchase credit insurance where applicable.

There have been no significant changes in the credit risk management policies and processes since the prior reporting period.

The average credit period on trade receivables is 13 days (2024: 14 days). No interest is charged on outstanding trade receivables.

The company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix has been applied to appropriate groupings of receivables based on shared credit risk characteristics. There is no material expected credit losses on application of the provision matrix for the businesses.

Furthermore, the company writes off a receivable where there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery. Receivables written off may still be subject to enforcement activities under the company recovery procedure, considering legal advice where appropriate. In the current year receivables amounting to R4 203 977 was written off.

Fair value of trade and other receivables

The fair value of trade and other receivables approximates their carrying amounts.

10. Cash and cash equivalents

	2025 R	2024 R
Cash and cash equivalents consist of:		
Cash on hand	**240,145**	21,196
Bank balances	**65,304,998**	2,307,158
Bank overdraft	**(451,046)**	(117,937,739)
	65,094,097	(115,609,385)
Current assets	**65,545,287**	2,328,354
Current liabilities	**(451,190)**	(117,937,739)
	65,094,097	(115,609,385)

There is a cession amounting to R125 139 (2024: R125 139) relating to the First National Bank Account (Account number: 74865277774).

The carrying amount of cash and cash equivalents reasonably approximates its fair value.

All cash balances are placed with reputable financial institutions which have positive credit ratings. Therefore, there is no significant credit risk associated with cash and cash equivalents.

11. Share capital

	2025 R	2024 R
Authorised		
70,000,000 Ordinary shares with no par value	**70,000,000**	70,000,000
Reconciliation of number of shares issued:		
Reported as at beginning of year	**52,000,000**	52,000,000
Issued		
52,000,000 Ordinary shares with no par value	**52,000,000**	52,000,000

12. Foreign currency translation reserve

The Kenya Branch operations in Shilling has been translated to ZAR based on the exchange rate. The foreign currency reserve is a result of the foreign currency translation.

	2025 R	2024 R
Kenya Branch operations	**(19,245,759)**	(19,245,759)

13. Lease liabilities

	2025 R	2024 R
The maturity analysis of lease liabilities is as follows:		
- within one year	**1,427,765**	1,675,206
- in second to fifth year inclusive	**7,119,581**	16,365
	8,547,346	1,691,571

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

	2025	2024
	R	R
The lease liability classification at year end is as follows:		
Non-current liabilities	**7,119,581**	16,365
Current liabilities	**1,427,765**	1,675,206
	8,547,346	1,691,571

The lease liability relates to the right of use assets disclosed under note 4.

The company leases various buildings as the need arises under operating leases.

Lease contracts are typically made for fixed periods between 3 years and 5 years.

Interest is based on the incremental borrowing rate of 10.25% for the South African Office and the training centre leases.

Interest is based on the incremental borrowing rate of 9% for the basement parking rental.

	2025	2024
	R	R
Analysis of movement in lease liabilities		
Balance as at beginning of year	**1,691,571**	3,953,702
New leases	**9,431,099**	–
Terminations	**(1,116,292)**	–
Capital repayments	**(1,459,032)**	(2,262,131)
- Lease payments	**(2,262,873)**	(2,536,040)
- Interest charges	**803,841**	273,909
Balance as at end of the year	**8,547,346**	1,691,571

For details of the exposure to liquidity risk related to finance lease liabilities, as well as the maturity analysis of the gross amounts payable, refer to note 28.

14. Contract liabilities

	2025	2024
	R	R
Summary of contract liabilities		
Service plan	**380,375,369**	281,166,408
Reconciliation of contract liabilities		
Opening balance	**281,166,408**	238,395,968
Raised in current year	**212,259,309**	131,410,455
Revenue in current year	**(113,050,348)**	(88,640,015)
	380,375,369	281,166,408
Split between non-current and current portions		
Non-current liabilities	**259,949,093**	188,906,228
Current liabilities	**120,426,276**	92,260,180
	380,375,369	281,166,408

Nature: Certain vehicles are sold with a service plan. This service plan then covers certain services for a predetermined number of years and kilometres travelled. The income from these service plans is deferred and recognised as these services are performed.

Assumptions: The fair value of contract liabilities from service plans is management's best estimate of the company's future income and cost based on the estimated service cost that would occur for the selected models over a period of three to five years adjusted for inflation and possible price increases in parts and labour used in the service of the selected model.

15. Provisions

Reconciliation of provisions – 2025

	Opening balance	Additions	Utilised during the year	Change in estimate	Change in discount factor	Total
Provision for warranty claims	**64,166,834**	**10,040,019**	**(54,008,216)**	**(22,875,738)**	**9,035,770**	**6,358,669**

Reconciliation of provisions – 2024

	Opening balance	Additions	Utilised during the year	Change in discount factor	Total
Provision for warranty claims	116,141,131	2,484,504	(28,127,822)	(26,330,979)	64,166,834
Non-current liabilities				2,511,984	24,263,481
Current liabilities				3,846,685	39,903,353
				6,358,669	64,166,834

Nature: This provision is raised due to the fact that certain vehicles and tractors sold are sold under a warranty, thus this provision estimates cost that would occur in the future for repairs under warranties.

Assumptions: Warranty provisions are managements best estimate of the company's liability (after the expected reimbursement from the manufacturer) on vehicles under two or three year warranties based on three years actual historical sales and warranty claims occurred. The warranty period for tractors being a twelve month period from date of sale.

Further, the warranty provision has been discounted to present value and the incremental amount pertaining to the current financial year has been adjusted in cost of sales.

Change in estimate:

During the current period, the company has gained more experience which it has considered in it's estimate of the warranty provision. This experience has resulted in the company being able to determine a reimbursement factor on the total cost per day to reflect the exposure for warranty claims which the company is exposed to which the company was not able to reliably estimate in previous years. This reimbursement factor is determined as the amount which Mahindra & Mahindra Limited reimburses the company on each warranty claim submitted. The provision raised is thus only reflecting the amount which the company expects not to be reimbursed for. This has resulted in the once off adjustment above of R22,875,738.

This does not affect prior periods and is applied prospectively.

16. Trade and other payables

	2025	2024
	R	R
Financial instruments:		
Accrued expenses	**124,251,214**	104,852,213
Accrued leave pay	**4,314,109**	3,208,987
Other payables	**1,445,415**	1,445,415
Sundry payables	**3,093,262**	2,690,611
Trade payables	**1,031,482,303**	593,080,490
Non-financial instruments:		
VAT	**21,588,952**	2,979,363
	1,186,175,255	708,257,079

Fair value of trade and other payables

The fair value of trade and other payables approximates their carrying amounts.

Capital risk management

The company’s capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Financial risk management

Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the balance sheet date.

Liquidity risk

The company manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long term financial liabilities as well as cash-outflows due in day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Short-term liquidity needs for a 120-day or less are identified monthly.

Funding in regards to long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities.

The company has contractual maturities which are summarised below:

31 March 2025	Current	Within 6 months	Within 1 year	2 - 5 years
Trade and other payables	**1,164,586,323**	**1,160,703,625**	**–**	**–**
Lease liabilities	**–**	**–**	**1,427,766**	**7,119,581**
	1,164,586,323	**1,160,703,625**	**1,427,766**	**7,119,581**

At 31 March 2024	Current	Within 6 months	Within 1 year	2 - 5 years
Trade and other payables	705,277,737	702,389,649	–	–
Lease liabilities	–	–	1,675,206	16,365
	705,277,737	702,389,649	1,675,206	16,365

The above contractual maturities reflect the gross cash flows, which may differ to the carrying values of the liabilities at the reporting date.

Foreign currency risk

Most of the company's transactions are carried out in Rands. Exposure to currency exchange rates arise from the company's overseas purchases and sea freight, which are primarily denominated in US Dollars and Indian Rupees.

Foreign currency denominated financial assets and liabilities, translated in Rands at the closing rate, are as follows:

Foreign currency exposure at the end of the reporting period

	2025 R	2024 R
Assets (Included in Trade and other receivables and Cash and cash equivalents)		
Bank balance (2025: USD 113 044; 2024: USD 24 203 EGP 5 407)	**2,283,601**	472,975
Mahindra and Mahindra Limited (2025: USD 516 790 INDR 4 279 339; 2024: USD 528 818 INDR 498 912)	**9,519,272**	10,078,014
Liabilities (Included in Trade and other payables)		
Deloitte India (2025: USD 0; 2024: USD 10 000)	**–**	188,443
Erkunt (2025: Euro 20 028; 2024: Euro 25 551)	**399,759**	499,406
Mahindra and Mahindra Limited (2025: USD 11 113 INR 4 279 339; 2024: USD 704 939 INR 3 572 952)	**1,125,170**	14,091,957

Foreign currency sensitivity

The following table illustrates the sensitivity of the net result for the year and equity in regards to the company's financial assets and financial liabilities and the US Dollar Rand exchange rate.

It assumes a +5.56% and –6.14% change of the Rand / US Dollar exchange rate for the year ended 31 March 2025 (2024: +3.2% and –1.7%). This has been determined based on the average market volatility in exchange rates in the previous 12 months. The sensitivity analysis is based on the

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

company's foreign currency financial instruments held at balance sheet date and also takes into account forward exchange contracts that offset effects from changes in currency exchange rates.

If the Rand had weakened against the US Dollar by 6.14% (2024: 1.7%) then this would have had the following impact:

	2025	2024
	R	R
Net results for the year	**509,654**	136,787

If the Rand had strengthened against the US Dollar by 5.56% (2024: 3.2%) then this would have had the following impact:

	2025	2024
	R	R
Net results for the year	**(509,819)**	(74,616)

Exposure to foreign exchange rates vary during the year depending on the volumes of overseas transactions. Nonetheless, the analysis above is considered to be representative of the company's exposure to currency risk.

Interest rate risk

The following table illustrates the sensitivity of the net result for the year and equity to a reasonably possible change in interest rates of +2% and -2% (2024: +2% and -2%), with effect from the beginning of the year. These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on the company's financial instruments held at each balance sheet date. All other variables are held constant.

	2025	2025	2024	2024
Net results for the year	**5,547,063**	**(5,547,063)**	3,192,527	(3,192,527)

29. Banking facilities

The company avails credit facilities from First National Bank Limited which has sanctioned a ZAR facility of R 100 million for working capital borrowings. At the year end, the company has utilised R 0 of the facility from First National Bank (2024: R 117,486,693).

The above facility has been secured as follows:

- General notarial bond over inventory.
- Cession of debtors.

30. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business. The entity has maintained a net asset position and holds sufficient funds to finance future operations. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

31. Events after the reporting period

The directors are not aware of any material event which occurred after the reporting date and up to the date of this report.

INDEPENDENT AUDITOR'S REPORT

To the Automobili Pininfarina GmbH, Munich

Audit Opinions

We have audited the annual financial statements of Automobili Pininfarina GmbH, Munich, which comprise the balance sheet as at 31 March 2025, and the statement of profit and loss for the financial year from 1 April 2024 to 31 March 2025, and notes to the financial statements, including the presentation of the recognition and measurement policies. In addition, we have audited the management report of Automobili Pininfarina GmbH, Munich, for the financial year from 1 April 2024 to 31 March 2025. In accordance with the German legal requirements, we have not audited the content of the statement on corporate governance pursuant to section 289f paragraph 4 HGB [Handelsgesetzbuch: German Commercial Code] (disclosures on the quota for women on executive boards).

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to business corporations and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 March 2025 and of its financial performance for the financial year from 1 April 2024 to 31 March 2025 in compliance with German Legally Required Accounting Principles, and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our audit opinion on the management report does not cover the content of the statement on corporate governance referred to above.

Pursuant to section 322 paragraph 3 sentence 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Audit Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the annual financial statements and on the management report.

Responsibilities of the Executive Director for the Annual Financial Statements and the Management Report

The executive director is responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles. In addition, the executive director is responsible for such internal control as he, in accordance with German Legally Required Accounting Principles, has determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud (i.e., fraudulent financial reporting and misappropriation of assets) or error.

In preparing the annual financial statements, the executive director is responsible for assessing the Company's ability to continue as a going concern. He also has the responsibility for disclosing, as applicable, matters related to going concern. In addition, he is responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive director is responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the executive director is responsible for such arrangements and measures (systems) as he has considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The supervisory board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our audit opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of internal control or these arrangements and measures.
- Evaluate the appropriateness of accounting policies used by the executive director and the reasonableness of estimates made by the executive director and related disclosures.
- Conclude on the appropriateness of the executive director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective audit opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with German law, and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by the executive director in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive director as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Munich, 30 April 2025

NOTES TO THE FINANCIAL STATEMENTS

General details relating to the financial statements

The company was formed based on the articles of association dated 05 February 2018.

The financial statements have been prepared in accordance with the provisions of the German Commercial Code [*Handelsgesetzbuch - HGB*] applicable to business corporations and the Limited Liability Companies Act [*GmbH-Gesetz - GmbHG*].

According to the size classes defined in Sec. 267 Commercial Code [*Handelsgesetzbuch – HGB*] the company falls into the category of a medium-sized corporation.

As in the prior year, the statement of profit and loss for the financial year 2024/2025 is prepared according to the nature of expense method pursuant to Section 275 (2) HGB.

The exemption options for medium-sized corporations pursuant to Sections 286 and 288 (2) HGB were exercised in part.

At the end of the financial year, there was a deficit of EUR 11,119,938.68 (prior year: EUR 6,676,640.78) not covered by equity, which is partly compensated by the contributions of EUR 5,800,000.00 (prior year EUR 6,400,000.00) made to implement the resolved capital increase and the resolved contributions of EUR 4,200,000.00 which are not yet paid in.

Details relating to the identification of the company according to the Court of Registration

Business name acc. to Court of Registration:	Automobili Pininfarina GmbH
Registered office acc. to Court of Registration:	Munich
Register entry:	Commercial Register
Registrar of Companies:	Munich Local Court
Register number:	HRB 239596

Details relating to accounting policies

Accounting and valuation principles

Purchased intangible fixed assets are recognised at acquisition cost and, if they have a limited life, are amortized subject to straight-line depreciation.

Internally generated assets are valued at manufacturing cost according to Sec. 255 (2a) HGB, i.e. included as assets in the balance sheet with the expenses incurred as of development. After completion and from the beginning of sales, they are amortised over the expected useful life using the straight-line method. The expected useful life is determined based on the sales period of the developed vehicles. The Company did not make use of the option regarding the capitalisation of costs according to Sec. 255 (2) sentence 3 HGB.

The Company does not engage in basic research. Hence, a separation of research and development is not required. Occasionally, feasibility studies are conducted before the development of a vehicle which are not capitalised. After completion of the feasibility study, development costs recorded if the following criteria are fulfilled:

- It is very probable that the planned intangible asset is created
- The development costs can be attributed reliably to the specific intangible asset
- No prohibition within the sense of Sec. 248 (2) sentence 2 HGB

The Company starts capitalising the development costs as soon as these criteria are met.

Property plant and equipment were recognised at acquisition costs subject to straight-line depreciation. Straight-line regular depreciation was applied pro rata temporis in accordance with the expected useful life.

Low-value assets with acquisition costs of up to EUR 800 are expensed as incurred in the year of their acquisition, assuming that it is disposed of in the year of acquisition.

Financial assets were valued at acquisition cost.

If the value of fixed assets as determined based on the principles mentioned above is expected to exceed the fair value as of reporting date permanently, this is taken into account by an impairment.

Inventories were recognised at manufacturing costs in conformity with the lower of cost or market principle.

Receivables and other assets are valued at nominal value and reflect all identifiable risks.

Prepayments and accrued income include expenditures before the reporting date representing costs for a certain time after this date.

The option for recognising an asset for deferred tax assets according to Sec. 274 (1) sentence 2 HGB was not exercised.

Other provisions were created for all identifiable risks and contingent liabilities and are recognised at the settlement amount required, according to prudent commercial judgement.

Deferred income includes income prior to the balance sheet date that represents income for a specified period thereafter.

Assets and liabilities denominated in foreign currencies are translated at the closing rate on the reporting date in accordance with Sec. 256a HGB.

Liabilities were reported at the settlement amount.

NOTES TO THE FINANCIAL STATEMENTS

Notes to the balance sheet

Development of assets for individual fixed assets items.

The depreciation applicable to the individual items for the financial year can be derived from the development of assets.

Research and development

The development expenditure incurred in the financial year was capitalised. It concerns the internally generated intangible assets described in the following. In the financial year, no research costs incurred.

Internally generated intangible assets

Expenses for internally generated intangible assets were capitalised at their manufacturing costs in the amount of EUR 197,621.20. The manufacturing costs amount to a total of EUR 120,996,180.45 (prior year: EUR 120,798,559.25).

Due to a permanent impairment within the sense of Sec. 253 (3) sentence 5 HGB as of reporting date an extraordinary amortization of internally generated intangible assets in the amount of EUR 197,621.20 (prior year: EUR 14,062.00) were recognised.

Other liabilities - Customer advances

Payments by customers are recognised predominantly as other liabilities. The contributions do not constitute advances within the sense of German Commercial Law as they do not relate to a binding order. Advances made amount to a total of EUR 2,000,000.00 (prior year: EUR 3,048,995.00) of which EUR 0.00 (prior year: EUR 190,000.00) is reported under other liabilities. Other liabilities include liabilities to affiliated companies in the amount of 0.00 euros (prior year: EUR 4,155,332) and are attributable to deliveries and services.

Share capital

The Company's share capital registered in the Commercial Register and fully paid up as of 31/03/2025 amounts to EUR 225,000,000.00. EUR 10,000,000.00 of an additional capital increase in the amount of EUR 5,800,000.00 in the past financial year were already paid in but not yet registered into the commercial register. Moreover, EUR 4,200,000.00 had been resolved but not yet paid in.

Authorized capital

The nominal amount of the authorized capital was EUR 25,000,000.00 (resolution of the shareholders' meeting of September 13, 2021; Authorized Capital 2022/I), EUR 5,000,000.00 (resolution of the shareholders' meeting of August 30, 2022; Authorized Capital 2022/II), and EUR 25,000,000.00 (resolution of the shareholders' meeting of July 1, 2024; Authorized Capital 2024/I). As of March 31, 2025, the Authorized Capital 2022/I and 2022/II had been fully utilized, and EUR 10,000,000.00 of the Authorized Capital 2024/I had been utilized. As of March 31, 2025, EUR 5,800,000.00 had already been paid in, but was still registered in the commercial register; furthermore, EUR 4,200,000.00 had been approved but not paid yet.

Disclosures and Explanations on Provisions and Deferred Income

Other provisions total EUR 5,736,625.36 (prior year: EUR 7,540,743.00). This primarily includes provisions for outstanding invoices and personnel provisions. Revenues for dependent warranty services have been deferred since the financial year.

Remaining maturities

Payables due within one year amount to EUR 8,067,543.36 (prior year: EUR 12,782,141.29). Trade receivables and other assets have a remaining maturity of up to one year EUR 6,966,418.02 (prior year: EUR 5,822,867.61). Trade receivables include receivables from affiliated companies amounting to EUR 581,407.75 (prior year: EUR 0).

Notes to the income statement

Notes on income and expenses in exceptional amounts or of exceptional incidence

Expenses in exceptional amounts or of exceptional incidence significant within the meaning of Sec. 285 No. 31 HGB include in detail:

- Event expenses in the amount of EUR 1,893,631.58 (prior year: EUR 2,453,280.59)
- External services in the amount of EUR 2,532,823.90 (prior year: EUR 3,748,531.40)

Income from currency translation is recorded in the statement of profit and loss under "Gross profit" in the amount of EUR 208,773.10 (prior year: EUR 16,485.77). Expenses from currency translation are recorded separately under "Other operating expenses" in the amount of EUR 340,122.15 (prior year: EUR 177,908.87) shown separately. In addition, the item "Other operating expenses" includes expenses relating to other periods in the amount of EUR 111,492.14 (prior year: EUR 38,374.66), while "Gross profit" includes income relating to other periods in the amount of EUR 665,705.00 (prior year: EUR 488,977.80).

Other disclosures

Average number of staff employed in the financial year

The average number of staff employed by the company during the financial year was 111 (prior year: 116).

	2025	2024
DESIGN & ENGINEERING	**54**	56
OTHER DEPARTMENTS	**57**	60
Total	**111**	116

Other financial obligations

Other financial obligations within the meaning of Section 285 no. 3a HGB result from leasing contracts in the amount of EUR 422,967.00 and rent payments from long-term contracts in the amount of EUR 212,988.00.

Names of the managing directors

During the reporting year, the management of the company was in the hands the following persons:

Director: Dellacha, Paolo, CEO, *01.01.1975 (from 03.02.2023)

In accordance with Sec. 286 (4) HGB, the Company did not disclose the information pursuant to section 285 No. 9 characters a) and b) HGB.

Information on shareholding in other companies of at least 20 per cent of the shares

In accordance with Sec. 285 No. 11 HGB, the following companies are included:

Company name, place of business	Share	Profit or loss EUR	Equity EUR
Automobili Pininfarina Inc. Delaware	100 %	1,629	9,576

Group affiliation

Automobili Pininfarina GmbH (based in: Munich) prepares consolidated financial statements for the smallest group of companies.

Mahindra & Mahindra Limited (based: Mumbai) prepares consolidated financial statements for the largest group of companies. The consolidated financial statements are available on the homepage of the parent company (https://www.mahindra.com/investor-relations/reports).

Suggestion of the appropriation of profits

In accordance with the shareholders, the Company proposes the following appropriation of profits:

The net loss for the financial year amounts to EUR 19,443,297.90. It is carried forward to the next year.

Signature of management

Munich, .30 April 2025 Paolo Dellachà

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors & Stockholders

Automobili Pininfarina Americas Inc.

Opinion

We have audited the accompanying financial statements of Automobili Pininfarina Americas Inc. (the "Company"), which comprise the balance sheets as of March 31, 2025, and March 31, 2024, and the related statements of income (loss), stockholder's equity and cash flows for the years then ended and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company, as of March 31, 2025, and March 31, 2024, and the results of its operations and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Notes to Financial Statements

NOTE A – NATURE OF OPERATIONS

Automobili Pininfarina Americas Inc. (hereinafter referred to as "APA" or "the Company") was converted to a Delaware corporation on January 23, 2019 through the conversion of a Delaware Limited Liability Company, under the name of Harkey Acquisition, LLC. The Company is a wholly owned subsidiary of Automobili Pininfarina GmbH (hereinafter referred to as "the Parent Company").

The Parent Company acquired 100% membership interest of Harkey Acquisition, LLC (hereinafter referred to as "the LLC") on January 15, 2019 from Oakland Standard Co., LLC ("the Seller"). No capital contribution was made by the Seller in the LLC. Post acquisition, a plan of conversion to a Corporation was adopted and the LLC was converted and renamed as "Automobili Pininfarina Americas Inc.".

The Company is in the start-up phase. The Parent Company plans to manufacture and distribute, directly or indirectly, to retail customers, a luxury vehicle known as the Battista. Distribution of Battista in the United States of America will be through the Company.

Automobilli Pininfarina Americas Inc. provides business support services to the Parent Company in form of marketing and other support services.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. *Basis of preparation*
   a) The accompanying financial statements are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ('US GAAP') to reflect the financial position, results of operations and cash flows of the Company.
   b) The financial statements are for the years ended March 31, 2025 and March 31, 2024.
   c) All amounts are stated in United States Dollars, unless specified otherwise.

2. *Use of estimates*

   The preparation of financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The management's estimates for recognition of deferred tax assets, valuation allowance, warranty provision and accruals at the balance sheet date represent certain of these particularly sensitive estimates. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Any revisions in accounting estimates are recognized prospectively in the current and future periods.

3. *Cash*

   Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to $ 250,000 for each insured bank for each account per depositor at each financial institution.

4. *Revenue recognition*

   The Company provides business support services to the Parent Company. The Company determines the standalone prices using the expected cost-plus margin approach. Cost includes specific direct costs like professional charges and other charges like bank charges. Margin is computed using data related to historical margins and prevalent market conditions. Revenues from business support services are recognized over a period of time as the services are performed.

   APA subcontracts the work to Automobili Pininfarina GmbHy, its Parent Company, which in turn raises an expense charge on APA such that APA retains a mark-upon its operating costs for provision of marketing, business development and customer relationship management services to the Parent Company.

5. *Accounts receivable and allowance for expected credit losses*

   Accounts receivable from customers are recorded at the original invoiced amounts net of an allowance for doubtful accounts. In accordance with Accounting Standards Codification (ASC) 326, "Financial Instruments—Credit Losses," accounts receivable are initially recorded at the invoiced amount, net of an allowance for expected credit losses. The Company evaluates the adequacy of the allowance for credit losses on a regular basis, considering various factors such as historical loss experience, current market conditions, the aging of receivables, payment terms, and forward-looking loss expectations.

6. *Income taxes*

   In accordance with the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 740 "Income Taxes," income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in

Notes to Financial Statements

statements of income (loss in the period that includes the enactment date. The deferred tax asset is reduced by a valuation allowance if it is more likely than not that some portion or all of the asset will not be realized. All deferred tax assets and liabilities, along with any related valuation allowance, are classified as noncurrent on the balance sheets.

7. *Fair value measurements and financial instruments*

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

The Company's financial instruments consist of cash and other current liabilities. The estimated fair value of cash and other current liabilities approximate their carrying amounts due to the short-term nature of these instruments. None of these instruments is held for trading purposes.

8. *Commitments and contingencies*

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

NOTE C – CASH

Cash include the following:

	As of March 31, 2025	March 31, 2024
Balances with banks	**2,025,526**	1,428,104
Total	**2,025,526**	1,428,104

NOTE D – ACCOUNTS RECEIVABLE, NET

Accounts receivable include the following:

	As of March 31, 2025	March 31, 2024
Accounts receivable	**461,083**	–
Less: provision for expected credit loss	**–**	–
Total	**461,083**	–

NOTE E – PREPAID AND OTHER CURRENT ASSETS

Prepaid and other current assets comprise the following:

	As of March 31, 2025	March 31, 2024
Advance tax	**1,921**	–
Prepaid expenses	**–**	121,107
Total	**1,921**	121,107

NOTE F – ADVANCES FROM CUSTOMERS

The Company has entered into contracts with multiple customers, wherein the Company will sell Luxury Vehicle Batistta ("the vehicle") to the customers. The vehicle will be manufactured by the Parent Company and sold to the Company. The Company in turn will sell the vehicle to the customers through a dealer. Pursuant to the aforesaid arrangement the customer will pay advances on milestone basis to the Company. As of March 31, 2025, the aggregate advances received from the customers amounted to $2,364,700 (March 31, 2024: $5,762,489).

NOTE G – OTHER CURRENT LIABILITIES

Other current liabilities include the following:

	As of March 31, 2025	March 31, 2024
Accrued expenses	**12,800**	12,900
Warranty provision	**2,738**	2,738
Payables for expenses	**217**	252,855
Provision for taxation	–	2,241
Total	**15,755**	270,734

Notes to Financial Statements

NOTE H – INCOME TAXES

The Company will file federal and state tax returns as per regulations applicable to Chapter C corporations in the United States.

The components of the provision for income taxes are as follows:

	For the year ended	
	March 31, 2025	March 31, 2024
Current taxes		
Federal tax	**33**	691
State tax	**591**	1,250
Total	**624**	1,941

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's net deferred income taxes are as follows:

	As of	
	March 31, 2025	March 31, 2024
Non-current deferred tax assets		
Startup costs	**6,455**	6,404
Total deferred tax assets	**6,455**	6,404
Deferred tax liability		
Unrealised forex gain	**2,362**	2,170
Total deferred tax assets	**2,362**	2,170
Net deferred taxes	**8,818**	8,574
Less: valuation allowance	**(8,818)**	(8,574)
Total deferred tax assets	**–**	–

Realization of net deferred tax assets is dependent upon generation of sufficient taxable income in future years, benefit from the reversal of taxable temporary differences and tax planning strategies. Management assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit use of the existing deferred tax assets. The amount of net deferred tax assets considered realizable is subject to adjustment in future periods if estimates of future taxable income change.

Based on the current year and previous year losses, the management believes that it is more likely than not that the deferred tax assets may not be realized during the forseeable future and accordingly a valuation allowance of $8,818 and $8,574 has been recorded as of March 31, 2025, and March 31, 2024, resepctively.

No deferred tax assets were recognized as of March 31, 2025 and March 31, 2024.

Accounting for uncertain tax position

The Company recognizes the benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. The Company has no unrecognized tax positions as at March 31, 2025 and March 31, 2024.

The tax years of 2021 and 2023, remain subject to examination by the taxing authorities.

NOTE I – RELATED PARTY TRANSACTIONS

Related parties with whom transactions have taken place during the year:

- Automobili Pininfarina GmbH- the Parent Company

	March 31, 2025	March 31, 2024
Transactions for the year		
Purchase of the vehicle	**10,290,711**	21,354,422
Purchase of the extended warranty	**–**	1,051,983
Balances		
Receivable from Parent company	**–**	4,492,618
Payable to Parent Company	**115,718**	–

NOTE J – COMMON STOCK

Common stock authorized, issued and outstanding

The authorized share capital of the Company consists of 2,000 common shares of par value $25 each as of March 31, 2025 and March 31, 2024.

Common stock issued as of March 31, 2025 and March 31, 2024 was 1,600 shares of $ 25 each.

Voting

Each holder of common stock is entitled to one vote in respect of each share held as per the records of the Company for all matters submitted to a vote.

Notes to Financial Statements

Liquidation

In the event of liquidation of the Company, the holders of common stock shall be entitled to receive all of the remaining assets of the Company, after distribution of all preferential amounts, if any. Such amounts will be in proportion to the number of equity shares held by the shareholders.

NOTE K – REVENUE, NET

The following table presents revenue disaggregated by source of revenue and classification:

	For the year ended	
	March 31, 2025	March 31, 2024
Revenue from external customers	**10,579,853**	22,076,208
Less: purchase of the vehicle from Parent Company *(Refer note I)*	**(10,290,711)**	(21,354,422)
Less: purchase of ancillary items from external parties	**(233,599)**	(690,726)
Revenues, net	**55,543**	31,060

NOTE L – FAIR VALUE MEASUREMENTS

Financial assets and liabilities held by the Company are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

NOTE M – RISK AND UNCERTAINTIES

The Company's future results of operations involve several risks and uncertainties. Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes and the Company's ability to execute on its business plan.

NOTE N – SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date the financial statements were available to be issued (April 11, 2025). Based on the evaluation, the Company is not aware of any events or transactions that would require recognition or disclosure in the financial statements.

AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MAHINDRA RACING UK LIMITED

Opinion

We have audited the financial statements of Mahindra Racing UK Limited (the 'Company') for the year ended 31 March 2025, which comprise the Statement of comprehensive income, the Balance sheet, the Statement of changes in equity and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2025 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United Kingdom, including the Financial Reporting Council's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the Annual Report other than the financial statements and our Auditors' report thereon. The directors are responsible for the other information contained within the Annual Report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report or the Directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Directors' responsibilities statement set out on page herein, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- Enquiry of management and those charged with governance on management's assessment of risk and management's processes for identifying and responding to the risks of fraud in the entity;
- Enquiry of management and those charged with governance around actual and potential litigation and claims;
- Enquiry of entity staff in compliance functions to identify any instances of non-compliance with laws and regulations;
- Performing audit work over the risk of management override of controls, including testing of journal entries and other adjustments for appropriateness, evaluating the business rationale of significant transactions outside the normal course of business and reviewing accounting estimates for bias;
- Reviewing minutes of meetings of those charged with governance; and
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditors' report.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an Auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

1. General Information

Mahindra Racing UK Limited is a private company limited by shares, incorporated in England and Wales within the UK. The address of the registered office and the registration number are given in the company information page of these financial statements.

2. ACCOUNTING POLICIES

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies (see note 3).

The Company's Statement of Financial Position has been adapted and prepared in accordance with Section 4.2A of Financial Reporting Standard 102.

The following principal accounting policies have been applied:

2.2 Financial reporting standard 102 - reduced disclosure exemptions

The Company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by the FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland":

- the requirements of Section 7 Statement of Cash Flows;
- the requirements of Section 3 Financial Statement Presentation paragraph 3.17(d);
- the requirements of Section 11 Financial Instruments paragraphs 11.42, 11.44 to 11.45, 11.47, 11.48(a)(iii), 11.48(a)(iv), 11.48(b) and 11.48(c);
- the requirements of Section 12 Other Financial Instruments paragraphs 12.26 to 12.27, 12.29(a), 12.29(b) and 12.29A;
- the requirements of Section 33 Related Party Disclosures paragraph 33.7.

This information is included in the consolidated financial statements of Mahindra & Mahindra Ltd as at 31 March 2025 and these financial statements may be obtained from Mahindra Towers, Dr. G. M. Bhosale Marg, Worli, Mumbai, 400 018, India.

2.3 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Statement of comprehensive income within 'finance income or costs'. All other foreign exchange gains and losses are presented in profit or loss within 'other operating income'.

2.4 Revenue

Sponsorship revenue, apart from that receivable from the parent company, is recognised evenly over each race season in line with the number of races that have taken place prior to the year end, or to the extent that it is probable that the economic benefits will flow to the Company in line with the sponsorship agreement. Sponsorship revenue received from the parent company is recognised when it is due. Value in kind sponsorship is recognised in accordance with fulfillment of conditions per sponsorship agreements. Sponsorship revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

2.5 Operating leases: the Company as lessee

Rentals paid under operating leases are charged to profit or loss on a straight-line basis over the lease term.

2.6 Research and development

Expenditure on development are recognised as an expense when incurred and are not capitalised.

2.7 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.8 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.9 Borrowing costs

All borrowing costs are recognised in profit or loss in the year in which they are incurred.

2.10 Pensions

Defined contribution pension plan

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance sheet. The assets of the plan are held separately from the Company in independently administered funds.

2.11 Intangible Assets

Intangible assets are initially recognised at cost. After recognition, under the cost model, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

All intangible assets are considered to have a finite useful life. If a reliable estimate of the useful life cannot be made, the useful life shall not exceed ten years.

2.12 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Long-term leasehold property	- Lower of lease period and useful life
Plant and machinery	- 33% Straight line
Fixtures and fittings	- 20% Straight line
Office equipment	- 33% Straight line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.13 Impairment of fixed assets

Assets that are subject to depreciation or amortisation are assessed at each balance sheet date to determine whether there is any indication that the assets are impaired. Where there is any indication that an asset may be impaired, the carrying value of the asset is tested for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

2.14 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment

2.15 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.16 Creditors

Short-term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.17 Provisions for Liabilities

Provisions are recognised when an event has taken place that gives rise to a legal or constructive obligation, a transfer of economic benefits is probable and a reliable estimate can be made.

Provisions are measured as the best estimate of the amount required to settle the obligation, taking into account the related risks and uncertainties.

Increases in provisions are generally charged as an expense to profit or loss.

2.18 Financial Instruments

The Company has elected to apply the provisions of Section 11 “Basic Financial Instruments” of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the Company's Balance sheet when the Company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include trade and other debtors, cash and bank balances, are initially measured at their transaction price (adjusted for transaction costs except in the initial measurement of financial assets that are subsequently measured at fair value through profit and loss) and are subsequently carried at their amortised cost using the effective interest method, less any provision for impairment, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Discounting is omitted where the effect of discounting is immaterial. The Company's cash and cash equivalents, trade and most other debtors due with the operating cycle fall into this category of financial instruments.

Financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after the deduction of all its liabilities.

Basic financial liabilities, which include trade and other creditors, bank loans and other loans are initially measured at their transaction price (adjusting for transaction costs except in the initial measurement of financial liabilities that are subsequently measured at fair value through profit and loss). When this constitutes a financing transaction, whereby the debt instrument is measured at the present value of the future payments discounted at a market rate of interest, discounting is omitted where the effect of discounting is immaterial.

Debt instruments are subsequently carried at their amortised cost using the effective interest rate method.

Trade creditors are obligations to pay for goods and services that have been acquired in the ordinary course of business from suppliers. Trade creditors are classified as current liabilities if the payment is due within one year. If not, they represent non-current liabilities. Trade creditors are initially recognised at their transaction price and subsequently are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial.

2.19 Going Concern

The financial statements have been prepared on a going concern basis. The Directors have considered relevant information, including the annual budget, forecast future cash flows and the impact of subsequent events in making their assessment.

Based on these assessments and having regard to the resources available to the entity, the Directors have concluded that there is no material uncertainty that they can continue to adopt the going concern basis in preparing the annual report and accounts.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described above, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Dilapidations provision

Dilapidation provision has been recognised on a yearly basis in line with the signed lease contract which will be expiring in 2027.

Depreciation rates

Management apply judgement on the estimated useful life of each class of fixed assets and their useful lives.

4. Turnover

An analysis of turnover by class of business is as follows:

	2025	2024
	£	£
Sponsorship income and race prize monies	**30,565,318**	27,785,946
Sale of goods, services and support to third parties	**310,609**	1,348,011
	30,875,927	29,133,957

Analysis of turnover by country of destination:

	2025	2024
	£	£
Europe	**310,609**	1,348,011
Rest of the world	**30,565,318**	27,785,946
	30,875,927	29,133,957

5. Other operating income

	2025	2024
	£	£
Research & Development grant income	**1,318,861**	1,253,276
	1,318,861	1,253,276

6. Operating (loss)/profit

The operating (loss)/profit is stated after charging:

	2025	2024
	£	£
Research & development charged as an expense	**2,198,101**	1,928,117
Exchange differences	**(27,621)**	(17,085)
Other operating lease rentals	**262,846**	319,560
Depreciation	**942,938**	1,171,507

7. Auditor's remuneration

	2025	2024
	£	£
Fees payable to the Company's auditors for the audit of the Company's financial statements	**16,000**	16,000

8. Employees

Staff costs, including directors' remuneration, were as follows:

	2025	2024
	£	£
Wages and salaries	**5,394,647**	4,652,283
Social security costs	**727,704**	547,157
Pension costs	**268,161**	264,352
	6,390,512	5,463,792

The average monthly number of employees during the year was as follows:

	2025	2024
	No.	No.
Employees	**64**	51
Directors	**5**	5
	69	**56**

9. Directors' remuneration

	2025	2024
	£	£
Directors' emoluments	**727,656**	617,914
Pension costs	**36,383**	62,137
	764,039	680,051

During the year retirement benefits were accruing to 2 directors (2024 - 2) in respect of defined contribution pension schemes.

The highest paid director received remuneration of £539,550 (2024 - £490,522).

The pension contributions paid in respect of the highest paid director amounted to £26,977 (2024 - £24,167).

10. Interest Receivable

	2025	2024
	£	£
Bank interest receivable	**69,257**	46,546
	69,257	46,546

11. Interest Payable and Similar expenses

	2025	2024
	£	£
Loan interest payable	**153,533**	137,408
	153,533	137,408

12. Taxation

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2024 - lower than) the standard rate of corporation tax in the UK of 25% (2024 - 25%). The differences are explained below:

	2025	2024

INDEPENDENT AUDITORS' REPORT

To the Members of Mahindra Last Mile Mobility Limited
Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Mahindra Last Mile Mobility Limited (the "Company") which comprise the balance sheet as at 31 March 2025, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Management's and Board of Directors Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.

- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2 A. As required by Section 143(3) of the Act, we report that:

a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2(B)(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

c. The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

e. On the basis of the written representations received from the directors as on various dates is April taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act.

f. the modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(A)(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

a. The Company has disclosed the impact of pending litigations as at 31 March 2025 on its financial position in its financial statements - Refer Note 35 to the financial statements.

b. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 31 to the financial statements.

c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

d. (i) The management has represented that, to the best of their knowledge and belief, as disclosed in the Note 40 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(ii) The management has represented that, to the best of their knowledge and belief, as disclosed in the Note 40 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.

e. The final dividend paid by the Company during the year, in respect of the same declared for the previous year, is in accordance with Section 123 of the Act to the extent it applies to payment of dividend.

   As stated in Note 16 to the financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

f. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software except that the audit trail was not enabled at the database level to log any direct data changes for such accounting software used for maintaining the books of account till 05 July 2024. Further, where audit trail (edit log) facility was enabled and operated throughout the year for the accounting software, we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

   In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS OF MAHINDRA LAST MILE MOBILITY LIMITED FOR THE YEAR ENDED 31 MARCH 2025

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified once in three years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the Company.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The inventory, except goods-in-transit and stocks lying with third parties, has been physically verified by the management during the year. For stocks lying with third parties at the year-end, written confirmations have been obtained and for goods-in-transit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company was not required to file any quarterly returns or statements with such banks.

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. The Company has granted unsecured loans to companies and other parties during the year in respect of which the requisite information is as below.

(a) Based on the audit procedures carried on by us and as per the information and explanations given to us the Company has provided loans as below:

Particulars	Loans (in lakhs)
Aggregate amount during the year	
Fellow Subsidiaries*	3,900
Others	30
Balance outstanding as at balance sheet date	
Fellow Subsidiaries*	Nil
Others	29.63

**As per the Companies Act, 2013*

(b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the terms and conditions of the grant of loans provided during the year are, prima facie, not prejudicial to the interest of the Company.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given, in our opinion the repayment of principal and payment of interest has been stipulated and the repayments or receipts have been regular. Further, the Company has not given any advance in the nature of loan to any party during the year.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no overdue amount for more than ninety days in respect of loans given. Further, the Company has not given any advances in the nature of loans to any party during the year.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to same parties.Further, the Company has not given any advances in the nature of loans to any party during the year.

(f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.Further, the Company has not given any advances in the nature of loans to any party during the year.

(iv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not provided any guarantee or security as specified under Section 185 and 186 of the Companies Act, 2013 (“the Act”). In respect of the loans given and investments made by the Company, in our opinion the provisions of Section 185 and 186 of the Act have been complied with.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Act in respect of its goods and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not carried out a detailed examination of the records with a view to determine whether these are accurate or complete.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the undisputed statutory dues including Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues have generally been regularly deposited by the Company with the appropriate authorities.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues were in arrears as at 31 March 2025 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues, which have not been deposited with the appropriate authorities on account of any dispute.

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.

(c) In our opinion and according to the information and explanations given to us by the management, the Company has not obtained any term loans. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) The Company does not hold any investment in any subsidiaries, associates or joint ventures (as defined under the Act) during the year ended 31 March 2025. Accordingly, clause 3(ix)(e) is not applicable.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies (as defined under the Act).

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of fully or partly convertible debentures during the year. In our opinion, in respect of private placement of preference shares made during the year, the Company has duly complied with the requirements of Section 42 of the Act. The proceeds from issue of preference shares have been used for the purposes for which the funds were raised. Further, the Company has not made any preferential allotment of shares and Section 62 of the Act is not applicable.

(xi) (a) During the course of our examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the year.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) We have taken into consideration the whistle blower complaints received under the vigil mechanism established voluntarily by the Company during the year and shared with us while determining the nature, timing and extent of our audit procedures.

(xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports of the Company issued till date for the period under audit.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) has more than one CIC as part of the Group. The Group has four CICs as part of the Group.

(xvii) The Company has not incurred cash losses in the current and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Act pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS OF MAHINDRA LAST MILE MOBILITY LIMITED FOR THE YEAR ENDED 31 MARCH, 2025

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra Last Mile Mobility Limited ("the Company") as of 31 March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Nature and purpose of Reserves

(a) Capital Reserve

Capital reserve mainly represents the amount of consideration paid over and above the book value of net assets acquired under the Business Transfer Agreement (BTA), which is accounted as a common control transaction in accordance with Ind AS 103 Business Combinations.

(b) Retained earnings

Retained earnings comprises of accumulated balance of profits of the current period and prior periods. The said reserve can be utilized or distributed by the Company in accordance with the provisions of the Companies Act, 2013.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

1. General Information

Mahindra Last Mile Mobility Limited ('the Company') is an unlisted public limited company domiciled in India and is incorporated under the provisions of Companies Act, 2013. The registered office of the Company is located at Mahindra Towers, Pandurang Budhkar Marg, Worli, Mumbai 400018, Maharashtra.

The Company is a wholly owned subsidiary of Mahindra & Mahindra Limited (M&M). Last year, the Company had acquired assets/ business relating to Last Mile Mobility pursuant to Business Transfer Agreement (BTA) and Asset Transfer Agreement (ATA) entered into with M&M as at 1st September 2023.

International Finance Corporation ('IFC') has invested Rs. 60,000.00 lakhs in Compulsorily Convertible Preference Shares ('CCPS') and India Japan Fund (IJF) has invested Rs. 40,000.00 lakhs in CCPS as on 31st March 2025.

2. Significant Accounting Policies

(a) Statement of compliance and basis of preparation and presentation

These standalone or separate financial statements of the Company have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

These financial statements were approved by the Company's Board of Directors and authorised for issue on 23rd April 2025

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values in accordance with Ind AS.

(c) Measurement of fair values

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedures with respect to the measurement of fair values.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities;

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly;

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(d) Use of estimates and judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Key sources of estimation, uncertainty, critical judgments and assumptions at the date of financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of the below:

(i) Useful lives of property, plant and equipment and other intangible assets - refer note 2(e) & 2(f).

(ii) Provision for product warranties - refer note 2(p).

(iii) Fair value of financial assets, liabilities and investments - refer note 2(j).

(iv) Impairment of tangible and intangible assets including investments - refer note 2(g).

(e) Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment, if any.

Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related accumulated depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the Statement of Profit and Loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:

Asset Class	Useful lives
i) Certain items of Plant and equipment	2 to 20 years
ii) Buildings	3 to 30 years
iii) Vehicles	2 to 5 years

(f) Intangible assets

Intangible assets under development

The Company expenses costs incurred during research phase to profit or loss in the year in which they are incurred. Development phase expenses are initially recognised as intangible assets under development until the development phase is complete, upon which the amount is capitalised as intangible asset.

Intangible assets

Intangible assets are initially recognised at cost.

Subsequent to initial recognition, intangible assets with definite useful lives are amortised on a straight line basis so as to reflect the pattern in which the asset's economic benefits are consumed and are reported at cost less accumulated amortisation and accumulated impairment losses, if any.

The intangible assets are amortised over the estimated period of benefit as below:

Asset Class	Useful lives
i) Development expenditure	3 to 5 years
ii) Brand and IP	3 to 30 years
iii) Computer software	3 to 4 years

The amortisation period for intangible assets are reviewed annually and changes in expected useful lives are treated as changes in estimates.

(g) Impairment of assets

At the end of the reporting period, the Company reviews the carrying amounts of its tangible assets and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash-generating unit, as the case may be, is estimated and impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

When an impairment loss subsequently reverses, the carrying amount of the asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) earlier.

Intangible assets not yet available for use are tested for impairment annually or whenever there is an indication that the asset may be impaired.

(h) Inventories

Inventories are carried at cost or net realisable value whichever is lower. Cost is determined on the basis of the weighted average method and comprises of all cost of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

(i) Foreign exchange transactions and translation

Transactions in foreign currencies i.e. other than the Company's functional currency of Indian Rupees are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the functional currency using exchange rates prevailing at that date. Non-monetary items measured at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value is determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

(j) Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

On initial recognition, a financial asset is classified as measured at

- Amortised cost - debt instrument; or
- Fair Value through Other Comprehensive Income (FVTOCI) - debt instrument; or
- Fair Value through Other Comprehensive Income (FVTOCI) - equity instrument; or
- Fair Value through Profit or Loss (FVTPL)

The classification of debt instrument as amortised cost or FVTOCI is based on the business model and cash flow characteristics of such instrument.

Financial assets are not reclassified subsequent to their initial recognition, except if the Company changes its business model for managing financial assets.

A financial asset not classified as measured at amortised cost or FVTOCI is measured at FVTPL.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment expenses are recognised in profit or loss. Any gain and loss on derecognition is also recognised in profit or loss.

Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows from financial asset in a manner that substantially all the risks and rewards of ownership of the asset are transferred to another party. If the Company neither transfers nor retains substantially all of the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for the amount it may have to pay.

If the Company enters into transactions whereby it transfers assets recognised on its Balance Sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised and the proceeds received are recognised as a collateralised borrowing.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Impairment of financial assets

The Company applies the Expected Credit Loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables and loans, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVTOCI, the loss allowance is recognised in OCI and is not reduced from the carrying amount of the financial asset in the Balance Sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

(k) Revenue Recognition

Sale of goods or services

Revenue from sale of goods are recognised upon satisfaction of performance obligation which is at a point in time, generally on delivery of the goods, when control of the goods is transferred to customers. Revenue from services are recognised upon satisfaction of performance obligation towards rendering of such services.

The Company recognises revenue from sale of goods or services at the amount of transaction price (excluding variable consideration that is constrained), that is allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects it to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of third parties.

An amount of consideration can vary because of discounts, rebates, incentives etc. which are explicitly stated in the contract or are as per customary business practices. The consideration can also vary where

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

the entitlement is contingent on occurrence or non-occurrence of a future event. The Company includes variable consideration as part of transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved. Variable consideration is estimated using the expected value method or the most likely amount depending on which method the Company expects to better predict the amount of consideration to which it will be entitled and is applied consistently throughout the contract.

Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

Dividend and Interest income

Dividend from investments are recognised in profit or loss when the right to receive payment is established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

(l) Government Grants

The Company, directly or indirectly through a consortium of Mahindra Group companies, is entitled to various incentives from government authorities. Government grants are recognised when there is a reasonable assurance that the same will be received and all attached conditions will be complied with.

Government grants that are revenue in nature, are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

(m) Employee Benefits

ESIC and Labour Welfare Fund

The Company's contribution paid / payable during the year to ESIC and Labour Welfare Fund are recognised in profit or loss.

Provident Fund

Contributions to Provident Fund are made to Regional Provident Fund Commissioners and are charged to profit or loss as incurred.

Gratuity, long term compensated absences, post retirement medical benefit and post retirement housing allowance schemes

The liability towards gratuity, long term compensated absences, post retirement medical benefit and post retirement housing allowance schemes are determined by independent actuaries, using the projected unit credit method.

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in Balance Sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

Share based payments

Share-based payments to employees are the charged by the Holding Company over the vesting period in accordance with the ESOP scheme and is recognized as share based payment expenses under Employee Benefit Expenses

(n) Borrowing Costs

Borrowing costs attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale except for the period the construction activities are temporarily suspended. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(o) Income Taxes

Current tax

The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and current tax liabilities are offset, if entity has a legally enforceable right to set off recognised amounts and intends to settle on net basis or to realise the current tax asset and settle the current tax liabilities simultaneously.

Deferred tax

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities, and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax assets including that on unused tax losses and unused tax credits are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

(p) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of these cash flows (when the effect of the time value of money is material).

Provisions for the expected cost of warranty obligations are recognised at the time of sale of the relevant products, at the best estimate of the expenditure required to settle the Company's obligation. The provisions are reviewed at each Balance Sheet date and adjusted to reflect the current best estimate.

(q) Leases

The Company as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost.

The right-of-use assets are subsequently depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. In addition, the right-of-use asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. The lease liability is initially measured at amortised cost at the present value of the future lease payments, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using the incremental borrowing rate.

It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

(r) Business Combinations

Business Combination under common control are accounted under "the pooling of interest method" i.e. in accordance with Appendix C in Ind AS 103 - Business combinations, at carrying amount of assets and liabilities acquired and any excess of consideration issued over the net assets acquired is recognised as capital reserve on common control business combination.

(s) Non-current assets held for sale

Non-current assets or disposal groups are classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying value and fair value less costs to sell.

3. Recent Accounting Pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

4. Property, Plant and Equipment

Property, plant and equipment comprise of owned and leased assets that do not meet the definition of Investment property.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

31. Financial Instruments (continued)

Financial Instruments regularly measured using Fair Value - recurring items

Particulars	Financial Asset / Financial Liability	Category	As on 31st March 2025	As on 31st March 2024	Fair Value Hierarchy	Valuation technique(s)
Derivative asset for Compulsorily Convertible Preference Shares (Refer Note 41)	Financial Asset	Financial instruments measured at FVTPL	–	363	Level 3	Income Approach - Discounted Cash Flow/Market Multiple
Investments	Financial Asset	Financial instruments measured at FVTPL	1,001	14,074	Level 1	Net Asset value
Compulsorily Convertible Preference Shares	Financial Liability	Financial instruments measured at FVTPL	101,887	52,172	Level 3	Income Approach - Discounted Cash Flow/Market Multiple
Foreign Currency Forwards	Financial Liability	Financial instruments measured at FVTPL	497	–	Level 2	Discounted Cash Flow
Derivative liability for Compulsorily Convertible Preference Shares (Refer Note 41)	Financial Liability	Financial instruments measured at FVTPL	–	2,535	Level 3	Income Approach - Discounted Cash Flow/Market Multiple

Reconciliation of Level 3 fair value measurements of financial instruments measured at fair value :

Particulars	For the period ended 31st March 2025	For the period ended 31st March 2024
Opening Balance	**52,172**	–
Total gains or losses recognised:		
a) in profit/(loss)	**(2,458)**	4,345
b) in other comprehensive income	**–**	–
c) transferred (to)/ from other current assets/ (liabilities)	**2,173**	(2,173)
Issued during the period	**50,000**	50,000
Closing balance	**101,887**	52,172

31.01 Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There have been no transfers among Level 1, Level 2 and Level 3 during the period.

31.02 Financial Risk Management Objective And Policies

In the course of its business, the Company is exposed to a certain financial risks namely credit risk, liquidity risk, currency risk and interest risk. The Company's primary focus is to achieve better predictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The financial risks are managed in accordance with the risk management policy which has been approved by Board of Directors of the Company.

31.03 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from the Company's trade receivables. Credit risk arises from cash held with banks and financial institutions as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The Company's trade and other receivables are actively monitored to review credit worthiness of the customers to whom credit terms are granted and also avoid significant concentrations of credit risks.

Reconciliation of loss allowance for Trade Receivables:

(Rs. in lakhs)

Particulars	For the period ended 31st March 2025	For the period ended 31st March 2024
Balance as at beginning of the period	**4**	–
Additions during the period	**45**	4
Balance as at end of the period	**49**	4

The Company continuously monitors receivables from customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls.

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry section.

Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Information about major customers

During the period ended 31st March 2025, no revenues from transactions with a single external customer amount to 10% or more of the Company's revenues from external customers.

31.04 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

31. Financial Instruments (continued)

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

(Rs. in lakhs)

Particulars	1 year or less	1 year to 3 years	3 years to 5 years	5 years and above	Total
As on 31st March 2025					
Dealer Deposit	–	–	–	1,076	1,076

Lease Liabilities	717	–	396	–	1,113
Total	**63,255**	**–**	**396**	**655**	**64,306**

31.05 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

- Currency risk

Foreign Currency Exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in Foreign Currency Exchange rates. The Company's exposure to currency risk relates primarily to the Company's operating activities including sales and purchases where the transactions are denominated in a currency other than the Company's functional currency.

The Company's foreign currency exposures are managed in accordance with its Foreign Exchange Risk Management Policy which has been approved by its Board of Directors. The Company hedges its foreign currency risk mainly by way of forward covers.

The carrying amounts of the Company's foreign currency exposure at the end of the reporting period are as follows:-

(Rs. in lakhs)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

31. Financial Instruments (continued)

31.06 Capital Management

The Company's capital management strategy is to effectively determine, raise and deploy capital so as to create value for its shareholders. The same is done through a mix of either equity and/or preference and/or convertible and/or combination of short term/long term debt as may be appropriate.

The Company determines the amount of capital required on the basis of its product, capital expenditure, operations and strategic investment plans. The same is funded through a combination of capital sources be it either equity and/or preference and/or convertible and/or combination of short term/long term debt as may be appropriate.

The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio of the Company.

Net debt and Equity is given in the table below :

(Rs. in lakhs)

Particulars	For the period ended 31st March 2025	For the period ended 31st March 2024
Total Shareholders' Equity as reported in Balance Sheet	**198,650**	72,143
Less:		
Cash and cash equivalents	**(2,622)**	(3,329)
Bank balances other than cash and cash equivalents	**(85,341)**	(35,000)

32. Leases

As Lessee

The Company has taken on lease land, building and vehicles during the period for its operation. Leases of land has a lease terms of 2 years, buildings have a lease term of 2 years while motor vehicles generally have lease terms between 3 and 5 years.

In accordance with the requirements under Ind AS 116, Leases, the Company has recognized the lease liability and ROU assets at the present value of the future lease payments discounted at the incremental borrowing rate prevailing during the period. Weighted average incremental borrowing rates of 7.11% (land), 6.72%- 7.33% (buildings) and 10.51% (vehicles) have been applied to lease liabilities recognised in the balance sheet at the date of initial recognition.

The movement in carrying value of right of use assets during the period ended 31st March 2025 is provided in Note 4.

The following is the movement in lease liabilities:

(Rs. in lakhs)

Particulars	For the period ended 31st March 2025	For the period ended 31st March 2024
Balance at the beginning of the period	**1,113**	-
Additions during the period	**1,981**	1,456
Finance cost accrued during the period	**205**	55
Payment of lease liabilities	**(1,047)**	(376)
Deletions during the period	**(25)**	(22)
Balance at the end of the period	**2,227**	1,113

The following is the break-up of current and non-current lease liability

(Rs. in lakhs)

Particulars	For the period ended 31st March 2025	For the period ended 31st March 2024
Current lease liabilities	**561**	717
Non-current lease liabilities	**1,650**	396
Total	**2,211**	1,113

The following are the amounts recognised in profit or loss

(Rs. in lakhs)

	Particulars	For the period ended 31st March 2025	For the period ended 31st March 2024
i.	Depreciation charge for ROU assets (Refer Note 4)	**965**	393
ii.	Interest expense on lease liabilities (Refer Note 28)	**205**	62
iii.	Expense relating to short-term leases (Refer Note 30)	**72**	89
iv.	Expense relating to leases of low-value assets	**–**	104

The company had total cash outflows for leases of Rs. 1336 lakhs (PY 571 lakhs), including cash outflow of short-term leases.

33. Earnings per share

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

34. Employee Benefits

(a) Defined contribution plan

The Company's contribution to Provident Fund aggregating Rs. 611 lakhs has been recognised in Profit or Loss under the head Employee Benefits Expense.

Note: Where required by Ind AS 24 an entity discloses information about contributions to defined contribution plans for key management personnel. This is covered as a part of related party disclosures.

(b) Defined benefit plan:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

The Company operates one defined benefit plan, viz., gratuity, for its employees. Under the gratuity plan, every employee who has completed at least five years of service gets gratuity on departure at 20 days of last drawn salary for each completed year of service.

Through the defined benefit plan the Company is exposed to the following risks:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plan holds a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

The Company has chosen a suitable plan with Insurance, which augurs well with the Company's long term strategy to manage the plan efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings.

Life expectancy

Increase in life expectancy will result in an increase in the plan's liabilities, as the inflationary increases result in higher sensitivity to changes in life expectancy.

Note: An entity shall disclose description of any plan amendments, curtailments and settlements.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	**Actuarial Assumptions For the period ended 31st March 2025**	Actuarial Assumptions For the period ended 31st March 2024
Discount rate	**6.85%**	7.20%
Expected rate of salary increase	**9.00%**	9.00%
Attrition rate	**12.50%**	12.00%
Mortality Rates whilst in Service	**Indian Assured Lives Mortality (2012-14) Ultimate**	Indian Assured Lives Mortality (2012-14) Ultimate

Defined benefit plan – as per actuarial valuation

(Rs. in lakhs)

Particulars	**Unfunded Plan For the period ended 31st March 2025**	Unfunded Plan For the period ended 31st March 2024

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

34. Employee Benefits (Continued)

III. The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

(Rs. in lakhs)

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligations: Increase in assumption	Impact on defined benefit obligations: Decrease in assumption
Discount rate	**2025**	**1.00%**	**(127)**	**142**
Salary growth rate	**2025**	**1.00%**	**138**	**(125)**

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligations: Increase in assumption	Impact on defined benefit obligations: Decrease in assumption
Discount rate	2024	1.00%	(94)	106
Salary growth rate	2024	1.00%	103	(93)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method has been applied as when calculating the defined benefit liability recognised in the Balance Sheet.

The method and types of assumptions used in preparing the sensitivity analyses did not change compared to the previous period.

IV. Maturity profile of defined benefit obligation:

(Rs. in lakhs)

Particulars	For the period ended 31st March 2025	For the period ended 31st March 2024
Expected benefits for Year 1	**259**	181
Expected benefits for Year 2	**233**	157

Note:

i) The remuneration to the KMP does not include the provisions made for gratuity and leave benefits, as they are determined on an actuarial basis for the Company as a whole.

ii) Above shown Transaction Amounts are only Basic Amount Excluding Taxes if any.

iii) Company has entered into an arrangement with MMFSL for facilitating wider availability of financing to the retail customers of its products that could result in an obligation on occurrence of specified events in future.

Terms and conditions

All transactions with related parties are priced at arm's length basis and resulting outstanding balances are to be settled in cash within six months to one year of reporting date. None of the balances are secured.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

37. Research and Development Expenditure

(a) In recognised Research and Development units: Nil

(b) In other units:

(i) Expensed to Profit or Loss, including certain expenditure based on allocations made by the Company, aggregate Rs. 3,534 lakhs (PY 1,614 lakhs)

(ii) Development expenditure incurred during the year Rs. 14,839 lakhs (PY 18,715 lakhs)

(iii) Capitalisation of assets of Rs. 1,349 lakhs (PY 5,581 lakhs)

38. The Company has been incorporated on 29th May 2023. Thereafter, on 01 September 2023, the company acquired a business, on a going concern basis, by entering into a Business Transfer Agreement dated 01 September 2023 ("Business") with its parent entity Mahindra & Mahindra Limited. Pursuant to Appendix C of Indian Accounting Standard 'Ind AS 103 - Business Combinations', this transaction of business transfer is treated as business combination between common controlled entities. Consequently, the Company had to consider in its Financial Statements for the year ended 31st March 2024, all the business transactions relating to the said Business with effect from 29th May 2023 (date of incorporation of the Company) even though the actual business transfer has, contractually and legally, happened with effect from 01 September 2023. These financial statements include Rs 223 lakhs of profit, Rs 1,792 lakhs of cash flow from operations for the period 29th May 2023 to 31 August 2023. For the purpose of Tax Laws and all other applicable laws, the business transactions in respect of the said Business for the period 29th May 2023 to 31 August 2023 shall not form part of the Financial Statements of the Company for the year ended 31st March 2024 as the same have been transacted by the parent entity viz., Mahindra & Mahindra Limited and have been considered by it in its Financial Statements.

The Company entered into a Business Transfer Agreement (BTA) and Asset Transfer Agreement (ATA) with Mahindra & Mahindra Limited (Holding Company) as at 01 September 2023. Following are the details of assets and/ or liabilities transferred to the Company pursuant to the said ATA and BTA:

(Rs. in lakhs)

Sl No	Particulars	ATA at Fair Value
1	Property, plant and equipment (incl. Right-of-use assets) (net)	3,787
2	Capital work-in-progress and Intangibles under development	5,240
3	Intangible Assets (net)	5,241
4	Other Assets (includes Inventory, Government Incentive Receivable)	14,204
	Purchase Consideration	**28,472**

(Rs. in lakhs)

Sl No	Particulars	BTA at Book Value
1	Property, plant and equipment (incl. Right-of-use assets) (net)	19,468
2	Capital work-in-progress and Intangibles under development	2,618
3	Intangible Assets (net)	3,028
4	Other Assets (includes Inventory, Government Incentive Receivable)	24,407
5	Other Liabilities (includes Trade Payables, Dealer Accruals, Provision for Gratuity, Provision for Warranties and Service Coupons, Accrued expenses)	(15,262)
6	Capital Reserve	19,627
	Purchase Consideration	**53,886**

39. Disclosures related to micro, small and medium enterprises

The Company has amounts due to Micro and Small Enterprises under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED Act) as at 31st March 2025.

(i) Dues remaining unpaid at the end of each accounting year for micro and small enterprises		
- Principal amount	**4,696**	2,504
- Interest on the above	**13**	6
(ii) Interest paid in terms of Section 16 of the MSMED Act along with the amount of payment made to the supplier beyond the appointed day during the year		
- Principal paid beyond the appointed date	**–**	–
- Interest paid in terms of Section 16 of the MSMED Act	**–**	–
(iii) Amount of interest due and payable for the period of delay on payments made beyond the appointed day during the year	**–**	–
(iv) Further interest due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprises	**–**	–
(v) Amount of interest accrued and remaining unpaid	**13**	6

The above disclosures are provided by the Company based on the information available with the Company in respect of the registration status of its vendors / suppliers.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

40. Additional regulatory information pursuant to the requirement in Division II of Schedule III to the Companies Act 2013

a. Analytical Ratios

Ratio	Numerator	Denominator	For the period ended 31st March 2025	For the period ended 31st Mar 2024
a. Current ratio	Current Assets	Current Liabilities	**2.27**	1.97
b. Debt-equity ratio	Long term Borrowings + Short term Borrowings (including current maturities of long term borrowings)	Total equity	**–**	–
c. Debt service coverage ratio	Profit before interest, tax, depreciation, amortisation, impairments and exceptional items	Gross interest for the period + Principal repayments within a year	**–**	–
d. Return on equity ratio	Net profits after taxes	Average total equity	**29%**	4%
e. Inventory turnover ratio	Cost of materials consumed (1)	Average inventory	**11.29**	7.89
f. Trade receivables turnover ratio	Revenue from operations	Average trade receivables	**32.31**	21.93
g. Trade payables turnover ratio	Purchase of goods and services + Other Expenses	Average trade payables	**5.58**	4.16
h. Net capital turnover ratio	Revenue from operations	Average Working capital	**4.09**	3.27
i. Net profit ratio	Net profit after tax	Revenue from operations	**7%**	1%
j. Return on capital employed	Earning before interest and taxes	Capital employed (2)	**33%**	7%
k. Return on investment	Income earned on investments	Average Investment for the period (3)	**8%**	2%

(1) Cost of materials consumed for the purpose of Inventory turnover ratio includes Purchases of stock-in-trade and Changes in inventories of finished goods and stock-in-trade

(2) Capital Employed = Average Total Equity + Average Total Debt

(3) Investments includes current and non-current investments including Fixed deposits, Mutual funds.

Explanation for change in the ratios by more than 25%:

(i) Return on Equity (%) : Ratio has improved on account of increase in profit after tax in current year

(ii) Inventory Turnover (Times) : Ratio has increased on account of increase in sales and effective inventory management in current year

(iii) Trade Receivable Turnover (Times) : Ratio has increased on account of increase in sales and better collection management in current year

(iv) Trade Payable Turnover (Times) : Ratio has increased on account of better payment management for payment to suppliers and creditors in current year.

(v) Net Profit (%) : Ratio has improved on account of increase in profit for the year.

(vi) Return on Capital Employed (%) : Ratio has improved on account of increase in profit in current year

(vii) Return on Investment (%) : The ratio has increased due to higher mark to market gain on invested surplus and higher yields on investments during the year

b. The Company does not have any transactions/ balances with companies struck off.

c. The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.

d. The Company has not advanced or loaned or invested funds to any other persons or entities, including foreign entities (Intermediaries) with the understanding that the Intermediary shall:

a. directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or

b. provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

e. The Company has not received any fund from any persons or entities, including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall :

a. directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or

b. provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

f. The Company has not been declared as wilful defaulter by any bank or financial institution or government or any government authority.

g. The Company currently operates in a single reportable segment i.e., design and manufacture of last mile mobility 3-wheeler passenger & cargo and 4-wheeler cargo vehicles. Consequently, the requirement for a separate disclosure under Ind AS 108 - "Operating Segments" is not applicable. For geographical disclosure of revenue refer note 22.

h. Corporate Social Responsibility (CSR) :-

As per section 135 of the Companies Act, 2013, the Company is required to spend 2% of its average net profit of the immediately three preceding financial years on CSR.

Particulars			For the period ended 31st March 2025	For the period ended 31st March 2024
a)	Gross amount required to be spent by the Company during the year based on 2% of average net profits*		**185**	–
b)	Amount spent during the year on:			
	i)	Construction / acquisition of assets held by the Company	**–**	–
	ii)	On purposes other than above	**185**	–
c)	Unspent amount at the end of the year		**–**	–

* As the company was incorporated in FY24, average net profit of the immediately three preceding financial years is not available and hence considered based on FY24 profits.

The Company continued to play a catalytic role in bringing about social,

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

economic, and environmental change by investing in projects that empowered girls and women, and contributed to environmental conservation. This enabled the Company to achieve a higher social impact on the communities and the planet.

Amount recognised as expense in profit or loss is **Rs. 185 lakhs.** (PY - Not Applicable).

41. Issue of Compulsorily Convertible Preference Shares

Mahindra and Mahindra Limited (M&M), the Holding Company, executed a **Subscription Agreement and Shareholders' Agreement** with International Finance Corporation ('IFC'), whereby IFC has agreed to invest up to Rs. 60,000.00 lakhs in tranches subject to the terms and conditions as stipulated in the aforesaid agreement(s). Of this, IFC has fully invested Rs. 60,000.00 lakhs in Compulsorily Convertible Preference Shares ('CCPS'), by 31st March 2025. (30,000.00 lakhs in FY 2023-24 and 30,000.00 lakhs in FY 2024-25)

Mahindra and Mahindra Limited (M&M), the Holding Company, Mahindra Last Mile Mobility Limited (MLMML) and India Japan Fund (IJF), executed a tri-party **Subscription Agreement and Shareholders' Agreement**, whereby IJF has agreed to invest up to Rs. 40,000.00 lakhs in tranches subject to the terms and conditions as stipulated in the aforesaid agreement(s). Of this, IJF has fully invested Rs. 40,000.00 lakhs in Compulsorily Convertible Preference Shares ('CCPS'), by 31st March 2025. (20,000.00 lakhs in FY 2023-24 and 20,000.00 lakhs in FY 2024-25)

Unless agreed to, in writing, for an early conversion, each CCPS is compulsorily convertible into such number of equity shares as determined as per a pre-determined formula at the conversion date, as per terms and conditions of the agreement (s) entered between the Company, M&M, IFC and IJF. Further, in accordance with the shareholders' agreement, the Company and M&M shall take best efforts to provide IFC and IJF with a complete exit at fair value during the exit period, being the period between 5th and 7th anniversary from the date of IFC's first investment, through certain exit options as may be determined by M&M in its sole discretion. If IFC continues to hold any equity security of the Company after the expiry of the exit period, IFC shall have the right to require the Company to complete an initial public offering subject to favourable market conditions.

Since the CCPS is convertible into variable number of equity shares of the company, it has been classified as financial liability at fair value through profit or loss in the financial statements of the Company. The fair value of CCPS issued to IFC as at 31st March 2025 is Rs. 63,489 lakhs. The fair value of CCPS issued to IJF as at 31st March 2025 is Rs. 38,399 lakhs.

42. Disclosure required under section 186(4) of the Companies Act, 2013 for Loans and Guarantee :-

Inter Company Deposit / Loans **(Rs. in lakhs)**

Sr No	Name	Relationship as per Companies Act, 2013	As at 31st March 2025	As at 31st March 2024
NIL	NIL	NIL	**NIL**	NIL

Notes:

a. Inter corporate deposit given and repaid during the year amounting to **Rs. 1,450 lakhs** to Mahindra Defence Systems Limited, **Rs. 1,450 lakhs** to NBS International Limited. ("NBS") and **Rs. 1,000 lakhs** to Mahindra Agri Solutions Limited.

b. Above inter corporate deposits have been given for general business purposes and working capital requirements.

Notes to the accounts

Note 1 - General information

Mahindra Two Wheelers Europe Holdings S.à r.l., hereinafter the "Company", was incorporated on December 2, 2014 as a "société à responsabilité limitée" for an unlimited period. The Company is organised under the laws of Luxembourg, in particular the law of August 10, 1915 on commercial companies, as amended.

The registered office of the Company is established at 3 Rue Gabriel Lippmann L-5365 Munsbach (prior to December 12, 2023, the registered office was established at 68-70 boulevard de la Pétrusse, 2320 Luxembourg City) and is registered at the Trade and Companies register in Luxembourg under the number B 192 444.

The financial year of the Company starts on April 1 and ends on March 31 of each year.

OBJECT

The purpose of the Company is the acquisition of ownership interests, in Luxembourg or abroad, in any companies or enterprises in any form whatsoever and the management of such ownership interests. The Company may in particular acquire by subscription, purchase, and exchange or in any other manner any stock, shares and any other securities, including without limitation any bonds, debentures, certificates of deposit, trust units, any other debt instruments and more generally any securities and financial instruments issued by any public or private entity whatsoever, including partnerships. It may participate in the creation, development, management and control of any company or enterprise. It may further invest in the creation, acquisition and management of a portfolio of patents or any intellectual property rights of whatsoever nature or origin.

The Company may borrow in any form, except for borrowing from the public. It may issue notes, bonds, debentures and any other kind of debt and/or equity securities, including but not limited to preferred equity certificates and warrants, whether convertible or not in all cases. The Company may lend funds, including the proceeds of any borrowings and/or issues of equity/debt securities, to its subsidiaries, affiliated companies or to any other company. It may also give guarantees and grant security interests in favor of third parties to secure its obligations or the obligations of its subsidiaries, affiliated companies or any other company. The Company may further mortgage, pledge, transfer, encumber or otherwise hypothecate all or some of its assets.

The Company may generally employ any techniques and utilize any instruments relating to its investments for the purpose of their efficient management, including techniques and instruments designed to protect the Company against creditors, currency fluctuations, interest rate fluctuations and other risks. The Company may carry out any commercial, financial or industrial operations and any transactions with respect to real estate or movable property, which directly or indirectly, further or relate to its purpose.

The accounts of the Company are included in the consolidated accounts of Mahindra & Mahindra Limited, forming the largest body of undertakings of which the Company forms a part as a subsidiary undertaking. The registered office of that company is located at Gateway Building, Apollo Bunder, in Mumbai (400 001), where the consolidated financial statements are available.

Note 2 - Summary of significant accounting policies

Basis of preparation

The annual accounts are prepared under Lux GAAP with Fair Value option method. Accounting policies and valuation rules are, besides the ones laid down by the law of December 19, 2002, as amended by the law of December 10, 2010 (the "Law"), determined and applied by the managers of the Company (the "Board of "Managers").

The preparation of annual accounts requires the use of certain critical accounting estimates. It also requires Management to exercise its judgement in the process of applying the accounting policies. Changes in assumptions may have a significant impact on the annual accounts in the period in which the assumptions changed. Management believes that the underlying assumptions are appropriate and that the annual accounts therefore present the financial position and results fairly.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant accounting policies

The main valuation rules applied by the Company are the following:

Financial assets

Shares in affiliated undertakings and Investments held as fixed assets are carried at purchase price including the expenses incidental thereto. Shares in affiliated undertakings and Investments held as fixed asset are subsequently measured at fair value.

The fair value changes on those fair valued assets are recognised in the P/L section under the item "Value adjustments on financial fixed assets".

Debtors

Debtors are carried at costs which generally corresponds to their nominal value. Debtors are subsequently measured at fair value.

Foreign currency translation

The Company maintains its accounting records in Euro (EUR) and the balance sheet and the profit and loss accounts are expressed in this currency.

Transactions expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction.

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the year.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and are recorded in the profit and loss account.

Prepayments

This asset caption comprises expenditures incurred during the financial year but relating to a subsequent financial year.

Creditors

Debts are recorded at their reimbursement value. Creditors are subsequently measured at fair value.

Current tax provisions

Provisions for taxation corresponding to the tax liability estimated by the Company for the financial years for which the tax assessments have not yet been received are recorded under the caption "tax authorities". The advance payments are shown in the assets of the balance sheet under the caption "Other debtors", if applicable.

Notes to the accounts

Note 3 - Shares in affiliated undertakings/Investments held as fixed assets

a) The movements for the year are as follows: (expressed in EUR)

	Number of Shares 31/03/2025	Value of Shares EUR 31/03/2025	Value of Shares EUR 31/03/2024
Gross book value - opening balance	**312,085**	**154,691,619.00**	154,691,619.00
Disposals for the year	–	–	–

Allocations for the year		(603,999.00)	–
Value adjustments - closing balance		**(154,691,618.00)**	(154,087,619.00)
Net book value - closing balance	**312,085**	**1.00**	604,000.00
Net book value - opening balance	**312,085**	**604,000.00**	604,000.00

On January 27, 2023, the Company committed to convert its 312,085 ordinary shares in Peugeot Motocycles into 312,085 preferred shares of category A of Peugeot Motocycles. Mutares should subscribe to preferred shares of category B by investing an aggregate amount of EUR 7,000,000 in Peugeot Motocycles. Following MTWE's conversion into Preferred A Shares and Mutares Investment, the total amount of Preferred A Shares and Preferred B Shares should equal to 50% of the share capital of PMTC respectively.

On March 31, 2023, as a result of fair valuation as well, a decrease in valuation of EUR 6,396,000.00 was booked.

On March 31, 2024, the Company holds 312,085 shares for a total amount of EUR 604,000.00.

On March 31, 2025, an internal valuation of Peugeot Motocycles was performed and a decrease in valuation of EUR 603,999.00 was decided.

b) Undertakings in which the Company holds interests in their share capital are as follows: (MTWE holds 15.01% equity and 19.99% voting rights).

(expressed in EUR)

Peugeot Motocycles S.A.S.	France	15.01%	31/12/2024			1.00

Note 4 - Securities held as fixed assets

a) The movements for the year are as follows: (expressed in EUR)

	EUR 31/03/2025	TOTAL EUR 31/03/2025	TOTAL EUR 31/03/2024
Gross book value - opening balance	**74,131,611.00**	**74,131,611.00**	74,131,611.00
Disposals for the year	**(32,650,000.00)**	**(32,650,000.00)**	–
Gross book value - closing balance	**41,481,611.00**	**41,481,611.00**	74,131,611.00
Value adjustments - opening balance	**(67,735,611.00)**	**(67,735,611.00)**	(67,735,611.00)
Allocations for the year	**(6,395,999.00)**	**(6,395,999.00)**	–
Transfers for the year	**32,650,000.00**	**32,650,000.00**	–
Value adjustments - closing balance	**(41,481,610.00)**	**(41,481,610.00)**	(67,735,611.00)
Net book value - closing balance	**1.00**	**1.00**	6,396,000.00
Net book value - opening balance	**6,396,000.00**	**6,396,000.00**	6,396,000.00

On January 31, 2023 Peugeot Motocycles issued 74,131,611 bonds redeemable into Preferred A Shares (the "ORA Bonds") to which MTWE subscribed for an amount of EUR 74,131,611.00 for which the maturity date is January 31, 2033.

On March 31, 2023, an internal valuation of the bonds receivables were performed and a decrease in valuation of EUR 67,735,611.00 was decided.

The interest rate is determined by the relevant fiscal year maximum deductible interest as provided by Article 39.1.3 of the French tax code. There are no interest for the year due to decrease in valuation.

Notes to the accounts

The ORA Bonds will be redeemed in new Preferred A Shares of PMTC which is the first to occur between the date of an exit and the final maturity date, or any other date agreed upon between PMTC and the Company.

Redemption ratio is based on the number of Preferred A Shares with respect to their Aggregate Principal amount, in a number of Preferred A Shares to be determined by dividing the Aggregate Principal Amount by EUR 22.43.

On December 31, 2024, the Company transferred 32,650,000.00 ORA bonds (gross book value of EUR 32,650,000.00) for a total transfer price of EUR 1.00.

On March 31, 2025, following an internal valuation of the bonds receivables, the Company booked decrease in valuation of EUR 6,395,999.00

Note 6 - Capital and reserves

Subscribed capital and share premium account

As at March 31, 2025, the share capital of the Company amounts to EUR 143,899,999.00 and is divided into 14,900,000 class A shares with a nominal value of EUR 1.00 each, 1,600,000,000 class B shares with a par value of EUR 0.05 each, 533,333,300 class C shares with a nominal value of EUR 0.03 and 1,650,000,000 class D shares with a nominal value of EUR 0.02.

The movements on the "Subscribed capital" caption during the year are as follows:

(expressed in EUR)

	Total number of units 31/03/2025	**Share capital 31/03/2025 EUR**	Share capital 31/03/2024 EUR
Opening balance	**3,798,233,300**	**143,899,999.00**	143,899,999.00
Closing balance	**3,798,233,300**	**143,899,999.00**	143,899,999.00

On July 7, 2020, an EGM took place to approve the issuance of 533,333,300 Class C shares of nominal value EUR 0.03 each aggregating to EUR 15,999,999.00 to its sole shareholder.

On February 5, 2021, an EGM took place to approve the issuance of 1,050,000,000 Class D shares of nominal value EUR 0.02 each aggregating to EUR 21,000,000.00 to its sole shareholder.

On December 23, 2021, an EGM took place to approve the issuance of 600,000,000 Class D shares of nominal value EUR 0.02 each aggregating to EUR 12,000,000.00 to its sole shareholder.

Share premium account

The movements on the "Share premium account" caption during the year are as follows:

(expressed in EUR)

	Share premium 31/03/2025 EUR	Share premium 31/03/2024 EUR
Opening balance	**11,254,683.00**	11,254,683.00
Closing balance	**11,254,683.00**	11,254,683.00

Note 7 - Convertible loans

(expressed in EUR)

	EUR 31/03/2025	**Total EUR 31/03/2025**	Total EUR 31/03/2024
Gross book value - opening balance	**74,131,611.00**	**74,131,611.00**	74,131,611.00
Disposals for the year	**–**	**–**	–
Gross book value - closing balance	**74,131,611.00**	**74,131,611.00**	74,131,611.00
Value adjustments - opening balance	**(67,131,611.00)**	**(67,131,611.00)**	(67,131,611.00)
Allocations for the year (Note 4)	**(6,999,998.00)**	**(6,999,998.00)**	–
Value adjustments - closing balance	**(74,131,609.00)**	**(74,131,609.00)**	(67,131,611.00)
Net book value - closing balance	**2.00**	**2.00**	7,000,000.00
Net book value - opening balance	**7,000,000.00**	**7,000,000.00**	7,000,000.00

On January 27, 2023 the Company issued convertible bonds redeemable into Preferred A Shares each of them having a nominal value of INR 1 to which Mahindra & Mahindra Limited subscribed for an amount of EUR 74,131,611.00 for which the maturity date is January 27, 2033.

The interest rate is determined at 7.91% p.a. No interest for the year due to decrease in valuation.

Each bondholder of the Company may decide, at any time between the issue date and the maturity date, the conversion of all or part of the convertible bonds.

The number of shares to be issued is determined by the sum of the amount of the nominal value of the Bonds and the amount of compound interest not yet compounded divided by the fair market value as at conversion date of one share.

On March 31, 2023, ORA bonds were fair valued and a decrease of EUR 67,735,611.00 was booked (Note 4). As a result of this decrease, Mahindra & Mahindra Limited further fair valued their receivables from the Company, but considered the fair value of the securities in the Company as well (Note 4), given the Convertible nature of the loan. The above valuation has been disclosed under the audited consolidated accounts of Mahindra & Mahindra Limited filed on the stock exchange of India as at March 31, 2023.

On March 31, 2025, shares and ORA bonds were fair valued and a decrease in value of EUR 603,999.00 and EUR 6,395,999.00 were booked (Note 3 and 4). The Company then booked a decrease in valuation of EUR 6,999,998.00 on convertible bonds issued.

Note 10 - Value adjustments on financial fixed assets

During 2024, the Company re-valued downwards both the investments in Peugeot Motocycles S.A.S by EUR 603,999.00 (Note 3) and the bonds receivables by EUR 6,395,999.00 (Note 4) which is subscribed from Peugeot Motocycles S.A.S on January 31, 2023.

Note 11 - Other interest and other financial income

This caption is detailed as follows:	31/03/2025 EUR	31/03/2024 EUR
Value Adjustments on Convertible loans	**6,999,998.00**	–
	6,999,998.00	–

During 2024, the redeemable convertible bonds issued to Mahindra and Mahindra Limited were revalued, resulting into a gain for the Company of EUR 6,999,998.00 (Note 7).

Note 12 - Staff

There were no staff employed during the year (31/03/2024: nil).

Note 13 - Taxation

The Company is subject to the general tax regulation applicable to all Luxembourg commercial companies.

Note 14 - Related party transactions

Related party transactions were disclosed in Notes 4 and 7.

Note 15 - Off balance sheet commitments and contingencies

The Company does not have any off balance sheet commitments or contingencies at the end of the financial year.

Note 16 - Subsequent events

No other matters or circumstances of importance have arisen since the end of the financial year which could have significantly affected or might significantly affect the operations of the Company, the results of those operations or the affairs of the Company.

INDEPENDENT AUDITORS’ REPORT

TO THE MEMBERS OF
CLASSIC LEGENDS PRIVATE LIMITED

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **Classic Legends Private Limited** (“the Company”), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of material accounting policies and other explanatory information (hereinafter referred to as “the Standalone Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its losses and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the ‘Auditors’ Responsibilities for the Audit of the Standalone Financial Statements’ section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“the ICAI”) together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Emphasis of Matter

We draw attention to Note 43 to the financial statements which describes management’s assessment of non-impairment of the assets of the Company on the basis of business plans and projections including management actions to expand the business operations.

Our opinion is not qualified in respect of this matter.

Information other than the Standalone Financial Statements and Auditors’ Report thereon

The Company’s Board of Directors is responsible for the other information. The other information comprises the Directors’ Report and the related annexures but does not include the Standalone Financial Statements and our Auditors’ Report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the Standalone Financial Statements

The Company’s Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company’s financial reporting process.

Auditors’ Responsibilities for the audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.

   (d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.

   (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.

   (f) With respect to the adequacy of the internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Standalone Financial Statements.

   (g) Based on the records examined by us and according to information and explanations given to us, the Company has not paid/provided for managerial remuneration. Hence, the provisions of Section 197 of the Act related to managerial remuneration are not applicable.

   (h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

      (i) The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements Refer Note 38 to the Standalone Financial Statements;

      (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

      (iv) (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

      (b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes forming part the standalone financial statements (refer note 17C), no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clauses (a) and (b) contain any material misstatement.

(v) The Company has not declared/paid/declared and paid any dividend during the year; and

(vi) Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to Standalone Financial Statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to Standalone Financial Statements of Classic Legends Private Limited ("the Company") as of March 31, 2025, in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial control with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to Standalone Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' section of our report of even date]

(i) (a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

(B) According to the information and explanations given to us, the Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a regular programme of physical verification of its property, plant and equipment by which the property, plant and equipment are verified by the management according to a phased programme designed to cover all the items over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment. In accordance with the programme, the Company has physically verified certain property, plant and equipment during the year and no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us, the Company does not have any immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee).

(d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(ii) (a) According to the information and explanations given to us, the inventory comprising of traded goods have been physically verified at reasonable intervals by the management during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification between the physical inventory and the book records.

(b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point of time during the year.

(iii) According to the information and explanations given to us, the Company has not provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) and 3(iii)(c) to 3(iii)(f) of the Order is not applicable to the Company. According to the information and explanations given to us, the investment made by the Company during the year in its subsidiary is not prejudicial to the company's interest.

(iv) According to the information and explanations given to us, the Company has not granted any loans or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

(v) According to the information and explanations given to us, in respect of deposits accepted by the Company or amounts which are deemed to be deposits, the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules made thereunder, where applicable, have been complied with. According to the information and explanations given to us, there is no order passed by the Company Law Board or National Company Law Tribunal or the Reserve Bank of India or any Court or any other Tribunal during the year.

(vi) The Central Government has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident Fund, Income-tax, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of outstanding statutory dues in respect of Goods and Services Tax, Provident fund, Profession Tax, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax, Provident Fund, Profession Tax, Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and any other material statutory dues as at 31 March 2025, which have not been deposited with the appropriate authorities on account of any dispute. According to the information and explanations given to us and records of the Company examined by us, the particulars of dues of Income Tax, which have not been deposited as on March 31, 2025 on account of disputes are as under:

Nature of the Statute	Nature of the dues	Amount (Rs. in lakhs)	Period to which the amount relates	Forum where dispute is pending
The Income-tax Act, 1961	Income Tax	14,916.34	Assessment Year 2022-2023	Commissioner of Income Tax (Appeals)
The Goods and Services Tax Act, 2017	Goods and Services Tax	25.26	Financial Year 2019-2020,2020-21,2022-23	Deputy Commissioner of State Tax

(viii) According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

(ix) (a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution or any other lender till the date of our audit report.

(c) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any term loans during the year. Accordingly, the reporting under Clause 3(ix)(c) of the Order is not applicable to the Company.

(d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have not been utilised for long- term purposes as at the Balance Sheet date.

(e) According to the information and explanations given to us and on an overall examination of the Standalone Financial Statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.

(f) According to the information and explanations given to us and based on the audit procedures performed by us, we report that the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries. Accordingly, the reporting under Clause 3(ix)(f) of the Order is not applicable to the Company.

(x) (a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under Clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.

(b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

(c) We have taken into consideration the whistle blower complaints received by the Company during the year while determining the nature, timing and extent of our audit procedures.

(xii) According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

(xiii) In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the Standalone Financial Statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

(xiv) (a) In our opinion and according to the information and explanations given to us and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the Internal Audit reports of the Company issued till date for the period under audit.

(xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company and subsidiary companies or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

(xvi) (a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) Based on the information and explanations given to us, we report that the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) has four Core Investment Companies.

(xvii) In our opinion and according to the information and explanations given to us, the Company has incurred cash losses of Rs. 13,255.22 Lakhs in the current financial year and Rs. 7,940.41 lakhs in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the Standalone Financial Statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

(xx) The provisions of Section 135 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xx)(a) and (b) of the Order is not applicable to the Company.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

1. **Corporate Information**

Company details

Classic Legends Private Limited (CLPL) was incorporated on 17th June'2015. On 18th October 2016, it became subsidiary of Mahindra and Mahindra Limited (M&M). However, w.e.f 1st July'2017 M&M became joint venturer of the Company. CLPL is engaged in Design, Development, Sales, Marketing and related activities for Motorcycles & Two Wheeled Products.

2. **Method of Accounting**

These standalone or separate financial statements have been prepared in accordance with the Indian Accounting Standards (IND AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the latest annual financial statements of the Company prepared under the Act.

The financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency.

These financial statements were approved by the Board of Directors and authorised for issue on 16th April, 2025.

3. **Material Accounting Policies**

3.01 Basis of accounting preparation and presentation

These financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

3.02 Use of estimate

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of assets, useful lives of property, plant and equipment, valuation of deferred tax assets, provisions and contingent liabilities. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by lease basis and there by assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Provisions for product warranties

The Company recognises provision for warranties in respect of the products that it sells. Provisions are discounted, where necessary, to its present value based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which the reliable estimate can be made. Provisions are reviewed at each balance sheet date, adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

3.03 Revenue Recognition

Revenue on satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract.

The Company's contracts may include variable consideration including rebates, volume discounts and penalties. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

3.04 Foreign Currency

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on transactions entered into in order to hedge certain foreign currency risks.

3.05 Employee benefits

1. **Defined Benefit Plan:**

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorized as follows:

– service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
– net interest expense or income; and
– re-measurement.

(i) **Gratuity:** The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15/26 days salary payable for each completed year of service. Vesting occurs upon completion of five years of service. The Company accounts for the liability for gratuity benefits payable in future based on an independent actuarial valuation.

(ii) **Compensated Absences:** The Company provides for the encashment of compensated absences with pay subject to certain rules. The employees are entitled to accumulate compensated absences subject to certain limits, for future encashment. Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit and the accumulated leave expected to be carried forward beyond twelve months is treated as long-term employee benefit which are provided based on the number of days of unutilised compensated absence on the basis of an independent actuarial valuation.

3.06 Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at amortised cost at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using the incremental borrowing rate.

It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3.07 Property Plant and Equipment

Property Plant and Equipment (PPE) are stated at cost of acquisition or construction less accumulated depreciation / amortisation and impairment loss, if any. All costs relating to the acquisition and installation of property plant and equipment are capitalised and include borrowing costs relating to funds attributable to construction or acquisition of qualifying assets, up to the date the asset / plant is ready for intended use. The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item of property, plant and equipment, if it is probable that the future economic benefits embodies within the part will flow to the Company and its cost can be measured reliably with the carrying amount of the replaced part getting derecognised. The cost for day-to-day servicing of property, plant and equipment are recognised in Statement of Profit and Loss as and when incurred.

Depreciation is calculated on straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc:

i) Plant and machinery – 3 years, 5 years, 8 years, 15 years
ii) Laptops – 3 years
iii) Vehicles – 3 years, 5 years
iv) Office equipment – 2 years, 5 years
v) Furniture – 10 years
vi) Assets costing less than Rs 5000 each - 1 year

3.08 Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Following summarises the nature of intangible and the estimated useful life:

(a) Software Costs – The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

(b) Development expenditure – The expenditure incurred on technical services and other project/product related expenses is amortised over the period of benefit, not exceeding five years

Intangible asset with indefinite useful lives is reviewed annually to determine whether indefinite-life assessment continues to be supportable.

Intangible assets under development

The Company expenses cost incurred during research phase to profit or loss in the year in which they are incurred. Development phase expenses are initially recognised as intangible assets under development until the development phase is complete, upon which the amount is capitalised as intangible assets.

3.09 Impairment

(i) Financial assets (other than at fair value)

The Company assesses at end of each reporting period whether a financial asset or a group of financial assets is impaired.

Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

(ii) Non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement of profit or loss.

3.10 Inventories

Inventories comprise all cost of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Finished goods purchased for sale, are carried at cost or net realisable value whichever is lower.

3.11 Financial instruments

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Classification and subsequent measurement

Financial assets

a. Non-derivative financial instruments

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net off direct issue cost.

Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

Offsetting

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

3.12 Borrowing Costs:

Interest and other costs incurred in connection with the borrowing of the funds are charged to revenue on accrual basis except those borrowing costs which are directly attributable to the acquisition or construction of those Qualifying assets, which necessarily take a substantial period of time to get ready for their intended use. Such costs are capitalised with the Qualifying assets.

4. Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. As on March 31, 2025, MCA has not amended the Companies (Indian Accounting Standards) Amendment Rules, 2023 and hence reporting under this section is not applicable.

Note - 30 Financial Instruments

Capital management

The company's capital management objectives are:

The Board policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The board of directors monitors the return on capital employed.

The Company manages capital risk by maintaining sound/optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio and net borrowings-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary.

The Company uses debt ratio as a capital management index and calculates the ratio as total liabilities divided by total equity. Total liabilities and total equity are based on the amounts stated in the separate financial statements.

Debt-to-equity ratio is as follows:

Rs. in Lakhs

Total Financial Liabilities	**33,794.91**	69,563.70	**34,951.71**	69,416.09

At the end of the reporting period, there are no significant concentrations of credit risk for financial assests designed at fair value through profit & loss. The carrying amount reflected above represents the company's maximum exposure to credit risk to such financial assets.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are mutual funds and banks with high credit-ratings.

Trade receivables - The company applies the simplified approach to provide for expected credit loss prescribed by IND AS 109, which permits the use of life time expected loss provision for old trade receivable. The company has taken security deposit which are considered as collaterale and these are considered in determination of expected credit losses, where applicable.

There is no change in estimation techniques or significant assumptions during the reporting period.

Movement in the expected credit loss allowance:

Rs. In Lakhs

Particulars	**March 31, 2025**	March 31, 2024
Balance as at beginning of the year	**24.34**	18.82
Additions during the year	**37.34**	5.52
Amounts recovered during the year	**–**	–
Balance at end of the year	**61.68**	24.34

LIQUIDITY RISK

(i) Liquidity risk management

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

Financial liabilities						
Borrowings (including current maturities and lease payables)	**16,580.76**	**119.20**	**–**	151.45	19,205.23	–
Other Financial liabilities	**1,525.15**	**676.50**	**–**	37,078.38	567.00	–
Trade payables	**14,912.11**	**–**	**–**	12,760.28	–	–
Total	**33,018.02**	**795.70**	**–**	49,990.11	19,772.23	–

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

a) *Foreign Currency exchange rate risk*

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exposure to currency risk relates primarily to the Company's operating activities and borrowings when transactions are denominated in a different currency from the Company's functional currency.

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities.The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. It hedges a part of these risks by using derivative financial instruments in line with its risk management policies. The information on derivative instruments is as follows.

Foreign currency exposures that are not hedged by derivative instruments

Particulars	**Currency**	**As at March 31, 2025** Foreign Currency Amount	**Rupees Lakhs**	As at March 31, 2024 Foreign Currency Amount	Rupees Lakhs
Trade payables	USD	–	–	–	–
Trade payables	USD	–	–	–	–
Trade payables	EURO	–	–	2,481.60	2.23
Trade payables	GBP	23,400.00	25.93	33,600.00	35.36
Trade receivable	GBP	2,477,057.86	2,745.16	4,101,795.68	4,316.46

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

Rs. in Lakhs

Particulars	**Currency**	**Change in rate**	**Effect on profit / (loss) before tax**	Effect on pre-tax equity
31-Mar-25	USD	+10%	–	–
	USD	-10%	–	–
	EUR	+10%	–	–
	EUR	-10%	–	–
	GBP	+10%	271.92	271.92
	GBP	-10%	(271.92)	(271.92)
31-Mar-24	USD	+10%	–	–
	USD	-10%	–	–
	EUR	+10%	(0.22)	(0.22)
	EUR	-10%	0.22	0.22
	GBP	+10%	428.11	428.11
	GBP	-10%	(428.11)	(428.11)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Note - 32 Employee benefits

(a) Defined Contribution Plan

Amount recognised as an expense in the Statement of Profit and Loss in respect of Defined Contribution Plans is Rs. 142.27 Lakhs (March 31, 2024 Rs. 90.51 Lakhs)

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the amount calculated as per the Payment of Gratuity Act, 1972, Gratuity is a benefit to an employee based on 15 days last drawn salary for each completed year of service. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Actuarial gains and losses in respect of defined benefit plans are recognised in the Financial statements through other comprehensive income.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Changes in bond yields

A decrease in government bond yields will increase plan liabilities.

Inflation risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Life expectancy

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Defined benefit plans – as per actuarial valuation on 31st March, 2025

	1.	Present value of defined benefit obligation as at 31st March	**148.20**	122.19
	2.	Fair value of plan assets as at 31st March	**–**	–
	3.	Surplus/(Deficit)	**(148.20)**	(122.19)
	4.	Current portion of the above	**(17.97)**	(11.16)
	5.	Non current portion of the above	**(130.22)**	(111.03)
II.	**Change in the obligation during the year ended 31st March**			
	1.	Present value of defined benefit obligation at the beginning of the year	**122.19**	142.55
	2.	Trasfer in /(out)		
	3.	Expenses Recognised in Profit and Loss Account		
		– Current Service Cost	**47.73**	43.54
		– Transfer In/(Out)	**26.23**	
		– Interest Expense (Income)	**8.11**	9.49
	4.	Recognised in Other Comprehensive Income		
		Remeasurement (gains) / losses arising from:		
		i. Demographic Assumptions	**(8.77)**	(3.01)
		ii. Financial Assumptions	**3.40**	1.37
		iii. Experience Adjustments	**(1.04)**	(42.99)
	5.	Benefit payments	**(49.66)**	(28.74)
	6.	**Present value of defined benefit obligation at the end of the year**	**148.19**	122.19
III.	**Actuarial assumptions**			
	1.	Discount rate (%)	**6.60**	7.20
	2.	Expected rate(s) of salary increase (%)	**10.00**	10.00
	3.	Attrition rate (%)	**25.00**	15.00

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Rs. in Lakhs

Principal assumption		Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Decrease in assumption
Discount rate				
	2025	1.00%	(5.59)	6.03
	2024	1.00%	(6.58)	7.32

Rs. in Lakhs

Principal assumption		Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Decrease in assumption
Salary growth rate				
	2025	1.00%	4.39	(4.16)
	2024	1.00%	5.89	(5.41)
Attrition rate				
	2025	1.00%	(0.68)	0.74
	2024	1.00%	(0.90)	0.99

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

Maturity profile of defined benefit obligation:

Rs. in Lakhs

	2025	2024
Within 1 year	**17.97**	11.16
1 - 2 year	**18.63**	23.81

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BSA COMPANY LIMITED

Opinion

We have audited the financial statements of BSA Company Limited (the 'company') for the year ended 31 March 2025 which comprise the profit and loss account, the balance sheet, the statement of changes in equity and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2025 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report. We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to prepare the financial statements in accordance with the small companies regime and take advantage of the small companies' exemption in preparing the directors' report and take advantage of the small companies exemption from the requirement to prepare a strategic report.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do So.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https:// www.frc.org.uk/ auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above and on the Financial Reporting Council's website, to detect material misstatements in respect of irregularities, including fraud.

We obtain and update our understanding of the entity, its activities, its control environment, and likely future developments, including in relation to the legal and regulatory framework applicable and how the entity is complying with that framework. Based on this understanding, we identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. This includes consideration of the risk of acts by the entity that were contrary to applicable laws and regulations, including fraud.

In response to the risk of irregularities and non-compliance with laws and regulations, including fraud, we designed procedures which included:

- Enquiry of management and those charged with governance around actual and potential litigation and claims as well as actual, suspected and alleged fraud;
- Reviewing minutes of meetings of those charged with governance;
- Assessing the extent of compliance with the laws and regulations considered to have a direct material effect on the financial statements or the operations of the company through enquiry and inspection;
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations;
- Performing audit work over the risk of management bias and override of controls, including testing of journal entries and other adjustments for appropriateness, evaluating the business rationale of significant transactions outside the normal course of business and reviewing accounting estimates for indicators of potential bias.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non- compliance. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2025

1 Accounting Policies

Company information:

BSA Company Limited is a private company limited by shares incorporated in England and Wales. The principal place of business is Unit 14, Windmill Industrial estate, Birmingham Road, Coventry, CV5 9QE.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland” (“FRS 102”) and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared on the historical cost convention. The principal accounting policies adopted are set out below.

This company is a qualifying entity for the purposes of FRS 102, being a member of a group where the parent of that group prepares publicly available consolidated financial statements, including this company, which are intended to give a true and fair view of the assets, liabilities, financial position and profit or loss of the group. The company has therefore taken advantage of exemptions from the following disclosure requirements:

- Section 7 ‘Statement of Cash Flows’: Presentation of a statement of cash flow and related notes and disclosures;
- Section 11 ‘Basic Financial Instruments’ and Section 12 ‘Other Financial Instrument Issues’: Interest income/expense and net gains/ losses for each category of financial instrument; basis of determining fair values; details of collateral, loan defaults or breaches, details of hedges, hedging fair value changes recognised in profit or loss and in other comprehensive income;
- Section 33 ‘Related Party Disclosures’: Compensation for key management personnel.

The financial statements of the company are consolidated in the financial statements of Classic Legends Private Limited. These consolidated financial statements are available from its registered office, Mahindra Towers, P.K. Kurne Chowk, Worli, Mumbai - 400018.

1.2 Going concern

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The development of an electric motorcycle in the UK and continued promotional activity would be met through Capital infusion and an expected improvement in trading performance. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

1.3 Turnover

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, and is shown net of VAT and other sales related taxes. The fair value of consideration takes into account trade discounts, settlement discounts and volume rebates.

1.4 Research and development expenditure

Research expenditure is written off against profits in the year in which it is incurred. Identifiable development expenditure is capitalised to the extent that the technical, commercial and financial feasibility can be demonstrated.

1.5 Intangible fixed assets other than goodwill

Intangible assets acquired separately from a business are recognised at cost and are subsequently measured at cost less accumulated amortisation and accumulated impairment losses.

Amortisation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Patents and licences	: Straight line over 15 years
Development Costs - Continuing	: Amortisation deferred

1.6 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Plant and Machinery	: Straight Line between 3 and 9 years
Fixtures, fittings & equipment	: Straight Line between 10 years
Computer equipment	: Straight Line between 3 years
Motor Vehicles	: Straight Line between 3 years
Office equipment	: Straight Line between 4 years

1.7 Fixed asset investments

Interests in subsidiaries are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. The investments are assessed for impairment at each reporting date and any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

A subsidiary is an entity controlled by the company. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

1.8 Borrowing Costs related to Fixed assets

Borrowing cost directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

1.9 Impairment of fixed assets

Where a reasonable and consistent basis of allocation can be identified, assets are allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

1.10 Stock

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct material and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stock to their present location and condition.

Stocks held for distribution at no or nominal consideration are measured at lower of cost and replacement cost, adjusted where applicable for any loss of service potential.

At each reporting date, an assessment is made for impairment. Any excess of the carrying amount of stocks over its estimated selling price less costs to complete and sell is recognised as an impairment loss in profit or loss. Reversals of impairment losses are also recognised in profit or loss.

1.11 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.12 Financial instruments

Financial instruments are recognised in the company’s statement of financial position when the company becomes party to the contractual provisions of the instrument. The company considers all of its financial assets basic.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial Liabilities

Basic financial Liabilities, including creditors, and amounts owed to group undertaking are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liability if payments is due within one or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

1.13 Equity Instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs.

1.14 Taxation

The Tax expense represents the sum of the tax currently payable and deferred tax.

Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes item of Income or expense that are taxable or deductible in other years and it further excludes item that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by reporting end date.

Deferred Tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor accounting profit.

1.15 Employee Benefits

The costs of short term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.16 Retirement Benefits

Payment to defined contribution retirement benefit scheme are charged as an expense as they fall due.

1.17 Leases

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

1.18 Government Grants

Government grants are recognised at the fair value of the asset received or receivable when there is reasonable assurance that the grant conditions will be met and the grants will be received.

A grant that specifies performance conditions is recognised in income on an accrual basis when the performance conditions are met. Where a grant does not specify performance conditions it is recognised in income when the proceeds are received or receivable. A grant received before the recognition criteria are satisfied is recognised as a liability as deferred income.

Government grant income relating to the funding of fixed asset additions is released over the life of the asset in line with the amortisation or depreciation policy of the asset. Unreleased income is recognised as a liability as deferred income.

Grants that are received in respect of expenses already incurred by the entity are recognised in the profit and loss in the period when the grant becomes receivable.

1.19 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation in the period are included in profit or loss.

2 Judgements and key resource of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

INDEPENDENT AUDITORS' REPORT

To

The Members of

GROMAX AGRI EQUIPMENT LIMITED

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Gromax Agri Equipment Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its loss and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors' Report and the related annexures but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be

expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional Skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
   (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
   (f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure B. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

(g) The Company has not paid/provided any remuneration to managerial personnel as defined in the Act. Accordingly, the provisions of Section 197 of the Act related to the managerial remuneration are not applicable to the Company.

(h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

(i) The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements – Refer Note 36 to the Financial Statements;

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

(iv) (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clauses (a) and (b) contain any material misstatement;

(v) The Company has not declared/paid/declared and paid any dividend during the year; and

(vi) Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

1. (a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

   (B) According to the information and explanations given to us, the Company has maintained proper records showing full particulars of intangible assets.

   (b) The Company has a regular programme for physical verification of its property, plant and equipment by which the property, plant and equipment are verified by the management once in a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment. In accordance with the programme, the Company has physically verified property, plant and equipment during the year 2022-2023 and no material discrepancies were noticed on such verification.

   (c) According to the information and explanations given to us, the title deeds of immovable properties are held in the name of the Company.

   (d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

   (e) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

2. (a) According to the information and explanations given to us, the inventory comprising of raw materials, work-in-progress, finished and semi-finished goods, stores and spares, loose tools and stock-in-trade has been physically verified at reasonable intervals by the management during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification between the physical inventory and the book records.

   (b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from Axis Bank Limited on the basis of security of inventory and trade receivables during the year. The statements of inventory and trade receivables filed by the Company with Axis Bank Limited on a monthly basis are materially in agreement with the unaudited books of account as certified by the management.

3. According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

4. According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

5. According to the information and explanations given to us, the Company has not accepted deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

6. The Central Government has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

7. (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

   According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of undisputed statutory dues in respect of Goods and Services Tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.

   (b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and any other material statutory dues as at March 31, 2025, which have not been deposited with the appropriate authorities on account of any dispute.

The statutory dues in respect of Income-tax as at March 31, 2025, which have not been deposited with the appropriate authorities on account of a dispute, are as under:

Name of Statute	Nature of dues	Amount (Rs. in lakhs)	Period to which amount relates	Forum where pending
The Income Tax Act, 1961	Income Tax	265.88	Assessment year 2014-2015	Commissioner of Income Tax (Appeals)

8. According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

9. (a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any loans or other borrowings during the year. Accordingly, the reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.

   (b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution or any other lender till the date of our audit report.

   (c) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any term loans during the year. Accordingly, the reporting under Clause 3(ix)(c) of the Order is not applicable to the Company.

   (d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have not been utilised for long- term purposes as at the Balance Sheet date.

   (e) The Company does not have any subsidiaries, joint ventures or associates. Accordingly, the reporting under Clauses 3(ix)(e) and 3(ix)(f) of the Order is not applicable to the Company.

10. (a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

    (b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under Clause 3(x)(b) of the Order is not applicable to the Company.

11. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.

    (b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

    (c) As represented to us by the management, no whistle blower complaints were received by the Company during the year.

12. According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

13. In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the Financial Statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

14. (a) In our opinion and according to the information and explanations given to us and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

    (b) We have considered the Internal Audit reports of the Company issued till date for the period under audit.

15. According to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

16. (a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.

    (b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

    (c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi)(c) and 3(xvi)(d) of the Order is not applicable to the Company.

17. In our opinion and according to the information and explanations given to us, the Company has incurred cash losses of Rs. 94.98 Lakhs during the current financial year and Rs. Rs. 571.31 Lakhs in the immediately preceding financial year.

18. There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

19. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

20. According to the information and explanations given to us, the provisions of Section 135 of the Act relating to expenditure on corporate social responsibility are not applicable to the Company for the current financial year. Accordingly, the reporting under Clauses 3(xx)(a) and 3(xx)(b) of the Order is not applicable to the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 2(f) under 'Report on other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Gromax Agri Equipment Limited** ("the Company") as of March 31, 2025 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

All amounts are in Rupees Lakhs unless otherwise stated

Note Nos. 1 and 2 : Summary of Material Accounting Policies

1. Corporate Information

Gujarat Tractor Corporation Limited (GTCL) a Public Limited Company domiciled in India and incorporated on 31st March, 1978 under the provisions of the Companies Act, 1956 (CIN : U34100GJ1978PLC003127) and a Government of Gujarat Undertaking. As a part of Disinvestment by Government of Gujarat, the Mahindra & Mahindra Limited. acquired 60% stake in Equity Shares of the Company in 1999-2000. The name of the Company changed to Mahindra Gujarat Tractor Limited (MGTL / the Company) in the year 2000. The name of company further changed to Gromax Agri Equipment Limited with effect from 24th August, 2017.

Currently Mahindra Group holds 60% and Government of Gujarat holds 40% Equity in the Company. The Company is mainly engaged in the Manufacture and Sale of Tractors under the brand name “Shaktimaan”, “Hindustan”, “Farm Plus”, “Trakstar” and spares of the same. The Company carries out its business activities in India and Nepal. The Factory and Registered Office of the Company is located at Vishwamitri, Vadodara, Gujarat and Sales and Distribution Offices and Yards in major States of India.

2. Material Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared taking into consideration all material aspects with Indian Accounting Standards (Ind-AS) notified under section 133 of the Companies Act, 2013 (the “Act”) [Companies (Indian Accounting Standards) Rules, 2015,as amended] and the other relevant provisions of the Act.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the value paid for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

The financial statements have been prepared on historical convention except Defined benefit plans.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below:

2.3 Revenue recognition

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. Upon satisfaction of performance obligation which is at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. Depending on the terms of the contract, which differs from contract to contract, the goods are sold on a reasonable credit term. The Revenue is excluding taxes and after deducting various Dealer Incentives and Discounts.

2.3.1. Sale of goods

1) Timing of recognition- Sales are recognized when control parameters as laid down in IND AS 115 are satisfied. Control means customer has accepted the product, legal title has been transferred, transfer of significant risk and rewards, right to receive the payment and transfer of physical possession. Sales are recognised at a point in time based on the revenue recognition standard.

2) Measurement of revenue:-

A) Revenue is measured based on the consideration specified in a contract with a customer (net of variable consideration) and excludes amounts collected on behalf of third parties. The Company recognises revenue when it transfers control of a product.

B) Any change resulting in increase or decrease in estimated revenue or cost are reflected in the profit or loss in the period in which the circumstances that give rise to the revision become known by Management.

C) Transaction price is the amount of consideration expected to be entitled to in exchange for transferring of goods and services excluding the amount collected from third party.

D) Revenue from sales is based on the price specified in the sales contracts (net of the variable consideration) and returns at the time of sale. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases

2.3.2 Royalties

Royalty revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably). Royalties determined on a time basis are recognised on a straight-line basis over the period of the agreement. Royalty arrangements that are based on production, sales and other measures are recognised by reference to the underlying arrangement.

2.3.3 Dividend and interest income

Dividend income from investments is recognised when the shareholder’s right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset’s net carrying amount on initial recognition.

2.4 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.5 Employee benefits

2.5.1 Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item ‘Employee benefits expense’. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company’s defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

2.5.2 Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

2.5.3 Contributions from employees or third parties to defined benefit plans

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan.

When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

If the contributions are not linked to services (e.g. contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset).

If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the Company reduces service cost by attributing the contributions to periods of service using the attribution method required by Ind AS 19.70 for the gross benefits. For the amount of contribution that is independent of the number of years of service, the Company reduces service cost in the period in which the related service is rendered / reduces service cost by attributing contributions to the employees’ periods of service in accordance with Ind AS 19.70.

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from ‘profit before tax’ as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company’s current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.6.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.6.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.7 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Freehold land is not depreciated.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under lease are depreciated over the lease term of the ROU (Right of use).

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.7.1 Useful lives of tangible assets

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as prescribed in Part C of Schedule II of the Companies Act, 2013

Particulars	Life (Years)
Building -Non Factory	60
Building - Factory	30
Plant and Machineries, Jigs and Fixtures and Pattern and Moulds	15
Furniture and Fixtures, Electrical Installation	10
Motor Vehicles - Cars and Tractors	8
Computers - Servers and Network	6
Office Equipment	5
Computers - End-use devices (Desktop, Laptop, Printers, etc.)	3
Assets Value < Rs.5000	1

2.8 Intangible assets

2.8.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

2.8.2 Internally-generated intangible assets - research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

2.8.3 Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

Particulars	Life (Years)
Development Expenditure	5
Software	3

2.9 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Company of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.10 Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Costs of inventories are determined on a weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost of raw material and traded goods comprises of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of Inventories also include all other cost incurred in bringing the inventories to their present location and condition. Cost of purchase inventory are determined after deducting rebates and discounts.

2.11 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions are not recognised for future operating losses.

2.11.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.11.2 Warranties

Provisions for the expected cost of warranty obligations under local sale of goods legislation are recognised at the date of sale of the relevant products, at the directors' best estimate of the expenditure required to settle the Company's obligation.

2.11.3 Contingent liabilities acquired in a business combination

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

2.12 Financial instruments

Financial assets and financial liabilities are recognised when an entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.12.1 Cash and cash equivalents:-

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

2.13 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.13.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and

- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

2.13.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.13.3 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.13.4 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.14 Financial Liabilities

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.14.1 Classification of financial liabilities

The company classifies all financial liabilities as subsequently measured at amortised cost.

2.14.2 Initial recognition of financial liabilities

Financial liabilities are carried at amortised cost using the effective interest method.

2.14.3 Subsequent measurement of financial liabilities

The measurement of financial liabilities depends on their classification (Refer Note 29)

2.15 Leases

2.15.1 Initial Recognition:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

2.15.2 Company as a lessee:

Leases, other than short term lease and low value assets, of property, plant and equipment are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

2.16 EPS

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all years presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the financial statements by the Board of Directors.

2.17 Cash flow statement

The Cash Flow Statement is prepared by the indirect method set out in Ind AS 7 on Cash Flow Statements and presents cash flows by operating, investing and financing activities of the Company.

2.18 Rounding off amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2.19 Current v/s Non-Current classification:-

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

a) Expected to be realized or intended to be sold or consumed in normal operating cycle

b) Held primarily for the purpose of trading

c) Expected to be realized within twelve months after the reporting period, or

d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in normal operating cycle

b) It is held primarily for the purpose of trading

c) It is due to be settled within twelve months after the reporting period, or

d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents.

The Company has identified twelve months as its operating cycle for the purpose of current and non-current classification of assets and liabilities

2.20 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2.1 to 2.18, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Detailed information about each of these estimates and judgements included in relevant notes together with information about the basis of calculation of each different line item in the financial statements.

Areas involving judgements and estimations:

1) Provision for warranty and service coupon
2) Provision for ECL
3) Provision for Employee Benefits

Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such Notification which is applicable from April 1, 2024.

STATEMENT OF CHANGES IN EQUITY FOR THE YEAR ENDED 31ST MARCH, 2025

All amounts are in Rupees Lakhs unless otherwise stated

	Trade Payables as on 31st March 2024 >	**4,396.36**	**12.74**	**–**	**–**	**4,409.10**

Note:

1. Trade Payables are payables in respect of the amount due on account of goods purchased or services received in the normal course of business.
2. There are some Micro and Small Enterprises, to whom the Company owes dues, which are outstanding for more than the stipulated period. The information regarding micro and small enterprises have been determined to the extent such parties have been identified on the basis of information available with the Company. The disclosures required to be made as per the Micro, Small and Medium Enterprises Development Act, 2006 are as follows:

	Particulars	**As at 31st March, 2025**	As at 31st March, 2024
I.	Dues remaining unpaid		
	- Principal	**161.52**	38.71
	- Interest	**0.50**	0.08
II.	Interest paid in terms of Section 16 of the Act	**–**	–
III.	Amount of interest due and payable for the period of delay on payments made beyond the appointed day during the year	**0.50**	0.08
IV.	Amount of interest accrued and remaining unpaid	**0.50**	0.08
V.	Amount of interest due and payable on previous year's outstanding amount	–	–

Note No. 17 - Other Financial Liabilities

	Particulars	**As at 31st March, 2025**	As at 31st March, 2024
	Other Financial Liabilities Measured at Amortised Cost		
(A)	**Non Current**		
1	Trade and Security Deposits	**222.91**	307.24
2	Interest Payable	**0.07**	8.43
	Total Other Non Current Financial Liabilities	**222.98**	315.67
(B)	**Current**		
1	Unpaid dividends (Preference dividend, considered as interest)	**1,056.45**	1,013.95
2	Trade and Security Deposits	**244.05**	223.35
3	Unpaid matured preference shares	**500.00**	500.00
4	Other liabilities		
	(a) Capital Creditors	**34.24**	30.65
	(b) Contract Liabilities	**228.48**	269.12
	(c) Employee Payables	**22.00**	22.37
	(d) Expenses accruals	**329.97**	220.54
	(e) Others	**3.30**	3.78
	Total Other Current Financial Liabilities	**2,418.47**	**2,283.76**

Note:

5,000,000 8.5% Cumulative Redeemable Preference Shares of Rs. 10 each issued solely to Government of Gujarat (GOG) as fully paid up on 23rd May, 2000 consequent upon conversion of loan of Rs. 50,000,000.

These shares were redeemable at par at the end of four years from the date of allotment i.e. 22nd May, 2004 and the terms of the issue of the shares can be varied with the express consent of the Company and the holders of the shares at any time during the period the shares are outstanding.

The Preference Shares issued have right to receive dividend from year to year as decided by terms of issue i.e. 8.5% per annum from the date of allotment.

The preference share holders will not be entitled to any of the rights and privileges available to the members of the Company including right to receive notice of or to attend and vote at general meeting or to receive annual reports of the company. If, however any resolution affecting the rights attached to the share is placed before the member of the Company, such resolution will first be placed before the preference shareholders for their consideration.

Considering book losses, the Board of Directors had not declared dividend on preference shares since allotment. Thus, no provision was made for 8.5% dividend, amounting to Rs. 631.46 Lakhs on preference shares for the period from 23rd May, 2000 (being the date of allotment) to the year ended 31st March, 2015 and additional tax thereon as per the accounting treatment under IGAAP.

Under IND AS, accrued Dividend on Preference Shares is defined as Other Current Financial Liabilities under Unpaid Dividends and are currently excluding taxes.

Note No. 18 - Provisions

Particulars	**As at 31st March, 2025**		As at 31st March, 2024	
	Current	**Non-Current**	Current	Non-Current
1. Provision for employee benefits				
(a) Employee Benefits	**64.45**	**201.05**	45.10	197.49
2. Other Provisions				
(a) Provision for Warranty	**246.76**	**–**	153.88	–
(b) Provision for Service Coupon	**57.63**	**–**	54.21	–
Total Provisions	**368.84**	**201.05**	253.19	197.49

Note:

Movement of Warranty Provision

Provision for Warranties	**Balance at the beginning of the year**	**Provision made during the year**	**Provision used during the year**	**Provision written back during the year**	**Balance at the end of the year**
Financial Year 2024-2025	**153.88**	**165.12**	**72.24**	**–**	**246.76**
Financial Year 2023-2024	60.07	128.24	34.43	–	153.88

Provision for warranty has been recognised for expected warranty claims on products sold during the last two financial years. It is expected that the majority of this expenditure will be incurred in the next financial year.

Movement of Service Coupon Provision

Provision for Service Coupon	Balance at the beginning of the year	Provision made during the year	Provision used during the year	Provision written back during the year	Balance at the end of the year
Financial Year 2024-2025	**54.21**	**39.63**	**36.21**	**–**	**57.63**
Financial Year 2023-2024	43.29	41.80	14.12	16.76	54.21

Net Cash inflows	**(0.01)**	(0.00)

Note No. 28 - Earnings/(loss) per Share

Particulars	Year Ended on 31st March, 2025	Year Ended on 31st March, 2024
Basic Earnings/(loss) per share		
From continuing operations (in Rupees)	**(0.66)**	(1.56)
Total basic earnings/(loss) per share	**(0.66)**	(1.56)

Particulars	Year Ended on 31st March, 2025	Year Ended on 31st March, 2024
Diluted Earnings/(loss) per share		
From continuing operations (in Rupees)	**(0.66)**	(1.56)
Total diluted earnings/(loss) per share	**(0.66)**	(1.56)

Basic earnings/(loss) per share

The earnings/(loss) and weighted average number of ordinary shares used in the calculation of basic earnings/(loss) per share are as follows:

Particulars	Year Ended on 31st March, 2025	Year Ended on 31st March, 2024
Profit/(loss) for the year attributable to owners of the Company	**(360.72)**	(844.87)
Profit/(loss) used in the calculation of basic earnings/(loss) per share	**(360.72)**	(844.87)
Weighted average number of equity shares	**5,43,01,979**	5,43,01,979
Nominal value of Shares (in Rupees)	**10.00**	10.00
Earnings/(loss) per share from continuing operations - Basic (in Rupees)	**(0.66)**	(1.56)

Diluted earnings/(loss) per share

Particulars	Year Ended on 31st March, 2025	Year Ended on 31st March, 2024
Profit/(loss) for the year used in the calculation of basic earnings per share	**(360.72)**	(844.87)
Profit/(loss) used in the calculation of diluted earnings per share	**(360.72)**	(844.87)

The weighted average number of ordinary shares for the purpose of diluted earnings/(loss) per share reconciles to the weighted average number of ordinary shares used in the calculation of basic earnings/(loss) per share as follows:

Particulars	Year Ended on 31st March, 2025	Year Ended on 31st March, 2024
Weighted average number of equity shares used in the calculation of Basic EPS	**5,43,01,979**	5,43,01,979
Add:		
ESOPs	**–**	–
Convertible bonds	**–**	–
Weighted average number of equity shares used in the calculation of Diluted EPS	**5,43,01,979**	5,43,01,979

Note:

The Company reports basic and diluted earnings/(loss) per share in accordance with Ind AS 33 on Earnings per share. Basic earnings/(loss) per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Diluted earnings/(loss) per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all years presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the financial statements by the Board of Directors.

Note No. 29 - Financial Instruments

Capital management

The Company manages capital risk in order to maximize shareholders' profit by maintaining optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio and net borrowings-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary. There is no change in the overall capital risk management strategy of the Company compared to last year.

The Company uses debt ratio as a capital management index and calculates the ratio as total liabilities divided by total equity. Total liabilities and total equity are based on the amounts stated in the separate financial statements.

The Company is not subject to externally enforced capital regulation.

Debt-to-equity ratio is as follows:

Particulars	As at 31st March, 2025	As at 31st March, 2024
Debt (A)	**1,879.83**	1,758.38
Equity (B)	**3,557.60**	3,917.07
Debt Ratio (A/B)	**0.53**	0.45

Financial Risk Management Framework

The Company's activities expose it to credit risk. In order to manage the aforementioned risk, the Company operates a risk management policy and a program that performs close monitoring of and responding to risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral (As on 31 March 2025: Rs. 171.00 Lakhs (31 March 2024: Rs. 177.50 Lakhs), where appropriate, as a means of mitigating the risk of financial loss from defaults. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee periodically.

Trade receivables consist of a large number of customers, spread across diverse geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable. In case of Exports to Nepal credit guarantee insurance cover is purchased.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks provided by the Company. The Company's maximum exposure in this respect is the maximum amount the Company could have to pay if the guarantee is called on as at 31 March 2025, an amount of Rs. 51.00 Lakhs (31 March 2024: Rs. 14.70 Lakhs) has been recognised as contingent.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses. The Company has taken dealer deposit and bank guarantees of Dealer which is considered as collateral and these are considered in determination of expected credit losses, where applicable.

The financial instruments of the company mainly consist of trade receivables carried at amortised cost after providing for expected credit loss based on historical credit loss experience and adjusted for forward looking information.

In calculating expected credit loss, the Company has also considered other related credit information for its customers to estimate the probability of default in future.

There is no change in estimation techniques or significant assumptions during the reporting period.

The loss allowance provision is determined as follows:

Particulars	As at 31st March 2025 Less than 6 months past due	More than 6 months past due	Total
Expected loss rate	**–**	**0.77**	**0.32**
Gross carrying amount (Unsecured)	**3,001.74**	**2,193.10**	**5,194.83**
Loss allowance provision	–	**1,679.11**	**1,679.11**

Particulars	As at 31st March 2024 Less than 6 months past due	More than 6 months past due	Total
Expected loss rate	–	0.67	0.39
Gross carrying amount (Unsecured)	1,565.90	2,104.36	3,670.26
Loss allowance provision	–	1,417.78	1,417.78

Reconciliation of loss allowance provision for Trade Receivables

Particulars	As at 31st March, 2025	As at 31st March, 2024
Balance as at beginning of the year	**1,417.78**	1,068.02
As per ECL in Opening Provisions	**–**	–
Impairment losses recognised in the year based on lifetime expected credit losses		
- On receivables originated in the year	**486.78**	381.70
Amounts written off during the year as uncollectible	**(225.45)**	(31.95)
Balance at end of the year	**1,679.11**	1,417.78

The loss allowance provision has changed during the period due to amounts written off as uncollectible.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
Non-derivative financial liabilities				
As at 31st March, 2025				
Non-interest bearing	**8,586.41**	–	–	–
Fixed interest rate instruments	**1,556.45**	–	–	–
Total	**10,142.86**	–	–	–
As at 31st March, 2024				
Non-interest bearing	5,423.35	–	–	–
Fixed interest rate instruments	1,513.95	–	–	–
Total	6,937.29	–	–	–

(iii) Financing arrangements

The Company had access to following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at 31st March, 2025	As at 31st March, 2024
Secured Cash Credit facility		
- Expiring within one year	**2,000.00**	2,000.00
Secured Letter of Credit facility		
- Expiring within one year	**–**	**–**
Secured Bank Guarantee facility		
- Expiring within one year	**–**	**–**
Working Capital Facilities with Bank	**2,000.00**	2,000.00
Commercial Card Facility		
Continuing Agreement till Termination	**–**	–
Credit Card Facility	**–**	–

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
Non-derivative financial assets				
As at 31st March, 2025				
Non-interest bearing	**3,543.65**	**–**	**–**	**–**
Total	**3,543.65**	**–**	**–**	**–**
As at 31st March, 2024				
Non-interest bearing	4,102.96	–	–	–
Total	4,102.96	–	–	–

(v) Unhedged Foreign Currency Exposure

Pursuant to the RBI guidelines on "Capital and Provisioning Requirements for Exposures to entities with Unhedged Foreign Currency Exposure" issued vide circular DBOD.No.BP.BC.85/21.06.200/2013-14 dated January 15, 2014, clarifications issued by RBI subsequently vide circular DBOD. No.BP.BC.116/21.06.200/2013-14 dated June 3, 2014 and RBI circular RBI/15-16/431 permitting writing of options dated June 23, 2016 The Company, as on March 31, 2025, does not have any Unhedged Foreign Currency Exposure (UFCE), as defined in the above mentioned RBI circulars.

Note No. 30 - Fair Value Measurement

Fair value of financial assets and financial liabilities that are not measured at fair value:

Particulars	**As at 31st March, 2025** Carrying Amount	Fair Value	As at 31st March, 2024 Carrying Amount	Fair Value
Financial assets				
Financial assets carried at Amortised Cost:				
1) Trade and other receivables	**3,515.72**	**3,515.72**	2,252.48	2,252.48
2) Loans	**–**	**–**	–	–
3) Deposits and similar assets	**2,807.65**	**2,807.65**	3,090.82	3,090.82
Financial liabilities				
Financial liabilities held at amortised cost:				
1) Bank loans	**323.39**	**323.39**	244.43	244.43
2) Loans from Related Party	**–**	**–**	–	–

Note No. 31 - Segment information

Revenue from Major Geographic Location

Particulars	**Year Ended on 31st March, 2025**	Year Ended on 31st March, 2024
Revenue from India		
Revenue from External Customers	**20,700.51**	17,979.52
Revenue from Related Parties	**8,787.74**	6,925.65
	29,488.25	24,905.17
Outside India		
Nepal	**–**	1.99
Total revenue as per profit or loss	**29,488.25**	24,907.16

Revenue from major products

The following is an analysis of the Company's revenue from continuing operations from its major products:

Particulars	**Year Ended 31st March, 2025**	Year Ended 31st March, 2024
Manufactured Goods	**28,369.69**	23,993.74
Traded Goods	**1,033.42**	913.42
Total	**29,403.11**	24,907.16

Extent of the reliance on its major customers:

There is no Dealer whose revenue is more than 10% as against the total turnover of the company for the Financial Year 2024-2025.

Note No. 32 - Employee benefits

(A) Defined Contribution Plans:

Particulars	**As at 31st March, 2025**	As at 31st March, 2024
(a) Provident Fund	**87.01**	80.66
(b) National Pension Fund	**0.34**	0.43
(c) Employees' State Insurance (ESI)	**6.35**	6.54
(d) Gujarat Labour Welfare Fund	**0.01**	0.01
	93.71	87.64

(B) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

"The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plans hold a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

However, the Company believes that due to the long-term nature of the plan liabilities and the strength of the supporting group, a level of continuing equity type investments is an appropriate element of the Company's long term strategy to manage the plans efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings and interest rate hedging instruments.

Inflation risk

Some of the Company's pension obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation). The plans hold a significant proportion of assets in index linked gilts, together with other inflation hedging instruments and also assets which are more loosely correlated with inflation. However an increase in inflation will also increase the deficit to some degree.

Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	Valuation as at 31-Mar-25	31-Mar-24
Expected Rate of Return on Assets	**N.A.**	N.A.
Discount rate	**6.55%**	7.14%
Expected rate of salary increase - Officer	**6.00%**	6.00%
Expected rate of salary increase - Staff & Cell executive	**9.00%**	
Employee Turnover - Officer	**20.00%**	10.00%
Employee Turnover - Staff & Cell executive	**17.00%**	
Mortality Rate During Employment	**IALM (2012-14) Ultimate**	IALM (2012-14) Ultimate
Retirement Age	**60 Years**	60 Years
Average Longevity	**20**	20

Defined benefit plans – as per actuarial valuation on 31st March, 2025

Particulars	Unfunded Plan Gratuity 2025	2024
Amounts recognised in comprehensive income in respect of these defined benefit plans are as follows:		
Service Cost:		
Current Service Cost	**34.71**	27.87
Net interest expense	**11.48**	10.36
Components of defined benefit costs recognised in profit or loss	**46.19**	38.23
Remeasurement on the net defined benefit liability:		
Actuarial gains and loss arising from changes in Demographic Assumptions	**(6.02)**	–
Actuarial gains and loss arising from changes in financial assumptions	**14.85**	1.91
Actuarial gains and loss arising from experience adjustments	**(10.09)**	7.88
Components of defined benefit costs recognised in other comprehensive income	**(1.26)**	9.80
Total	**44.92**	**48.03**
I. Net Asset/(Liability) recognised in the Balance Sheet as at 31st March 2025		
1. Present value of defined benefit obligation as at 31st March 2025	**173.55**	159.88
2. Fair value of plan assets as at 31st March 2025	**–**	–
3. Surplus/(Deficit)	**173.55**	159.88
4. Current portion of the above	**41.68**	31.33
5. Non current portion of the above	**131.88**	128.55
II. Change in the obligation during the year ended 31st March 2025		
1. Present value of defined benefit obligation at the beginning of the year	**159.88**	142.21
2. *Expenses Recognised in Profit and Loss Account*		
– Current Service Cost	**34.71**	27.87
– Interest Expense (Income)	**11.48**	10.36
3. *Recognised in Other Comprehensive Income*		
Remeasurement gains/(losses)		
– Actuarial Gain (Loss) arising from:		
i. Demographic Assumptions	**(6.02)**	–
ii. Financial Assumptions	**14.85**	1.91
iii. Experience Adjustments	**(10.09)**	7.88
4. Benefit payments	**(31.25)**	(30.36)
5. Present value of defined benefit obligation at the end of the year	**173.55**	159.88
III. Actuarial assumptions		
1. Discount rate	**6.55%**	7.14%

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Decrease in assumption
Discount rate	**2025**	**1.00%**	**-3.72%**	**4.06%**
	2024	1.00%	-5.20%	5.86%
Salary growth rate	**2025**	**1.00%**	**4.30%**	**-4.07%**
	2024	1.00%	6.08%	-5.56%
Withdrawal Rate	**2025**	**1.00%**	**-0.40%**	**0.41%**
	2024	1.00%	0.08%	-0.12%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

Maturity profile of defined benefit obligation:

Particulars	2025	2024
Within 1 year	**43.02**	32.42
1 - 2 year	**30.00**	25.85
2 - 3 year	**30.06**	16.63
3 - 4 year	**19.18**	19.89
4 - 5 year	**18.28**	11.32
5 - 10 years	**58.53**	57.04

The Company's policy is driven by considerations of maximizing returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

The weighted average duration of the defined benefit obligation as at 31 March 2025 is 5.46 years (2024: 8.29 years)

Experience Adjustments :

Particulars	Gratuity Period Ended **2025**	2024	2023	2022	2021
1. Defined Benefit Obligation	**173.55**	159.88	146.84	130.97	153.31
2. Fair value of plan assets	**–**	–	–	–	–
3. Surplus/(Deficit)	**173.55**	159.88	146.84	130.97	153.31
4. Experience adjustment on plan liabilities [(Gain)/Loss]	**(1.26)**	9.80	14.82	3.20	(1.61)
5. Experience adjustment on plan assets [Gain/(Loss)]	**–**	–	–	–	–

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The current service cost and the net interest expense for the year are included in the employee benefits expense in profit or loss of the expense for the year.

	Closing Balance	**228.48**

Note No. 35 - Leases

At inception of contract, the Company assesses whether the Contract contains a lease. A contract contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At inception or on reassessment of a contract that contains a lease component, the Company allocates consideration in the contract to each lease component on the basis of their relative standalone price.

(i) **Right-of-use assets:** The Company recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and estimate of costs to dismantle. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Area Office: “Put the life” On the basis of the tenure of the lease agreement

The Company presents right-of-use assets that do not meet the definition of investment property in ‘Property, plant and equipment’.

(ii) **Lease Liabilities:** At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Company generally uses its incremental borrowing rate at the lease commencement date if the discount rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. The carrying amount is remeasured when there is a change in future lease payments arising from a change in index or rate. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

The Company presents lease liabilities in ‘Financial Liabilities’ in the Balance Sheet.

(iii) **Short term leases and leases of low value of assets:** The Company applies the short-term lease recognition exemption to its short-term leases. It also applies the lease of low-value assets recognition exemption that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

(A) The Company has lease contracts for area office in its operations. Details of amount recognised in profit and loss:

Amounts recognised in profit and loss	**As at 31st March, 2025**	As at 31st March, 2024
Depreciation expense on right-of-use assets	**3.08**	6.09
Interest expense on lease liabilities	**0.31**	0.90
Expense relating to short-term leases	**3.43**	7.61
Total	**6.83**	14.61

(B) The following table set outs maturity analysis of lease liability to be paid after the reporting date:

Maturity Analysis	**As at 31st March, 2025**	As at 31st March, 2024
Not later than one year	**–**	5.21
Later than one year but not later than five years	**–**	2.96
Total	**–**	8.17

(C) The total cash outflow for leases amount to Rs. 5.26 Lakhs during the year.

(D) Below are the carrying amount of lease liabilities and the movement during the year:

Particulars	**As at 31st March, 2025**	As at 31st March, 2024
Opening Lease Liability	**8.17**	5.65
Additions	**–**	7.79
Accretion of interest	**–**	–
Payments	**(3.16)**	(5.26)
Cancelation of Lease during the year	**(5.01)**	–
Closing Lease Liability	**–**	8.17

(E) Below is the breakup of Current and Non current lease liabilities:

Particulars	**As at 31st March, 2025**	As at 31st March, 2024
Current lease liabilities	**–**	5.21
Non current lease liabilities	**–**	2.96
Total	**–**	8.17

Note No. 36 - Contingent liabilities and commitments

Contingent liabilities (to the extent not provided for)

	Particulars	**As at 31st March, 2025**	As at 31st March, 2024
	Contingent liabilities		
1	Bank guarantees	**51.00**	14.70
2	Bills discounted but not matured	**–**	–

INDEPENDENT AUDITORS' REPORT

TO THE SHAREHOLDERS OF MAHINDRA SOUTH EAST ASIA LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Mahindra South East Asia Limited (the Company), which comprise the statement of financial position as at March 31, 2025, the statement of income and statement of changes in equity for the accounting period start from October 8, 2024 to march 31, 2025 and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2025, and its financial performance for the for the accounting period start from October 8, 2024 to march 31, 2025 in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities.

Basis for Opinion

We conducted our audit in accordance with Thai Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and we have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our

opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO FINANCIAL STATEMENTS AS AT MARCH 31, 2025

1. GENERAL INFORMATION

Company status

Mahindra South East Asia Co., Ltd. "The Company" was incorporated as a limited company under Thai Civil and Commercial Code on October 8, 2024, registration no. 0105567208056

Place of company

1840 Sukhumvit Hill office no. 81901, 940 8-9 floor, Sukkumvit Road, Prakanong tai Subdistrict, Prakanong District Bangkok Thailand

Business and operation

The objective of the Company are distribution of tractors and farm implements including their spares parts

2. BASIC OF FINANCIAL STATEMENT PREPARATION

The financial statements have been prepared in accordance with Thai Accounting Standards and Thai Financial Reporting Standards for Non-Publicly Accountable Entities enunciated on Notification of Federation of Accounting Professions (FAP) no. 48 (B.E.2565) under the Accounting Profession Act B.E.2547 which is effective on the financial statements for fiscal year beginning on or after 1 January 2023.

The presentation of the financial statements has been made in compliance with the Notification of the Department of Business Development; Define Financial statement abstract B.E.2566 dated 27 October 2566, issued under the Accounting Act B.E.2543 which is effective on the financial statements for fiscal year beginning on or after 1 January 2024.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

3 SUMMARIZED SIGNIFICANT ACCOUNTING POLICIES

3.1 Revenue and expenses recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods net of output tax, rebates and discounts. Revenue from sales of goods is recognised when significant risks and rewards of ownership of the goods are transferred to the buyer.

Interest income is recognised on time basis, based on principal outstanding and the applicable interest rate. Other income recognised on an accrual basis.

3.2 Cash and cash equivalents

Cash and cash equivalents are consist of cash on hand, deposit at banks and high liquid short - term investment which is very safe investments and can be easily converted into cash within 3 months. Bank overdrafts that are repayable on demand.

3.3 Trade and other current receivables

Trade accounts receivable are stated at the net realise value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experiences and analysis of debt aging.

3.4 Inventories

Inventories are stated at the lower of cost or net realisable value. Cost is determined by the following method

1. Tractor : Moving average method
2. Sparepart and others: Moving average method

The cost of purchase comprises both the purchase price and costs directly attributable to the acquisition of the inventory, such as import duties and transportation charges, less all attributable discounts. Net realisable value is the estimate of the selling price in the ordinary course of business, less the costs of completion and selling expenses. The amount of any write down of inventories to net realisable value is recognised as an expense in the period the write down occurs.

3.5 Equipment

Equipment are stated at cost less accumulated depreciation and allowance for diminution in value of equipment if there is permanent impairment indicator on that assets. The Company reconsider on useful life, depreciation method and scrap value constantly. Depreciation is calculated by a straight-line method over their estimated useful life as follows:

	Year life	
Computer	3	Years
Office Equipment	5	Years
Plant and Machinery (small Tollings)	2	Years

3.6 Effects of changes in Foreign exchange rate

Accounts in foreign currency are converted to Thai Baht using the exchange rate prevailing on the transaction date. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into Thai Baht using the exchange rate as of the statement of financial position date.

Non-monetary assets and liabilities arising from transactions in foreign currencies recorded on a historical cost basis are translated into Thai Baht using the exchange rates prevailing on the transaction dates.

Exchange differences arising from translation are recognized as profit or loss for that period.

3.7 Employee benefits

Short-term employee benefits

The Company recognizes salaries, wages, bonuses and contributions to the Social Security Fund as expenses when incurred.

Retirement benefits

Contribution Program

The Company and its employees have jointly established a provident fund. This comprises the monthly contributions by employees and the Company's monthly contributions. The assets of the provident fund are separated from the assets of the Company. The Company's contributions to the provident fund are recognized as expenses in the year in which they are incurred.

Post-employment benefit plans

The Company recognizes the employee benefit obligations in the statement of financial position under the terms of the Act. Labor Protection Act B.E. 2541, which is calculated according to the debt burden at the end of the period. Estimated gain or loss under a defined benefit plan is recognized immediately in the income.

3.8 Provisions and contigent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

3.9 Income tax

The Company records income tax on the basis of net taxable profits in accordance with tax laws.

	More than 1 year but not more than 5 years	–

12 APPROVAL OF FINANCIAL STATEMENT

These financial statement were authorized for issue by company's authorized director on April 17, 2025

Sanjeesh Bera
Director

INDEPENDENT AUDITOR'S REPORT

To the Stockholder and the Board of Directors,
Mahindra USA, Inc.

OPINION

We have audited the accompanying financial statements of Mahindra USA, Inc. (the "Company"), a Texas Corporation, which comprise the balance sheets as of March 31, 2025, and March 31, 2024, and the related statements of income and loss, changes in stockholder's equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Company as of March 31, 2025, and March 31, 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

BASIS FOR OPINION

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

RESPONSIBILITIES OF MANAGEMENT FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Company's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS

NOTE A - NATURE OF OPERATIONS

Mahindra USA, Inc. (the "Company") ("MAgNA") was incorporated on June 8, 1994, in the State of Texas and commenced business on March 15, 1995. The Company is owned by Mahindra and Mahindra Ltd. ("M&M"). M&M is a publicly traded corporation, headquartered in Mumbai, India, which, among other activities, manufactures farming equipment and automobiles. The Company sells tractors, parts, attachments, accessories and off-road vehicle in North America under wholesale distribution agreements.

The Company formed a subsidiary on August 9, 2016, Mahindra Mexico S de. R.L. de. C.V. ("MML"), to assemble and sell tractors, parts, attachments and accessories in Mexico and Latin America. MML commenced commercial operations in July 2018. The subsidiary company stands dissolved effective March 28, 2024.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. Basis of preparation

a. The accompanying financial statements are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ('US GAAP').

b. All amounts are stated in United States Dollars (USD), except as otherwise specified.

c. The financial statements are presented for the years ended March 31, 2025, and March 31, 2024.

2. Liquidity

The Company believes that cash flow from operations and available borrowings from uncommitted line of credit from banks will be sufficient to meet the Company's current anticipated cash needs for at least the next twelve months, including working capital needs and various contractual obligations. If these current cash resources are insufficient to satisfy the Company's cash requirements, the Company may obtain additional equity financing from Parent Company or other affiliates and take necessary actions to generate additional cash flows to support obligations over the next twelve months.

3. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management's estimates for determination of useful lives for property, plant & equipment, and long-lived assets for impairment, allowance for incentives and warranties, legal and tax contingencies, allowance for expected credit losses, accounting for leases and provision for inventory at the balance sheet date represent certain of these particularly sensitive estimates. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates prospectively in the current and future periods.

4. Cash and bank

The Company's cash and bank comprise of cash and bank balances. The carrying value of cash and bank approximates fair value because of the short maturities of those financial instruments. Cash balances in US bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate of $250,000. The Company believes it is not exposed to any significant risk on cash and cash equivalents.

5. Revenue recognition

The Company follows Accounting Standards Codification ('ASC') 606 – Revenue from Contracts with Customers for revenue recognition.

Revenue from sale of tractors, parts, attachments, accessories, and off-road vehicle products is recognized when each of the following criteria is met:

1. The Company and an independent dealer approve a contract with commercial substance.

2. The sales price is determinable, and collectability of the payment is probable based on the terms outlined in the contract.

3. Control of the goods is transferred to the dealer when the ordered goods are invoiced to the dealer and when the ordered items are shipped.

Transfer of control, and therefore revenue recognition is recorded at a point in time on the date when the tractors, parts, attachments, accessories, and off-road vehicle products are shipped to the dealers.

The Company participates in various retail sales incentives with its dealers. The Company records the estimated retail sales incentive programs offered to dealers as a reduction to revenue at the time of sale to the dealer. The estimate is based on historical data, announced incentive programs, field inventory levels, and retail sales volumes.

<u>Revenue from sale of off-road vehicle products</u>

The Company entered into a distribution agreement with Mahindra North American Technical Center, Inc. ("MNATC"), its related party, for sale of off-road vehicle and its parts and accessories manufactured by MNATC, in North America. The Company has an arrangement with MNATC for supply of off-road vehicles whereby the Company has recorded sales from these vehicles on a gross basis, as it is acting as a principal in such sales. Effective April 01, 2024, MNATC has merged with Mahindra Automotive North America Inc., and successor company Mahindra Automotive North America Inc. is now transacting with Mahindra USA Inc.

Product warranties

The Company establishes reserves for product warranties at the time the related sale is recognized. The Company issues product warranties under which the performance of products delivered is generally guaranteed for a certain term. The accrual for product warranties includes the expected costs of warranty obligations imposed by law or contract, as well as the expected costs for policy coverage.

6. Accounts receivable and allowance for expected credit losses

Accounts receivables are stated at the amount billed to customers. Under Topic 326, accounts receivable are recorded at the invoiced amount, net of allowance for credit losses. The Company regularly reviews the adequacy of the allowance for credit losses based on a combination of factors. In establishing any required allowance, management considers historical losses adjusted for current market conditions, the current receivables aging, current payment terms and expectations of forward-looking loss estimates.

Further, the Company has applied scope exception as per Accounting Standard Codification ("ASC") 326-20-15-3, for the accounts receivables balance from entities under common control. Therefore, the Company has not recorded any allowance for credit losses on receivables balance from entities under common control.

7. Inventories

Inventories are stated at moving average price or net realizable value whichever is lower. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price less applicable selling expenses. The Company writes down obsolete or otherwise unmarketable inventory to its estimated realizable value.

8. Property, plant and equipment, net

Property, plant and equipment are stated at cost less accumulated depreciation and impairment. Cost of items of property, plant and equipment comprise the cost of purchase, improvements and other costs necessarily incurred to bring it to the condition and location necessary for its intended use. Depreciation is provided over the useful lives of the related assets using the straight-line method for financial reporting and the modified accelerated cost recovery method for tax purposes. Leasehold improvements are amortized over the shorter of the lease term or their respective estimated useful lives.

The estimated useful life used to determine depreciation is:

Buildings and building improvements	7-10 Years
Furniture and fixtures	3-10 Years
Plant & machinery	3-7 Years
Computer and software	3-5 Years
Vehicles	3-5 Years

Deposits paid towards the acquisition of property, plant and equipment outstanding as of each balance sheet date and the cost of property, plant and equipment not ready for use before such date are disclosed under capital work-in-progress. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is a part of net operating loss.

Development costs related to internally generated software are capitalized once a project has progressed beyond a conceptual, preliminary stage to that of the application development stage. Costs of significant improvements on existing software for internal use, both internally developed and purchased, are also capitalized. Costs related to the preliminary project stage, data conversion and post-implementation/operation stage of an internal use software development project are expensed as incurred.

9. Leases

The Company follows Accounting Standards Codification (“ASC”) 842 Leases which requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company uses the practical expedients permitted under the standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard. The Company has not applied the recognition and measurement requirements of ASC 842 to certain assets on lease where the management believes it to be immaterial.

The Company’s leases are classified as operating leases, which are included in operating lease right-of-use assets and operating lease liabilities in the Company’s balance sheet. Lease arrangements, which effectively transfer control of the underlying leased item, are capitalized, and recognized as finance leases.

Right-of-use (“ROU”) assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company’s outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in selling, general and administrative expense in the statements of income and loss. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

10. Income taxes

In accordance with the provisions of FASB ASC Topic 740 “Income Taxes,” income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The deferred tax asset is reduced by a valuation allowance if it is more likely than not that some portion or all of the assets will not be realized.

11. Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency at the rates of exchange prevailing at the date of the transaction. Monetary items denominated in foreign currency remaining unsettled at the end of the year are translated at the closing rates as at the last day of the year. Gains or losses, if any, on account of exchange differences either on settlement or translation are recognized in statements of income and loss, except those relating to acquisition of fixed assets which are adjusted to the cost of the asset.

12. Fair value measurements and financial instruments

The fair value hierarchy requires the use of observable market data when available. In instances where the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input significant to the fair value measurement in its entirety. The Company’s assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

- Level 1 - Quoted prices in active markets for identical assets or liabilities.
- Level 2 - Observable inputs other than quoted prices include in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 - Unobservable inputs that are supported by little or no market activity. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

The Company’s financial instruments consist of cash and bank, accounts receivable, accounts payable and related party dues. The estimated fair value of cash and bank, accounts receivable, accounts payable and related party dues approximate their carrying amounts due to the short-term nature of these instruments. None of these instruments are held for trading purposes.

13. Advertising and marketing expenses

The Company subsidizes product advertising carried out by dealers within each dealer’s local market and conducts dealer conferences. The Company also advertises in trade magazines, at trade shows and uses various other means of promotion, including product brochures and digital media to increase brand awareness and sale of products in the market. Expenditure incurred without extended advertising value are charged to statements of income and loss in the year accrued. The amount of advertising and marketing costs incurred by the Company for the year ended March 31, 2025, amounted to $8,587,550 (March 31, 2024: $3,671,166). Advertising and marketing expenses and grouped under selling, general and administrative expenses in the statements of income and loss.

14. Shipping and handling cost

The Company generally classifies freight billed to dealers as sales revenue. Shipping and handling activities are considered to be separate performance obligations.

15. Commitments and contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred, and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

NOTE C – CASH AND BANK

Cash and bank include the following:

	As at	
	March 31, 2025	March 31, 2024
Balances with banks	**22,607,183**	43,451,054
Total	**22,607,183**	43,451,054

NOTE D – ACCOUNTS RECEIVABLE, NET

Accounts receivable, net, include the following:

	As at	
	March 31, 2025	March 31, 2024
Accounts receivable from customers	**6,060,825**	8,331,968
Less: Allowance for expected credit loss	**(851,291)**	(796,909)
Accounts receivable, net of allowances	**5,209,534**	7,535,059

The movement in allowance for expected credit loss is as follows:

	For the year ended	
	March 31, 2025	March 31, 2024
Opening balance	**796,909**	848,250
Add: Addition during the year	**93,252**	–
Less: Provision reversed/written off	**(38,870)**	(51,341)
Closing balance	**851,291**	796,909

NOTE E – INVENTORIES, NET

Major classes of inventories include the following:

	As at	
	March 31, 2025	March 31, 2024
Finished goods	**68,927,843**	59,537,563
Raw materials	**57,827,270**	80,374,337
Total	**126,755,113**	139,911,900

NOTE F – PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, net include the following:

	As at	
	March 31, 2025	March 31, 2024
Building and building improvements	**5,955,173**	5,970,238
Vehicles	**65,519**	65,519
Furniture and fixtures	**1,218,981**	1,166,809
Plant & machinery	**2,678,345**	2,435,614
Computers and software	**12,374,704**	11,689,359
Less: Accumulated depreciation and amortization	**(17,494,680)**	(15,869,407)
Property, plant and equipment, net	**4,798,042**	5,458,132
Capital work-in-progress	**1,236,899**	163,689
Property, plant and equipment, net	**6,034,941**	5,621,821

Depreciation and amortization expense for the year ended March 31, 2025, amounting to $1,625,273 (March 31, 2024: $2,139,068) is included in 'selling, general and administrative expenses' on the statements of income and loss.

During the years ended March 31, 2025, and March 31, 2024, capital work-in-progress of $1,095,257 and $ 1,699,091, respectively, were completed and capitalized to computer and software, building and building improvements, furniture and plant & machinery.

NOTE G – LINE OF CREDIT ("LOCs")

The Company has uncommitted line of credit ("LOCs") facilities available with few banks. These LOCs are available to the Company subject to fulfillment of lenders representations as defined in the agreement. These LOCs are available to the Company at an interest rate of SOFR + basis points, which will be determined at the time of disbursement. During the years ended March 31, 2025, and March 31, 2024, the Company did not utilize or withdraw funds from LOCs available and accordingly, no finance cost has been recorded for both the years. As of March 31, 2025, and March 31, 2024, total uncommitted line of credit available with the Company is $110,000,000 and $110,000,000, respectively.

NOTE H – ACCOUNTS PAYABLE

	As at	
	March 31, 2025	March 31, 2024
Trade payables	**12,380,296**	19,175,534
Total	**12,380,296**	19,175,534

NOTE I – OTHER CURRENT LIABILITIES

Other current liabilities comprise of:

	As at	
	March 31, 2025	March 31, 2024
Accrued payables	**85,323,483**	88,403,376
Total	**85,323,483**	88,403,376

Expenses accrued as of March 31, 2025, and March 31, 2024, include advertising, marketing program costs, retail rate buy-downs, cash discounts, state franchise taxes, payroll and payroll taxes, employee bonuses, salesmen and customer bonuses, legal fees and provision for claims, property taxes, insurance deductibles, other expenses and warranty reserves. The Company participates in various retail incentives with its dealers and has accrued for the costs of these programs in effect as of the date of these financial statements.

NOTE J – REVENUE FROM CONTRACT WITH CUSTOMERS

The following table presents revenue disaggregated by the timing of recognition:

	For the year ended	
	March 31, 2025	March 31, 2024
At a point in time	**265,666,094**	405,691,041
Total	**265,666,094**	405,691,041

During the year ended March 31, 2025, the Company's revenue concentration from sale of tractors and parts was approximately 92.70% and sale of vehicles and parts was approximately 7.30%. During the year ended March 31, 2024, the Company's revenue concentration from sale of tractors and parts was approximately 91.40% and sale of vehicles and parts was approximately 8.60%.

During the years ended March 31, 2025, and March 31, 2024, the Company's revenue concentration from United States of America was approximately 95% and 94%, respectively.

Contract balances

The Company's contracts with customers typically consist of sale of tractors, vehicles and parts representing performance obligations that are satisfied upon transfer of control of the product to the customer at a point in time.

	As at	
	March 31, 2025	March 31, 2024
Accounts receivable	**9,854,454**	15,049,395
Advance from customers	**–**	890,681

NOTE K – LEASES

General description of the lease

The Company has entered into non-cancelable operating lease agreements related to facility, office equipment, and vehicles with varying terms.

Non-lease components: Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements.

The Company used the following policies and/or assumptions in evaluating the lease population:

Lease determination: The Company considers a contract to be or to contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration. The Company has not applied the recognition and measurement requirements of ASC 842 to certain assets on lease where the management believes it to be immaterial.

Discount rate: When the lease contracts do not provide a readily determinable implicit rate, the Company uses the estimated incremental borrowing rate based on information available at the inception of the lease. The discount rate is determined by asset class.

Variable payments: The Company includes payments that are based on an index or rate within the calculation of right of use assets and lease liabilities, initially measured at the lease commencement date. There are variable payments in the nature of origination fees for office equipment, machinery and equipment and therefore are not treated as a part of lease payments.

Purchase options: Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Renewal options: Most leases include one or more options to renew, with renewal terms that can extend the lease term from one or more years. The exercise of lease renewal options is at the Company's sole discretion.

Residual value guarantees, restrictions, or covenants: The lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Short-term leases: Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term and expense the associated operating lease costs to selling, general and administrative expenses on the statements of income and loss.

Right of use (ROU) asset relating to finance lease of $ Nil as of March 31, 2025 (March 31, 2024: $0), is included in "property, plant and equipment, net" and lease liability relating to capital lease is $Nil as of March 31, 2024 (March 31, 2023: $Nil).

The table below presents the classification of lease related expenses as reported in the statements of income and loss.

	For the year ended	
Particulars	**March 31, 2025**	March 31, 2024
Amortization of ROU asset on finance lease (a)	**–**	52,746
Interest on finance lease liability (b)	**–**	–
Operating lease expense (c)	**4,825,980**	4,632,122
Total lease expense	**4,825,980**	4,684,868

(a) Amortization of ROU asset relating to finance lease is included in 'selling, general and administrative expenses' in the statements of income and loss.

(b) Interest on finance lease liability is included in 'finance cost' in the statements of income and loss.

(c) Operating lease expenses are included in 'selling, general and administrative expenses' in the statements of income and loss. Operating lease expenses include short-term leases, variable lease costs and leases which did not meet the capitalization requirements of the Company.

Future minimum lease payments as of March 31, 2025, for operating leases having an initial or remaining non-cancelable lease term in excess of one year are as follows.

Year ended March 31,	**Operating lease**
2026	4,815,824
2027	4,908,752
2028	4,993,852
2029	4,817,872
2030	4,486,242
2031 onwards	754,817
Total minimum lease payments	**24,777,359**
Less: Interest	4,309,132
Total lease liabilities	**20,468,236**
Current portion	3,722,090
Non-current portion	16,746,146

The following table presents the weighted-average remaining lease term and discount rates for operating leases as of:

	March 31, 2025	**March 31, 2024**
Weighted-average remaining lease term (years)	**4.98**	**6.52**
Weighted-average discount rate	**5.29%**	4.42%

The following table presents supplemental information for operating leases.

	For the year ended	
	March 31, 2025	**March 31, 2024**
Supplemental cash flow information		
Operating cash flows from operating leases	**4,421,549**	4,314,372

NOTE L – INCOME TAXES

The Company files state tax returns and federal tax returns. The components of the provision for income tax expense are as follows:

	For the year ended	
	March 31, 2025	March 31, 2024
Current taxes (benefit) expense		
Federal	**(55,008)**	(2,613,775)
State	**(76,403)**	1,033,753
Deferred taxes (benefit) expense		
Federal	**–**	3,234,056
State	**–**	(92,976)
Total	**(131,411)**	**1,561,058**

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

As of March 31, 2025, the Company has net deferred tax assets of $58,663,190. This is mainly attributable to three components, deferred tax on accrued dealer incentive of $13,465,810, accrued expenses of $7,201,594 and on net operating losses $34,253,373. Other components refer to deferred taxes on various other expenses, including slow moving inventory, warranty reserves and allowance for uncollectible accounts receivable. Out of total deferred tax assets, the Company has recognized deferred tax assets of $30,390,015 and created valuation allowance on the remaining balance of $28,273,175.

As of March 31, 2024, the Company has net deferred tax assets of $ 55,734,416. This is mainly attributable to three components, deferred tax on accrued dealer incentive of $15,776,132, accrued expenses of $7,735,406 and on net operating losses $28,665,833. Other components refer to deferred taxes on various other expenses, including slow moving inventory, warranty reserves and allowance for uncollectible accounts receivable. Out of total deferred tax assets, the Company has recognized deferred tax assets of $30,390,015 and created valuation allowance on the remaining balance of $25,344,401.

Realization of net deferred tax assets is dependent upon generation of sufficient taxable income in future years, benefit from the reversal of taxable temporary differences and tax planning strategies. Management assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit use of the existing deferred tax assets. The amount of net deferred tax assets considered realizable is subject to adjustment in future periods if estimates of future taxable income change.

Based on the evaluation of positive and negative evidence, the Company has determined that the entire amount of deferred tax assets may not be realizable in the near future and accordingly created a valuation allowance of $28,273,175 and $25,344,401 as of March 31, 2025, and March 31, 2024, respectively.

The Company has federal net operating losses of $136,473,392 and $112,651,168 as of March 31, 2025, and March 31, 2024, respectively. These net operating losses generated will be carried forward indefinitely. The Company has state net operating loss carry forwards of $132,316,711 and $125,601,821 as at March 31, 2025, and March 31, 2024, which if unutilized will expire based on the statutes of various states.

Accounting for uncertain tax position

The Company recognizes the benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. The Company has no unrecognized tax positions as at March 31, 2025, and March 31, 2024.

The tax years 2021 to 2023 remain subject to examination by the taxing authorities.

NOTE M – EMPLOYEE BENEFIT PLANS

The Company adopted a 401(k)-retirement plan effective April 1, 1998. The total expense for employee retirement contribution plans for the year ended March 31, 2025, is $393,860 (March 31, 2024 – $355,434) and are grouped under selling, general and administrative expenses in the statements of income and loss.

NOTE N – RELATED PARTY TRANSACTIONS

The Company had transactions relating to purchase & sales of goods and services with the following related parties:

A. Ultimate Parent Company

1. Mahindra and Mahindra Ltd.

B. Fellow Subsidiaries

1. Mahindra Integrated Business Solution Limited
2. Bristlecone India Limited
3. Bristlecone Inc.
4. Mahindra and Mahindra Financial Services Ltd
5. Mahindra Automotive Australia Pty Ltd.
6. Mahindra Vehicle Manufacturers Limited
7. Mahindra do Brasil Industrial Ltd.
8. Mahindra Overseas Investment Company Mauritius Limited
9. Mahindra Automotive North America Inc.
10. Mahindra North American Technical Center, Inc. dissolved w.e.f. April 01, 2024

C. Associates

1. Mitsubishi Mahindra Agricultural Machinery Co., Ltd
2. Mahindra Finance USA, LLC
3. Tech Mahindra (Americas) Inc

The Company purchases tractors and parts from related parties, including Mahindra & Mahindra Ltd and Mitsubishi Mahindra Agricultural Machinery Co. Ltd., on an open account, which is paid when due. Accounts payable are net of the amounts the Company has paid for warranty claims and legal fees.

The Company has the following payables:

	As at	
	March 31, 2025	March 31, 2024
Mahindra and Mahindra Ltd., Farm Equipment Sector	**69,508,586**	49,142,927

Tech Mahindra (Americas) Inc	**13,000**	–
Total	**4,644,920**	3,516,253

The Company entered into transactions with its related parties in the normal course of business. The Company's purchases of tractors and parts from Mahindra & Mahindra Ltd. and Mitsubishi Mahindra Agricultural Machinery Co. Ltd. for the years ended March 31, 2025, and March 31, 2024, were $128,496,395 and $172,317,114, respectively. The dealers of Mahindra USA, Inc. avail themselves of a financing facility from Mahindra Finance USA LLC. The Company's purchase of Roxor vehicles and parts from Mahindra North American Technical Centre Inc. for the years ended March 31, 2025, and March 31, 2024, were $21,484,417 and $34,468,389, respectively.

NOTE O – FINANCIAL INSTRUMENTS AND CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Company to significant credit risk consist principally of cash and accounts receivable. Risks associated with cash are mitigated by banking with financial institutions that management believes to be of high credit quality. The Company performs ongoing credit evaluations of its dealers and maintains reserves for potential credit losses. To date, such losses have been within management's expectations.

NOTE P – RISK AND UNCERTAINTIES

The Company's future results of operations involve several risks and uncertainties.

Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

NOTE Q – ASSEMBLY AND SERVICE AGREEMENT

The Company has entered into agreements with third party assemblers for the final assembly of tractors. These agreements stipulate that assemblers are able to assemble the tractors in accordance with procedures provided by the Company so that the tractors are ready for sale to dealers. The assemblers store inventory owned by the Company in a secure location.

Effective April 01, 2024, the assembly agreement has been discontinued and the Company entered into a new agreement with Mahindra Automotive North America Inc ("MANA" or "Assembler") for the final assembly of tractors.

The assemblers are paid on a piecemeal basis at various rates depending on the rates agreed for respective model and related accessories.

NOTE R – STOCKHOLDER'S EQUITY

Authorized common stock

The authorized Class A common stock is 460,000,000 shares with a par value of $ 0.25 and the authorized Class B common stock is 693,750,000 shares with a par value of $0.16 as of March 31, 2025, and as of March 31, 2024.

Common stock issued

Class A common stock issued and outstanding is 456,000,000 shares at $ 0.25 par value each and Class B common stock issued and outstanding is 672,500,000 shares at $0.16 par value each.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holders of common stock shall be entitled to receive all of the remaining assets of the Company, after distribution of all preferential amounts, if any. Such amounts will be in proportion to the number of equity shares held by the shareholders.

NOTE S – SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date at which financial statements were available for issue. There were no subsequent events or transactions identified which require disclosure or adjustments to the financial statements.

NOTE T – COMMITMENTS AND CONTINGENT LIABILITIES

The Company is involved in various legal proceedings which are considered ordinary litigation incidents to its business. In the management's opinion, adequate provisions have been made for the contingencies and none of the current litigation will have a materially adverse effect on the Company's financial position.

Management has evaluated the nature of the litigations and, with the assistance of internal and external legal counsel, has assessed the likely outcomes based on current developments and available evidence. Management believes that it has a reasonable basis for estimating the potential financial exposure and has recognized a provision of $2,055,000 under other current liability in the financial statements. The provision reflects the current best estimate of the liability as of the reporting date.

As of March 31, 2025, and March 31, 2024, the Company did not have any capital commitment outstanding.

INDEPENDENT AUDITOR'S REPORT

Board of Directors

Mahindra Automotive North America, Inc.

Qualified opinion

We have audited the accompanying separate parent company financial statements of Mahindra Automotive North America, Inc. ("the Company") which comprise the balance sheets as of March 31, 2025, and March 31, 2024, the related statements of loss, stockholder's equity and cash flows for the years then ended, and the related notes to the separate parent company financial statements.

In our opinion, except for the effects of not consolidating the wholly owned subsidiary and except for the possible effects of the impairment adjustments to the carrying amounts as discussed in the Basis of qualified opinion paragraph, the separate parent company financial statements referred to above present fairly, in all material respects, the financial position of the Company as of March 31, 2025 and March 31, 2024 and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of qualified opinion

As discussed in Note C. 1 a. to the separate parent company financial statements, the Company reports investment in its wholly owned subsidiary Mahindra Vehicle Sales and Service, Inc., on cost basis.

Accounting principles generally accepted in the United States of America require that all majority owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of this subsidiary had been consolidated with that of the Company, total assets would have decreased by USD 90,082,581 (INR: 7,704,042,492) and USD 89,936,691 (INR 7,691,565,686) as on March 31, 2025 and March 31, 2025, respectively; total liabilities would have increased by USD 1,153,596 (INR: 98,657,837) and USD 1,170,272 (INR 100,084,002) as on March 31, 2025 and March 31, 2024, respectively; stockholder's equity would have decreased by USD 91,236,177 (INR 7,802,700,329) and USD 91,106,963 (INR 7,791,649,687) as on March 31, 2025 and March 31, 2024, respectively and net loss would have been reported as USD 2,781,661 (INR 237,893,214) and USD 1,083,018 (INR 92,621,864) for the years ended March 31, 2025 and March 31, 2024 respectively.

The Company has not reviewed its investment in Mahindra Vehicle Sales and Services, Inc as of March 31, 2025, and March 31, 2024, for impairment. We have not been able to obtain sufficient and appropriate evidence over the recoverable amount of this investment as of March 31, 2025, and March 31, 2024. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the separate parent company financial statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of matter

As discussed in Note-B to the financial statements, the Company has suffered losses from operations and has generated negative operating cashflows from operations. The Company also has an accumulated deficit. Management's evaluation of the events and conditions and management's plans to mitigate these matters are also described in Note-B. Our opinion is not qualified with respect to this matter.

Other matter

The supplementary information presented in Indian Rupee in the separate parent company financial statements is solely for the convenience of the users of these separate parent company financial statements. The supplementary information presented in Indian Rupee does not form part of the audited separate parent company financial statements. We have therefore not audited the supplementary information and, accordingly, we do not express an opinion on this supplementary information. This paragraph has no impact on the audit opinion expressed in this auditors' report.

Responsibilities of management for the separate parent company financial statements

Management is responsible for the preparation and fair presentation of these separate parent company financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of separate parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate parent company financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the date the separate parent company financial statements are issued.

Auditor's responsibilities for the audit of the separate parent company financial statements

Our objectives are to obtain reasonable assurance about whether the separate parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on the separate parent company financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the separate parent company financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the separate parent company financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the separate parent company financial statements.
- Conclude whether, in our judgment, there are conditions or events considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Restriction on use and distribution

This report is intended solely for use by the Company's management in connection with the reporting requirements of its ultimate parent company, Mahindra & Mahindra Limited for the year ended March 31, 2025, and March 31, 2024, and should not be used by, or distributed to, anyone in the Group, any of its components, or any other third party.

NOTES TO SEPARATE PARENT COMPANY FINANCIAL STATEMENTS

NOTE A - ORGANIZATION AND NATURE OF OPERATIONS

Mahindra Automotive North America, Inc. (hereinafter referred to as the "Company") was incorporated in the state of Delaware on March 27, 2017 and is a wholly owned subsidiary of Mahindra Overseas Investment Company Mauritius, Limited ("MOICML"). Both, the Company and MOICML are subsidiaries of Mahindra and Mahindra Limited ("M&M"). The Company engineers, designs, develops, assembles and delivers parts and vehicles to the global automotive market for off-road use, as an Original Equipment Manufacturer ("OEM") headquartered in Auburn Hills, MI.

On April 30, 2017, the Company acquired all the stock of MNATC from Mahindra USA Inc, another wholly owned subsidiary of M &M. Prior to April 01, 2024, the Company owned 100% of Mahindra North American Technical Centre ("MNATC"). As a part of a strategic organizational restructuring, on April 1, 2024, MNATC was merged with the Company and all the assets and liabilities were taken over by the Company. This merger is deemed to be a transaction between entities under common control, which, under applicable accounting guidelines, requires the assets and liabilities to be transferred at historical cost of the entity, with prior periods retroactively adjusted to furnish comparative information. (Refer note C.3), within the notes to these separate company financial statements for additional information.

The Company owns 100 % of Mahindra Vehicle Sales and Services, Inc. ("MVSS") which was previously engaged in the sales of off road recreational vehicles.

MVSS was formed on May 13, 2017 to function as the sales and distribution business unit for ROXOR. MVSS used to purchase the ROXORs manufactured by MNATC and wholesale them to MVSS's dealerships. Effective September 01, 2021, ROXOR vehicles and its parts and accessories are distributed through Mahindra USA, Inc ("MAgNA").

NOTE B - GOING CONCERN

The Company has incurred losses amounting to USD 2,652,447 (INR 226,842,573) and USD 2,016,658 (INR 172,468,625) for the years ended March 31, 2025 and March 31, 2024 respectively. The Company reported negative operating cashflows amounting to USD 1,799,690 (INR 153,913,089) and USD 1,179,984 (INR 100,914,592) for the years ended March 31, 2025 and March 31, 2024 respectively. As at March 31, 2025, the Company reported an accumulated deficit of USD 94,735,721(INR 8,101,988,331). These events and condition cast significant doubt on the Company's ability to continue as a going concern. The Company's continuance as a going concern is dependent on its future profitability and costs reduction plans. The management considers that it is appropriate to prepare these separate company financial statements on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future. The plans of the management to mitigate the adverse effects, inter alia are as follows:

1) Reviving its business operations through organizational restructuring.

2) The Company expects a higher scale of volume of sale to MAgNA through expansion of Mahindra USA Inc's dealer network. In addition, the introduction of new product variants is expected to better address evolving market demands and customer preferences.

3) As part of its ongoing cost optimization efforts, the Company has implemented workforce reductions and leased out additional facility space to generate supplementary income. Furthermore, new business cost-reduction initiatives have been introduced, including sourcing components for the ROXOR vehicle from M&M, resulting in a significant decrease in production costs.

Based on the above mitigating factors, the separate parent company financial statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.

NOTE C - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. Basis of preparation

a. The accompanying separate parent company financial statements are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ('US GAAP') to reflect the financial position, results of operations and cash flows of the Company. The Company reports investment in its wholly owned subsidiary, Mahindra Vehicle Sales and Service, Inc., on cost basis for the reporting requirements of its ultimate parent company, Mahindra and Mahindra Limited. Accounting principles generally accepted in the United States of America require that all majority owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of these subsidiary had been consolidated with those of the Company, total assets would have decreased by USD 90,082,581 (INR: 7,704,042,492) and USD 89,936,691 (INR 7,691,565,686) as on March 31, 2025 and March 31, 2024, respectively; total liabilities would have increased by USD 1,153,596 (INR: 98,657,837) and USD 1,170,272 (INR 100,084,002) as on March 31, 2025 and March 31, 2024, respectively; stockholder's equity would have decreased by USD 91,236,177 (INR 7,802,700,329) and USD 91,106,963 (INR 7,791,649,687) as on March 31, 2025 and March 31, 2024, respectively and net loss would have been reported as USD 2,781,661 (INR 237,893,214) and USD 1,083,018 (INR 92,621,864) for the years ended March 31, 2025 and March 31, 2024 respectively.

b. Prior year financial statements has been retroactively adjusted for a merger under common control. (Refer note C.3).

c. The separate parent company financial statements are for the years ended March 31, 2025, and March 31, 2024.

d. Financial information in the separate parent company financial statements is shown in U.S. dollars ("USD") and in Indian rupees ("INR"). For the fiscal years ended March 31, 2025, and March 31, 2024, dollar amounts are translated for convenience into Indian rupees at an exchange rate of 85.522 INR per dollar on March 31, 2025. Within the notes to the financial statements, Indian rupee amounts are shown parenthetically following the U.S. dollar amounts.

e. Certain reclassifications, regroupings and reworking have been made in the separate parent company financial statements of prior year to conform to the classifications used in the current year. These changes had no impact on previously reported separate parent company net loss or stockholder's equity.

2. Use of estimates

The preparation of separate parent company financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the separate parent company financial statements. Significant items subject to such estimates and assumptions include the useful lives of property, plant and equipment, valuation allowance for deferred tax assets, expected credit losses, determination of incremental borrowing rates used for lease liabilities, inventory valuation, product liabilities/warranties, right-of-use assets and other contingencies. Management believes that the estimates used in the preparation of the separate parent company financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the separate parent company financial statements.

3. Retroactive adjustment of previously issued separate financial statements

On April 01,2024, the Company merged the net assets of its previously wholly owned subsidiary Mahindra North American Technical Centre("MNATC"), post this MNATC ceased to exist. Pursuant to this common control merger of MANA and MNATC, prior year financial information has been retroactively adjusted to reflect the acquisition under common control. The merger of MNATC is considered as transaction between entities under common control, the assets and liabilities were transferred at historical cost, and prior periods have been retroactively adjusted to include MNATC's historical financial results in the Company's separate parent company financial statements. The accompanying separate parent company financial statements and related notes have been adjusted to include the historical results and financial position of MNATC for the periods during which the entities were under common control.

The following table includes the financial information as originally reported and the net effect of the merger after elimination of inter-company transactions.

4. Revenue recognition

In accordance with ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASC Topic 606") revenue is recognized upon transfer of control of products or services promised to customers in an amount that reflects the consideration the Company expects to receive in exchange for these products or services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation.

Sale of service

a. *Management fees*

The Company earns revenue from its ultimate parent and affiliate for providing management services. The Company's service fee is determined based on specified monthly expenses incurred by the Company plus an agreed upon mark- up percentage. The Company satisfies its performance obligations over a period of time by performing required services.

b. Tractor assembly service

During the year ended March 31, 2025, the Company entered into an agreement with MAgNA, wherein the Company is engaged to render tractor assembly and distribution services. The Company typically satisfy performance obligations for tractor assembly and distribution services over time, as services are performed.

Sale of manufactured goods

Effective September 01, 2021, the Company entered into the Distribution Agreement ("the agreement") with MAgNA to distribute the redesigned ROXOR as well as its parts and accessories and services relating thereto (collectively with ROXOR, the "Products") under the brand name Mahindra and/or ROXOR through MAgNA's dealership network. All Products shall be sold ex-works by the Company to a destination identified by MAgNA. The Company warrants the Product through limited warranties that are ultimately provided to the end customer- purchaser of the Product.

Effective April 01, 2023, the distribution agreement has been discontinued and the Company entered into a new arrangement with MAgNA for supply of offroad vehicles whereby the sale of the Product would be a principal-to-principal transaction and all the sales incentive, and programs would be sponsored by MAgNA.

Revenue from sale of off-road vehicles is recognized when each of the following criteria is met:

a. The Company approve a contract with commercial substance.

b. The sales price is determinable, and collectability of the payment is probable based on the terms outlined in the contract.

c. Control of the goods is transferred to the affiliate when the ordered items are shipped.

Transfer of control, and therefore revenue recognition is recorded at a point in time on the date when the off-road vehicle, parts and accessories are shipped to the customers of MAgNA.

The Company participated in various retail sales incentives and programs with its dealers till year ended March 31, 2024. The Company recorded the estimated retail sales incentive programs offered to dealers as a reduction to revenue at the time of sale to the dealer. The estimate was based on historical data, announced incentive programs, field inventory levels, and retail sales volumes. Effective January 01, 2024, the Company is not responsible for sponsoring any retail sales incentives and programs for its sales to MAgNA.

5. Cash

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate per bank of USD 250,000 (INR 21,380,500). The Company believes it is not exposed to any significant risk on cash and cash equivalents.

6. Inventories, net

Raw materials, work in progress and finished goods inventories are stated at the lower of cost and net realizable value, with cost being determined on a weighted average basis. A provision is made for obsolete and slow-moving raw materials, finished goods, spare parts and other supplies based on their expected future use and realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs for sale and distribution.

The Company makes additional adjustments to its inventory reserves based on the identification of specific situations and increases its inventory reserves accordingly. As further changes in future economic or industry conditions occur, the Company will revise the estimates that were used to calculate its inventory reserves.

7. Product warranty

The Company provides a limited warranty for redesigned ROXOR for a period of two years or 12,000 miles whichever is lesser. The warranty reserve is established at the time of sale to the distributorship based on management's best estimate using historical rates and trends. These amounts are recorded as a liability in the balance sheet until they are ultimately paid. Accrued warranty liability was USD 1,036,507 (INR 88,644,152) as on March 31, 2025 (March 31, 2024: USD 1,245,709 (INR 106,535,525)).

8. Product liability

The Company is subject to product liability claims in the normal course of business. Adequate insurance coverage is carried for catastrophic product liability claims. The Company self-insures product liability claims up to the purchased catastrophic insurance coverage. The estimated costs resulting from uninsured losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably determinable.

9. Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Cost of items of property, plant and equipment comprises cost of purchase and other costs necessarily incurred to bring it to the condition and location necessary for its intended use.

The Company depreciates property, plant and equipment over the estimated useful life using the straight-line method. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is credited or charged to statements of loss.

The estimated useful life used to determine depreciation is:

Category	Useful life
Buildings	39-40 years
Leasehold improvements	7 years or the lease period
Furniture	5-7 years
Computer equipment	3-5 years
Machinery and equipment	3-5 years
Vehicles	5-10 years
Tooling	3-5 years

Expenditures for maintenance and repairs are charged to statement of loss. Property, plant and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the asset may not be recoverable. Total depreciation and amortization expense for property and equipment, equipment under finance lease and intangible assets for year ended March 31, 2025 and March 31, 2024 was USD 892,264 (INR 76,308,202) and USD 776,754 (INR 66,429,556) respectively.

The cost of property, plant and equipment not ready for use before such date are disclosed under capital work-in-progress.

10. Intangible assets

Intangible assets comprise of computer software which has been recognized at cost and amortized over a period of estimated useful life. Subsequent expenditures are capitalized only when it increases the future economic benefit from the specific assets to which it relates.

Category	Useful life
Software	3 years

11. Income taxes

In accordance with the provisions of FASB ASC Topic 740 "Income Taxes," income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company has determined whether any tax positions have met the recognition threshold and has measured the Company's exposure to those tax provisions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state taxing authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties from federal and state taxing authorities were recorded in the accompanying financial statements.

12. Investment, others

Investments are carried at fair value and any upward and downward adjustments are adjusted through statement of loss. Acquisition related expenditure if any, is expensed in the year of incurring the same.

13. Unbilled receivables

Unbilled receivables represent value of services performed in accordance with the contract terms but not billed.

14. Leases

The Company's leases are classified as finance lease and operating leases, which are included in finance lease and operating lease right-of-use assets and finance lease and operating lease liabilities in the Company's balance sheet.

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease. The Company's assessment is based on whether: (1) the contract involves the use of a distinct identified asset, (2) the Company obtains the right to substantially all the economic benefit from the use of the asset throughout the term of the contract, and (3) the Company has the right to direct the use of the asset.

Leases are classified as either finance leases or operating leases. A lease is classified as a finance lease if any one of the following criteria are met: (1) the lease transfers ownership of the asset by the end of the lease term, (2) the lease contains an option to purchase the asset that is reasonably certain to be exercised, (3) the lease term is for a major part of the remaining useful life of the asset or (4) the present value of the lease payments equals or exceeds substantially all of the fair value of the asset, 5) the leased asset is so specialized that the asset will have little to no value at the end of the lease term. A lease is classified as an operating lease if it does not meet any one of the above criteria.

Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

The Company has entered into noncancelable operating lease agreements related to facility, office equipment, machinery and equipment and vehicles with varying terms.

Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements.

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or selling, general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in depreciation and amortization expense under the statement of loss. Interest expense for finance leases is recognized using the effective interest method over the lease term. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

15. Commitments and contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the separate parent company financial statements.

16. Fair value measurements and financial instruments

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Some of Company's financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

17. Expected credit losses

Accounts receivable are recorded at the invoiced amount, net of discount and others and provision for credit loss. The Company regularly reviews the adequacy of the provision for credit loss based on a combination of factors. In establishing any required allowance, management considers historical losses adjusted for current market conditions, the current receivables aging, current payment terms and expectations of forward-looking loss estimates. Provision for credit loss was USD NIL (INR NIL) as of March 31, 2025 and USD 39,511(INR 3,379,060) as of March 31, 2024, and is classified within "Accounts receivable, net" in the balance sheets.

18. Business combination

The Company accounts for its business combinations under acquisition method of accounting by recognizing the identifiable tangible and intangible assets acquired and liabilities assumed, and any non-controlling interest in the acquired business, measured at their acquisition date fair values. The Company accounts for transactions involving entities under common control in accordance with ASC 805-50, Business Combinations –Transactions Between Entities Under Common Control.

For common control mergers, the assets and liabilities of the merged entity are recognized at their carrying amounts as reflected in the financial statements of the entity. No goodwill is recognized, and any difference between the carrying amounts of the net assets transferred and the consideration paid (if any) is recorded as an adjustment to equity through additional paid in capital.

19. Cost of revenue

The Company recognizes cost of revenue as the total of direct and systematically allocated indirect costs incurred in the manufacturing process. Cost of revenue includes cost related to the acquisition of raw materials, direct production labor, and manufacturing overhead, all of which are capitalized into inventory and recognized as cost upon sale.

20. Government incentives

The Company receives incentives from the Michigan Economic Development Corporation in the form of business development grants. These grants are recognized at their fair values in the consolidated statement of loss where there is a reasonable assurance that all grant conditions have been complied with and the grant will be received.

21. *Shipping and handling cost*

Shipping and handling costs incurred by the Company to transport products to ultimate customers are included in "Cost of revenue" in the statements of loss.

NOTE D - CASH

The cash of the Company comprise of:

Particulars	USD As at March 31, 2025	2024	INR As at March 31, 2025	2024

Total minimum lease payments	**7,020,695**	600,423,878	**315,842**	27,011,442
Less: Interest	**1,046,116**	89,465,933	**53,362**	4,563,627
Present value of lease payments	**5,974,579**	510,957,945	**262,480**	22,447,815

During the year ended March 31 2025, the Company entered into a lease agreement for a period of 1 year starting from November 01, 2024. The income is recognized on a straight-line basis over the lease term.

Future minimum lease payments to be received under the non-cancelable operating lease, as of March 31, 2025, are as follows:

Year ended March 31	Amount (USD)	Amount (INR)
2026	790,790	67,629,942

NOTE N - INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company is subject to taxation in the United States of America and the state of Michigan.

The tax effects of significant temporary differences that resulted in deferred tax assets and liabilities and a description of the items that create such differences is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,

Total	**–**	–	**–**	–

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely than not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference becomes deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. The management believes that it is more likely than not that the deferred tax assets may not be realized and accordingly, a valuation allowance of USD 22,091,925 (INR 1,889,345,610) is recognized as at March 31, 2025 (March 31, 2024 USD 21,593,814 (INR 1,846,746,161)).

The Company has federal net operating losses ("NOLs") carry forwards of USD 90,024,385 (INR 7,699,065,454) and USD 86,962,879 (INR 7,437,239,338) as at March 31, 2025 and March 31, 2024, respectively. Out of the total NOLs of USD 90,024,385 (INR 7,699,065,454), if unutilized, NOLs of USD 7,073,046 (INR 604,901,040) will begin to expire from the year 2036, whereas the remaining NOLs will be carried forward indefinitely.

The Company has state NOLs of USD 27,344,879 (INR 2,338,588,742) and USD 27,083,896 (INR 2,316,268,954) as at March 31, 2025 and March 31, 2024, respectively which if unutilized will begin to expire from the year 2026.

The Company recognizes the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination.

The tax years 2021, 2022 and 2023 remain subject to examination by the taxing authorities.

NOTE Q - COMMITMENTS AND CONTINGENCIES

Long term purchase commitment

On September 24, 2019, the Company signed a Vendor Subscription Agreement ("VSA") with Icon International Inc.("ICON"), a subsidiary of Omnicom Media Group, for purchase of certain media advertising for 5 years in an amount not less than USD 2,263,022 (INR: 193,538,167) each year. In addition, the Company signed an indemnity bond amounting to USD 1,600,000 (INR: 136,835,200) with Atlantic Specialty Insurance Company which bound Mahindra Automotive North America, Inc., and its subsidiaries to purchase media advertising through ICON. If the Company fails to place the minimum amount of advertising spend on the contract anniversary each year it will be assessed a penalty of 15% of the shortfall. ICON provides composition and consultation services at no charge for media placements. ICON's placement services include broadcast, digital, and print media advertising which will be billed to the Company at a competitive market rate. During the term of the agreement the Company agreed to provide ICON with the right of first refusal on any media being placed.

Due to the cease-and desist order, the Company was prohibited to sell, market, import and manufacture the model year 2018, 2019 and 2020 ROXOR off-road vehicle in the US. Since the Company's operations were paused and it could not carry out marketing activities, the management decided to opt out of long-term contracts and commitments entered by the Company. During the year ended March 31, 2021, the Company believed that it would be able to terminate the VSA by paying the penalty and thus created an accrual of USD 625,000 (INR: 53,451,250) as at March 31, 2021.

During the year ended March 31, 2023 the Company renegotiated the terms to extend the agreement till March 31, 2025. During the year ended March 31, 2024, the Company terminated the agreement with a settlement amount of USD 1,040,099 (INR 88,951,347)

Litigation

During the year ended March 31, 2021, the Company was engaged in litigation with FCA US, LLC over FCA's claims relating to unregistered "trade dress" of FCA's Jeep branded vehicles both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease-and-desist order was effective from August 11, 2020. The Company stopped selling Roxor Vehicles since then.

Considering the cease-and-desist order, the Company performed and prepared expedited proceedings to allow a significantly re-designed ROXOR to be excluded from the cease-and desist order. On October 20, 2020, the Administrative Law Judge ("ALJ") found that the re-designed ROXOR does not violate any trade dress and recommended that the re-designed ROXOR be excluded from the cease-and desist order. On December 22, 2020, the ITC agreed with the ALJ and ruled that the re-designed ROXOR is excluded from the cease-and desist order. FCA requested the United States District Court, Eastern District of Michigan to enjoin the post-2020 ROXOR based on the "safe distance rule". The Court denied the request on May 17, 2021. FCA appealed to the Sixth Circuit Court of Appeals.

During the year ended March 31, 2024, Sixth Circuit Court of Appeals issued its opinion on FCA's Renewed Motion to prevent the sale of the Post-2020 ROXOR in accordance with the Safe-Distance Rule. Specifically the Court of Appeals remanded the case to the Eastern District of Michigan judge asking him to assess whether the "Safe Distance Rule" should have been applied when reviewing the post-2020 ROXOR.

The United States District Court, Eastern District of Michigan concluded that the "Safe Distance Rule" was not applicable and that the Post-2020 ROXOR was non-infringing. FCA did not appeal. The remaining issues were resolved without an award of damages, and the case was closed.

NOTE R - STOCKHOLDER'S EQUITY

Common stock

The authorized share capital of the Company as of March 31, 2025 and March 31, 2024 was 8,000,000 shares and 8,000,000 shares, respectively, of $ 25 each. As at March 31, 2025 and March 31, 2024 total shares issued and outstanding was 7,773,737 and 7,773,737 shares, respectively.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holder of common stock shall be entitled to receive all the remaining assets of the Company.

NOTE S - RISKS AND UNCERTAINITIES

The Company's future results of operations involve several risks and uncertainties.

Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

NOTE U - EMPLOYEE BENEFIT PLANS

The Company has voluntary 401(k) retirement plans. The Company may make annual contributions to the plans equal to a uniform percentage of participant compensation. The cost of the Company's contributions charged to expense related to 401(k) contributions was USD 104,823 (INR 8,964,673) and USD 78,069 (INR 6,676,617) for the years ended March 31, 2025 and March 31, 2024, respectively.

NOTE V - GOVERNMENT INCENTIVE AND CREDITS

Michigan Economic Development Incentive (MEDC)

The Company, during the year ended March 31, 2019, had recorded government grant incentive income received from MEDC amounting to USD 531,250 (INR 45,433,563). The Company had received this incentive on account of creation of 50 qualified jobs in State of Michigan. During the year 2022, the Company had additionally received USD 318,750 (INR 27,260,138). However, due to the onset of COVID and cease-and-desist order, the Company had furloughed approximately 86 employees and even terminated few employees during the year ended March 31, 2021. The Company terminated and furloughed few other employees in the current year as well on account of its plan of rightsizing and restructuring. Due to these uncertain circumstances, the management believes that it could have potentially violated the conditions stipulated based on which the Company had received the grant in FY 2018-19 and FY 2021-22. The Company is currently evaluating its exposure and is in continuous discussions with the MEDC authorities. The Company has therefore recognized an accrual amounting to USD 753,009 (INR 64,398,836) and USD 531,250 (INR 45,433,563) as at March 31, 2025 and March 31, 2024 for MEDC incentive received in FY 2018-19 and FY 2021-22.

NOTE W - ADVERTISING AND MARKETING EXPENSE

Advertising costs are presented as part of selling, general and administrative expenses in the statement of loss. Advertising costs are expensed as incurred. The amount of advertising and marketing cost incurred by the Company for the year ended March 31, 2025 and March 31, 2024 is USD 640,439 (INR 54,771,624) and USD 2,003,698 (INR 171,360,260) respectively.

NOTE X - SUBSEQUENT EVENTS

The Company evaluated all events and transactions that occurred after March 31, 2025, up to the date the separate parent company financial statements were issued. Based on this evaluation, the Company is not aware of any events or transactions that require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Directors

Mahindra Vehicle Sales and Services, Inc.

OPINION

We have audited the accompanying financial statements of Mahindra Vehicle Sales and Services, Inc. ('the Company') which comprise the balance sheets as of March 31, 2025, and March 31, 2024, and the related statements of income(loss), stockholder's deficit, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2025, and March 31, 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

BASIS FOR OPINION

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

EMPHASIS OF MATTER

As discussed in Note-B to the financial statements, the Company has generated negative cashflows from operations and has a net capital deficiency. Management's evaluation of the events and conditions and management's plans to mitigate these matters are also described in Note-B. Our opinion is not qualified with respect to this matter.

OTHER MATTER

The supplementary information presented in Indian Rupee in the financial statements is solely for the convenience of the users of these financial statements. The supplementary information presented in Indian Rupee does not form part of the audited financial statements. We have therefore not audited the supplementary information and, accordingly, we do not express an opinion on this supplementary information. This paragraph has no impact on the audit opinion expressed in this auditors' report.

RESPONSIBILITIES OF MANAGEMENT FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the date the financial statements are issued.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS

NOTE A - ORGANIZATION AND NATURE OF OPERATIONS

Mahindra Vehicle Sales and Services, Inc. (hereinafter referred to as the "Company") was incorporated in the state of Delaware on April 19, 2017 and is a wholly owned subsidiary of Mahindra Automotive North America, Inc. ("MANA").

The Company used to sell and distribute parts and vehicles to distributors and dealers (collectively "dealerships"), the majority of which are independently owned. The only vehicle sold by the Company to dealerships is ROXOR, an off-road side-by-side vehicle manufactured by Mahindra North American Technical Center, Inc. ("MNATC")* d/b/a Mahindra Automotive North America Manufacturing ("MANAM"). As at March 31, 2022, the Company has contractual relationships in North America with approximately 363 dealerships. Throughout the years ended March 31, 2023 and 2024, many such dealers voluntarily terminated their dealership relationship with the Company. During the year ended March 31, 2022, the parent company MANA decided to sell the redesigned ROXOR through its affiliate Mahindra USA LLC ("MAgNA").

*On April 1, 2024, MNATC merged with MANA, and ceased its existence.

The Company continued selling the accessory and service parts under the warranty agreement of ROXOR previously sold.

NOTE B - GOING CONCERN

The Company continued selling the accessory and service parts under the warranty agreement with its dealerships pertaining to the ROXORs previously sold. The Company has an accumulated deficit of USD 1,210,520 (INR 103,526,091) as at March 31, 2025 and USD 1,131,306 (INR 96,751,552) as at March 31, 2024. Additionally, the Company has negative operating cash flows of USD 56,668 (INR 4,846,360) for the year ended March 31, 2025 and USD 1,424,114 (INR 121,793,078) for the year ended March 31, 2024. Although, these events and condition cast significant doubt on the Company's ability to continue as a going concern, in view of the continued support from the ultimate parent company, the management considers that it is appropriate to prepare these financial statements on a going concern basis, which assumes that the Company will continue to be in operational existence for the foreseeable future. The Company has received funding from its parent company amounting to USD 50,000 (INR 4,276,100) as at March 31, 2025 and USD 1,350,000 (INR: 115,454,700) as at March 31, 2024 in the form of capital contribution.

Even though the parent company has started selling redesigned ROXOR through its affiliate MAgNA, the Company will remain in existence because of the dealership obligations to be honoured. Based on the above factors, the financial statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.

NOTE C - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. *Basis of preparation*

   a. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ("US GAAP") to reflect the financial position, results of operation and cash flows of the Company.

   b. The financial statements are for the fiscal years ended March 31, 2025, and March 31, 2024.

   c. Financial information in this report is in U.S. dollars ("USD") and in Indian rupees ("INR"). For the fiscal year ended March 31, 2025, and March 31, 2024, dollar amounts are translated for convenience into Indian rupees at an exchange rate of 85.522 INR per dollar on March 31, 2025. Within the notes to the financial statements, Indian rupee amounts are shown parenthetically following the U.S. dollar amounts.

   d. Certain reclassifications, regroupings and reworking have been made in the financial statements of prior year to conform to the classifications used in the current year. These changes had no impact on previously reported net income or statement of stockholder's deficit.

2. *Use of estimates*

   The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Significant items subject to such estimates and assumptions include the significant items subject to such estimates and assumptions include the useful lives of property and equipment, expected credit losses, warranties, valuation allowance for deferred tax assets and other contingencies. Management believes that the estimates used in the preparation of the financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the financial statements.

3. *Operating leases*

   The standard requires all leases to be reported on the balance sheet as operating lease right-of-use asset and lease obligations.

   At the inception of a contract, the Company assesses whether the contract is, or contains, a lease. The Company's assessment is based on whether: (1) the contract involves the use of a distinct identified asset, (2) the Company obtains the right to substantially all the economic benefit from the use of the asset throughout the term of the contract, and (3) the Company has the right to direct the use of the asset.

   Leases are classified as either finance leases or operating leases. A lease is classified as a finance lease if any one of the following criteria are met: (1) the lease transfers ownership of the asset by the end of the lease term, (2) the lease contains an option to purchase the asset that is reasonably certain to be exercised, (3) the lease term is for a major part of the remaining useful life of the asset or (4) the present value of the lease payments equals or exceeds substantially all of the fair value of the asset, 5) the leased asset is so specialized that the asset will have little to no value at the end of the lease term. A lease is classified as an operating lease if it does not meet any one of the above criteria.

   Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

   Certain leases include options to purchase the office equipment. The depreciable life of assets is limited by the expected lease term unless there is a transfer of title or purchase option reasonably certain of exercise.

   The Company has entered into noncancelable operating lease agreements related to facility, office equipment, machinery and equipment and vehicles with varying terms.

   Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangement.

   The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

   Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue. Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

4. *Revenue recognition*

   In accordance with ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASC Topic 606") revenue is recognized upon transfer of control of products or services promised to customers in an amount that reflects the consideration the Company expects to receive in exchange for these products or services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation.

NOTES TO FINANCIAL STATEMENTS

Revenue from sale of service parts and accessories of previously sold ROXORs is recognized when each of the following criteria is met:

a. The Company approve a contract with commercial substance.

b. The sales price is determinable, and collectability of the payment is probable based on the terms outlined in the contract.

c. Control of the goods is transferred to the affiliate when the ordered items are shipped.

Transfer of control, and therefore revenue recognition is recorded at a point in time on the date when the service parts and accessories of previously sold ROXORs are shipped to the customer.

5. *Cash*

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate per bank of USD 250,000 (INR:21,380,500). The Company believes it is not exposed to any significant risk on cash.

6. *Property and equipment*

Property and equipment are stated at cost less accumulated depreciation. Cost of items of property and equipment comprises cost of purchase and other costs necessarily incurred to bring it to the condition and location necessary for its intended use.

The Company depreciates property and equipment over the estimated useful life using the straight-line method. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is credited or charged to operations.

The estimated useful life used to determine depreciation is:

Computers	3 years
Vehicles	5 - 10 years

Expenditures for maintenance and repairs are charged to expense. Property and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the asset may not be recoverable.

7. *Expected credit losses*

Accounts receivable are recorded at the invoiced amount, net of discount and others and provision for credit loss. The Company regularly reviews the adequacy of the provision for credit loss based on a combination of factors. In establishing any required allowance, management considers historical losses adjusted for current market conditions, the current receivables aging, current payment terms and expectations of forward-looking loss estimates. Provision for expected credit loss was USD 51,719 (INR: 4,423,112) and USD 1,351 (INR: 115,540) as of March 31, 2025 and March 31, 2024 respectively, and is classified within “Accounts receivable, net of allowances” in the balance sheets.

8. *Income taxes*

In accordance with the provisions of FASB ASC Topic 740 “Income Taxes,” income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company has determined whether any tax positions have met the recognition threshold and has measured the Company’s exposure to those tax provisions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state taxing authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties from federal and state taxing authorities were recorded in the accompanying financial statements.

9. *Fair value measurements and financial instruments*

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Some of Company’s financial instruments, including cash, accounts receivable and accounts payable are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

10. *Commitments and contingencies*

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

NOTE D - CASH

The cash of the Company comprise of :

	USD		INR	
	As at March 31,		As at March 31,

NOTE K - INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company is subject to taxation in the United States of America and the State of Michigan. The Company is a member of the federal consolidated tax group of its parent company, MANA.

The provision for income tax expense (benefit) for the year ended March 31, 2025 and March 31, 2024 is USD NIL and USD NIL, respectively.

The tax effects of significant temporary differences that resulted in deferred tax assets and liabilities and a description of the items that create such differences is as follows:

Particulars	USD As at March 31, 2025	USD As at March 31, 2024	INR As at March 31, 2025	INR As at March 31, 2024
Deferred tax asset				
Net operating loss - Federal	**18,171,747**	18,157,476	**1,554,084,147**	1,552,863,662
Net operating loss - State	**1,067,558**	1,063,815	**91,299,695**	90,979,586
Interest expense limitation	**672,670**	681,610	**57,528,084**	58,292,650
Unclaimed property accrual	**2,677**	–	**228,943**	–
Provision for expected credit losses	**11,074**	293	**947,071**	25,058
Contributions	**–**	7,719	**–**	660,144
Dealership closure liability	**256,083**	259,836	**21,900,729**	22,221,696
Valuation allowance	**(20,181,809)**	(20,170,749)	**(1,725,988,669)**	(1,725,042,796)
Total	**–**	–	**–**	–

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely than not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference becomes deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. The management believes that it is more likely than not that the deferred tax assets may not be realized and accordingly, a valuation allowance of USD 20,181,809 (INR: 1,725,988,669) is recognized as at March 31, 2025 (March 31, 2024 USD 20,170,749 (INR: 1,725,042,796).

The Company has federal net operation loss ("NOLs") carry forwards of USD 86,532,128 (INR: 7,400,400,651) as at March 31, 2025 (March 31, 2024: USD 86,464,173 (INR: 7,394,589,003), which will be carried forward indefinitely.

The Company has state net operating losses carry forwards of USD 22,522,320 (INR: 1,926,153,851) as at March 31, 2025 (March 31, 2024: USD 22,516,415 (INR: 1,925,648,844) , which if unutilized will begin to expire from the year 2027.

The Company recognizes the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination.

The tax years 2021, 2022 and 2023 remain subject to examination by the taxing authorities.

NOTE M - COMMITMENT AND CONTINGENCIES

Long term purchase commitment

On September 24, 2019, the Company signed a Vendor Subscription Agreement ("VSA") with Icon International Inc.("ICON"), a subsidiary of Omnicom Media Group, for purchase of certain media advertising for 5 years in an amount not less than USD 2,263,022 (INR: 193,538,167) each year. In addition, the Company signed an indemnity bond amounting to USD 1,600,000 (INR: 136,835,200) with Atlantic Specialty Insurance Company which bound Mahindra Automotive North America, Inc., and its subsidiaries to purchase media advertising through ICON. If the Company fails to place the minimum amount of advertising spend on the contract anniversary each year it will be assessed a penalty of 15% of the shortfall. ICON provides composition and consultation services at no charge for media placements. ICON's placement services include broadcast, digital, and print media advertising which will be billed to the Company at a competitive market rate.

NOTES TO FINANCIAL STATEMENTS

During the term of the agreement the Company agreed to provide ICON with the right of first refusal on any media being placed.

Due to the cease-and desist order, the Company was prohibited to sell, market, import and manufacture the model year 2018, 2019 and 2020 ROXOR off-road vehicle in the US. Since the Company's operations were paused and it could not carry out marketing activities, the management decided to opt out of long-term contracts and commitments entered by the Company. During the year ended March 31, 2021, the Company believed that it would be able to terminate the VSA by paying the penalty and thus created an accrual of USD 625,000 (INR: 53,451,250) as at March 31, 2021.

During the year ended March 31, 2023 the Company renegotiated the terms to extend the agreement till March 31, 2025. During the year ended March 31, 2024, the Company terminated the agreement with a settlement amount of USD 1,040,099 (INR 88,951,347)

Litigation

During the year ended March 31, 2021, the Company was engaged in litigation with FCA US, LLC over FCA's claims relating to unregistered "trade dress" of FCA's Jeep branded vehicles both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease-and-desist order was effective from August 11, 2020. The Company stopped selling Roxor Vehicles since then.

Considering the cease-and-desist order, the Company performed and prepared expedited proceedings to allow a significantly re-designed ROXOR to be excluded from the cease-and desist order. On October 20, 2020, the Administrative Law Judge ("ALJ") found that the re-designed ROXOR does not violate any trade dress and recommended that the redesigned ROXOR be excluded from the cease-and desist order. On December 22, 2020, the ITC agreed with the ALJ and ruled that the re-designed ROXOR is excluded from the cease-and desist order. FCA requested the United States District Court, Eastern District of Michigan to enjoin the post-2020 ROXOR based on the "safe distance rule". The Court denied the request on May 17, 2021. FCA appealed to the Sixth Circuit Court of Appeals.

During the year ended March 31, 2024, Sixth Circuit Court of Appeals issued its opinion on FCA's Renewed Motion to prevent the sale of the Post-2020 ROXOR in accordance with the Safe-Distance Rule. Specifically, the Court of Appeals remanded the case to the Eastern District of Michigan judge asking him to assess whether the "Safe Distance Rule" should have been applied when reviewing the post-2020 ROXOR.

The United States District Court, Eastern District of Michigan concluded that the "Safe Distance Rule" was not applicable and that the Post-2020 ROXOR was non-infringing. FCA did not appeal. The remaining issues were resolved without an award of damages, and the case was closed.

NOTE N - COMMON STOCK

Common stock

The authorized share capital of the Company as of March 31, 2025, and March 31, 2024, was 5,000,000 shares of $ 25 each. As at March 31, 2025 and March 31, 2024 total shares issued and outstanding was 3,605,431 and 3,603,431 shares, respectively.

The Company issued 2,000 shares and 54,000 shares for USD 25 each during the years ended March 31, 2025 and March 31, 2024, respectively.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holder of common stock shall be entitled to receive all the remaining assets of the Company.

NOTE O - SUBSEQUENT EVENTS

The Company evaluated all events and transactions that occurred after March 31, 2025 through the date the financial statements were available to be issued. Based on the evaluation, the Company is not aware of any events or transactions that would require recognition or disclosure in the financial statements.

INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

To
Officers of
Mahindra do Brasil Industrial Ltda.
Dois Irmãos - RS

Opinion

We have examined the financial statements of **Mahindra do Brasil Industrial Ltda.**, which comprise the balance sheet as of March 31, 2025, and the related statements of income, changes in members' equity and cash flows for the fiscal year then ended, including material accounting policies and other explanatory information.

In our opinion, the financial statements referred to above fairly state in all material aspects the equity and financial position of **Mahindra do Brasil Industrial Ltda.** as of March 31, 2025, the performance of its operations, and its cash flows for the fiscal year ended on that date, in accordance with the accounting practices adopted in Brazil.

Foundation for Opinion

Our audit was conducted in accordance with Brazilian and international auditing standards. Our responsibilities, in accordance with such standards, are described in the following section titled "Auditor's responsibility for the financial statements audit." We are independent in regard to the Company in accordance with the relevant ethical principles set out in the Code of Ethics for Professional Accountants and professional standards laid down by the Federal Accounting Council and we comply with all the other ethical responsibilities in accordance with these standards. We believe the audit evidence we achieved is sufficient and appropriate to substantiate our opinion.

Governance and Management Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in Brazil and the internal controls deemed necessary by Management for the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management is responsible for assessing the Company ability to continue operating, disclosing, when applicable, matters related to its operational continuity and the use of this accounting basis in the preparation of the financial statements, unless Management intends to liquidate the Company or cease its operations, or has no realistic alternative to avoid closing its operations.

Those responsible for the Company governance are those responsible for supervising the preparation process of the financial statements.

Auditors' Responsibility for the Audit of the Financial Statements

Our goals are to obtain reasonable assurance that the financial statements are jointly free from material misstatement, whether caused by fraud or error, and to issue an audit report containing our opinion. Reasonable assurance is a high level of assurance, but not a guarantee that an audit conducted in accordance with Brazilian and international auditing standards will always detect any material misstatements. Such misstatements may occur due to fraud or error and are considered material when, individually or jointly, they can influence, from a reasonable perspective, the economic decisions of the users based on the referred financial statements.

As part of the audit conducted in accordance with Brazilian and international auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. In addition:

- We identify and assess the risks of material misstatement in the financial statements, whether caused by fraud or error, plan and perform audit procedures in response to such risks, and obtain appropriate and sufficient audit evidence to substantiate our opinion. The risk of not detecting a material misstatement resulting from fraud is greater than that of error, as fraud may involve circumvention of internal controls, collusion, counterfeiting, omission, or willful misrepresentation.
- We obtain understandings of internal controls relevant to auditing in order to plan appropriate audit procedures in given circumstances, but not for the purpose of expressing opinion on the effectiveness of the Company's internal controls.
- We assess the adequacy of the accounting policies used and the reasonableness of the accounting estimates and respective disclosures made by Management.
- We conclude on the adequacy of the Executive Board's use of the accounting basis for operational continuity and, based on the audit evidence obtained, whether there is a relevant uncertainty in regard to events or conditions that may cause significant doubt concerning the capacity for operational continuity of the Company. If we conclude there is material uncertainty when preparing our audit report, we will highlight the relevant disclosures in the financial statements or include modification in our opinion in the event the disclosures were inadequate. Our conclusions are based on audit evidence obtained up to the date of our report. However, future events or conditions may cause the Company to no longer be in operational continuity.
- We assess the overall submission, structure, and content of financial statements, including disclosures, and whether the financial statements represent the related transactions and events in a manner consistent with the appropriate submission goal.

We communicate with governance, among other aspects, on the planned scope, timing of the audit and significant audit findings, including any significant deficiencies in the internal controls identified during our work.

EXPLANATORY NOTES TO THE FINANCIAL STATEMENTS

FOR THE FISCAL YEARS ENDED AS OF MARCH 31, 2025 AND 2024

IN THOUSANDS OF REAIS

1. Operational Context

Mahindra do Brasil Industrial Ltda is a company headquartered in Dois Irmãos-RS, at Rua 10 de September, 1097, in Bairro Centro. The company was incorporated on January 14, 2016.

The company's main objective is the Manufacture of Agricultural Tractors, Parts, and Accessories, as well as the wholesale trade of new and used cars, vans, and utility vehicles; retail sale of new cars, vans, and SUVs; retail trade of used parts and accessories for motor vehicles; wholesale trade of machinery, apparatus, and equipment for agricultural use; parts and pieces; maintenance and mechanical repair services for motor vehicles; installation of industrial machines; manufacture of other equipment and devices not previously specified; wholesale trade of new parts and accessories for motor vehicles; other private-equity firms, except holding companies; Other service activities provided primarily to companies not previously specified; body shop or bodywork and painting services for motor vehicles.

2. Summary of the Main Accounting Policies

The main accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently in all the fiscal years presented, unless otherwise specified.

The financial statements were approved by the Management as of April 16, 2025.

2.1 Basis for Preparation

The preparation of the financial statements requires the use of certain critical accounting estimates, as well as the exercise of judgment by the Company's management in the application of the accounting policies. The areas that require a higher level of judgment and are more complex, as well as those with assumptions and estimates that are significant for the financial statements, are disclosed in Note 2.15.

(a) Financial Statements

The financial statements were prepared in accordance with accounting practices adopted in Brazil, including the pronouncements, guidelines, and interpretations issued by NBC TG in accordance with Laws no. 6404/1976 and 11638/2007.

2.2 Foreign Currency Conversion

Functional and Presentation Currency

The items included in the Company's financial statements are measured using the currency of the main economic environment in which the Company operates ("functional currency"). The financial statements are presented in reais (BRL), which is the Company's functional currency.

Foreign Currency Transactions

Transactions in foreign currency are converted into reais at exchange rates on the dates of the transactions. Monetary assets and liabilities denominated and calculated in foreign currencies on the reporting date are translated into the functional currency at the exchange rate calculated on that date. The foreign exchange gain or loss on monetary items is the difference between the amortized cost in the functional currency at the beginning of the period, adjusted for interest and payments effective during the period, and the amortized cost in a foreign currency at the exchange rate at the end of the reporting period. Foreign currency differences resulting from the conversion are recognized in the income.

2.3 Balancing of Income

The income of operations is ascertained in consideration of the accounting accrual basis.

2.4 Cash and Cash Equivalents

They are comprised of financial resources held in cash, bank accounts, and financial investments. Financial investments are valued at cost, plus income earned through the balance sheet date. These financial instruments are intended for trading and are recorded at realizable values (Note 3).

2.5 Financial Instruments

Recognition and Measurement

The Company classifies its financial assets under the following categories: loans and receivables are measured at fair value through income. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets in the initial recognition.

Loans and Receivables

This category includes receivables that are non-derivative financial assets with fixed or determinable payments, not quoted in an active market. They are included in current assets, except for those maturing more than 12 months after the balance sheet date (these are classified in noncurrent assets). The Company's receivables comprise trade accounts receivable, other trade receivables, and cash and cash equivalents, except for short-term investments. Receivables are recorded at amortized cost using the effective interest method.

Financial Assets Measured at Fair Value Through Income

Financial assets measured at fair value through income are financial assets held for active and frequent trading. Assets in this category are classified in current assets. Gains or losses arising from changes in the fair value of financial assets measured at fair value through income are presented in the statement of income under "financial statement" in the period in which they occur. They basically refer to short-term financial investments.

2.6 Non-derivative Financial Liabilities

The Company recognizes debt securities issued and subordinated liabilities initially on the date they are originated. All other financial liabilities are initially recognized on the trade date, on which the Company becomes a party to the contractual provisions of the instrument. The Company writes off a financial liability when its contractual obligations are discharged, cancelled, or expired.

Financial assets and liabilities are offset, and the net amount submitted in the balance sheet only when the Company currently has a legal right to offset the amounts and intends to liquidate them on a net basis or to realize the asset and settle the liability simultaneously. The Company has the following non-derivative financial liabilities: loans with related parties, suppliers, loans, and other accounts payable.

Such liabilities are initially recognized at fair value plus any attributable transaction costs. After initial recognition, such financial liabilities are measured at amortized cost using the effective interest method.

2.7 Inventories

This cost is based on the average price principle and comprises incurred expenses from inventory purchases, as well as their respective shipping costs.

The net realizable amount is the estimated sales price in the normal course of business, deducted from the estimated costs for completion and sales expenses.

2.8 Property, Plant, and Equipment

(a) Recognition and Measurement

The Company chose to revalue property, plant, and equipment at deemed cost on October 31, 2016. The effects of deemed cost decreased property, plant, and equipment against members' equity, net of tax effects (Note 8).

IN THOUSANDS OF REAIS

After the transition of the NBC TG's, property, plant, and equipment items are now measured at the historical cost of acquisition or construction, less accumulated depreciation and accumulated impairment losses.

Cost includes expenses that are directly attributable to the purchase of an asset. Software purchased to enable the functionality of a device is capitalized as part of such equipment.

Gains and losses on the disposal of property, plant, and equipment are determined by comparing the proceeds arising from the disposal with the book value of the fixed asset, and are recognized as net within other revenues in the income.

(b) Subsequent Costs

The replacement cost of property, plant, and equipment is recognized in the carrying amount of the asset in the event it is probable that the economic benefits incorporated into the asset will flow to the Company and provided that their cost can be reliably measured. The carrying amount of the asset that has been replaced by another asset is written off. Recurring maintenance of property, plant, and equipment are recognized in the income as incurred.

(c) Depreciation

Depreciation is recognized in the income based on the straight-line method in relation to the estimated useful life of each part of property, plant, and equipment, since this is the method that most closely reflects the consumption pattern of future economic benefits incorporated into the asset.

2.9 Reduction to Impairment

The Company analyzes the existence of evidence that the carrying amount of an asset will not be recovered. If such evidence is identified, the Company estimates the recoverable amount of the asset. The recoverable amount of an asset is the highest value between: (a) its fair value less costs that would be incurred to sell it and (b) its value in use. The value in use is equivalent to the discounted cash flows (before taxes) derived from the continued use of the asset until the end of its useful life.

When the residual book value of the asset exceeds its recoverable value, the Company recognizes a reduction in the book balance of this asset (impairment or deterioration). For assets recorded at cost, the impairment is recorded in the income for the period. If the recoverable amount of an individual asset is not determined, an analysis of the recoverable amount of the cash-generating unit to which the asset belongs is performed.

2.10 Provisions

Allowance is recognized due to a past event and if the Company has a legal or constructive obligation that can be reliably estimated, and it is probable that an economic resource will be required to settle the obligation. Provisions are calculated by discounting expected future cash flows at a pre-tax rate that reflects current market assessments of the value of money at that time and specific risks for the liability.

Financial liabilities are classified as financial liabilities at fair value through the income, as the case may be. The Company determines the classification of its financial liabilities at the time of their initial recognition. The Company's financial liabilities include accounts payable to suppliers, tax and labour obligations.

2.11 Capital

The membership interests are all paid in and classified as members' equity. Mandatory minimum dividends, if any, as defined in the articles of association, are recognized as a liability.

2.12 Operating Revenue

Operating revenue from the sale of goods in the ordinary course of business is measured at the fair value of the compensation received or receivable. Operating income is recognized when there is convincing evidence that: i) the most significant risks and benefits inherent in the ownership of the goods have been transferred to the buyer, which in the Company's case is when the products are delivered to its customers, ii) that it is probable that the economic and financial benefits will flow to the Company, iii) that the associated costs and the possible return of goods can be estimated reliably, iv) that there is no ongoing involvement with the goods sold, and v) that the value of operating revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be reliably measured, then the discount is recognized as a reduction in operating revenue as sales are recognized.

2.13 Financial Revenue and Expenses

Financial income basically comprises interest income, discounts, income from financial investments and gains from exchange variation.

Financial expenses include interest expenses, financial expenses, and loans and financing, as well as the respective passive exchange variations.

2.14 Income Tax and Social Contribution

Current and deferred income tax and social contribution are calculated based on the rates of 15%, plus an additional 10% on taxable income exceeding BRL 240,000 for income tax and 9% on taxable income for social contribution, and consider the offset of tax losses and negative basis of social contribution, limited to 30% of real profit.

Deferred income tax and social contribution are recognized about tax losses, negative base of social contribution and about temporarily differences and are disclosure on noncurrent assets according to it essentially and realization expectation. The accounting value of asset deferred income tax and social contribution is annually mensurated and a loss provision is established when the accounting value cannot recover with the taxable profit, present or future or for other ways to realize inside the standards. The Management there are recorded the taxes credits of income tax and social contributions about temporary additions, considering the expectation of generating future taxable profits.

2.15 Critical Accounting Estimates and Judgments

Estimates and accounting judgments are continuously evaluated and are based on historical experience and other factors, including expectations of future events, which are considered reasonable for the circumstances.

Based on assumptions, the Company makes estimates regarding the future. By definition, the resulting accounting estimates will rarely correspond to the actual related results. Estimates and assumptions which present significant risk and are likely to cause a material adjustment in the book values of assets and liabilities for the next fiscal year are included in the following explanatory notes.

3. Cash and Cash Equivalents

	03/31/2025	03/31/2024
Cash	**3**	2
Cash in bank account	**18,478**	149
Investments	**25,975**	14,325
	44,456	14,476

The Company makes financial investments in large financial institutions with the purpose of generating financial income while not using the resources. Investments in reais are made in CDBs and Investment Funds issued by the bank and repo (repurchase) operations, the repo (repurchase) is an investment in bank leasing debentures with daily liquidity and guarantee of repurchase by the bank.

EXPLANATORY NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AS OF MARCH 31, 2025 AND 2024
IN THOUSANDS OF REAIS

4. Trade Receivables

	03/31/2025	03/31/2024
Brazilian clients	**58,068**	23,152
(-) Allowance for expected losses	**(1,346)**	(1,346)
	56,722	21,806

The Company sells its products directly to its dealers through its commercial department. The provision for expected losses is considered sufficient by management, considering the company's history of losses.

5. Inventories

	03/31/2025	03/31/2024
Raw material:	**8,490**	10,381
Inventory in transit	**47,141**	14,280
Finished products	**12,737**	5,086
Goods for resale	**5,093**	85
Statement tractor inventory	**4,800**	1,643
(-) Provision Slow-Moving Inventory Allowance	**(2,647)**	(1,455)
Third party tractor inventory - general warehouse	**16,299**	72,287
Products in possession of third parties	**38,172**	188
	130,085	102,495

6. Taxes Recoverable

	03/31/2025	03/31/2024
ICMS recoverable	**506**	244
PIS recoverable	**1,445**	1,860
COFINS recoverable	**4,566**	7,004
Other taxes	**437**	52
	6,954	9,160

7. Other Credits

	03/31/2025	03/31/2024
Other trade receivables	**1,017**	658
Amounts to be appropriated	**1,215**	242
Advance of labor funds	**87**	21
Advances to forwarding agents and suppliers	**1,547**	1,106
	3,866	2,027

Amounts in Accounts Receivable refer to reimbursement from the controller, in addition to consortium quotas, awaiting consideration. Advances to forwarding agents and suppliers refer to import processes in transit, as well as expenses with fairs to be appropriated, respectively.

Total deferred taxes recognized	**8,630**	7,191

As of March 31, 2024, certain balances were reclassified for comparability purposes, with no impact on the tax calculation.

Management annually assesses the expectation of future taxable profits and, consequently, makes the necessary adjustments to reflect the probable realizable value of the recognized tax credits within a three-year period.

The projections of future results are prepared based on internal assumptions and economic scenarios, which may be subject to change. Deductible temporary differences do not expire under the current tax legislation.

EXPLANATORY NOTES TO THE FINANCIAL STATEMENTS

FOR THE FISCAL YEARS ENDED AS OF MARCH 31, 2025 AND 2024

IN THOUSANDS OF REAIS

21. Insurances

The Management of the Companies adopts the policy of taking out insurance for the headquarters of the Companies, whose coverage is considered sufficient by the Management and insurance agents to cover the occurrence of claims, and the management is responsible for defining the risk assumptions adopted.

22. Financial Risk Management

(a) Overview

The Company is exposed to the following risks arising from the use of financial instruments:

- Credit risks
- Liquidity risks
- Market risks
- Currency risks
- Operational risks

We present information on the Company's exposure to each of the aforementioned risks, the Company's objectives, policies, and processes for risk measurement and management, and the Company's capital management. Additional quantitative disclosures are included throughout these financial statements.

(b) Risk Management Structure

Management has overall responsibility for establishing and overseeing the Company's risk management framework. Risk management policies are established to identify and analyze the risks faced by the Company, to define appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are frequently revised to reflect changes in market conditions and the Company's activities. Through its training and management policies and procedures, the Company aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

(c) Credit Risks

Credit risk is the Company’s risk of financial loss if a customer or the other party in a financial instrument fails to meet its contractual obligations, arising mainly from trade receivables and investment securities.

Trade Receivables and Other Credits

The Company’s exposure to credit risk is influenced primarily by the individual characteristics of each customer. However, management also considers the demographics of the customer base, including the credit risk of the region where customers operate, as these factors can influence credit risk.

Management has established a credit policy in which all new customers have their creditworthiness analyzed individually before the Company's payment and delivery terms and conditions are offered. The analysis includes external assessments, when available, including a prior analysis of the bank records carried out by the financial institutions themselves. Purchase limits are established for each customer, guaranteed by financial institutions, which represent the maximum amount outstanding without requiring prior approval. Such limits are periodically revised. Customers who fail to meet the established credit limit may only operate with the Company on an advance payment basis. Once the transaction is approved by the financial institution, the sale is carried out and the risk becomes entirely with the financial institution.

In monitoring customers' credit risk, they are grouped according to their credit characteristics, including geographic location, maturity, and existence of previous financial difficulties.

(d) Liquidity Risks

Liquidity risk is the risk in which the Company will find it difficult to meet the obligations associated with its financial liabilities that are settled with cash payments or with another financial asset. The Company’s approach in liquidity management is to ensure, as much as possible, that it always has sufficient liquidity to meet its obligations as they fall due, under normal and stress conditions, without causing unacceptable losses or risking damage to the Company’s reputation.

Based on the calculation of the Liquidity ratios, the current liquidity ratio corresponds to 2.13 on March 31, 2025 (3.08 on March 31, 2024), a result that demonstrates balance in a possible settlement of short-term obligations.

(e) Market Risks

Market risk is the risk that changes in market prices, such as exchange rates, interest rates, and share prices, may have on the Company's earnings or the value of its holdings in financial instruments. The objective of market risk management is to manage and control exposures to market risks, within acceptable parameters while optimizing the return.

The Company complies with financial obligations to manage market risks. All these operations are conducted within the guidelines established by Management.

(f) Currency Risks

The Company is subject to currency risk in purchases, loans, and financing denominated in a currency other than its functional currency, the real (BRL). The currency in which these transactions are primarily denominated is the US dollar.

With respect to other monetary assets and liabilities denominated in foreign currency, the Company ensures that its net exposure is maintained at an acceptable level to address short-term instabilities.

(g) Operational Risks

Operating risks are the risks of direct or indirect losses arising from a variety of causes associated with the Company's processes, personnel, technology, and infrastructure and from external factors, except credit, market, and liquidity risks, such as those arising from legal and regulatory requirements and generally accepted standards of business behaviour. Operating risks arise from all of the Company's operations.

The Company's objective is to manage operational risks to avoid the occurrence of financial losses and damage to its reputation, as well as to seek cost effectiveness and to avoid control procedures that restrict initiative and creativity.

Primary responsibility for the development and implementation of controls to address operational risks is assigned to senior management. Accountability is supported by the development of the Company's general standards for the management of operational risks in the following areas:

- Requirements for proper segregation of duties, including independent authorization of operations;
- Requirements for reconciliation and monitoring of operations;
- Compliance with regulatory and legal requirements;
- Documentation of controls and procedures;
- Requirements for the periodic assessment of operational risks faced and the adequacy of controls and procedures to address the identified risks;

(h) Capital Management

The Executive Board has been monitoring the loss generated by the operation, in order to mitigate its causes and generate returns on capital, which the Company defines as income of operating activities divided by total members' equity.

Shareholders provide advances for future capital increases when necessary and/or contributions to maintain cash flow and support investments, whichever is more profitable for the Company.

INDEPENDENT AUDITOR'S REPORT

TO THE GENERAL ASSEMBLY OF ERKUNT TRAKTÖR SANAYI ANONIM ŞIRKETI

A) Audit of the Financial Statements

1) Our Opinion

We have audited the accompanying financial statements of Erkunt Traktor Sanayi Anonim Sirketi (the "Company''), which comprise the statement of financial position as at 31 December 2024, the statement of profit or loss, the statement of other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended and notes to the financial statements comprising a summary of significant accounting policies.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of 31 December 2024, and its financial performance and its cash flows for the year then ended in accordance with Turkish Financial Reporting Standards (''TFRS''),

2) Basis for opinion

Our audit was conducted in accordance with the Standards on Independent Auditing (the "SIA'') that are part of Turkish Standards on Auditing adopted within issued by the Public Oversight Accounting and Auditing Standards Authority (the "POA"). Our responsibilities under these standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We hereby declare that we are independent of the Company in accordance with the Ethical Rules for Independent Auditors (including Independence Standards) (the "Ethical Rules") the ethical requirements regarding independent audit in regulations issued by the POA; and other relevant legislation are relevant to our audit of the financial statements. We have also fulfilled our other ethical responsibilities in accordance with the Ethical Rules and regulations. We believe that the audit evidence we have obtained during the independent audit provides a sufficient and appropriate basis for our opinion.

3) Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	
Revenue Recognition	**How the key audit matter was addressed in the audit**
The company's revenue consists of amounts generated from the sale of tractors and spare parts both domestically and internationally. In 2024, the company's net revenue from these activities amounted to 5,131,014,573 TRY. We have focused on this issue during our audit procedures for the following reasons: • It being one of the most important performance measurement criteria for evaluating the strategies implemented and the results achieved during the year. The information regarding the company's accounting policies is disclosed in Note 2.	The audit procedures we applied regarding the revenue recognition are summarized below: • It was assessed whether the accounting policies applied by the company for revenue recognition follow TFRS 15, "Revenue from Contracts with Customers" standard. • The processes implemented by the company for revenue recognition were understood. • For auditing revenue, invoice tests were conducted using a sampling method, and the accuracy of these invoices was cross-checked with delivery notes and payments received from customers. • A reconciliation was sent to the company's customers using a sampling method. As a result of the work done on revenue recognition, we did not identity any significant findings.
Application of TAS 29 – "Financial Reporting in Hyperinflationary Economies"	**How the key audit matter was addressed in the audit**
As disclosed in Note 2.1, the Company applied TAS 29 "Financial reporting in hyperinflationary economies ("TAS 29") in its financial statements as of and for the year ended 31 December 2024. TAS 29 requires Financial statements to be restated into the current purchasing power at the end of the reporting period. Therefore, transactions in 2024 and non-monetary balances at the end of the period were restated to reflect a price index that is current at the balance sheet date as of 31 December 2024.	We performed the following audit procedures in relation to the application of TAS 29: • Understanding and evaluating the process and controls related to application of TAS 29 designed and implemented by management, • Obtaining detailed lists of non-monetary items and testing original entry dates and amounts on a sample basis,

The implementation of TAS 29 leads to a change in several of the Company's control activities pervasively related to financial reporting. Applying TAS 29 results in significant changes to financial statement items included in the Company's financial statements as of and for the year ending 31 December 2024, including statement of financial position, statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flow. In addition, considering theadditional effort required to perform the audit of the application of TAS 29, we identified the application of TAS 29 as a key audit matter.	• Verifying whether management's determination of monetary and non-monetary items is in compliance with TAS 29, • Verifying the general price index rates used in calculations correspond with the coefficients in the "Consumer Price Index in Turkey" published by the Turkish Statistical Institute, • Testing the mathematical accuracy of non-monetary items, statement of profit or loss, and cash flow statement adjusted for inflation effects, Evaluating the adequacy of disclosures related to the application of TAS 29 in the notes to the financial statements in accordance with TFRS.

4) OTHER MATTER

The financial statements of the Company as of 31 December 2023 and for the year ended were audited by another audit firm whose audit report dated 2 April 2024 expressed an unqualified opinion.

5) RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The Company management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

6) Auditors' Responsibilities for the Audit of the Financial Statements

The Responsibilities of independent auditors in an independent audit are as follows:

Our aim is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance expressed as a result of an independent audit conducted in accordance with SIA is a high level of assurance but does not guarantee that a material mistake will always be detected. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an independent audit conducted in accordance with SIA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material mistake resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Assess the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our independent auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence. We also communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B) Other Responsibilities Arising from Regulatory Requirements

No matter has come to our attention that is significant according to subparagraph 4 of Article 402 of Turkish Commercial Code (''TCC'') No. 6102 and that causes us to believe that the Company's bookkeeping activities concerning the period from 1 January to 31 December 2024 period are not in compliance with the TCC and provisions of the Company's articles of association related to financial reporting.

In accordance with subparagraph 4 of Article 402 of the TCC, the Board of Directors submitted the necessary explanations to us and provided the documents required within the context of our audit.

The responsible auditor who conducted and concluded this independent audit is Beşir Acar.

	31 December 2024		31 December 2023	
Shareholders	**Amount**	**Ratio (%)**	Amount	Ratio (%)
Mahindra Overseas Investment Company	**440,000,000**	**100**	440,000,000	100

The Company has 416 employees as of December 31, 2024 (December 31, 2023: 474 people)

The financial statements for the accounting period of January 1-December 31, 2024 were approved at the Board of Directors meeting dated March 30, 2025.

NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.01 Basis of presentation

Financial reporting standards

The Company operating in Türkiye keep and prepare their legal books and financial statements in accordance with the accounting principles set out in the Turkish Commercial Code (TCC) No. 6102 and the tax legislation.

Companies that are subject to independent audits in Türkiye prepare their financial statements in accordance with the TCC and the Turkish Accounting Standards ("TAS") put into effect by the Public Oversight Accounting and Auditing Standards Authority ("POA").

The financial statements are presented in accordance with "Announcement regarding with TAS Taxonomy" which was published on July 3, 2024 by POA.

Financial reporting in hyperinflationary economy

With the announcements made by the Public Oversight Accounting and Auditing Standards Authority (POA) on November 23, 2023, entities applying TFRSs have started to apply inflation accounting in accordance with TAS 29 Financial Reporting in Hyperinflation Economies as of financial statements for the annual reporting period ending on or after December 31, 2023.

TAS 29 is applied to the financial statements, including the financial statements, of any entity whose functional currency is the currency of a hyperinflationary economy.

According to the standard, financial statements prepared in the currency of a hyperinflationary economy are presented in terms of the purchasing power of that currency at the balance sheet date. Prior period financial statements are also presented in the current measurement unit at the end of the reporting period for comparative purposes. The Company has therefore presented its financial statements as of December 31, 2023, on the purchasing power basis as of December 31, 2024.

The restatement in accordance with TAS 29 has been made by using the adjustment factor derived from the Consumer Price Index ("CPI") in Turkey published by the Turkish Statistical Institute ("TURKSTAT"). As at 31 December 2023, the indices and adjustment factors used in the restatement of the consolidated financial statements are as follows:

Date	**Index**	**Conversion factor**	**Three year inflation rate**
31 December 2024	2,684.55	1.00000	291%
31 December 2023	1,859.38	1.44379	268%
31 December 2022	1,128.45	2.37897	156%

The main components of Company restatement for the purpose of financial reporting in hyperinflationary economies are as follows:

- The financial statements for the current period presented in TRY are expressed in terms of the purchasing power at the balance sheet date and the amounts for the previous reporting periods are restated in accordance with the purchasing power at the end of the reporting period.
- Monetary assets and liabilities are not restated as they are currently expressed in terms of the purchasing power at the balance sheet date.
- Non-monetary assets, liabilities and equity items that are not expressed in the current purchasing power at the balance sheet date are restated by applying the relevant conversion factors.
- All items in the statement of comprehensive income, except for the effects of non-monetary items in the balance sheet on the statement of comprehensive income, have been restated by applying the multipliers calculated over the periods in which the income and expense accounts were initially recognized in the financial statements.
- The effect of inflation on the Company's net monetary asset position in the current period is recognized in the income statement in the net monetary position loss account.

New and amended standards and interpretations

The accounting policies adopted in preparation of the financial statements as of December 31, 2024 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and IFRIC effective as of January 1, 2024 and thereafter.

a) The new standards, amendments and interpretations which are effective as of January 1, 2024 are as follows:

- Amendments to TAS 1- Classification of Liabilities as Current and Non-Current Liabilities
- Amendments to TFRS 16 - Lease Liability in a Sale and Leaseback
- Amendments to TAS 7 and TFRS 7 - Disclosures: Supplier Finance Arrangements;

The amendments did not have a significant impact on the financial position or performance of the Company.

b) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the financial statements are as follows. The Company will make the necessary changes if not indicated otherwise, which will be affecting the financial statements and disclosures, when the new standards and interpretations become effective.

- Amendments to TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture;
- Amendments to TAS 21 - Lack of exchangeability

The Company will assess the effects of these changes after the mentioned standards have been finalized.

- TFRS 17 - The new Standard for insurance contracts

The mentioned standard is not applicable to the Company.

c) The amendments which are effective immediately upon issuance

Amendments to TAS 12 - International Tax Reform – Pillar Two Model Rules

The amendments do not have a significant impact on the financial position or performance of the Company.

d) The new amendments that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

The following amendments to TFRS 9 and TFRS 7 as well as TFRS 18 and TFRS 19 are issued by IASB but not yet adapted/issued by POA. Therefore, they do not constitute part of TFRS. The Company will make the necessary changes to its financial statements after the amendments and new Standard are issued and become effective under TFRS.

- Amendments to TFRS 9 and TFRS 7 – Classification and measurement of financial instruments
- Amendments to TFRS 9 and TFRS 7 – Contracts Concerning Electricity Generated from Natural Resources
- IFRS 18 – The new Standard for Presentation and Disclosure in Financial Statements

The Company is in the process of assessing the impact of the amendments on financial position or performance of the Company.

- TFRS 19 – Subsidiaries without Public Accountability: Disclosures

The mentioned standard is not applicable to the Company.

Functional and presentation currency

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in TRY, which is the functional currency of Erkunt Traktör and the presentation currency of the Company.

Going concern

The Company prepared financial statements in accordance with the going concern assumption.

Offsetting

Financial assets and liabilities are offset and reported in the net amount when there is a legally enforceable right or when there is an intention to settle the assets and liabilities on a net basis or realize the assets and settle the liabilities simultaneously.

Comparatives and restatement of prior periods' financial statements

The financial statements of the Company include comparative financial information to enable the determination of the trends in the financial position and performance. Comparative figures are reclassified, where necessary, to conform to changes in presentation in the current period financial statements and the significant changes are explained.

Company has applied consistent accounting policies in the preparation of financial statements presented the Company does not have any other significant changes in accounting policy and accounting estimates in the current period.

As of December 31, 2023, in the statement of financial position, the dealer guarantee letters amounting to TRY 4,479,314, previously classified under "Marketing, Sales, and Distribution Expenses," have been reclassified as "Dealer Guarantee Letters" within Finance Expenses.

2.2 Restatement and errors in the accounting policies and estimates

Any change in the accounting policies resulted from the first-time adoption of a new standard is made either retrospectively or prospectively in accordance with the transition requirements. Changes without any transition requirement, material changes in accounting policies or material errors are corrected, retrospectively by restating the prior period consolidated financial statements. If changes in accounting estimates are related to only one period, they are recognised in the period when changes are applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively.

2.3 Summary of significant accounting policies

Significant accounting policies applied in the preparation of these financial statements are summarized below:

Related parties

For the purpose of these financial statements, shareholders, key management personnel and Board members, in each case together with their families and companies controlled by/or affiliated with them, associated companies are considered and referred to as related parties (Note 5).

Trade receivables

Trade receivables that are created by the Company by way of providing goods or services directly to a debtor are carried at amortized cost. Receivables with short-term maturities which have no predefined interest rate are measured at the original invoice amount unless the effect of imputed interest is significant (Note 6).

Company has applied simplified approach and used impairment matrix for the calculation of impairment on its receivables carried at amortized cost. In accordance with this method, if any provision provided to the trade receivables as a result of a specific events, Company measures expected credit loss from these receivables by the life-time expected credit loss. The calculation of expected credit loss is performed based on the past experience of the Company and its expectations for the future indications.

Inventories

Inventories are valued at the lower of cost or net realizable value. The cost of inventories is determined on the weighted average basis for each purchase. Cost elements included in inventories are materials, labour and factory overheads. The cost of borrowings is not included in the costs of inventories. Net realizable value is the estimated selling price in the ordinary course of business, less the costs of completion and estimated costs to make the sale (Note 9).

Financial Assets

Classification and measurement

Company classified its financial assets in three categories; financial assets carried at amortized cost, financial assets carried at fair value though profit of loss, financial assets carried at fair value though other comprehensive income. Classification is performed in accordance with the business model determined based on the purpose of benefits from financial assets and expected cash flows. Management performs the classification of financial assets at the acquisition date.

(a) Financial assets carried at amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, whose payments are fixed or predetermined, which are not actively traded and which are not derivative instruments are measured at amortized cost. They are included in current assets, except for maturities more than 12 months after the balance sheet date. Those with maturities more than 12 months are classified as non-current assets. The Company's financial assets carried at amortized cost comprise "trade receivables" and "cash and cash equivalents" in the statement of financial position. In addition, with recourse factoring receivables classified in trade receivables are classified as financial assets carried at amortized cost since collection risk for those receivables are not transferred to counterparty.

Impairment

The Company evaluates its inventories for impairment under TAS 2, trade receivables under TFRS 9, and property, plant, and equipment under TAS 36; and recognizes provisions in the financial statements when deemed necessary.

(b) Financial assets carried at fair value

Assets that are held by the management for collection of contractual cash flows and for selling the financial assets are measured at their fair value. If the management do not plan to dispose these assets in 12 months after the balance sheet date, they are classified as non-current assets. Company make a choice for the equity instruments during the initial recognition and elect profit or loss or other comprehensive income for the presentation of fair value gain and loss:

i) Financial assets carried at fair value through profit or loss

Financial assets that are measured at fair value through profit or loss, excluding those subjects to fair value hedge accounting, are included in the "derivative instruments" line item in the statement of financial position. Derivative instruments are recognized as asset when the fair value of the instrument is positive, as liability when the fair value of the instrument is negative. Company's financial instruments at fair value through profit or loss consist of forward contracts, currency swaps and cross currency fixed interest rate swap.

ii) Financial assets carried at fair value through other comprehensive income

Financial assets carried at fair value through other comprehensive income comprise of "financial assets" in the statement of financial position. Gains or losses arising from financial assets, other than impairment and exchange rate income or expenses, are recognized in other comprehensive income. When the financial assets carried at fair value through other comprehensive income are sold, fair value gain or loss classified in other comprehensive income is classified to retained earnings.

Financial liabilities

Borrowings are recognized initially at the proceeds received, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost using the effective yield method; any difference between proceeds, net of transaction costs, and the redemption value is recognized in the statement of profit or loss over the period. Borrowing costs are charged to the statement of profit or loss when they are incurred (Note 4). Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Trade payables

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

Recognition and de-recognition of financial instruments

All purchases and sales of financial assets are recognized on the trade date i.e. the date that the Company commits to purchase or to sell the asset. These purchases or sales are purchases or sales generally require delivery of assets within the time frame generally established by regulation or convention in the market place.

A financial asset (or, where applicable a part of a financial asset or part of a Company of similar financial assets) is derecognized where:

- the rights to receive cash flows from the asset have expired,
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the assets.

Where the Company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the financial statements.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less (Note 3). For the purpose of statements of cash flows, cash and cash equivalents includes cash and cash equivalents with original maturities less than three months, excluding the interest accruals. If any provision provided to the cash and cash equivalents as a result of a specific events, Company measures expected credit loss from these cash and cash equivalents by the life-time expected credit loss. The calculation of expected credit loss is performed based on the past experience of the Company and its expectations for the future indications.

Property, plant and equipment and related depreciation

Property, plant and equipment are carried at cost less accumulated depreciation. Depreciation is provided on restated amounts of property, plant and equipment using the straight-line or unit of production methods based on the estimated useful lives of the assets, except for land due to their indefinite useful life. The depreciation periods for property and equipment, which approximate the economic useful lives of assets concerned, are as follows:

Land improvements	5 – 25 years
Buildings	10 – 50 years
Machinery, equipment and moulds	3 – 25 years
Motor vehicles	2 – 14 years
Furniture and fixtures	2 – 50 years
Leasehold improvements	2 – 10 years

Property, plant and equipment are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of the property, plant and equipment is the higher of future net cash flows from the utilization of this property, plant and equipment or fair value less cost to sell.

Gains or losses on disposals of property, plant and equipment are included in income/expense from investment activities.

Subsequent costs, such as repairs and maintenance or part replacement of tangible assets, are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits with the item will flow to the company (Note 12). All other costs are charged to the statements of profit or loss during the financial year in which they are incurred.

Intangible assets

Intangible assets are comprised of acquired brands, trademarks, patents, developments costs and computer software (Note 13).

a) *Computer software and rights*

Computer software and rights are recognized at their acquisition cost. They are amortized on a straightline basis over their estimated useful lives and carried at cost less accumulated amortization. Their estimated useful lives are between 4 -15 years.

b) *Development costs*

Costs incurred on development projects relating to the design and testing of new or improved products are recognized as intangible assets when it is probable that the project will be a success considering its commercial and technological feasibility, and only if the cost can be measured reliably. Other research and development expenditures are recognized as an expense as incurred. Development expenditures previously recognized as an expense cannot be recognized as an asset in a subsequent period. Development costs that have been capitalized are amortized from the commencement of the commercial production of the product on a straight-line basis from 2 to 10 years.

Leases

The Company - as a lessee

At inception of a contract, the Company assesses whether a contract is, or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset. The Company assess whether:

a) The contract involved the use of an identified asset - this may be specified explicitly or implicitly.

b) The asset should be physically distinct or represent substantially all of the capacity of a physically distinct asset, If the supplier has a substantive substitution right, the asset is not identified.

c) The Company has the right to obtain substantially all of the economic benefits from the use of an asset throughout the period of use; and

d) The Company has the right to direct use of the asset, The Company concludes to have the right of use, when it is predetermined how and for what purpose the Company will use the asset. The Company has the right to direct use of asset if either:

  i. The Company has the right to operate (or to have the right to direct others to operate) the asset over its useful life and the lessor does not have the rights to change the terms to operate or;

  ii. The Company designed the asset (or the specific features) in a way that predetermines how and for what purpose it is used

The Company reflects a right-of-use asset and a lease liability in its financial statements at the actual commencement date of the lease.

Right of use asset

The right of use asset is initially recognized at cost comprising of:

a) Amount of the initial measurement of the lease liability;

b) Any lease payments made at or before the commencement date, less any lease incentives received;

c) Any initial direct costs incurred by the Company; and

d) An estimate of costs to be incurred by the lessee for restoring the underlying asset to the condition required by the terms and conditions of the lease (unless those costs are incurred to produce inventories).

The Company re-measure the right of use asset by applying cost method:

a) After netting-off accumulated depreciation and impairment losses from right of use asset.

b) Adjusted for certain re-measurements of the lease liability recognized at the present value.

The Company applies TFRS 16, “Property, Plant and Equipment” to amortize the right of use asset and to asses for any impairment.

Lease Liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date. Lease liabilities are discounted to present value by using the interest rate implicit in the lease if readily determined or with the Company’s incremental borrowing rate. The alternative borrowing rate has been determined based on the borrowing rates of the Company companies at the contract dates.

Lease payments included in the measurement of the lease liability comprise the following:

a) Fixed payments, including in-substance fixed payments;

b) Variable lease payments that depend on an index or a rate, initially measured using the index or rate as the commencement date.

c) The exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewable period if the Company is reasonably certain to exercise an extension option. and penalties for early termination of a lease unless the Company is reasonably certain to terminate early.

After initial recognition, the lease liability is measured:

a) Increasing the carrying amount to reflect interest on lease liability,

b) Reducing the carrying amount to reflect the lease payments made and

c) Remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The duration of the contract that make up the Company’s lease laibilities varies between 1 and 10 years.

Extension and termination options

In determining the lease liability, the Company considers the extension and termination options. The majority of extension and termination options held are exercisable both by the Company and by the respective lessor. Extension options are included in the lease term if the lease is reasonably certain to be extended. The Company remeasures the lease term, if a significant event or a significant change in circumstances occurs which affects the initial assessment. The Company do not have significant lease contracts with extension and termination options that are not included in the lease liability since they are not reasonably certain.

The Company remeasures the lease term, if a significant event or a significant change in circumstances occurs which affects the initial assessment. As result of the evaluations performed in the current period, there is no lease obligation or right of use assets arising from the inclusion of extension and early termination options in the lease period.

Variable lease payments

Company’s lease contracts also include variable lease payments which are not in the scope of TFRS 16. Variable lease payments are recognised in profit or loss in the related period.

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset which requires substantial period of time to get ready for its intended use or sale shall be capitalized over the cost of the asset (Note 4). Other borrowing costs shall be recognized as an expense in the period it incurs.

Current and deferred income tax

The tax expense for the year comprises current and deferred tax. Tax is recognized in the statement of profit or loss, except to the extent that it relates to items recognized directly in equity. In such case, the tax is also recognized in shareholders' equity.

The current income tax charge is calculated in accordance with the tax laws enacted or substantively enacted at the balance sheet date in the countries where the subsidiaries of the Company operate.

Deferred income tax is provided in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Currently enacted tax rates are used to determine deferred income tax at the balance sheet date (Note 29).

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities, and deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognized directly in equity is recognized in equity.

The Company recognizes deferred tax asset for all deductible temporary differences arising from investments in subsidiaries, to the extent that, and only to the extent that, it is probable that:

- the temporary difference will reverse in the foreseeable future;
- taxable profit will be available against which the temporary difference can be utilized.

The Company recognizes deferred tax liability for all taxable temporary differences associated with investments in subsidiaries except to the extent that both of the following conditions are satisfied:

- the parent can control the timing of the reversal of the temporary difference;
- it is probable that the temporary difference will not reverse in the foreseeable future.

Government grants allowing reduced corporate tax payment are evaluated within the scope of TAS 12 Income Taxes standard and are recognised as deferred tax asset by the qualified tax advantage amount, to the extent it is highly probable that future taxable profits will be available against which the unused investment tax credits can be utilised.

Employment termination benefits

Employment termination benefits, as required by the Turkish Labour Law and the laws applicable in the countries where the subsidiaries operate, represent the estimated present value of the total reserve of the future probable obligation of the Company arising in case of the retirement of the employees, termination of employment without due cause, call for military service, be retired or death upon the completion of a minimum one-year service. Actuarial gains and losses are recognized as other comprehensive income or loss in shareholders' equity in the period in which they arise (Note 17).

Retirement Benefit Obligation Provision

The accounting for retirement benefit obligations involves estimating the costs of future benefits and spreading these costs over the employee's expected service life. Determining the obligation and expense related to these costs requires the use of specific assumptions. These key assumptions include the discount rate, the expected long-term return rate on plan assets, life expectancy, and healthcare cost inflation rates. These assumptions may vary based on interest rates in high-quality bonds and equities, as well as medical cost inflation. In the event that actual outcomes differ from these assumptions, the differences accumulate and are amortized over future periods, which generally affects the expense recorded in those periods and the accrued obligation.

While it is believed that the assumptions are appropriate considering current economic conditions and actual experience, significant discrepancies in results or significant changes in assumptions could materially impact retirement and other post-retirement benefit obligations and related future expenses. (Note 17).

The retirement benefit obligation as of December 31, 2024, and the pre-retirement benefit costs for 2024, have been prepared using the assumptions determined as of December 31, 2024.

Foreign currency transactions

Transactions in foreign currencies during the period have been translated at the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies have been translated into TRY at the exchange rates prevailing at the balance sheet dates. Exchange gain or losses arising from the settlement and translation of foreign currency items have been included under financial income/ expenses and other operating income/ expenses in the statements of profit or loss, except for the effective portion of the foreign currency hedge of net investments in foreign operations.

Revenue recognition

Company recognizes revenue when the goods or services is transferred to the customer and when performance obligation is fulfilled. Goods is counted to be transferred when the control belongs to the customer.

Company recognizes revenue based on the following main principles:

(a) Identification of customer contracts,
(b) Identification of performance obligations,
(c) Determination of transaction price in the contract,
(d) Allocation of price to performance obligations,
(e) Recognition of revenue when the performance obligations are fulfilled

Company recognized revenue from its customers only when all of the following criteria are met:

(a) The parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations,
(b) Company can identify each party's rights regarding the goods or services to be transferred,
(c) Company can identify the payment terms for the goods or services to be transferred;
(d) The contract has commercial substance,
(e) It is probable that Company will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity shall consider only the customer's ability and intention to pay that amount of consideration when it is due.

The Company assess the goods or services promised in a contract with a customer and identify as a performance obligation each promise to transfer to the customer. For each performance obligation identified, the entity determine at contract inception whether it satisfies the performance obligation over time or satisfies the performance obligation at a point in time. If the Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognises revenue over time. The Company recognise revenue when the entity satisfies a performance obligation by transferring a promised good or service to the customer. An asset is transferred when the customer obtains control of that asset or service.

The Company does not adjust the promised amount of consideration for the effects of a significant financing component since the Company expects, at contract inception, that the period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less. If the financing component is significant in revenue, future collections are discounted by the interest rate in financing component. The difference is recognised as income from operating activities in current period.

Incentives for investments, research, and development activities

Gains arising from incentives for investment and research and development activities together with government grants are recognized when there is a reasonable assurance for the necessary conditions to be fulfilled and incentive to be acquired by the Company. Vested government grants related with expense or capitalization realized in previous accounting periods, are recognized in statements of profit or loss when collectible and grants relating to capital assets are accounted for as deferred income in the balance sheet and are credited to income statement on a straight-line basis over the expected lives of related assets.

Paid-in capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. No provision is recognized for operating losses expected in later periods.

Warranty expenses

Warranty expenses includes repair and maintenance expenses for products sold and labour and material costs of authorized services' for products under the scope of the warranty terms without any charge to the customers. Based on estimations using past statistical information warranty services and returns of products, warranty expenses are recognized for the products sold in the period for possible utilizations of warranties in the following future periods (Note 16).

Contingent assets and liabilities

Possible assets or obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company are not included in the financial statements and are disclosed as contingent assets or liabilities.

Contingent liabilities are disclosed in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote. If an outflow of resources has become probable, contingent liabilities are recognised in the financial statements. Contingent assets are not recognised in financial statements but disclosed in the notes to the financial statements where an inflow of economic benefits is probable.

Earnings per share

Earnings per share presented in the statements of profit or loss are determined by dividing net income attributable to that class of shares by the weighted average number of such shares outstanding during the year concerned.

In Türkiye, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings or inflation adjustments. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them retroactive effect for the year in which they were issued and for each earlier period. Treasury shares are also included in calculation per share.

Reporting of cash flows

In the statements of cash flows, cash flows are classified and reported according to their operating, investing and financing activities.

2.4 Critical accounting estimates, judgments, and assumptions

The preparation of financial statements requires estimates and assumptions to be made regarding the amounts for the assets and liabilities at the balance sheet date, and explanations for the contingent assets and liabilities as well as the amounts of income and expenses realized in the reporting period. The Company makes estimates and assumptions concerning the future. The accounting estimates and assumptions, by definition, may not be equal the related to actual results. The estimates and assumptions that may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

Provision for employee termination benefits

To calculate the employee benefit provision actuarial assumptions relating to turnover ratio, discount rate and salary increase are used. Calculation details are given in Employee benefits disclosure (Note 17).

Useful lives

The Company capitalizes the tangible and intangible assets in accordance with TAS 16 and TAS 38. The Company defines useful life of its assets in terms of the assets expected utility to the Company. Economic useful lives accepted by the Company is disclosed in Note 2.3.

Warranty expenses

The Company recognizes warranty provisions for products under the scope of the warranty terms based the estimations using past statistical information (Note 16).

NOTE 3 – CASH AND CASH EQUIVALENTS

As of 31 December 2024 and 2023, cash and cash equivalents comprised the following:

Account Name	Dec 31, 2024	Dec 31, 2023
Cash on hand	**30,124**	39,245
Banks	**39,312,162**	143,280,202
– *Term deposits with a maturity of less than three months*	**9,838,201**	–
– *Current deposit*	**29,473,961**	143,280,202
Other liquid assets (*)	**70,307,143**	65,985,303
Total	**109,649,429**	209,304,750

As of December 31, 2024, the blocked deposit amount is TRY 17,112,663 (31 December 2023: TRY 99,696,151).

(*) Other liquid assets consist of liquid funds.

As of December 31, 2024, time and demand deposits comprised the following currencies;

	Time Deposits		Demand Deposits	
	31 December 2024	31 December 2023	**31 December 2024**	31 December 2023
USD	**–**	–	**1,649,584**	4,053,260
EUR	**–**	–	**6,092**	23,904,440
TRY	**9,838,201**	–	**27,818,285**	115,322,502

Monetary loss	**(11,720,382)**	(10,336,219)
As of December, 31	**19,572,634**	29,128,928

Under the Turkish Legislations, the Company is required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, is called up for military service, dies or who retires after completing 25 years of service and reaches the retirement age (58 for women and 60 for men).

The amount payable consists of one month's salary limited to a maximum of full TRY 41,828.42 as of

December 31, 2024 (December 31, 2023: full TRY 23,489.83) for each period of service.

In accordance with Turkish Labor Code, employment termination benefit is the present value of the total estimated provision for the liabilities of the personnel who may retire in the future, the provision made for present value of determined social relief is calculated by the prescribed liability method. All actuarial gains and losses are accounted in equity as other comprehensive income or loss.

TFRS require actuarial valuation methods to be developed to estimate the enterprise's obligation under defined benefit plans, The Company makes a calculation for the employment termination benefit by applying the prescribed liability method, by the experiences and by considering the personnel who become eligible for pension, this provision is calculated by expecting the present value of the future liability which will be paid for the retired personnel.

The principal assumption is that the maximum liability for each year of service will increase in line with inflation, Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation, As the maximum liability is revised semi-annually, the maximum amount of full TRY 46,655.43 (January 1, 2024: full TRY 35,058.58) which is effective from January 1, 2025 has been taken into consideration in calculating the reserve for employment termination benefits of the Company.

NOTE 18 – PAYABLES RELATED TO EMPLOYEE BENEFITS

As of 31 December 2024 and 2023 payables related to employee benefits comprised the followings:

	31 December 2024	31 December 2023
Debts to personnel	**16,567,968**	16,708,614
Social security deductions to be paid	**8,572,522**	7,797,100
Total	**25,140,490**	24,505,714

NOTE 19 – OTHER ASSETS AND LIABILITIES

As of December 31, 2024 and 2023, other current assets are as follows:

	31 December 2024	31 December 2023

Commission expenses	**(6,209,117)**	(11,716,721)
Derivative instrument loss	**(4,558,053)**	(4,602,944)
Other expenses	**(1,411,124)**	(10,217,275)
Total	**(338,533,453)**	(77,434,991)

NOTE 29 – TAX ASSETS AND LIABILITIES

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis. The corporation tax rate is 25% in Türkiye (December 31, 2023: 25%). Corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances.

Income tax expense for the years ended December 31 is as follows:

	1 January – 31 December 2024	1 January – 31 December 2023
Current year tax expense	**–**	(150,881,820)
Deferred tax (expense)/income	**(63,800,752)**	2,972,646
Tax expense	**(63,800,752)**	(147,909,174)

The Company recognizes deferred tax assets and liabilities based upon temporary differences arising between their statement of financial position accounts prepared in accordance with TAS/TFRS promulgated by POA Financial Reporting Standards and their statutory financial statements. These temporary differences usually result from the recognition of revenue and expenses in different reporting periods for TAS/TFRS and Tax Laws.

The breakdown of cumulative temporary differences and the resulting deferred tax assets/liabilities provided using principal tax rates is as follows:

	31 December 2024 (Assets)/Liabilities	31 December 2023 (Assets)/Liabilities
Inventories	**64,829,824**	28,628,308
Tangible and intangible fixed assets	**6,806,938**	464,507
Credit effective interest provision	**(2,466,003)**	40,862
Doubtful receivable provision	**(575,562)**	(2,548,798)
Warranty expense provision	**882,316**	(13,476,367)
Litigation provision	**(2,819,914)**	(1,716,062)
Leave provision	**(5,117,496)**	(6,377,951)
Gratuity provision	**(3,511,497)**	(7,282,231)
Right of use assets	**21,880,119**	28,645,528
Leasing liabilities	**(11,092,554)**	(21,661,137)
Receivable and payable rediscounts	**12,090,427**	12,891,505
Exchange rate difference	**–**	(230,353)
Other	**(337,075)**	1,000,786
Deferred tax (assets)/liabilities, net	**80,569,523**	18,378,597

For the years 31 December, the deferred tax asset/liability movement is as follows:

	31 December 2024	31 December 2023
As of January, 1	**18,378,597**	24,129,983
Deferred tax income recognized directly in the equity	**(1,609,826)**	(2,778,740)
Deferred tax income recognized in statement of profit or loss	**63,800,752**	(2,972,646)
As of December, 31	**80,569,523**	18,378,597

NOTE 30 – EXPLANATIONS REGARDING NET MONETARY POSITION GAINS/(LOSES)

General and administrative expenses	**56,884,066**
Other income/expenses from operating activities	**5,799,438**
Finance income/expenses	**30,141,457**
Net Monetary Position Gains/(Losses)	**181,799,699**

NOTE 31 – EARNINGS/(LOSS) PER SHARE

Earnings per share disclosed in the consolidated statements of income are determined by dividing the net income per share by the weighted average number of shares that have been outstanding during the year.

The Companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. In earnings per share calculation, this bonus share issuance is accepted as shares issued. Hence, weighted average stock share, which is used in the calculation of earnings per share, is acquired by retrospective application of bonus share issue.

Earnings per share are as follows:

	31 December 2024	31 December 2023
Average number of shares outstanding during the period (full value)	**12,000**	12,000
Net profit attributable to parent company shareholders	**(367,378,648)**	899,729,995
Earnings per share	**(30,615)**	74,977

NOTE 32 – FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Financial risk management

The Company has exposure to the following risks from its operations:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

Financial risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities. The carrying amounts of financial assets and contract assets represents the maximum credit exposure. Financial instruments that could cause the Company to considerably increase credit risk are mainly cash and commercial receivables. The Company has cash and cash equivalents in various financial institutions. The Company manages this risk by limiting transactions with financial institutions and by constantly evaluating the reliability of such institutions. Credit risk that may arise from trade receivables is limited by the fact that the Company management limits the amount of credit applied to customers. Trade receivables are assessed by considering their past experiences and current economic situation in the Company management and are presented as net in the balance sheet after the provision for doubtful receivables is settled (Note 6).

NOTE 32 – FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company’s approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company’s reputation.

As of 31 December 2024, the monetary liabilities of the Company according to their remaining maturities are as follows:

31 December 2024	**Book value**	**Contractual cash outflows**	**Less than 3 months**	**3 - 12 months**	**1 - 5 years**	**More than 5 years**
Bank loans	633,025,709	673,660,686	188,067,619	485,593,067	–	–
Lease liabilities	44,370,214	179,114,189	10,016,286	29,113,012	99,190,956	40,793,935

Other short-term liabilities	15,141,963	15,141,963	15,141,963	–	–	–
Long-term provisions	29,128,928	29,128,928	–	–	29,128,928	–
Total	**2,390,917,406**	**2,566,934,796**	**1,917,065,220**	**496,324,840**	**105,781,928**	**47,762,808**

Operational risk

Operational risk is the direct or indirect loss arising from a wide variety of factors related to the Company's processes, employees, technology and infrastructure, and external factors such as legal and regulatory requirements outside the credit risk, market risk and liquidity risk, and generally accepted standards for legal entity Risk, Operational risks arise from all Company activities.

The Company's objective is to manage operational risk so as to balance the avoidance of financial losses. In this context, the following company procedures and internal control issues have been identified:

- requirements for appropriate segregation of duties, including the independent authorization of transactions
- requirements for the reconciliation and monitoring of transactions compliance with regulatory and other legal requirements
- documentation of controls and procedures
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified
- requirements for the reporting of operational losses and proposed remedial action
- development of contingency plans
- training and professional development
- ethical and business standards
- risk mitigation, including insurance where this is effective.

Capital risk management

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximizing its profit and market value through the optimization of the debt and equity balance.

	31 December 2024	31 December 2023
Borrowings	**633,025,709**	463,654,550
Lease liabilities	**44,370,214**	86,644,545
Less: Cash and cash equivalents	**(109,649,429)**	(209,304,750)

Share capital	**3,415,501,222**	3,573,966,562
Net liabilities/Share capital	**0.17**	0.10

Market risk

Market risk is the risk that changes in market prices, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The Company is subject to the risk of interest rate fluctuations to the extent that interest-earning assets and interest-bearing liabilities mature or reprise at different times or in differing amounts.

Currency risk

Transactions in foreign currency cause the risk of exchange. The exchange rate risk is managed by forward foreign exchange purchase/sale contracts based on approved policies.

Assets and liabilities in foreign currencies of the Company as of 31 December 2024 and 31 December 2023 are as follows:

	31 December 2024

March 30, 2021, are as follows:

	31 December 2024	**31 December 2024**
Audit and assurance fee	500,000	1,061,184
Total	500,000	1,061,184

NOTE 34 – EVENTS AFTER BALANCE SHEET DATE

None.

INDEPENDENT AUDITOR'S REPORT

TO THE GENERAL ASSEMBLY OF
ERKUNT SANAYI ANONIM ŞIRKETI,

A) Audit of the Financial Statements

1) Our Opinion

We have audited the accompanying financial statements of Erkunt Sanayii Anonim Şirketi (the "company"), which comprise the statement of financial position as at 31 December 2024, the statement of profit or loss, the statement of other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended and notes to the financial statements comprising a summary of significant accounting policies.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of 31 December 2024, and its financial performance and its cash flows for the year then ended in accordance with Turkish Financial Reporting Standards ("TFRS").

2) Basis for Opinion

Our audit was conducted in accordance with the Standards on Independent Auditing (the "SIA") that are part of Turkish Standards on Auditing adopted within issued by the Public Oversight Accounting and Auditing Standards Authority (the "POA"), Our responsibilities under these standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We hereby declare that we are independent of the Company in accordance with the Ethical Rules for Independent Auditors (including Independence Standards) (the "Ethical Rules") the ethical requirements regarding independent audit in regulations issued by the POA; and other relevant legislation are relevant to our audit of the financial statements. We have also fulfilled our other ethical responsibilities in accordance with the Ethical Rules and regulations. We believe that the audit evidence we have obtained during the independent audit provides a sufficient and appropriate basis for our opinion.

3) Key Audit Matters

Key audit matters are those matters that, in our professional judgment were of most significance in our audit of the financial statements of the current period. Key audit matters were addressed in the context of our independent audit of the financial statements, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	
Revenue Recognition	**How the key audit matter was addressed in the audit**
The company's revenue consists of amounts generated from the sale of casting and machining of gray and nodular parts mainly for tractor and construction vehicles both domestically and internationally. In 2024, the company's net revenue from these activities amounted to 3,650,911,781 TRY. We have focused on this issue during our audit procedures for the following reasons: • It being one of the most important performance measurement criteria for evaluating the strategies implemented and the results achieved during the year. The information regarding the company's accounting policies is disclosed in Note 2.	The audit procedures we applied regarding the revenue recognition are summarized below: • It was assessed whether the accounting policies applied by the company for revenue recognition follow TFRS 15, "Revenue from Contracts with Customers" standard. • The processes implemented by the company for revenue recognition were understood. • For auditing revenue, invoice tests were conducted using a sampling method, and the accuracy of these invoices was cross-checked with delivery notes and payments received from customers. • A reconciliation was sent to the company's customers using a sampling method. As a result of the work done on revenue recognition, we did not identify any significant findings.

<table>
<tr><th colspan="2">Key audit matters</th></tr>
<tr><th>Application of TAS 29 – “Financial Reporting in Hyperinflationary, Economies”</th><th>How the key audit matter was addressed In the audit</th></tr>
<tr><td>As disclosed in Note 2.1, the Company applied TAS 29 “Financial reporting in hyperinflationary economies (“TAS 29”) in its financial statements as of and for the year ended 31 December 2024.

TAS 29 requires financial statements to be restated into the current purchasing power at the end of the reporting period. Therefore, transactions in 2024 and non-monetary balances at the end of the period were restated to reflect a price index that is current at the balance sheet date as of 31 December 2024. The implementation of TAS 29 leads to a change in several of the Company’s control activities pervasively related to financial reporting. Applying TAS 29 results in significant changes to financial statement items included in the Company’s financial statements as of and for the year ending 31 December 2024, including statement of financial position, statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flow. In addition, considering the additional effort required to perform the audit of the application of TAS 29, we identified the application of TAS 29 as a key audit matter.</td><td>We performed the following audit procedures in relation to the application of TAS 29:

– Understanding and evaluating the process and controls related to application of TAS 29 designed and implemented by management.

– Obtaining detailed lists of non-monetary items and testing original entry dates and amounts on a sample basis,

– Verifying whether management’s determination of monetary and non-monetary items follows TA S29,

– Verifying the general price index rates used in calculations correspond with the coefficients in the “Consumer Price Index in Turkey” published by the Turkish Statistical Institute,

– Testing the mathematical accuracy of non-monetary items, statement of profit or loss, and cash flow statement adjusted for inflation effects,

Evaluating the adequacy of disclosures related to the application of TAS 29 in the notes to the financial statements in accordance with TFRS.</td></tr>
</table>

4) Other Matter

The financial statements of the Company as of 31 December 2023 and for the year ended were audited by another audit firm whose audit report dated 2 April 2024 expressed an unmodified opinion.

5) Responsibilities of Management and those Charged with Governance for the Financial Statements

The Company management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error,

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company’s financial reporting process.

6) Auditor’s Responsibilities for the Audit of the Financial Statements

The responsibilities of independent auditors in an independent audit are as follows:

Our aim is to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an independent auditor’s report that includes our opinion. Reasonable assurance expressed as a result of an independent audit conducted in accordance with SIA is a high level of assurance but does not guarantee that a material mistake will always be detected. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these financial statements.

As part of an independent audit conducted in accordance with SIA, we exercise professional judgment and maintain professional skepticism throughout the audit. We are also:

– Identify and assess the risks of material misstatement in the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material mistake resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
– Assess the internal control relevant to the audit to design audit procedures that arc appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control.
– Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
– Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our independent auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.
– Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence. We also communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the benefits of public interest such communication.

7) Other Responsibilities Arising from Regulatory Requirements

No matter has come to our attention that is significant according to subparagraph 4 of Article 402 of Turkish Commercial Code ("TCC") No. 6102 and that causes us to believe that the Company's bookkeeping activities concerning the period from 1 January to 31 December 2024 period are not in compliance with the TCC and provisions of the Company's articles of association related to financial reporting.

In accordance with subparagraph 4 of Article 402 of the TCC, the Board of Directors submitted the necessary explanations to us and provided the documents required within the context of our audit.

The responsible auditor who conducted and concluded this independent audit is Beşir Acar.

NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 DECEMBER 2024

(All amounts are expressed in Turkish Lira ("TL") unless otherwise stated.)
(The information provided only for comparison purposes is expressed in purchasing power as of 31 December 2024.)

1. ORGANIZATION AND OPERATION OF COMPANY

Erkunt Sanayi A.Ş. ("Company") was established in 1961 and its main business involves the production and trade of all kinds of parts, processed parts, and main products based on casting technology for automotive, tractor, and construction machinery.

The company has its headquarters in Etimesgut, Ankara, and owns two facilities: Foundry-1 and Machining-1. In addition, the company has Foundry-2, which was established in 1996, and Machining-2, which began operation in 2008, both located in the Sincan Ankara ASO Organized Industrial Zone.

As of December 31, 2024, and 2023, the company's capital is 15.120.000 TRY, consisting of 1.512.000.000 bearer shares, each with a value of 0.01 TRY.

The company's capital structure as of December 31, 2024, and 2023 is as follows:

Shareholder	**Amount**	Share (%)	Amount	Share (%)
Mahindra Overseas Investment Company	**9.633.788**	64	9.633.788	64
Erkunt Traktör Sanayi Anonim Şirketi	**5.288.795**	35	5.288.795	35
Diğer	**197.417**	1	197.417	1
Total	**15.120.000**	100	15.120.000	100

As of December 31, 2024, the company has 1,132 employees. (December 31, 2023: 1,512 employees)

The financial statements for the period from January 1 to December 31, 2024, were approved at the Board of Directors meeting on April 4, 2025. The financial statements will become final once they are approved at the General Assembly.

2. BASIS FOR PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of presentation

Financial reporting standards applied and declaration of conformity

The Company operating in Türkiye keep and prepare their legal books and financial statements in accordance with the accounting principles set out in the Turkish Commercial Code (TCC) No. 6102 and the tax legislation.

Companies that are subject to independent audits in Türkiye prepare their financial statements in accordance with the TCC and the Turkish Accounting Standards ("TAS") put into effect by the Public Oversight Accounting and Auditing Standards Authority ("POA").

The financial statements are presented in accordance with "Announcement regarding with TAS Taxonomy" which was published on July 3, 2024, by POA.

Functional and presentation currency

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency'). The financial statements are presented in TRY, which is the functional currency of Erkunt Sanayi and the presentation currency of the Company.

Going concern

The Company prepared financial statements in accordance with the going concern assumption.

Offsetting

Financial assets and liabilities are offset and reported in the net amount when there is a legally enforceable right or when there is an intention to settle the assets and liabilities on a net basis or realize the assets and settle the liabilities simultaneously.

Comparatives

The financial statements of the Company include comparative financial information to enable the determination of the trends in the financial position and performance. Comparative figures are reclassified, where necessary, to conform to changes in presentation in the current period financial statements and the significant changes are explained.

2.2 Restatement and errors in the accounting policies and estimates

Any change in the accounting policies resulting from the first-time adoption of a new standard is made either retrospectively or prospectively in accordance with the transition requirements. Changes without any transition requirement, material changes in accounting policies or material errors are corrected, retrospectively by restating the prior period financial statements. If changes in accounting estimates are related to only one period, they are recognized in the period when changes are applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively. Short-term portion of TRY 39.184.240, which was reported under short-term portion of long-term financial lease liabilities in the prior period, is reported under short-term financial lease liabilities in the current period. The amount of TRY 2.269.956 which was presented in other payables in last year's report has been reclassified to other financial liabilities for comparison purposes this year.

2.3 Summary of significant accounting policies

Significant accounting policies applied in the preparation of these financial statements are summarized below:

Related parties

For the purpose of these financial statements, shareholders, key management personnel and Board members, in each case together with their families and companies controlled by/or affiliated with them, associated companies are considered and referred to as related parties (Note 5).

Trade receivables

Trade receivables that are created by the Company by way of providing goods directly to a debtor are carried at amortized cost. Receivables with short-term maturities which have no predefined interest rate are measured at the original invoice amount unless the effect of imputed interest is significant (Note 6).

The company has applied a simplified approach and used the impairment matrix for the calculation of impairment on its receivables carried at amortized cost. In accordance with this method, if any provision provided to the trade receivables as a result of a specific event, the Company measures expected credit loss from these receivables by the lifetime expected credit loss. The calculation of expected credit loss is performed based on the past experience of the Company and its expectations for future indications.

Inventories

Inventories are valued at the lower cost or net realizable value. The cost of inventories is determined on the average weighted basis for each purchase. The cost elements included in inventories are materials, labor, and factory overheads. The cost of borrowings is not included in the costs of inventories. The net realizable value is the estimated selling price in the ordinary course of business, less the costs of completion and estimated costs to make the sale. The Company uses the average weighted cost method. (Note 8).

Financial Instruments

Recognition and de-recognition of financial instruments

All purchases and sales of financial assets are recognized on the trade date i.e., the date that the Company commits to purchase or to sell the assets. These purchases or sales are purchases or sales generally require delivery of assets within the time frame established by regulation or convention in the marketplace.

(a) Financial assets carried at amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, whose payments are fixed or predetermined, which are not actively traded, and which are not derivative instruments are measured at amortized cost. They are included in current assets, except for maturities more than 12 months after the balance sheet date. Those with maturities more than 12 months are classified as non-current assets. The Company's financial assets carried at amortized cost comprise "trade receivables" and "cash and cash equivalents" in the statement of financial position. In addition, with recourse factoring receivables classified in trade receivables are classified as financial assets carried at amortized cost since collection risk for those receivables are not transferred to counterparty.

Impairment

The Company evaluates its inventories for impairment under TAS 2, trade receivables under TFRS 9, and property, plant, and equipment under TAS 36; and recognizes provisions in the financial statements when deemed necessary.

(b) Financial assets carried out at fair value

Assets that are held by the management for collection of contractual cash flows and for selling the financial assets are measured at their fair value. If the management do not plan to dispose of these assets in 12 months after the balance sheet date, they are classified as non-current assets. Company makes a choice for the equity instruments during the initial recognition and elect profit or loss or other comprehensive income for the presentation of fair value gain and loss:

i) Financial assets carried at fair value through profit or loss

Financial assets that are measured at fair value through profit or loss, excluding those subjects to fair value hedge accounting, are included in the "derivative instruments" line item in the statement of financial position. Derivative instruments are recognized as assets when the fair value of the instrument is positive, as liability when the fair value of the instrument is negative. The company's financial instruments are at fair value through profit or loss consisting of forward contracts, currency swaps and cross-currency fixed interest rate swaps.

ii) Financial assets carried at fair value through other comprehensive income

Financial assets carried at fair value through other comprehensive income comprise of "financial assets" in the statement of financial position. Gains or losses arising from financial assets, other than impairment and exchange rate income or expenses, are recognized in other comprehensive income. When the financial assets carried at fair value through other comprehensive income are sold, fair value gain or loss classified in other comprehensive income is classified to retained earnings.

Classification and measurement

The company classified its financial assets into three categories; financial assets carried at amortized cost, financial assets carried at fair value though profit of loss, financial assets carried at fair value though other comprehensive income. Classification is performed in accordance with the business model determined based on the purpose of benefiting financial assets and expected cash flows. Management performs the classification of financial assets at the acquisition date.

Financial liabilities

Borrowings are recognized initially at the proceeds received; net of transaction costs are incurred. Borrowings are subsequently stated at amortized cost using the effective yield method; any difference between proceeds, net of transaction costs, and the redemption value is recognized in the statement of profit or loss over the period. Borrowing costs are charged to the statement of profit or loss when they are incurred (Note 4). Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Trade payables

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

A financial asset (or, where applicable a part of a financial asset or part of a Company of similar financial assets) is derecognized where:

- the rights to receive cash flows from the asset have expired,
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the assets.

Where the Company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the financial statements.

Financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less (Note 3). For the purpose of statements of cash flows, cash and cash equivalents includes cash and cash equivalents with original maturities less than three months, excluding the interest accruals. If any provision provided to the cash and cash equivalents because of a specific event, Company measures expected credit loss from these cash and cash equivalents by the life-time expected credit loss. The calculation of expected credit loss is performed based on the experience of the Company and its expectations for future indications.

Property, plant, equipment, and depreciation

Recognition and measurement

Property, plant and equipment are measured at cost, including borrowing costs, less accumulated depreciation and any impairment losses.

If revaluation management is selected for property, plant and equipment and measured at fair value:

Property, plant and equipment are measured at fair value, less accumulated depreciation and any impairment losses. Increases arising on revaluation are recognized in the revaluation reserve under equity. Decreases resulting from the revaluation of the carrying amounts of such land and buildings are recognized as an expense to the extent of the excess, if any, of the revaluation reserve over the amount of the previous revaluation.

Depreciation is provided on restated amounts of property, plant and equipment using the straight-line or unit of production methods based on the estimated useful lives of the assets, except for land due to their indefinite useful life. The depreciation periods for property and equipment, which approximate the economic useful lives of assets concerned, are as follows:

Land improvements	17- 50
Buildings	10- 50
Machinery and equipment	4- 20
Motor vehicles	4- 5
Furniture and fixtures	4- 50
Leasehold improvements	4- 10

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate components (significant parts) of property, plant and equipment.

Gains or losses on the disposal of an item of property, plant and equipment are recognized in profit or loss.

Subsequent costs

Subsequent expenditures are capitalized only to the extent that it is probable that future economic benefits associated with the expenditure will flow to the Company.

Property, plant, and equipment are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of the property, plant and equipment is the higher of future net cash flows from the utilization of this property, plant and equipment or fair value less cost to sell.

Gains or losses on disposals of property, plant and equipment are included in income/expense from investment activities.

Subsequent costs, such as repairs and maintenance or part replacement of tangible assets, are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits with the item will flow to the company (Note 12). All other costs are charged to the statements of profit or loss during the financial year in which they are incurred.

Recognition and reclassification to investment property

When a land or building is owner-occupied and its intended use is changed to investment property, it is remeasured at fair value and classified as investment property. Gains arising on remeasurement of fair value are recognized in profit or loss up to the amount of any pre-existing impairment loss on a particular property, with the remainder recognized in other comprehensive income and presented as a revaluation surplus in equity. Losses are recognized directly in profit or loss.

Investment property is initially recognized at cost and subsequently measured at fair value, with the related changes recognized in profit or loss in the period in which they occur.

Any gain or loss arising on the sale of an investment property (calculated as the difference between the net proceeds from the sale and the carrying amount of the item) is recognized in profit or loss. When investment properties previously classified as property, plant and equipment are sold, the related amounts in the revaluation reserve (Note 16), if any, are transferred to retained earnings.

Other intangible assets

Other intangible assets are comprised of acquired brands, trademarks, patents, developments costs and computer software (Note 14).

Recognition and measurement

Research and development

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditures are capitalized only if the costs can be measured reliably, the development of the product or process is technically and commercially feasible, future economic benefits are probable, and the Company has the intention and resources to complete the development with a view to selling or using the asset. Otherwise, they are recognized in profit or loss as incurred. Subsequent to initial recognition, development costs are measured at cost less accumulated amortization and any accumulated impairment losses. Development costs that have been capitalized are amortized from the commencement of the commercial production of the product on a straight-line basis from 2 to 10 years.

Other intangible assets

Other intangible assets acquired by the Company that have a finite useful life are measured at cost less accumulated amortization and any accumulated impairment losses.

Subsequent costs

Subsequent costs are capitalized only if they have the effect of increasing the future economic benefits of the intangible assets to which they relate. All other expenditure, including internally generated goodwill and trademarks, is recognized in profit or loss as incurred.

Computer software and rights

Computer software and rights are recognized at their acquisition cost. They are amortized on a straight line basis over their estimated useful lives and carried at a cost less accumulated amortization. Their estimated useful lives are between 3 -25 years.

Leases

The Company - as a lessee

At inception of a contract, the Company assesses whether a contract is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset. The Company assesses whether:

a) The contract involved the use of an identified asset - this may be specified explicitly or implicitly.

b) The asset should be physically distinct or represent all the capacity of a physically distinct asset, If the supplier has a substantive substitution right, the asset is not identified.

c) The Company has the right to obtain all the economic benefits from the use of an asset throughout the period of use; and

d) The Company has the right to direct use of the asset, The Company concludes to have the right of use, when it is predetermined how and for what purpose the Company will use the asset. The Company has the right to direct use of assets if either:

    i. The Company has the right to operate (or to have the right to direct others to operate) the asset over its useful life and the lessor does not have the right to change the terms to operate or.

    ii. The Company designed the asset (or the specific features) in a way that predetermines how and for what purpose it is used.

The Company reflects a right-of-use asset and a lease liability in its financial statements at the actual commencement date of the lease.

Right of use asset

The right to use assets is initially recognized at cost comprising of:

e) Amount of the initial measurement of the lease liability.

f) Any lease payments made at or before the commencement date, less any lease incentives received.

g) Any initial direct costs incurred by the Company; and

h) An estimate of costs to be incurred by the lessee for restoring the underlying asset to the condition required by the terms and conditions of the lease (unless those costs are incurred to produce inventories).

The Company re-measure the right of use asset by applying cost method:

a) After netting-off accumulated depreciation and impairment losses from right of use asset.

b) Adjusted for certain re-measurements of the lease liability recognized at the present value.

The Company applies TFRS 16, "Property, Plant and Equipment" to amortize the right of use asset and to assess for any impairment.

Lease Liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date. Lease liabilities are discounted to present value by using the interest rate implicit in the lease if readily determined or with the Company's incremental borrowing rate. The alternative borrowing rate has been determined based on the borrowing rates of the Company companies at the contract dates.

Lease payments included in the measurement of the lease liability comprise the following:

a) Fixed payments, including in-substance fixed payments.

b) Variable lease payments that depend on an index or a rate, initially measured using the index or rate as the commencement date.

c) The exercise price under a purchase option that the Company is certain to exercise, lease payments in an optional renewable period if the Company is certain to exercise an extension option. and penalties for early termination of a lease unless the Company is certain to terminate early.

After initial recognition, the lease liability is measured:

a) Increasing the carrying amount to reflect interest on lease liability,

b) Reducing the carrying amount to reflect the lease payments made and

c) Remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in- substance fixed lease payments.

The duration of the contract that covers the Company's lease liabilities varies between 1 and 5 years.

Extension and termination options

In determining the lease liability, the Company considers the extension and termination options. The majority of extension and termination options held are exercisable both by the Company and by the respective lessor. Extension options are included in the lease term if the lease is certain to be extended. The Company remeasures the lease term if a significant event or a significant change in circumstances occurs which affects the initial assessment. The Company do not have significant lease contracts with extension and termination options that are not included in the lease liability since they are not certain.

The Company remeasures the lease term if a significant event or a significant change in circumstances occurs which affects the initial assessment. As result of the evaluations performed in the current period, there is no lease obligation or right of use assets arising from the inclusion of extension and early termination options in the lease period.

Variable lease payments

The company's lease contracts also include variable lease payments which are not in the scope of TFRS 16. Variable lease payments are recognized in profit or loss in the related period.

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset which requires a substantial period of time to get ready for its intended use or sale shall be capitalized over the cost of the asset (Note 4). Other borrowing costs shall be recognized as an expense in the period it incurs (Note 4).

Current and deferred income tax

The tax expense for the year comprises current and deferred tax. Tax is recognized in the statement of profit or loss, except to the extent that it relates to items recognized directly in equity. In such cases, the tax is also recognized in shareholders' equity.

The current income tax charge is calculated in accordance with the tax laws enacted or substantively enacted at the balance sheet date in the countries where the subsidiaries of the Company operate.

Deferred income tax is provided in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Currently enacted tax rates are used to determine deferred income tax at the balance sheet date (Note 31).

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities, and deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognized directly in equity is recognized in equity.

The Company recognizes deferred tax assets for all deductible temporary differences arising from investments in subsidiaries, to the extent that, and only to the extent that, it is probable that:

- the temporary difference will reverse in the foreseeable future.
- taxable profit will be available against which the temporary difference can be utilized.

The Company recognizes deferred tax liability for all taxable temporary differences associated with investments in subsidiaries except to the extent that both of the following conditions are satisfied:

- the parent can control the timing of the reversal of the temporary difference.
- it is probable that the temporary difference will not reverse in the foreseeable future.

Government grants allowing reduced corporate tax payment are evaluated within the scope of TAS 12 Income Taxes standard and are recognized as deferred tax assets by the qualified tax advantage amount, to the extent it is highly probable that future taxable profits will be available against which the unused investment tax credits can be utilized.

Employment termination benefits

Employment termination benefits, as required by the Turkish Labor Law and the laws applicable in the countries where the subsidiaries operate, represent the estimated present value of the total reserve of the future probable obligation of the Company arising in case of the retirement of the employees, termination of employment without due cause, call for military service, be retired or death upon the completion of a minimum one-year service. Actuarial gains and losses are recognized as other comprehensive income or loss in shareholders' equity in the period in which they arise (Note 18).

Retirement Benefit Obligation Provision

The accounting for retirement benefit obligations involves estimating the costs of future benefits and spreading these costs over the employee's expected service life. Determining the obligation and expense related to these costs requires the use of specific assumptions. These key assumptions include the discount rate, the expected long-term return rate on plan assets, life expectancy, and healthcare cost inflation rates. These assumptions may vary based on interest rates in high-quality bonds and equities, as well as medical cost inflation. If actual outcomes differ from these assumptions, the differences accumulate and are amortized over future periods, which affects the expense recorded in those periods and the accrued obligation.

While it is believed that the assumptions are appropriate considering current economic conditions and actual experience, significant discrepancies in results or significant changes in assumptions could materially impact retirement and other post-retirement benefit obligations and related future expenses. (Note 18).

The retirement benefit obligation as of December 31, 2024, and the pre-retirement benefit costs for 2024, have been prepared using the assumptions determined as of January 1, 2025.

Foreign currency transactions

Transactions in foreign currencies during the period have been translated at the exchange rates prevailing on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies have been translated into TRY at the exchange rates prevailing at the balance sheet dates. Exchange gain or losses arising from the settlement and translation of foreign currency items have been included under financial income/ expenses and other operating income/ expenses in the statements of profit or loss, except for the effective portion of the foreign currency hedge of net investments in foreign operations.

Revenue recognition

Company recognizes revenue when the goods or services is transferred to the customer and when performance obligation is fulfilled. Goods are counted to be transferred when the control belongs to the customer.

Company recognizes revenue based on the following main principles:

(a) Identification of customer contracts,

(b) Identification of performance obligations,

(c) Determination of transaction price in the contract,

(d) Allocation of price to performance obligations,

(e) Recognition of revenue when the performance obligations are fulfilled

The company recognized revenue from its customers only when all the following criteria are met:

(a) The parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to performing their respective obligations,

(b) Company can identify each party's rights regarding the goods or services to be transferred,

(c) Company can identify the payment terms for the goods or services to be transferred.

(d) The contract has commercial substance,

(e) It is probable that the Company will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. In evaluating whether the collectability of an amount of consideration is probable, an entity shall consider only the customer's ability and intention to pay that amount of consideration when it is due.

The Company assess the goods or services promised in a contract with a customer and identify as a performance obligation each promise to transfer to the customer. For each performance obligation identified, the entity determines at contract inception whether it satisfies the performance obligation over time or satisfies the performance obligation at a point in time. If the Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognizes revenue over time. The Company recognize revenue when the entity satisfies a performance obligation by transferring a promised good or service to the customer. An asset is transferred when the customer obtains control of that asset or service.

The Company does not adjust the promised amount of consideration for the effects of a significant financing component since the Company expects, at contract inception, that the period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less. If the financing component is significant in revenue, future collections are discounted by the interest rate in financing component. The difference is recognized as income from operating activities in the current period.

Incentives for investments, research, and development activities

Gains arising from incentives for investment and research and development activities together with government grants are recognized when there is a reasonable assurance for the necessary conditions to be fulfilled and incentive to be acquired by the Company. Vested government grants related with expense or capitalization realized in previous accounting periods, are recognized in statements of profit or loss when collectible and grants relating to capital assets are accounted for as deferred income in the balance sheet and are credited to income statement on a straight-line basis over the expected lives of related assets.

Paid-in capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation because of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. No provision is recognized for operating losses expected in later periods.

Warranty expenses

Warranty expenses include repair and maintenance expenses for products sold and labor and material costs of authorized services for products under the scope of the warranty terms without any charge to the customers. Based on estimations using past statistical information warranty services and returns of products, warranty expenses are recognized for the products sold in the period for utilizations of warranties in the following future periods (Note 2).

Contingent assets and liabilities

Possible assets or obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company are not included in the financial statements and are disclosed as contingent assets or liabilities (Note 11).

Contingent liabilities are disclosed in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote. If an outflow of resources has become probable, contingent liabilities are recognized in the financial statements. Contingent assets are not recognized in financial statements but disclosed in the notes to the financial statements where an inflow of economic benefits is probable.

Earnings per share

Earnings per share presented in the statements of profit or loss are determined by dividing net income attributable to that class of shares by the weighted average number of such shares outstanding during the year concerned.

In Türkiye, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings or inflation adjustments. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier period. Treasury shares are also included in calculation per share. (Note 32)

Capital and dividends

Ordinary shares

Transaction costs arising from equity transactions are recognized as a deduction from the related equity item. Income taxes relating to distributions to holders of equity instruments and transaction costs arising from equity transactions are accounted for in accordance with IAS 12 Income Taxes.

Preference shares

The Company's redeemable preference shares are classified as financial liabilities. These are non-mandatory dividends and are paid in cash by the holders. Discretionary dividends are recognized as interest expense in profit or loss as they accrue.

Non-refundable shares are classified as equity because they are non-mandatory dividend payments, involve no obligation to provide cash or other financial assets and do not have to be discounted to the floating portion of the Company's equity instruments. These non-mandatory dividends are accounted for as equity distributions after approval by the Company's shareholders.

Repurchased and reissued shares (treasury shares)

When shares previously recognized as share capital are repurchased, the purchase price, including any costs attributable to the repurchase, net of tax, is recognized as a reduction of equity. Repurchased shares are recognized as repurchased own shares of the Company under equity. When the shares are sold or reissued, the consideration received increases equity, and the resulting gain or loss is transferred to share premium.

Reporting of cash flows

In the statements of cash flows, cash flows are classified and reported according to their operating, investing, and financing activities.

Provisions

Provisions are determined by discounting estimated future cash flows to their present value using a pre-tax discount rate that reflects the time value of money and the risks specific to the liability. The discount amount is recognized as finance cost.

New and amended standards and interpretations

The accounting policies adopted in preparation of the financial statements as of December 31, 2024, are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRS interpretations effective as of January 1, 2024 and thereafter.

a) The new standards, amendments and interpretations which are effective as of January 1, 2024, are as follows:

- Amendments to TAS 1- Classification of Liabilities as Current and Non-Current Liabilities
- Amendments to TFRS 16 - Lease Liability in Sale and Leaseback
- Amendments to TAS 7 and TFRS 7 - Disclosures: Supplier Finance Arrangements.

The amendments did not have a significant impact on the financial position or performance of the Company.

b) Standards issued but not yet effective and not early adopted

Standards, interpretations, and amendments to existing standards that are issued but not yet effective up to the date of issuance of the financial statements are as follows. The Company will make the necessary changes if not indicated otherwise, which will be affecting the financial statements and disclosures when the new standards and interpretations become effective.

- Amendments to TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture.
- Amendments to TAS 21 - Lack of exchangeability

The Company will assess the effects of these changes after the mentioned standards have been finalized.

- TFRS 17 - The new Standard for insurance contracts The mentioned standard is not applicable to the Company.

c) The amendments which are effective immediately upon issuance

Amendments to TAS 12 - International Tax Reform – Pillar Two Model Rules

The amendments do not have a significant impact on the financial position or performance of the Company.

d) The new amendments that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

The following amendments to TFRS 9 and TFRS 7 as well as TFRS 18 and TFRS 19 are issued by IASB but not yet adapted/issued by POA. Therefore, they do not constitute part of TFRS. The Company will make the necessary changes to its financial statements after the amendments and new Standard are issued and become effective under TFRS.

- Amendments to TFRS 9 and TFRS 7 – Classification and measurement of financial instruments
- Amendments to TFRS 9 and TFRS 7 – Contracts Concerning Electricity Generated from Natural Resources
- IFRS 18 – The new Standard for Presentation and Disclosure in Financial Statements

The Company is in the process of assessing the impact of the amendments on the financial position or performance of the Company.

- TFRS 19 – Subsidiaries without Public Accountability: Disclosures The mentioned standard is not applicable to the Company.

2.4 Critical accounting estimates, judgments, and assumptions

The preparation of financial statements require estimates and assumptions to be made regarding the amounts for the assets and liabilities at the balance sheet date, and explanations for the contingent assets and liabilities as well as the amounts of income and expenses realized in the reporting period. The Company makes estimates and assumptions concerning the future. The accounting estimates and assumptions, by definition, may not be equal the related to actual results. The estimates and assumptions that may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

Provision for employee termination benefits

To calculate the employee benefit provision actuarial assumptions relating to turnover ratio, discount rate and salary increase are used. Calculation details are given in the Employee benefits disclosure (Note 18).

Useful lives

The Company capitalizes tangible and intangible assets in accordance with TAS 16 and TAS 38. The Company defines useful life of its assets in terms of the assets expected utility to the Company. Economic useful lives accepted by the Company is disclosed in Note 2.3.

Investment accounted for using the equity method

The Company has significant influence over an investment accounted for using the equity method.

Leases

The Company has an arrangement containing a lease.

2.5 Financial reporting on hyperinflationary economy

With the announcements made by the Public Oversight Accounting and Auditing Standards Authority (POA) on November 23, 2023, entities applying TFRSs have started to apply inflation accounting in accordance with TAS 29 Financial Reporting in Hyperinflation Economies as of financial statements for the annual reporting period ending on or after December 31, 2023.

TAS 29 is applied to the financial statements, including the financial statements, of any entity whose functional currency is the currency of a hyperinflationary economy.

According to the standard, financial statements prepared in the currency of a hyperinflationary economy are presented in terms of the purchasing power of that currency at the balance sheet date. Prior period financial statements are also presented in the current measurement unit at the end of the reporting period for comparative purposes. The Company has therefore presented its financial statements as of December 31, 2023, on the purchasing power basis as of December 31, 2024.

The adjustments made in accordance with IAS 29 were made using the adjustment coefficient obtained from the Consumer Price Index (CPI) of Türkiye published by the Turkish Statistical Institute (TÜİK). As of December 31, 2024, the indices and adjustment coefficients used in the adjustment of the financial statements are as follows:

Date	Index	Conversion factor	Three year inflation rate
31 December 2024	2.684,55	1.00000	291%
31 December 2023	1.859,38	1.44379	268%
31 December 2022	1.128,45	2.37897	156%

The main components of Company restatement for the purpose of financial reporting in hyperinflationary economies are as follows:

- The financial statements for the current period presented in TRY are expressed in terms of the purchasing power at the balance sheet date and the amounts for the previous reporting period are restated in accordance with the purchasing power at the end of the reporting period.
- Monetary assets and liabilities are not restated as they are currently expressed in terms of the purchasing power at the balance sheet date.
- Non-monetary assets, liabilities and equity items that are not expressed in the current purchasing power at the balance sheet date are restated by applying the relevant conversion factors.
- All items in the statement of comprehensive income, except for the effects of non-monetary items in the balance sheet on the statement of comprehensive income, have been restated by applying the multipliers calculated over the periods in which the income and expense accounts were initially recognized in the financial statements.
- The effect of inflation on the Company’s net monetary asset position in the current period is recognized in the income statement in the net monetary position loss account.

3. CASH AND CASH EQUIVALENTS

As of 31 December 2024 and 2023, cash and cash equivalents comprised the following:

	31 December 2024	31 December 2023
Cash on hand	**7.941**	37.336
Banks	**89.403.089**	64.272.727
- *Demand Deposits*	**86.803.089**	64.272.727
- *Time Deposits*	**2.600.000**	–
Other current assets	**1.353**	–
Total	**89.412.383**	64.310.063

As of December 31, 2024, there are no blocked deposits in the company. (31 December 2023: None.)

As of 31 December 2024 and 2023, time and demand deposits comprised the following currencies;

	Demand Deposits (Original currency)		**Time Deposits (Original currency)**	
	31 December 2024	31 December 2023	**31 December 2024**	31 December 2023
TRY	**27.135.194**	55.104.907	**2.600.000**	–
USD	**29.003**	16.125	**–**	–
GBP	**1.381.285**	–	**–**	–
EUR	**3.546**	180.013	**–**	–

On 31 December 2024, time deposits comprised the following:

Currency	**Interest rate**	**Maturity**	**Original Balance**	**TRY Balance**
TRY	32.00%	2.01.2025	700.000	700.000
TRY	39.00%	2.01.2025	1.900.000	1.900.000
31 December 2024			**2.600.000**	**2.600.000**

Interest rate risk and sensitivity analysis of Company's financial assets and liabilities are indicated in Note 34.

4. FINANCIAL LIABILITIES

As of 31 December 2024 and 31 December 2023, financial borrowings comprised the following:

	31 December 2024	31 December 2023
Short term borrowings	**354.000.000**	69.211.164
Short-term portions of long-term loans	**13.576.988**	–
Other financial liabilities	**5.418.275**	3.887.660
Lease liabilities	**68.937.684**	58.812.516
Short-term financial borrowings	**441.932.947**	131.911.340
Lease liabilities	**65.804.580**	132.077.037
Long term financial borrowings	**65.804.580**	132.077.037
Total financial borrowings	**507.737.527**	263.988.377

Company has no pledges or mortgages on its financial liabilities (31 December 2023: None).

As of 31 December 2024, the details of financial liabilities and lease liabilities are as follows:

	31 December 2024	31 December 2023
Less than one year	**441.932.947**	131.911.340
Between one and two years	**65.804.580**	132.077.037
Total	**507.737.527**	263.988.377

As of 31 December 2024, the details of financial liabilities are as follows:

	31 December 2024		
	Currency	**TRY Amount**	**Int. Rate %**
Lease liabilities (Short-term and long-term)	**TRY**	**134.742.264**	**28.0**
Short term borrowings	**TRY**	**367.576.988**	**27.2**
Other financial liabilities	**TRY**	**5.418.275**	**–**
Total		**507.737.527**	

As of 31 December 2023, the details of financial liabilities are as follows:

	31 December 2023		
	Currency	TRY Amount	Int. Rate %
Lease liabilities (Short-term and long-term)	TRY	190.889.555	3.8
Short term borrowings	TRY	69.211.164	17.3
Other financial liabilities	TRY	3.887.658	
Total		**263.988.377**	

As at 31 December 2024 and 31 December 2023, cash flows from financial operations comprised the followings:

Movement of Financial Liabilities	1 January - 31 December 2024	1 January - 31 December 2023
January 1, beginning of the period	**263.988.377**	95.052.701
Payment	**(195.635.945)**	(42.722.042)
Interest accruals	**13.576.988**	25.939
Addition	**507.420.269**	236.792.022
Exchange rate difference	**996.606**	12.205.368
Monetary gain / (loss), net	**(82.608.768)**	(37.365.611)
End of the period	**507.737.527**	263.988.377

5. RELATED PARTIES

For the purpose of this report, shareholders, important management personnel and members of the board of directors, their families and companies controlled by or affiliated with them, as well as associates and jointly controlled partnerships are considered as related parties. Various transactions were made with related parties during the normal operation of the enterprise. A significant part of the transactions with related parties have been eliminated and the remaining transactions with related parties after elimination are not material for the Company. These transactions were generally carried out during the normal operation of the business in accordance with market conditions.

As of 31 December 2024, there are no guarantees received/given from related parties.

As of 31 December 2024 and 2023, due from related parties and due to related parties are as follows:

Due from related parties:

	31 December 2024	31 December 2023
Erkunt Traktör Sanayii A.Ş.	**67.820.410**	210.748.447
Mahindra & Mahindra	**10.262.148**	–
Total	**78.082.558**	210.748.447

Trade payables from related parties arise from the sales of finished goods and raw materials.

Due to related parties:

	31 December 2024	31 December 2023
Kumsan Döküm Malzemeleri Sanayi ve Ticaret A.Ş.	**10.261.711**	16.412.709
Erkunt Traktör Sanayii A.Ş.	**1.831**	3.336.751
Total	**10.263.542**	19.749.460

Trade payables to related parties arise from order advances.

Other payables:

	31 December 2024	31 December 2023
Individual partners	**8.525**	12.308
Total	**8.525**	12.308

Other payables to related parties arise from expense reflection.

Sales to related parties:

	31 December 2024	31 December 2023
Erkunt Traktör A.Ş.,	**226.916.622**	345.170.432
Mahindra	**10.328.189**	13.462.477
Kumsan Döküm ve Malzemeleri Sanayi ve Ticaret A.Ş.	**696.010**	–
Total	**237.940.821**	358.632.909

Purchase from related parties:

	31 December 2024	31 December 2023
Erkunt Gayrimenkul A.Ş.,	**(28.497.599)**	–
Erkunt Traktör A.Ş.,	**(4.928.929)**	(737.521)
Mahindra	**(5.475.899)**	–
Kumsan Döküm ve Malzemeleri Sanayi ve Ticaret A.Ş.	**(36.097.425)**	(59.162.814)
Total	**(74.999.852)**	(59.900.335)

Key management of the Company consists of the Chairman and members of the Board of Directors, general manager, assistant general managers and directors. Benefits provided to key management personnel consist of salaries, severance pay, premiums, private pension, health insurance, life insurance, payments made within the scope of other expenses such as passenger car rentals, fuel and mobile phones, and severance pay and other provisions.

As of December 31, 2024, and 2023, benefits provided to key management personnel for Erkunt Sanayi A.Ş. are as follows:

Benefits provided to senior management	**31 December 2024**	31 December 2023
Wages paid and similar	**17.664.452**	23.568.977
Total	**17.664.452**	23.568.977

6. TRADE RECEIVABLE AND PAYABLE

Trade receivables

Trade receivables of the Company as of 31 December 2024 and 31 December 2023 are as follows:

	31 December 2024	31 December 2023
Trade receivables from Third party	**561.126.816**	707.716.959
Trade receivables from related parties (Note 5)	**78.082.558**	210.748.447
Total	**639.209.374**	918.465.406

Details of trade receivables as of 31 December 2024 and 31 December 2023 are as follows:

	31 December 2024	31 December 2023
Trade receivables	**561.126.816**	707.716.959
Doubtful receivables	**329.806**	2.578.254
Provisions for doubtful receivables	**(329.806)**	(2.578.254)
Total	**561.126.816**	707.716.959

As of December 31, 2024, rates used in trade receivables discount: For Turkish Lira, denominated trade receivables, the average annual rates used in the discount of trade receivables is 49,25% (December 31, 2023: Annual rate is 44,25%).

Provisions for doubtful receivables as of 1 January - 31 December 2024 and movements in 2023 were as follows:

	1 January - 31 December 2024	1 January - 31 December 2023
Beginning balance	**2.578.254**	7.659.256
Increase during the period	**–**	2.102.084
Reversal of bad debt provision	**(1.671.175)**	(4.172.201)
Monetary (gain)/loss	**(577.273)**	(3.010.885)
Ending Balance	**329.806**	2.578.254

The company's exposure to currency and credit risk and impairment for current trade receivables are disclosed in Note 35.

As of December 31, 2024, the average maturity of trade receivables is 75 days. (December 31, 2023: 83 days)

	31 December 2024		
	Currency	**Original Currency**	**TRY Amount**
Trade receivables	**EUR**	**7.910.702**	**290.405.826**
Trade receivables	**USD**	**447.374**	**15.772.439**
Trade receivables	**GBP**	**4.754.942**	**210.055.744**
Trade receivables	**TRY**	**122.975.365**	**122.975.365**

Payment made during the period	**(63.719.155)**	(44.451.081)
Monetary gain/loss	**(127.692.332)**	(98.198.847)
Balance as at 31 December	**159.613.995**	235.350.407

According to the legislation in Turkey, employees who completed one working year in Company, are dismissed without any meaningful reason, quit due to the military service, pass away, completed 25 working years for male, 20 working years for female and are at retirement date (58 years old for female, 60 years old for male) should be paid for termination benefit. Due to the amendment of the legislation on 8 September 1999, there are certain transitional liabilities regarding duration of service depending on retirement.

As of 1 January 2025, these payments calculate on 30 days salary according to at the most TRY 46.944,03 (2023: TRY 50,617.15) at the rate of retirement or resignation day per year worked. Provision of termination benefit is calculated on the current period and reflected on financial tables. The provision is calculated by estimating the present value of the possible liability in the future caused by the retirements of employees of the Company. This calculation is made according to the ceiling announced by the government.

The provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. TRFS require actuarial valuation methods to be developed to entities' obligation under defined benefit plans. Accordingly, the following actuarial assumptions were used in the calculation of the total liability.

The principal assumption is that the maximum liability for each year of service will increase parallel with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as at 31 December 2024, the provision has been calculated by estimating the present value of the future probable obligation of Company arising from the retirement of the employees. The provisions at the respective reporting period dates have been calculated based on the table below.

	31 December 2024	31 December 2023
Inflation rate	**23.75%**	21.41%
Interest rate	**29.32%**	25.05%
Discount rate	**4.50%**	2.82%
Average probability	**92.17%**	96.70%

19. PAYABLES RELATED TO EMPLOYEE BENEFITS

As of 31 December 2024 and 2023 payables related to employee benefits comprised the following:

	31 December 2024	31 December 2023
Payables to personnel	**34.530.910**	40.318.256
Social security premiums payable	**19.214.624**	50.115.303
Total	**53.745.534**	90.433.559

20. OTHER ASSETS AND LIABILITIES

(a) Other current assets

As at 31 December 2024 and 2023 other current assets comprised the followings:

	31 December 2024	31 December 2023
Deferred Value Added Taxes ("VAT")	**68.875.996**	65.621.165
Total	**68.875.996**	65.621.165

21. DERIVATIVE FINANCIAL INSTRUMENTS

As of 31 December 2024 and 2023, derivative financial instruments are as follows:

	31 December 2024	31 December 2023
Derivative financial instruments	**15.675.143**	-
Total	**15.675.143**	-

(*) Derivative financial instruments consist of revenues from forward contracts.

22. EQUITY

(a) Capital

As at 31 December 2024, the paid-in capital of the Company comprises of 1.512.000.000 shares issued (31 December 2023: 1.512.000.000 shares) of TRY 1 each (31 December 2023: TRY 1). There are no privileges rights provided to different shareholder Companys or individuals. The shareholder structure of the Company is as follows:

	31 December 2024		**31 December 2023**	
	Ownership Interest	Shares (%)	**Ownership Interest**	Shares (%)
Shareholders				
Mahindra Overseas Investment Com. Ltd.	**9.633.788**	63.7%	**9.633.788**	63.7%
Erkunt Traktör A.Ş.	**5.288.795**	35.0%	**5.288.795**	35.0%
Bürge Ceylan Kaleli	**110.950**	0.7%	**110.950**	0.7%
Hasan Kaleli	**22.837**	0.2%	**22.837**	0.2%
Zekeriya Kaleli	**19.000**	0.1%	**19.000**	0.1%
Ali İslam Kaleli	**16.313**	0.1%	**16.313**	0.1%
Ahmet Nalbur	**15.120**	0.1%	**15.120**	0.1%
Rezzan Oral	**147**	0.0%	**147**	0.0%
Bearer shares	**13.050**	0.1%	**13.050**	0.1%
Total	**15.120.000**	**100**	**15.120.000**	100
Capital adjustment differences	**331.174.701**		**331.174.701**	
Total	**346.294.701**		**346.294.701**	

As of 31 December 2024, the Company's issued and paid-in share capital consists of 1.512.000.000 shares and all with a par value of TRY 1 each. These shares are bearer shares.

(b) Capital adjustment differences

As of 31 December 2024, capital adjustment differences amounting to TRY 331.174.701 consist of capital adjustment differences arising from the adjustment of Company's paid-in capital amount according to inflation and not offset against previous year's losses or added to the capital (31 December 2023: TRY 331.174.701).

(c) Defined benefit plans for re-measurement losses

Consists of actuarial gains and losses recognized as other comprehensive income because of the adoption of TAS 19 . 31 December 2024: TRY (159.613.995), 31 December 2023: TRY (148.835.681).

(d) Restricted reserves

The legal reserves consist of the first and second reserves in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of the statutory profit at the rate of 5% until the total reserve reaches a maximum of 20% of the Company's paid-in capital. The second legal reserve is appropriated at the rate of 10% of all distributions more than 5% of Company's share capital. The first and second legal reserves are not available for distribution unless they exceed 50% of the share capital, however they can be used to offset losses if there are no retained earnings. In 2024, Company has no transfer to legal reserves (31 December 2023: None.)

(e) Accumulated gains/(losses)

Retained earnings indicated by the Company on its financial statements issued as follows.

	31 December 2024	31 December 2023
Beginning of the period	**1.243.706.341**	1.210.043.716
Transfer from net profit for the period	**(18.762.778)**	33.662.625
End of the period	**1.224.943.563**	1.243.706.341

Total	**3.378.411**	1.459.167

For the years ended 31 December finance expense comprised the following:

	1 January - Dec 31, 2024	1 January - Dec 31, 2023
Interest expenses	**(83.627.302)**	(67.623.943)
Total	**(83.627.302)**	(67.623.943)

31. INCOME TAX

Corporate tax

The "Law Regarding the Imposition of Additional Motor Vehicle Tax for the Compensation of Economic Losses Caused by the Earthquakes Occurred on 6/2/2024, and Amendments in Some Laws and Decree Laws, Including the Law Published in the Official Gazette with Number 32249 on July 14, 2024," according to Article 21, stipulates changes in Article 32 of the Corporate Tax Law numbered 5520. These changes regulate the corporate tax rate, increasing the general rate from 20% to 25%, and for banks and financial institutions, the rate rises from 25% to 30%. This amendment is effective from October 1, 2024, starting with the declarations to be submitted, and it is applied to the gains of corporations in the tax years of 2024 and subsequent periods (2023: 25%). The corporate tax rate is applied to the net corporate income, calculated by adding back non-deductible expenses according to tax laws and deducting exemptions and discounts specified in tax laws from the commercial income of corporations.

There is no practice in Turkey regarding reaching an agreement with the tax authorities on the taxes to be paid. Corporate tax returns must be submitted to the tax office to which the company is affiliated by the 25th day of the fourth month following the month in which the accounting period is closed.

The authorities with the power to conduct tax inspections can examine accounting records within a five-year period, and if erroneous transactions are identified, the tax amounts may change due to tax assessments. According to Turkish tax legislation, declared financial losses shown on the tax return can be deducted from the annual corporate income, if they do not exceed five years. However, financial losses cannot be offset against profits from previous years.

On December 30, 2023, the "GENERAL COMMUNIQUÉ ON TAX PROCEDURE LAW" was published in the Official Gazette, stating that, as of December 31, 2023, the balance sheet prepared in accordance with the Tax Procedure Law should be subjected to inflation adjustments, and the effects should be accounted for as of the same date.

Deferred Taxes

The existence of deferred tax liabilities or assets is determined by calculating the tax effects according to the balance sheet method of the temporary differences between the values of assets and liabilities as shown in the financial statements and the amounts considered in the legal tax base. Deferred tax liabilities or assets are reflected in the accompanying financial statements, considering the anticipated tax rates that will be applicable in future periods when these temporary differences are expected to be reversed.

In reflecting the deferred tax asset in the financial statements, Company considers factors such as developments in the sector in which it operates, estimated taxable profits in future periods, the general economic and political situation of Turkey, and/or international economic and political conditions that may affect Company. The company anticipates that it will generate enough taxable profit in future periods. As of December 31, 2024, the deferred tax assets and liabilities in the financial statements have been calculated at a rate of 25% for the portion of temporary differences that will create a tax impact in 2024 and subsequent periods.

Current tax assets and liabilities

As of 31 December, total current tax liability comprised the following:

	1 January - 31 December 2024	1 January - 31 December 2023
Provision for tax and other legal liabilities on profit for the period	**–**	70.279.194
Prepaid tax	**–**	(65.124.696)
Period profit tax asset/(liability)	**–**	5.154.498

Total income tax benefit/expense) recognized in profit or loss for the year ended 31 December 2024 and 2023 are as follows:

	31 December 2024	31 December 2023
Current year tax expense	**–**	(70.279.194)
Deferred tax income	**(72.916.490)**	(78.104.603)
Tax income/expense)	**(72.916.490)**	(148.383.797)

For the year 31 December, the deferred tax asset/liability movement is as follows:

	31 December 2024	31 December 2023
Opening balance as of January 1	**83.144.022**	140.087.838

34. FINANCIAL INSTRUMENTS

Financial risk management

The company has exposure to the following risks from its operations:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

This note informs us about, Company's exposures towards risks mentioned above. Company's goals, policies and processes for measuring and managing risks and capital management policy of Company. Detailed descriptions and analysis mentioned in Notes 34 and 35.

Financial risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring Company's risk management policies. The committee reports regularly to the board of directors on its activities.

Company's risk management policies are established to identify and analyze the risks faced by Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and Company's activities. The company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

Company audit committee oversees how management monitors compliance with Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by Company. The company audit committee assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and investments in debt securities. The carrying amounts of financial assets and contract assets represent the maximum credit exposure. Financial instruments that could cause the Company to considerably increase credit risk are mainly cash and commercial receivables. Companies have cash and cash equivalents in various financial institutions. The company manages this risk by limiting transactions with financial institutions and by constantly evaluating the reliability of such institutions. The credit risk that may arise from trade receivables is limited by the fact that Company management limits the amount of credit applied to customers. Trade receivables are assessed by considering their past experiences and current economic situation in Company management and are presented as net in the balance sheet after the provision for doubtful receivables is settled (Note 6).

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Company's reputation.

Market risk

Market risk is the risk that changes in market prices, interest rates and equity prices will affect Company's income or the value of its holdings of financial instruments. The company is subject to the risk of interest rate fluctuations to the extent that interest-earning assets and interest-bearing liabilities mature or reprise at different times or in differing amounts.

Currency risk

The company is exposed to currency risk due to its sales, import transactions and borrowings in foreign currency. These transactions are held in USD and Euro.

Interest rate risk

Company is exposed to interest rate risk through the impact of rate changes on interest bearing liabilities and assets.

Operational risk

Operational risk is the direct or indirect loss arising from a wide variety of factors related to Company's processes, employees, technology and infrastructure, and external factors such as legal and regulatory requirements outside the credit risk, market risk and liquidity risk, and generally accepted standards for legal entity Risk, Operational risks arise from all Company activities.

The company's objective is to manage operational risk to balance the avoidance of financial losses. In this context, the following company procedures and internal control issues have been identified:

- requirements for appropriate segregation of duties, including the independent authorization of transactions
- requirements for the reconciliation and monitoring of transactions compliance with regulatory and other legal requirements
- documentation of controls and procedures
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified
- requirements for the reporting of operational losses and proposed remedial action
- development of contingency plans
- training and professional development
- ethical and business standards
- risk mitigation, including insurance where this is effective.

Capital risk management

The company manages its capital to ensure that the Company will be able to continue as a going concern while maximizing its profit and market value through the optimization of the debt and equity balance.

The majority of the Company’s customers are Turkey’s largest retail companies and therefore the Company’s losses from its receivables have not been very high. While the Company monitors the credit risks of its customers, customers are Companies according to their credit characteristics and customer types. The majority of commercial receivables are receivables from large retail companies.

The Company receives bank guarantee letters and real estate mortgages from its customers against collection risk or ensures that they are included in the DBS system.

Credit risk is distributed due to the large number of institutions that constitute the customer base.

Liquidity risk

As of 31 December 2024, the monetary liabilities of the Company according to their remaining maturities are as follows:

Interest rate risk

The Company is exposed to interest rate risk through the impact of rate changes on interest bearing assets and liabilities. The Company manages this risk through natural hedges that arise from offsetting interest rate sensitive assets and liabilities. In order to minimize this interest rate risk, the Company seeks to borrow funds at the most favorable rates.

As of 31 December, the interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

Fixed rate instruments	**31 December 2024**	**31 December 2023**
Financial asset	2.600.000	–
Financial liabilities	488.742.264	182.844.316

AUDITOR'S REPORT

To the Annual General Meeting of Sampo-Rosenlew Oy

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Sampo-Rosenlew Oy (business identity code 0773638-7) for the year ended 31 March, 2025. The financial statements comprise the balance sheet, income statement, cash flow statement and notes.

In our opinion, the financial statements give a true and fair view of the company's financial performance and financial position in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements.

Basis for Opinion

We conducted our audit in accordance with good auditing practice in Finland. Our responsibilities under good auditing practice are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the company in accordance with the ethical requirements that are applicable in Finland and are relevant to our audit, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors and the Managing Director for the Financial Statements

The Board of Directors and the Managing Director are responsible for the preparation of financial statements that give a true and fair view in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors and the Managing Director are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting. The financial statements are prepared using the going concern basis of accounting unless there is an intention to liquidate the company or cease operations, or there is no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with good auditing practice will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with good auditing practice, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events so that the financial statements give a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Reporting Requirements

Other Information

The Board of Directors and the Managing Director are responsible for the other information. The other information comprises the report of the Board of Directors. Our opinion on the financial statements does not cover the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. Our responsibility also includes considering whether the report of the Board of Directors has been prepared in compliance with the applicable provisions.

In our opinion, the information in the report of the Board of Directors is consistent with the information in the financial statements and the report of the Board of Directors has been prepared in compliance with the applicable provisions.

If, based on the work we have performed, we conclude that there is a material misstatement of the report of the Board of Directors, we are required to report that fact. We have nothing to report in this regard.

NOTES TO THE FINANCIAL STATEMENT 31 MARCH 2025

A. Basis of preparation

1. Financial Statements

Sampo-Rosenlew Oy is wholly owned subsidiary of Mahindra & Mahindra(M&M), Mumbai, India. M&M consolidates Sampo-Rosenlew Oy to group financial statement, which can be found at company head quarters in Mumbai.

Sampo-Rosenlew Oy has a joint venture in Algeria. The Swedish branch was closed 31st of March, 2025. The figures for the Swedish branch have been combined with those of Sampo-Rosenlew.

2. Valuation Principles

Deferred Tax assets :
In order to comply with the principle of prudence, the company has not recorded any deferred tax assets in the balance sheet for confirmed losses and tax losses to be confirmed for the financial year.

Valuation of Fixed Assets:

Fixed assets are carried at direct purchase cost with deduction of planned depreciations. Depreciation according to plan has been computed according to either the total useful lives of the fixed assets goods or with maximum reducing balance method. The depreciation principles are given as follows.

Depreciation plan prepared in advance has been used for determining the depreciation of the depreciable assets. The amounts of depreciation are based on estimated useful lives as follows:

intangible rights	5 and 10 years
machinery and equipment	25% reducing-balance method
other tangible assets	10 years

Valuation of Inventories:

Inventories have been entered at the amount of the acquisition cost or at a sales price if likely to be lower than the acquisition cost. Variable manufacturing expenses of goods have been included in the acquisition costs of inventories.

Receivables and Payables in Foreign Currencies:

Receivables and payables in foreign currencies have been converted into EUR using the average exchange rates of fiscal year closing date. With minor transactions, the rate of the recording date is used.

Research and Development Expenses:

The R&D expenses are entered in the year incurred for the part that is considered as yearly expense. Additionally company capitalizes R&D costs that are long term expenses. Capitalized expenses are depreciated within 5 to 10 years.

The adjustment made to retained earnings in the previous financial year related to the Swedish branch's material costs from previous financial years is included in the opening balance of Profit from previous financial years.

An adjustment has been made during the financial year to the depreciation difference on machinery and equipment, for which the company's calculations show there were no grounds. The adjustment has been recorded in retained earnings from previous financial years.

The translation difference consists of the exchange rate difference of the Swedish branch's profits from previous financial years. The branch is consolidated into Sampo-Rosenlew Oy's figures.

5. Liabilities

Short-term liabilities	**2025**	**2024**

INDEPENDENT AUDITORS' REPORT

To the Members of
Swaraj Engines Limited

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Swaraj Engines Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements for the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report:

Key Audit Matter on Related Party Transactions	
Key Audit Matter	As a part of the business activity, the Company deals with entities which are related parties and significant revenue sources are from related parties only. The arm's length pricing of the transactions with Related Parties, risks of material misstatement associated with related party relationships and transactions may have a significant impact on the interest of the Company, and true and fair presentation of related party relationships and transactions in the financial statements of the Company.
Principal Audit Procedures	We performed the following audit procedures relating to related party relationships and transactions. We inquired of management regarding: • The identity of the Company's related parties, including changes from the prior period; • The nature of the relationships between the Company and related parties; and the type and purpose of the transactions with related parties; • Identify, account for, and disclose related party relationships and transactions in accordance with the applicable financial reporting framework; • Confirmations obtained from related parties for an outstanding balances as part of our audit procedures; • Performed appropriate substantive audit procedures relating to identified related parties and related party transactions; • Evaluate the terms of the related party transactions that these are consistent with management's explanations; • Ensured that all Related Party Transactions are placed before the Audit Committee for approval. Prior omnibus approval of the Audit Committee is obtained for the transactions which are repetitive in nature; and • Inquired that the Company has adopted a Related Party Transactions Policy approved by the Board and transactions are as per the policy.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report, and the related annexures but does not include the financial statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.

(d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.

(f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

(g) In our opinion, the managerial remuneration for the year ended March 31, 2025 has been paid/provided by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Act.

(h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

(i) The Company has disclosed the impact of pending litigations as at 31 March 2025 on its financial position in its Financial Statements – Refer Note 2.31 to the Financial Statements;

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and

(iii) There was no delay in transferring the amounts to the Investor Education and Protection Fund by the Company;

(iv) (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement; and

(v) The final dividend proposed in the previous year, declared, and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.

The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with Section 123 of the Act, as applicable.

(vi) Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Swaraj Engines Limited** ("the Company") as of March 31, 2025 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure B to the Independent Auditors' Report

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

(i) (a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant, and equipment.

(B) According to the information and explanations given to us, the Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a regular programme of physical verification of its property, plant and equipment and investment property by which the property, plant and equipment, and investment property are verified by the management according to a phased programme designed to cover all the items once in three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment and investment property. In accordance with the programme, the Company has physically verified property, plant and equipment and investment property during the year 2022-2023 and no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us, the title deeds of immovable properties are held in the name of the Company.

(d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment and investment property or intangible assets or both during the year.

(e) Based on the audit procedures performed by us and according to the information, explanations, and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(ii) (a) According to the information and explanations given to us, the inventory comprising of finished goods, raw materials, stores and spares, components, and work-in-progress has been physically verified at reasonable intervals by the management during the year. Stock-in-transit as on March 31, 2025 has been verified by the management on subsequent receipt of the goods. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification between the physical inventory and the book records. We have relied on confirmations and representations from third parties in case of inventory lying in their locations, wherever applicable.

(b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point of time during the year.

(iii) According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

(v) According to the information and explanations given to us, the Company has not accepted deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

(vi) The maintenance of cost records has been specified by the Central Government under sub-section (1) of Section 148 of the Act for the products of the Company. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended, specified by the Central Government under sub-section (1) of Section 148 of the Act and are of the opinion that prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted/accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Sales tax, Service Tax, Duty of Customs, Duty of Excise and Value Added Tax.

According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of outstanding statutory dues in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Service tax, Duty of Customs, Value Added Tax, Cess and any other material statutory dues as at March 31, 2025, which have not been deposited with the appropriate authorities on account of any dispute. According to the information and explanations given to us and records of the Company examined by us, the particulars of dues of Duty of Excise and Sales tax which have not been deposited as on March 31, 2025 on account of disputes are as under:

Name of Statute	Nature of Dues	Forum where dispute is pending	Period to which the Amount relates	Amount unpaid (Rs. in Lakhs)
The Central Excise Act, 1944	Excise Duty	Appellate Authority - Tribunal Level	Financial Year 2004-2005 and 2005-2006	84.62
		Appellate Authority - Tribunal Level	Financial Year 2015-2016 to 2017-2018	101.03
The Punjab Value Added Tax Act, 2005	Sales Tax	Excise & Taxation Officer (Mohali) Punjab	Assessment Year 2013-2014	30.77

(viii) According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

(ix) (a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not obtained any loans or other borrowings. Accordingly, the reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution, or any other lender till the date of our audit report.

(c) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not obtained term loan during the year. Accordingly, the reporting under Clause 3(ix)(c) of the Order is not applicable to the Company.

(d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, we report that no short-term loan is obtained by the Company during the year. Accordingly, the reporting under Clause 3(ix)(d) of the Order is not applicable to the Company.

(e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, we report that the Company has no subsidiaries, associates or joint ventures. Accordingly, the reporting under Clause 3(ix)(e) of the Order is not applicable to the Company.

(f) According to the information and explanations given to us and based on the audit procedures performed by us, we report that the Company has no subsidiaries, associates or joint ventures. Accordingly, the reporting under Clause 3(ix)(f) of the Order is not applicable to the Company.

(x) (a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under Clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.

(b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

(c) As represented to us by the management, no whistle-blower complaints were received by the Company during the year.

(xii) According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

(xiii) In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the Financial Statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

(xiv) (a) In our opinion and according to the information and explanations given to us and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the Internal Audit reports of the Company issued till date for the period under audit.

(xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

(xvi) (a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi)(c) and 3(xvi)(d) of the Order is not applicable to the Company.

(d) Based on the information and explanations given to us, we report that the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) has four Core Investment Companies.

(xvii) In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) According to the information and explanations given to us, in respect of other than ongoing projects, the Company has no unspent amount that needs to be transferred to a Fund specified in Schedule VII to the Act in compliance with second proviso to sub-section (5) of Section 135 of the Act.

(b) According to the information and explanations given to us, in respect of ongoing projects, the Company has no unspent amount which needs to be transferred to a special account in compliance with sub-section (6) of Section 135 of the Act.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

1. COMPANY'S OVERVIEW AND MATERIAL ACCOUNTING POLICIES

1.1 Company's Overview

Swaraj Engines Limited (SEL) is a public limited company incorporated and domiciled in India. SEL has its works / principal place of business at Plot No. 2, Phase-IX, Industrial Area, S.A.S. Nagar (Mohali), Punjab, India and registered office at Phase-IV, Industrial Area, S.A.S. Nagar (Mohali), Punjab, India.

SEL is in the business of manufacturing diesel engines and hi-tech engine components. Diesel Engines are specifically designed for tractor application.

The Shares of the Company are listed on both BSE Limited and National Stock Exchange of India Limited.

1.2 Basis of Preparation and Presentation

These financial statements are prepared in accordance with Indian Accounting Standards ('Ind AS') under the historical cost convention on the accrual basis except for certain financial instruments, which are measured at fair values. The financial statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013 as amended.

The financial statements are approved by the Company's Board of Directors and authorised for issue on 16th April, 2025.

1.3 Current and Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

i) expected to be realised or intended to be sold or consumed in normal operating cycle,

ii) held primarily for the purpose of trading,

iii) expected to be realised within twelve months after the reporting period,

iv) cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period, or

v) carrying current portion of non-current financial assets.

All other assets are classified as non-current.

A liability is current when:

i) it is expected to be settled in normal operating cycle,

ii) it is held primarily for the purpose of trading,

iii) it is due to be settled within twelve months after the reporting period,

iv) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period, or

v) it includes current portion of non-current financial liabilities.

All other liabilities are classified as non-current

1.4 Property, Plant and Equipment

i) Property, plant and equipment are stated at cost of construction or acquisition, less accumulated depreciation and impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

ii) When an asset is scrapped, or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit (including capital profit) or loss, if any, is reflected in Profit and Loss Account.

iii) Depreciation on Tangible Assets (except Land) is provided on Straight Line Method, pro-rata monthly rests, as per the life prescribed in Schedule II of the Companies Act, 2013 except for fixed assets mentioned in para (iv) below, based on the Company's expected usage Pattern supported by technical assessment

Nature of Assets	Life adopted in Accounts
a. Patterns, Blocks and Dies	4 Years
b. Vehicles	4 Years

iv) The assets' residual value, useful lives and methods of depreciation are reviewed at each financial year end, and adjustment if any, is made prospectively.

1.5 Investment Properties

Investment Properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured at cost and the same is derecognised upon disposal or when it is permanently withdrawn from use with no future economic benefits are expected from the disposal.

Depreciation is provided on Straight Line Method, pro-rata monthly rests, as per the life prescribed for Building in Schedule II of the Companies Act, 2013.

1.6 Inventories

Inventories are valued at cost or net realisable value, whichever is lower. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads and is ascertained on weighted

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

average basis, net of recoverable taxes incurred in bringing them to their respective present location and condition. Cost of raw materials and stores and spares are determined on weighted average basis.

1.7 Foreign Currency Transactions

Foreign currency transactions are recorded at the rates of exchange prevailing on the date of transaction. Monetary foreign currency assets and liabilities outstanding at the close of the financial year are revalued at the exchange rates prevailing on the balance sheet date. Exchange differences arising on account of fluctuation in the rate of exchange is recognised in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

1.8 Employee Benefit

Company's contributions paid/payable during the year to Employee's State Insurance Corporation and Labour Welfare Fund are recognised in the Statement of Profit and Loss.

Company contributes to the appropriate authorities its share of the Members Provident Fund Account as per the Employees' Provident Fund Act, 1952.

Company contributes to a trust, which has taken Master Policy with the Life Insurance Corporation of India to cover its liability towards employees' gratuity. Provisions in respect of liabilities of gratuity and leave encashment are made based on actuarial valuation made by an independent actuary as at the balance sheet date. Gains and Losses through re-measurements of the net defined benefit liability are recognised in other comprehensive income. The actual return of the plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognised in other comprehensive income.

In respect of Employee Stock Option Scheme:

The compensation cost of stock options granted to employees is measured by the Fair Value Method. The fair value, determined at the grant date of the underlying equity shares, is recognised and amortised on straight line basis over the vesting period.

1.9 Revenue Recognition

The Company's revenue recognition policy is aligned to the principles enunciated in Ind AS 115. The company recognises revenue from contracts with customers when it satisfies a performance obligation by transferring a promised good or service to a customer. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price allocated to the performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract, if any.

Transaction price is the amount of a consideration to which the Company expects to be entitled in exchange for transferring good or service to a customer. Payment terms agreed with a customer are as per business practice and there is no financing component involved in the transaction price.

Sale of goods

Revenue from sale of goods is recognised when the control of the same is transferred to the customer and it is probable that the Company will collect the consideration to which it is entitled in exchange of goods.

Rendering of services

Revenue from rendering services is recognised when performance obligation is satisfied and customer obtains the control of the transferred services. Following criteria is required to be met for transfer of control of services:

i) the customer simultaneously receives and consumes the benefits from the services transferred.

ii) the Company has an enforceable right to payment for services transferred.

Other Operational Revenue

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

Other Income

Dividend income from investments is recognised when the right to receive payment has been established.

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the deposits and at the interest rate settled with the Banks/ Financial Institutions.

1.10 Intangible Assets

Intangible assets are carried at cost and amortised on Straight line method, so as to reflect the pattern in which the assets economic benefits are consumed.

Intangible Asset under Development

The expenses incurred on development phase are initially recognised as Intangible assets under development until the development phase is complete, upon which the amount is capitalised as intangible asset.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Other Intangible Assets

i) Development expenditure:

Development expenditure incurred on technical services and other project/product related expenses are amortised over the estimated period of benefit, not exceeding five years. Amortisation commences as and when the asset is available for use.

ii) Software Expenditure:

The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

1.11 Taxes on Income

Current tax is determined as the amount of tax payable in respect of the taxable income for the year.

Deferred tax is recognised on temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

1.12 Financial Instruments

Financial Assets

Initial recognition and measurement

All financial assets and liabilities are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition.

Subsequent measurement

Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. For financial assets maturing within one year from the balance sheet date, the carrying amounts are approximate to fair value due to the short maturity of these instruments. Trade receivables that do not contain a significant financing component are measured at transaction price.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised at fair value.

Subsequent measurement

Financial liabilities are carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

1.13 Impairment of Assets

The carrying value of assets at each balance sheet date are reviewed for Impairment. If any indication exists, the recoverable amount of such assets is estimated and impairment is recognised if the carrying amount of these assets exceeds their recoverable amount.

1.14 Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

In respect of warranty on sale of engines, the estimated cost of warranty is accrued at the time of sale. The estimate for accounting of warranty is periodically reviewed and revisions are made as and when required.

1.15 Use of estimates and judgments

The preparation of the Company's financial statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Depreciation / amortisation and useful lives of property plant and equipment/ intangible assets:

Property, plant and equipment / intangible assets are depreciated / amortised over their estimated useful lives, after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates.

Fair value measurement of financial instruments

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Provision for product warranty

The Company recognises provision for product warranties in respect of its products that it sells. Provisions are discounted, where necessary to its present value based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjust to reflect the current best estimates.

1.16 Earnings per share

Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the year.

1.17 Cash and cash equivalents

Cash and cash equivalents includes cash in hand and deposits with any qualifying financial institution repayable on demand or maturing within three months from the date of acquisition and which are subject to an insignificant risk of change in value.

1.18 Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate which is generally based on the interest rate specific to the lease being evaluated or if that cannot be easily determined the incremental borrowing rate for similar term is used.

The Company recognises the lease payments associated with these leases as per expense on a straight-line basis over the lease term.

The Company as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payment made at or before the commencement date, plus any initial direct costs incurred and restoration cost, less any lease incentives received.

The right-of-use assets are subsequently depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. In addition, the right-of-use asset is reduced by impairment losses, if any.

The lease liability is initially measured at amortised cost at the present value of the future lease payments.

1.19 Accounting Policies not specifically referred above are consistent with generally accepted Accounting practices.

(iv) Employee Stock Option

Under the Employee Stock Option Scheme - 2015 (ESOS-2015), 31,000 Equity Shares of the face value of Rs. 10/- are available for being granted to eligible employees on the recommendation of the Nomination and Remuneration Committee. Under the first cycle (Dec. 2015 - Dec. 2019), options granted were vested in four instalments on the expiry of 18 months, 30 months, 42 months and 54 months respectively. Options granted effective January 2020 & onwards are vested in 3 instalments on the expiry of 12 months, 24 months and 36 months. These options may be exercised on any day over a period of 5 years from the date of vesting. Numbers of vested options are exercisable subject to minimum of 50 or number of options vested whichever is lower.

Further to grant given till previous financial years, the Company during the current financial year has given grant of 1083 Equity Shares at face value to the eligible employees.

Financial Risk Management Framework

Company's activities expose it to financial risks viz credit risk and liquidity risk.

Credit Risk

Majority of Company's receivables pertain to Mahindra & Mahindra Limited, a holding company. Based on the overall credit worthiness of Receivables, coupled with their past track record, Company expect No / Minimum Risk with regard to its outstanding receivables. Also, there is mechanism in place to periodically track the outstanding amount and assess the same with regard to its realisation. Company expect all the debtors to be realised in full, accordingly no provision has been made in the books of account.

Credit risk on cash and cash equivalents is limited as Company generally invest in deposits with banks, high rating financial institutions & debt based Mutual Funds. Ratings are monitored periodically for re-adjustment of Portfolio, if any required. Investment as on date of financial statement are as per latest available ratings.

Liquidity Risk

(i) Liquidity Risk Management

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and by continuously monitoring forecast & actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of Financial Liabilities

The following tables specifies the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amounts disclosed in the tables have been drawn up based on the earliest date on which the Company can be required to pay. Financial Liabilities includes Trade Payables, Capital Purchases, Unpaid/Unclaimed Dividend etc. which are in the normal course of business having maturity plan of less than 1 year and lease liabilities having maturity more than 1 year.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

As at 31st March, 2025, the Company had a working capital of Rs. 23,416.11 lakhs including cash and bank balance & bank deposits of Rs. 17290.59 lakhs and investment of Rs. 1919.40 lakhs and other corporate deposits of Rs. Nil.

As at 31st March, 2024, the Company had a working capital of Rs. 24,077.14 lakhs including cash and bank balance & bank deposits of Rs. 17427.63 lakhs and investment of Rs. 2011.10 lakhs and other corporate deposits of Rs. Nil.

Accordingly, company do not perceive any liquidity risk.

(iii) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Rs. in Lakhs

Particulars	2025	2024
Secured Non-Fund based Letter of Credit facility		
- Expiring within one year	**3,900.00**	3,900.00
- Expiring beyond one year	**–**	–

2.28 Fair Value Measurement

The fair values of the Financial Assets and Liabilities are included in the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique

Level 1 - Quoted (unadjusted prices) in active markets for identical assets or liabilities.

Level 2 - Other Techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3 - Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Fair Valuation Techniques and Inputs used - recurring Items

10. Return on capital employed (%)	**53.69%**	50.61%	3.08%
(Profit before tax and finance costs) / (Capital employed = Tangible Net worth + Lease liabilities + Deferred tax liabilities)			
11. Return on Investments (%) - Quoted Investments	**6.83%**	6.77%	0.06%
(Income generated from Investments) / (Time Weighted Average Investments)			

There is no significant change (> 25%) in the above ratios over previous year.

2.37 Dividends

The Board of Directors, in their meeting held on 18th April, 2024, proposed a total dividend of Rs. 95/- per equity share and the same was approved by the shareholders at the Annual General Meeting held on 18th July, 2024, this has resulted in a cash outflow of Rs. 11539.89 lakhs during 2024-25.

The Board of Directors, in their meeting held on 16th April, 2025, proposed a total dividend of Rs. 104.50/- per equity share for the financial year ended on 31st March 2025, subject to the approval of shareholders at the Annual General Meeting and if approved, would result in a cash outflow of approximately Rs. 12694.10 lakhs.

2.38 Previous year's figures have been regrouped, wherever necessary, so as to correspond with those of the current year.

INDEPENDENT AUDITORS' REPORT

To The Board of Directors

Carnot Technologies Private Limited

Report on the Standalone Financial Statements

We have audited the accompanying Standalone Financial statements of **Carnot Technologies Private Limited,** which comprise the Balance Sheet as at March 31, 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended, and a summary of the significant accounting policies and other explanatory information **(hereinafter referred to as "the standalone financial statements").**

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the **IND AS** and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation and presentation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the standalone financial statements. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31st March 2025, its Profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Report on other Legal and Regulation requirements

1. As required by the companies (Auditor's Report) Order, 2016, as amended, issued by the Central Government of India in term of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in the paragraph 3 and 4 of the Order.
2. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
3. The Balance sheet, the Statement of Profit and Loss, and the Cash Flow Statement deal with by this report are in agreement with the books of account.
4. In our opinion, the aforesaid IND AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.
5. On the basis of the written representations received from the directors as on March 31, 2025, taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2025, from being appointed as a director in terms of Section 164(2) of the Act.
6. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
7. With respect to the other matters to be included in the Auditor's Reporting accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
   I. The Company does not have pending litigation which would not impact its financial position.
   II. The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
   III. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company
8. The reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is applicable from 1st April 2023. The Company has used Tally prime accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility and company has enabled the feature and the same has been operated throughout the year for all relevant transactions recorded in the respective software.

"ANNEXURE A" TO THE INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CARNOT TECHNOLOGIES PVT LTD ON THE ACCOUNTS OF THE COMPANY FOR THE YEAR ENDED 31ST MARCH, 2025.

(i) a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property Plant and equipment;

b) Company is maintaining proper records showing full particulars of intangible assets.

c) The Property plant and equipment have been physically verified by the management at regular intervals; as informed to us and no material discrepancies between the books records and the physical Property plant and equipment have been noticed.

d) There are no immovable properties in the name of the company during the year under report.

e) Company has not revalued its property, plant and equipment and intangible assets during the year.

f) No proceedings have been initiated or are pending against the company for holding any Benami property under the Benami Transactions (Prohibitions) Act, 1988.

(ii) a) During the year, the Inventories have been physically verified by the management. In our opinion, the frequency of verification is reasonable. Also, there are no discrepancies of 10% or more in the aggregate of each class of inventory.

b) The Company has not been sanctioned working capital limits in excess of₹ 5 crores, in aggregate, at any points of time during the year, from banks or financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.

(iii) The Company has not made any investments in, granted any loans, secured or unsecured guarantees to companies, firms, Limited Liability partnerships or other parties covered in the Register maintained under section 189 of the Act. Accordingly, the provisions of clause 3 (iii) (a) to (f) of the Order are not applicable.

(iv) In our opinion and according to the information and explanations given to us, the company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 in respect of loans, investments, guarantees, and security.

(v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.

(vi) As informed to us, the maintenance of Cost Records has not been specified by the Central Government under sub-section (1) of Section 148 of the Act, in respect of the activities carried on by the company.

(vii) a) According to the information and explanations given to us and on the basis of our examination of the records of the company, the Company has been generally **regular subject to certain delay** in depositing undisputed statutory dues, including Income-Tax, Service Tax, Goods & Service Tax, Cess and other material statutory dues, as applicable, with the appropriate authorities.

b) According to the information and explanations given to us and on the basis of our examination of the records of the company, there is no statutory dues of Income-Tax, Service Tax, Goods & Service Tax and Cess which have not been deposited on account of any dispute.

(viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

(ix) a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause 3(ix)(a) of the Order is not applicable.

b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.

d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.

f) The Company has not raised any loans during the year and hence reporting on clause 3(ix)(f) of the Order is not applicable.

(x) a) According to the information and explanations given to us, the company has not raised moneys by way of initial public offer or further public offer including debt instruments and term Loans.

b) During the year, the Company has not made any preferential allotment of preference shares.

(xi) a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.

c) We have taken into consideration and noted that there were no whistle blower complaints received by the Company during the year (and up to the date of this report), while determining the nature, timing and extent of our audit procedures.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

(xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

(xiv) In our opinion and based on our examination, the company does not have an internal audit system commensurate with the size and nature of its business and is not required to have an internal audit system as per the provisions of section 138 of the Companies Act, 2013 hence provisions of clause 3 (xiv) (a) and (xiv) (b) are not applicable.

(xv) In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

(xvi) a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.

b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.

(xvii) The Company has not incurred cash losses in the current financial year however cash losses of INR 9,44,30,285 was incurred in the immediately preceding financial year.

(xviii) There has been no resignation of statutory auditor during the year. The provisions of this clause are hence not applicable.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) The provisions of CSR are not applicable to the company. Hence provisions of clause 3 (XX) (a) and (b) are not applicable.

(xxi) The provisions of consolidated financials and consolidated CARO report are not applicable to the company and hence the aforementioned clause is not applicable.

"ANNEXURE B" TO INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls over financial reporting of **Carnot technologies Private Limited** as at the year 31st March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over Financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future years are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31-March-2025, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

MATERIAL ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED MARCH 31ST 2025

1 OVERVIEW

1.1 Company overview

CARNOT Technologies Private Limited was incorporated in India as private limited company under the Companies Act , 2013 on 24th August, 2015. The company is engaged in the business of the following:

I. Service Sector- Technology enabled applications in different fields including automobiles products both in India & Overseas.

II. Trading Sector- Retail in information technology products and applications

1.2 Basis of Preparation of financial statement

These financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 (the “Act”) and other relevant provisions of the Act.

The financial statements up to and for the year ended March 31, 2017 were prepared in accordance with accounting standards notified under Companies (Accounting Standards) Rules, 2006, as amended and the relevant provisions of the Act (Previous GAAP).

These are the first Ind AS financial statements of the Company prepared in accordance with Ind AS. Ind AS 101, First-time Adoption of Indian Accounting Standards has been applied for the purpose of transition to Ind AS from previous GAAP.

These financial statements have been prepared on a historical cost and accrual basis.

All assets and liabilities have been classified as current or non-current as per the Company’s operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current non- current classification of assets and liabilities.

1.3 Use of Estimates

The preparation of the financial statements in conformity with IndAS requires the management to make estimates, judgments and assumptions. The estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in the financial statements have been disclosed in Note no.1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.4 Material accounting policies

a. Property plant and equipment (including Capital Work-in-Progress)

All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost are stated at cost of acquisition inclusive of all attributable cost of bringing the assets to their working condition, accumulated depreciation and accumulated impairment losses, if any.

Subsequent expenditure related to an item of property plant and equipment are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

The Company provides depreciation on all assets on written down value basis over its useful life of asset which is in line with Schedule II of Companies Act,2013.

Gains or losses arising from the retirement or disposal of property plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the property plant and equipment and recognised as income or expense in the Statement of Profit and Loss.

Assets not yet ready for use are recognised as capital work in progress.

On transition to Ind AS, the company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

b. Intangible Assets

Intangible assets are accounted at actual cost incurred less accumulated amortisation and impairment, if any.

Intangible assets i.e. software are amortised on a straight line basis over their estimated useful life of approximately five years, so as to effectively depreciate the assets over the specified useful life.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

On transition to Ind AS, the company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible assets

c. Impairment of non-financial assets

The carrying amount of the non-financial assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal /external factors. An impairment loss is recognised whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. The recoverable amount of the assets (or where applicable, that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. Impairment loss is recognised in the statement of profit and loss.

After impairment, depreciation / amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation / amortisation if there were no impairment.

d. Investments and financial assets

Classification

The company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity’s business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The company reclassifies debt investments when and only when its business model for managing those assets changes.

e. Inventories

The stock of raw materials and components, goods in process, finished goods and stores, spares, property under development etc. are stated at lower of cost or net realisable value (NRV).

In determining the cost of the raw materials and components FIFO method is used. Cost of goods in process and manufactured finished products includes the cost of materials, labour and other manufacturing overhead. Average cost method is used to determine cost of work in progress and finished goods.

Obsolete slow moving and defective inventories are identified at the time of physical verification of inventories and where necessary, provision is made for such inventories.(a) Traded goods, raw materials and packing materials: At cost or net realisable value, whichever is lower. (b)Process stock: At cost or estimated realisable value, whichever is lower. (c) Finished goods: At cost or net realisable value, whichever is lower and are inclusive of input tax credit thereon.

f. Revenue Recognition

Revenue is recognised based on fair value of consideration receive or receivable and to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Turnover, which represents invoiced value of goods sold is recognized net of goods and service tax, trade and volume discounts or rebates, etc. The following specific recognition criteria must also be met before revenue is recognised:

Supply contracts - Sale of products

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped. Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period. Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognised when it becomes unconditional. An amount of consideration can vary because of discounts, rebates, incentives etc. which are explicitly stated in the contract or are as per customary business practices.

Contract Balances

- Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional.

- Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration or is due from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Interest Income

Interest Income is accounted on accrual basis.

Dividend Income

Dividend is recognized when the right to receive the payment is established.

g. Employee Benefits

i. Short term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the services. These benefits include compensated absences such as paid annual leave, bonuses and performance incentives.

ii. Long term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation determined actuarially by using Projected Unit Credit Method at the Balance Sheet date.

iii. Post-employment benefit plan

The Company pays gratuity to the employees who have completed five years of service with the Company at the time of resignation/ superannuation. Company's liability towards gratuity are determined by independent actuaries, using project unit credit method. Past services are recognised at the earlier of the plan amendment/curtailment and the recognition of related restructuring costs/termination benefits.

Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

The Company's contribution to the Provident Fund is remitted to provident fund authorities and are based on a fixed percentage of the eligible employee's salary and debited to Statement of Profit and Loss.

h. Leases

The Company as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and restoration cost, less any lease incentives received.

The right-of-use assets are subsequently depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. In addition, the right-of-use asset is reduced by impairment losses, if any.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. When a lease liability is remeasured, the corresponding adjustment of the lease liability is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

i. Current and Deferred Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

j. Foreign Currency Transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of such transactions. Monetary assets and liabilities as at the Balance Sheet date are translated at the rates of exchange prevailing at the date of the Balance Sheet. Gains and losses arising on account of differences in foreign exchange rates on settlement/ translation of monetary assets and liabilities are recognised in the Statement of Profit and Loss. Non-monetary foreign currency items are carried at cost.

k. Provisions and Contingent Liabilities

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

l. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss (excluding other comprehensive income) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a right issue, shares split and reserve share splits (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss (excluding other comprehensive income) for the year attributable to equity share holders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

m. Cash flow statement

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

n. Critical estimates and judgements

The preparation of Financial Statements in conformity with Ind AS which requires management to make estimates, assumptions and exercise judgement in applying the accounting policies that affect the reported amount of assets, liabilities and disclosure of contingent liabilities at the date of financial statements and the reported amounts of income and expenses during the year.

The Management believes that these estimates are prudent and reasonable and are based upon the Management's best knowledge of current events and actions. Actual results could differ from these estimates and differences between actual results and estimates are recognised in the periods in which the results are known or materialised.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

b). Terms/rights attached to equity shares/Preference Shares

1) The Company has only one class of equity shares having a par value of Rs 10 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian Rupees. The dividend, if proposed by the Board of Directors, is subject to the approval of the shareholders in the ensuing Annual General Meeting, except interim dividend.

   In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts, if any. The distribution will be in proportion to the number of equity shares held by the shareholders.

2) 4,480 Compulsory Convertible Participating Preference shares having par value of Rs 100/- each issued at a premium of Rs. 6,581.51/- each in FY 2016-2017 & 6,663 Compulsory Convertible Participating Preference shares having par value of Rs 100/- each issued at a premium of Rs. 8131.81- each during the financial year 2017-2018.

   Each Seed CCCPS may be converted into Equity Shares at any time at the option of the holder of that Seed CCCPS. Subject to compliance with applicable Laws, each Seed CCCPS shall automatically be converted into Equity Shares upon the earlier of (i) one day prior to the expiry of 20 years from the First Closing Date; or (ii) in connection with a IPO (or any subsequent IPO), prior to the filing of a prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable Laws.

3) 2,298 Compulsory Convertible Participating Preference shares having par value of Rs 100/- each issued at a premium of Rs. 12,954.42/- IN FY 2020-21.

   Each Seed CCCPS may be converted into Equity Shares at any time at the option of the holder of that Seed CCCPS. Subject to compliance with applicable Laws, each Seed CCCPS shall automatically be converted into Equity Shares upon the earlier of (i) one day prior to the expiry of 20 years from the First Closing Date; or (ii) in connection with a IPO (or any subsequent IPO), prior to the filing of a prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable Laws.

4) 1613 Compulsory Convertible Participating Preference shares having par value of Rs 100/- each issued at a premium of Rs. 15,391.65/- IN FY 2021-22.

   Each Seed CCCPS may be converted into Equity Shares at any time at the option of the holder of that Seed CCCPS. Subject to compliance with applicable Laws, each Seed CCCPS shall automatically be converted into Equity Shares upon the earlier of (i) one day prior to the expiry of 20 years from the First Closing Date; or (ii) in connection with a IPO (or any subsequent IPO), prior to the filing of a prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable Laws.

Actuarial Assumptions and Sensitivity

Figures in INR Lakhs

Particulars	31st March 2025	31st March 2024
Discount Rate	6.95% p.a	7.20% p.a
Salary Growth Rate	7.00% p.a	7.00% p.a
	Age 25 & Below : 10 % p.a	Age 25 & Below : 10 % p.a
	25 to 35 : 8 % p.a.	25 to 35 : 8 % p.a.
Withdrawal Rates	35 to 45 : 6 % p.a.	35 to 45 : 6 % p.a.
	45 to 55 : 4 % p.a.	45 to 55 : 4 % p.a.
	55 & above : 2 % p.a.	55 & above : 2 % p.a.

Quantitative sensitivity analysis for impact of significant assumptions on defined benefit obligation are as below:	31st March 2025	31st March 2024
Increase by 0.5% in Discount Rate	**45.77**	45.77
Decrease by 0.5% in Discount Rate	**50.31**	50.31
Increase by 0.5% in Salary Growth Rate	**48.97**	48.97
Decrease by 0.5% in Salary Growth Rate	**46.88**	46.88
Increase by 10% in Withdrawal Rates	**49.05**	49.05
Decrease by 10% in Withdrawal Rates	**46.70**	46.70

Sensitivity analysis is performed by varying a single parameter while keeping all the other parameters unchanged. Sensitivity analysis fails to focus on the interrelationship between underlying parameters. Hence, the results may vary if two or more variables are changed simultaneously. The method used does not indicate anything about the likelihood of change in any parameter and the extent of the change if any

Effect of the plan on the entity's future cash flows

The Company do not have any funding arrangement. They settle the Gratuity on Pay-N-Go basis.

The Gratuity Benefits Scheme is manged on unfunded basis so Expected Contribution is shown as Nil.

34 Capital Management

The Company's capital management strategy is to effectively determine, raise and deploy capital so as to create value for its shareholders. The same is done through a mix of either equity and/or preference and/or convertible and/or combination of short term/long term debt as may be appropriate.

The Company determines the amount of capital required on the basis of its product, capital expenditure, operations and strategic investment plans. The same is funded through a combination of capital sources be it either equity and/or preference and/or convertible and/or combination of short term/long term debt as may be appropriate. No change were made in the objective, policies or process during the financial year ended 31st March 2025 and 31st March 2024.

The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio of the Company. The company does not have gearing as it does not have any borrowings for the reporting period.

Net Debt and Equity is given in the table below :

Particular	31st March 2025	31st March 2024
Loans and borrowings	**–**	–
Less : cash and bank balances	**298.56**	199.89
Net Debts..	**–**	–
Total Equity (Equity Share Capital plus Other Equity)	**478.23**	58.63
Capital gearing ratio	**–**	–

35 Financial Risk Management

Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company is exposed to market risk, credit risk and liquidity risk. The Board of Directors of the Company oversees the management of these risks. The focus of Risk Management is to assess risks, monitor, evaluate and deploy mitigation measures to manage these risks within risk appetite.

35.1 Market Risk

Market risk is the risk that the fair value of future cash flows of financial instruments will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial Instrument affected by market risk includes loans and borrowings, deposits and derivative financial instruments.

i) Foreign Currency Risk

The Company is not exposed to foreign exchange risk through its sales and services or purchases from overseas suppliers in any foreign currency.

ii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Company's fixed rate long term borrowings carry fixed interest rate throughout the tenor of the borrowings. Hence the company is not exposed to interest rate risk.

35.2 Credit Risk

Credit risk refers to the risk of default of obligations by the counterparty resulting in a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables). To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information such as :

(i) Actual or expected significant adverse changes in business,

(ii) Actual or expected significant changes in the operating results of the counterparty,

(iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,

(iv) Significant increases in credit risk on other financial instruments of the same borrower

(v) Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements

35.3 Liquidity Risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies operating cash flows and short term borrowings in the form of buyers credit to meet its needs for funds. The Company has access to a sufficient variety of sources of funding as per requirement. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The table below provides undiscounted cash flows towards financial liabilities into relevant maturity based on the remaining period at the balance sheet to the contractual maturity date.

A For the year ended 31st March 2025

Particular	Less than 1 Year	More than 1 Year	Carrying Value
Borrowings (including current maturities)	–	–	–
Other Financial Liabilities	63.74	–	63.74
Trade Payables	35.24	2.28	37.52

B For the year ended on 31st March 2024

Particular	Less than 1 Year	More than 1 Year	Carrying Value
Borrowings (including current maturities)	–	–	–
Other Financial Liabilities	98.47	–	98.47
Trade Payables	22.47	3.06	25.52

35.4 Offsetting of balances: The Company has not offset financial assets and financial liabilities

36 Financial Instruments

A) The financial instruments are categorised into three levels based on the inputs used to arrive at fair value measurements as described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than the quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs based on unobservable market data.

B. Measurement of fair value

The Company maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of trade receivable, cash and cash equivalents, other bank balances, trade payables, deposits and other financial assets and liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
2. The fair values of fixed deposit is approximate at its carrying amount due to interest bearing feature of the instrument.
3. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

37 Segment Information

The Company operates in 2 operating segment i.e. Product and Services. The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Company. Further, inter-segment revenue is accounted for based on the transaction price agreed between segments which is primarily market based. Revenue and expenses are identified to segments on the basis of their relationship to the operating activities of the segment.

Particular	31st March 2025	31st March 2024
Revenue from Sale of Product	**776**	946
Revenue from Sale of Services	**1,531**	1,535
Total	**2,308**	2,481

38 Ratio

Ratio	Numerator	Denominator	2024-25	2023-24	% Variance	Reason for Variance
(a) Current Ratio	Current Assets	Current Liabilities	2.27	1.15	98%	Variation due to increase in trade receivables and bank balances and decrease in current liabilities in current year as compare to previous year
(b) Debt–Equity Ratio	Debt (Total Borrowings)	Total Equity	-	-	NA	NA
(c) Debt Service Coverage Ratio	Profit for the period/year + Finance cost + Depreciation	Interest on Borrowings	-	-	NA	NA

Ratio	Numerator	Denominator	2024-25	2023-24	% Variance	Reason for Variance
(d) Return on Equity Ratio	Profit for the period/year	Average Total Equity	1.53	(1.79)	-186%	Due to increase in operating expense in current year
(e) Inventory turnover ratio	Revenue from operations	Average Inventory	126.08	42.49	197%	Increase in inventory turnover ratio, due to decrease in inventory in last year from opening inventory
(f) Trade Receivables turnover ratio	Revenue from operations	Average Trade Receivable	10.53	67.04	-84%	Increase in trade receivable ratio, due to increase in trade receivable from last year
(g) Trade payables turnover ratio	Total purchases	Average Trade Payable	9.82	19.22	-49%	Due to decrease in average trade payables in current year
(h) Net capital turnover ratio	Revenue from operations	Average Working Capital = Current Assets - Current Liabilities	4.51	41.75	-89%	Due to increase in trade receivable in current assets
(i) Net profit ratio	Profit for the period/year	Revenue from operations	0.18	(0.40)	-145%	Profit due to increase in Product sales during the year
(j) Return on Capital employed	Profit Before Tax + Finance cost	Equity + Debt (Borrowings) - Cash and Cash Equivalents	232.08%	-713.89%	-133%	Due to profit in current year
(k) Return on investment	Profit Before Tax + Finance cost	Total assets	42.95%	-193.63%	-122%	Due to profit in current year

39 Previous year's figures are regrouped or rearranged wherever necessary to make them comparable with current year's presentation.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF M.I.T.R.A. AGRO EQUIPMENTS PRIVATE LIMITED

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying Financial Statements of M.I.T.R.A. Agro Equipments Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report and the related annexures but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
   (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
   (f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure B. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.
   (g) The Company has not paid/provided any remuneration to managerial personnel as defined in the Act. Accordingly, the provisions of Section 197 of the Act related to the managerial remuneration are not applicable to the Company.
   (h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
      (i) The Company does not have any pending litigations which will impact its financial positions;

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

(iv) (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clauses (a) and (b) contain any material misstatement; and

(v) The Company has not declared/paid/declared and paid any dividend during the year.

(vi) Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' section of our report of even date]

1. (a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

   (B) According to the information and explanations given to us, the Company has maintained proper records showing full particulars of intangible assets.

   (b) The Company has a regular programme for physical verification of its property, plant and equipment by which the property, plant and equipment are verified by the management according to a phased programme designed to cover all the items once in three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment. In accordance with the programme, the Company has physically verified property, plant and equipment during the financial year 2022-2023 and hence, not carried out physical verification in the current year.

   (c) According to the information and explanations given to us, the Company has no immoveable properties. Accordingly, the reporting under Clause 3(i)(c) of the Order is not applicable to the Company.

   (d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

   (e) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

2. (a) According to the information and explanations given to us, the inventory comprising of raw materials, work-in-progress, finished goods, stores and spares and stock-in-trade has been physically verified at reasonable intervals by the management during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification between the physical inventory and the book records.

   (b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point of time during the year.

3. According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

4. According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

5. According to the information and explanations given to us, the Company has not accepted deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

6. The Central Government has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

7. (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

   According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of undisputed statutory dues in respect of Goods and Services Tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.

   (b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and any other material statutory dues as at March 31, 2025, which have not been deposited with the appropriate authorities on account of any dispute.

8. According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

9. (a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any loans or other borrowings during the year. Accordingly, the reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.

   (b) According to the information and explanations given to us, the Company has not been declared a wilful defaulter by any bank or financial institution or any other lender till the date of our audit report.

   (c) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any term loans during the year. Accordingly, the reporting under Clause 3(ix)(c) of the Order is not applicable to the Company.

   (d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have not been utilised for long-term purposes as at the Balance Sheet date.

   (e) The Company does not have any subsidiaries, joint ventures or associates. Accordingly, the reporting under Clauses 3(ix)(e) and 3(ix)(f) of the Order is not applicable to the Company.

10. (a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

   (b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under Clause 3(x)(b) of the Order is not applicable to the Company.

11. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.

   (b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT- 4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

   (c) As represented to us by the management, no whistleblower complaints were received by the Company during the year.

12. According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

13. In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of such related party transactions have been disclosed in the Financial Statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act, and accordingly, to this extent, the reporting under Clause 3(xiii) of the Order is not applicable to the Company.

14. In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system as per the provisions of the Act.

15. According to the information and explanations given to us, the Company has not entered into any non- cash transactions with its directors or directors of its holding company or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

16. (a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.

   (b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

   (c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi)(c) of the Order is not applicable to the Company.

(d) Based on the information and explanation given to us and the audit procedures performed by us, we report that the group has four core investment companies.

17. In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

18. There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

19. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

20. According to the information and explanations given to us, the provisions of Section 135 of the Act relating to expenditure on corporate social responsibility are not applicable to the Company for the current financial year. Accordingly, the reporting under Clauses 3(xx)(a) and 3(xx)(b) of the Order is not applicable to the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of M.I.T.R.A. Agro Equipments Private Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

1 Material accounting policies

The financial statements have been prepared in accordance with Ind AS as notified under the Companies (Indian Accounting Standards) Rules, 2015.

(a) Basis of preparation, presentation and measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

(b) Measurement of fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. In addition, for the financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included with in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(c) Use of Estimates & Judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates on assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, obligations relating to employee defined benefits etc. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known/ materialize.

(d) Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.

(e) Property Plant & Equipment

Property Plant & Equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment, if any for use.

Depreciation is provided on straight line basis for property, plant and equipments so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the Statement of Profit and Loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013.

(f) Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses, if any. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Software Expenditure:

The expenditure incurred is amortized over five financial years equally commencing from the year in which the expenditure is incurred.

Internally-generated intangible assets – Development expenditure:

Expenditure on research activities is recognized as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognized if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognized for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally generated intangible asset can be recognized, development expenditure is recognized in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

(g) Derecognition of Intangible Assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

Impairment

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment based on internal/external factors. Impairment loss is provided to the extent the carrying amount of assets exceeds their recoverable amount. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

(h) Inventories

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

Raw Material and bought out components are valued at the lower of cost and net realizable value after providing for obsolescence and other losses, where considered necessary. In determining the cost of purchased materials, First-in-first-out is used.

Cost of manufactured finished goods and work-in-progress are valued on absorption costing basis and includes appropriate proportion of overheads.

Obsolete and slow moving items are valued at cost or estimated net realisable value, whichever is lower.

(i) Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition).

(j) Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made are classified as current investments. All other investments are classified as non-current investments.

(k) Financial Instruments

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

(l) Financial Assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place. All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

Financial assets at Fair value through profit or loss are measured at fair value at the end of each reporting period, with any gains or losses arising on re measurement recognized in profit or loss, The net gain or loss recognized in profit or loss incorporates any dividend or interest earned on the financial asset and is included in Other Income.

(m) Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(n) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for rebates and other similar allowances.

Sale of goods

Revenue from the sale of goods is recognized when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

a) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;

b) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;

c) The amount of revenue can be measured reliably;

d) It is probable that the economic benefits associated with the transaction will flow to the company; and

e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

Sale of services are recognised on rendering of such services.

(o) Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

(p) GST

Goods & Service Tax payable on finished goods is accounted for upon transfer of goods to the customers. GST recovered is excluded from the sale of products and services. Purchases and Expenses are accounted net of GST when GST is recoverable.

(q) Custom Duty

Custom duty payable on imported goods is accounted for when the goods enter the Indian shores.

(r) Foreign exchange transactions

Transactions in foreign currencies (Other than company's functional currency) are recorded at the exchange rates prevailing on the date of transaction. Monetary items are translated at the year-end rates. The exchange difference between the rate prevailing on the date of transaction and on the date of settlement as also on translation of Monetary items at the end of the year, is recognized as income or expense, as the case maybe.

(s) Employee Benefits

Provident Fund, ESIC and Labour Welfare Fund

The Group's contribution paid / payable during the year to Superannuation Fund, ESIC and Labour Welfare Fund are recognised in profit or loss.

Other Benefits

The undiscounted amount of short-term employee benefit expected to be paid in exchange for the services rendered by employees is recognized during the period when the employee renders the service.

Gratuity

Company's liability towards gratuity are determined by independent actuaries, using the projected unit credit method.

Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Employee Stock Option

The Company accounts for compensation expense under the Employee Stock Option Plan as per the Indian Accounting Standards and as permitted by the Guidance Note on "Accounting for Employee Share-based Payments" issued by The Institute of Chartered Accountants of India. The difference between the fair value and the exercise price of option as at the date of the grant is treated as compensation expenses and charged over the vesting period.

(t) Taxes on Income

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Financial statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

(u) Warranty

Provision for warranty represents present value of management's best estimate of the future outflow of economic benefits that will be required in respect of sale of certain products, the estimated cost of which is accrued at the time of sale. Management estimates the related provision for future warranty claims based on historical warranty claim information and is adjusted regularly to reflect new information.

(v) Segment Reporting

The Company's business activity falls within a primary business segment namely manufacturing of different kinds of agricultural machines and related components.

(w) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

(x) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Company as lessee

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

Note No. 23 - Capital Management

The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate Return to shareholders by pricing products commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

	3,29,543	2,93,574

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

Note No. 24 - Financial Risk Management Framework

In the course of its business, the Company is exposed to a certain financial risks namely interest risk, currency risk & liquidity risk. The Company's primary focus is to achieve better predictability of financial markets and seek to minimize potential adverse effects on its financial performance.

(a) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates etc. could affect the Company's income or the value of its holdings of financial instruments including cash flow. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximising the return.

(b) Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follow

Particulars	Currency	As at 31st March 2025	As at 31st March 2024
Trade Payable	USD	**0.89**	12
	INR	**76**	992
	EUR	**169**	123
	INR	**15,643**	11,374

the above foreign currency exposures are not hedged by a derivative.

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in foreign currency fluctuation in exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities is as under.

Rs. In thousands

Particulars	Currency	Change in Rate	Effect on profit/(loss) before tax
As at March 31, 2025	EUR	**0.37%**	58
	USD	**2%**	1
As at March 31, 2024	EUR	**0%**	363
	USD	**0%**	–

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

(c) Interest rate risk

Interest rate sensitivity

Considering the fact that the interest component is insignificant, the company do not consider the interest rate as risk at all.

(d) Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company's exposure are continuously monitored.

Rs. In thousands

Particulars	Not due	Less than 6 months past due	More than 6 months past due	Total
As at March 31, 2025				
Expected loss rate	**0%**	**0%**	**0%**	**–**
Gross carrying amount	**71,809**	**4,678**	**1,126**	**77,613**
Loss allowance provision	**–**	**(3,220)**	**–**	**(3220)**
As at March 31, 2024				
Expected loss rate	0%	0%	0%	–
Gross carrying amount	26,478	45,873	93	72,445
Loss allowance provision	–	–	–	–

Compared to the size, the credit risk is insignificant and that no significant loss has arisen during these years.

(e) LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company / Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Other Financial Liabilities			
- Non Derivative Financial Liabilities	Level-3		

Note No. 25 - Employee Benefits

a) Defined Contribution Plan:

The Company makes Provident Fund contributions to defined contribution plans for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits.

b) Defined Benefit Plans:

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

c) Liability Risks

a. Asset-Liability Mismatch Risk:

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the company is successfully able to neutralize valuations wings caused by interest rate movements. Hence companies are encouraged to adopt asset-liability management.

b. Discount Rate Risk:

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practise can have a significant impact on the defined benefit liabilities.

c. Future Salary Escalation and Inflation Risk:

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

Details of defined benefit plans as per Actuarial Valuation are as below.

Report on the Audit of Ind AS Financial Statements

1. Opinion

We have audited the accompanying Ind AS financial statements of **Mahindra Solarize Private Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended and a summary of material accounting policies and other explanatory information (hereinafter referred to as 'Ind AS financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended of the state of affairs of the Company as at March 31, 2025, its profits, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing, as prescribed under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 ("the Act") and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on Ind AS financial statements.

3. Information other than the Ind AS financial statements and Auditor's report thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Annual Report but does not include the Ind AS financial statements and our auditor's report thereon. The Other information is expected to be made available to us after the date of our auditor's report.

Our opinion on the Ind AS financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

4. Responsibilities of Management and those charged with Governance for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

5. Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

i. Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

v. Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

6. Report on Other Legal and Regulatory Requirements

i) As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ii) As required by section 143 (3) of the Act, based on our audit we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the Ind AS financial statements.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The Balance Sheet, Statement of Profit and Loss including Other comprehensive income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid Ind AS financial statements comply with section 133 of the Act.

e) On the basis of written representations received from the directors as on March 31, 2025, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of section 164 (2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to Ind AS financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report.

g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the provisions of said section are not applicable to the Company for the year ended March 31, 2025;

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have any pending litigations which would have an impact on its financial position;

ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. No dividend has been declared or paid during the year by the company in compliance with section 123 of the Companies Act, 2013.

vi. Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting software for the period for which the audit trail feature was enabled and operating.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE IND AS FINANCIAL STATEMENTS OF MAHINDRA SOLARIZE PRIVATE LIMITED – STATEMENT ON THE MATTERS SPECIFIED IN PARAGRAPHS 3 AND 4 OF THE COMPANIES (AUDITOR'S REPORT) ORDER, 2020.

Referred to in paragraph [6(i)] under Report on Other Legal and Regulatory Requirements of our report of even date

According to the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

(i) (a) (A) The company is maintaining proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of Right-of-use Assets;

(B) According to the information and explanations given to us and the records of the Company examined by us, the Company does not have any Intangible assets and accordingly, reporting under this Clause is not applicable.

(b) According to information and explanations given to us, Property, Plant and Equipment of the Company are being physically verified in every two years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its fixed assets. As informed, during the year no material discrepancies to the extent reconciled with the records available in this respect were noticed on such verifications.

(c) According to information and explanations given to us, the Company does not have any immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, reporting under clause 3(i)(c) of the Order is not applicable.

(d) The company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) during the year.

(e) No proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(ii) (a) As per the information and explanations given to us, the inventory has been physically verified by the management at reasonable intervals. According to the information and explanation provided to us coverage and procedure of physical verification of inventories by the management is appropriate. As informed to us, the discrepancies noticed on verification to the extent reconciled with the records available in this respect between the physical stocks and the book records were not material and have been appropriately dealt with.

(b) The Company has been sanctioned working capital limits in excess of five crore rupees during the year, from banks on the basis of security of current assets. The quarterly statements submitted to Bank are in agreement with the books of account.

(iii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not provided any guarantee or security or granted any loans secured and unsecured, to companies, firms, limited liability partnership or any other parties during the year. Accordingly reporting under clause iii(a) (A and B) of the order are not appliable to the Company.

(b) According to the information and explanations given to us, and on the basis of our verification of records of the Company, investment made are not prejudicial to the company's interest.

(c) The Company has not granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(c), 3(iii)(d) , 3(iii)(e) and 3(iii)(f) of the Order is not applicable to the Company.

(iv) In our opinion and according to the information and explanations provided to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, with respect to unsecured loans granted and Investments made.

(v) As informed, the Company has not accepted any deposits during the year from public within the meaning of the directives issued by Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and rules framed thereunder and thus the provisions of Clause 3(v) of the Order are not applicable.

(vi) According to information and explanations given to us, the Central Government has not prescribed maintenance of cost records under sub-section (1) of Section 148 of the Act to the Company.

(vii) (a) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company is generally regular in depositing with appropriate authorities undisputed statutory dues including Employees' State Insurance, Provident Fund, Income Tax, Goods and Service Tax, Cess. There were no undisputed amounts of statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Cess which were due for more than six months from the date they become payable as at the year end.

(b) According to the records examined by us and as per the information and explanations given to us, there are no statutory dues outstanding as at March 31, 2025 which have not been deposited on account of disputes.

(viii) According to the information and explanations given to us, and on the basis of our verification of records of the Company, there are no transactions which are not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

(ix) (a) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not defaulted in repayment of dues of loans or other borrowings or in the payment of interest thereon to any lender.

(b) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not been declared wilful defaulter by any bank or financial institution or other lender.

(c) The Company has not taken any term loan during the year, except the inter-corporate deposit taken by the Company which has been applied for the specified purpose.

(d) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not utilised funds raised on short term basis for long term purposes.

(e) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligation of its subsidiary, associates or joint ventures, hence reporting under clause ix (e) of the order is not applicable to the Company.

(f) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies, hence reporting under clause ix (f) of the order is not applicable to the Company.

(x) (a) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not raised any money by way of initial public offer, further public offer (including debt instruments) during the year, hence reporting under clause (x) (a) of order is not applicable.

(b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.

(xi) (a) Based upon the audit procedure performed for the purpose of reporting the true and fair view of the Ind AS financial statements and according to the information and explanation given by the management, we report that no fraud by the company and no material fraud on the company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government during the year and upto the date of this report.

(c) According to the information and explanations given to us, and on the basis of our verification of records of the Company, there were no whistle blower complaints received by the company during the year and up to the date of this report.

(xii) In our opinion and according to the information and explanation given to us, the Company is not a nidhi Company. Accordingly, provision of clause 3 (xii) (a) to (c) of the order is not applicable.

(xiii) According to the information and explanation given to us and based on our verification of the records of the Company and on the basis of review and approvals by the Board of Directors, the transactions with the related parties are in compliance with Section 177 and 188 of the Act where applicable and the details have been disclosed in the Ind AS financial statements as required by applicable accounting standard.

(xiv) (a) According to the information and explanations given to us and based on our verification of the records of the Company, the Company is required to conduct Internal audit for the FY 2024-25. We have been informed that the Company has set up the internal audit process and it is being strengthened in accordance with the size of the Company.

(b) We have considered, the internal audit reports for the period under audit issued to the Company during the year.

(xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or person connected with them. Accordingly, paragraph 3 (xv) of the Order is not applicable.

(xvi) (a) According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not required to be registered under Section 45 IA of the Reserve Bank of India Act, 1934. Accordingly, provisions of Clause 3 (xvi) (a) and (b) of the Order are not applicable to the Company.

(b) The company has not conducted any Non- Banking Financial or Housing Finance activities and hence reporting under clause 3 (xvi)(b) is not applicable to the Company.

(c) In Our opinion and according to the information and explanation given to us, the Company is not Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under clause 3(xvi) (c) of the Order is not applicable to the Company.

(d) According to the information and explanation given to us by the management, the Group has four CIC as part of the group.

(xvii) According to the information and explanations given to us and based on our examination of the records of the Company, the company has not incurred any cash losses during the current financial year and has incurred cash loss of Rs. 3,62,90,699 in previous financial year.

(xviii) There has been no resignation of the Statutory Auditors of the Company during the year.

(xix) According to the information and explanation given to us and on the basis of financial the ratios, aging and expected dates of realisation of financial assets and payment to financial liabilities, other information accompanying the Ind AS financial statements, our knowledge of the board of directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention which causes us to believe that any material uncertainty exists as on the date of the audit report that the company is not capable of meeting its liabilities existing as at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

(xx) The Provision of Section 135 of the Companies Act, 2013 are not applicable. hence, reporting under clause (xx) (a) and (b) not applicable to the Company as on reporting date.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE IND AS FINANCIAL STATEMENTS OF MAHINDRA SOLARIZE PRIVATE LIMITED

Referred to in paragraph [6(ii)(f)] under Report on Other Legal and Regulatory Requirements of our report of even date.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls with reference to Ind AS Financial Statements of Mahindra Solarize Private Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Ind AS Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by "The Institute of Chartered Accountants of India" (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to Ind AS Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Ind AS Financial Statements was established and maintained and if such controls operated effectively in all material respects.

   Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Ind AS Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Ind AS Financial Statements included obtaining an understanding of internal financial controls with reference to Ind AS Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

   We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Ind AS Financial Statements.

Meaning of Internal Financial Controls with reference to Ind AS Financial Statements

4. A company's internal financial control with reference to Ind AS Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Ind AS Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to Ind AS Financial Statements

5. Because of the inherent limitations of internal financial controls with reference to Ind AS Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Ind AS Financial Statements to future periods are subject to the risk that the internal financial control with reference to Ind AS Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

6. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Ind AS Financial Statements and such internal financial controls with reference to Ind AS Financial Statements were operating effectively as at March 31, 2025, based on the internal control with reference to Ind AS Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to Ind AS Financial Statements issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

Company Overview and Material Accounting Policies and Information

1. Company Overview

Mahindra Solarize Private Limited (the 'company') is domiciled in India and is a subsidiary of Mahindra Sustainable Energy Private Limited. The Company has been incorporated under the provisions of the Companies Act, 2013.

The Company is engaged in the business of providing services in the areas of Engineering, Procurement and Construction of power plants in renewable energy, operations and maintenance, analytics, sale of modules and related components and sale of solar water pump. The company is also engaged in sales of engines and related components.

2. Material Accounting Policies and Information

2.1. Basis of Preparation of financial statements

The Company's financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs under sections 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules 2017. The Company has investment in Subsidiary, however in view of the provisions of para 4 of the IND AS 110- Consolidated Financial Statements and Rule 9.1.6 Companies (Accounts) Rules, 2014, Company has not prepared Consolidated Financial Statements.

The financial statements of the Company for the year ended 31 March 2025 were approved for issue in accordance with the resolution of the Board of Directors on 15 April 2025.

2.2. Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

2.3. Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss, Statement of Cash Flows and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards.

2.4. Current / Non-Current classification

An asset or liability is classified as 'current' when it satisfies any of the following criteria:

(i) it is expected to be realized or settled, or is intended for sale or consumption in, the company's normal operating cycle;

(ii) it is held primarily for the purpose of being traded;

(iii) it is expected to be realized or settled within twelve months from the reporting date; or

(iv) an asset is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for atleast twelve months from the reporting date

(v) in case of liability, the company does not have an unconditional right to defer settlement of the liability for atleast twelve months from the reporting date.

All other assets and liabilities are classified as non-current.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with Schedule III to the Act.

Operating Cycle

Based on the nature of products and services of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.5. Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of material accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying material accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its material accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment

Determination of the estimated useful lives of Property, Plant and Equipment (PPE) and the assessment as to which components of the cost may be capitalized. Useful lives of items of PPE are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations.

c) Recognition of deferred tax assets

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of other provision

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term financial instruments

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

2.6. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

2.7. Property, plant and equipment and Depreciation

Property, Plant and Equipment is recognized when it is possible that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company. Advance given towards acquisition of Property, Plant and Equipment outstanding at the reporting date are disclosed as capital advances under Non-Current Assets.

Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

Estimated useful lives as follows:

Office Equipment	3 to 5 years
Computer	3 years
Plant & Machinery	5 years

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

2.8. Intangible Assets

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition at cost comprising the purchase price and directly attributable costs to prepare the assets for its intended use.

Intangible Assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Intangible assets that have finite lives are amortised over their useful lives by the straight-line method.

2.9. Investments in Subsidiaries, Associates and Joint ventures

Investments in Subsidiaries, Associates and Joint Ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

2.10. Inventories

Construction material, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on weighted average method basis and comprise all cost of purchase, duties, taxes and all other costs incurred in bringing the inventory to their present location and condition.

2.11. Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

2.12. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in two broad categories:- i] Financial assets at fair value and ii] Financial assets at amortised cost. Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss [i.e fair value through profit or loss], or recognised in other comprehensive income [i.e. fair value through other comprehensive income]. A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Impairment of financial asset

The Company applies the expected credit loss (ECL) model for recognizing impairment loss on financial assets with respect to Trade receivable and loans, the Company measures the loss allowance at an amount equal to lifetime expected credit loss.

Financial liabilities

Initial recognition

The company initially recognises borrowings, trade payables and related financial liabilities on the date on which they are originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities are initially recognised at fair value, net of transaction costs incurred.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

2.13. Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.14. Segment reporting

The Company is having operations primarily in Solar and Engine segments. Segment revenue/income, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on a reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities"

2.15. Provisions and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events, it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not provided for and are disclosed by way of notes unless the possibility of outflow of resources embodying economic benefits is remote

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

2.16. Revenue recognition

EPC Contract

Revenue from EPC contracts, where the outcome can be estimated reliably, is recognised under the percentage of completion method by reference to the stage of completion of the contract activity, hence revenue is recognized over the period of time. Determination of revenues under the percentage of completion method necessarily involves making estimates by the management.

Any variations in contract work, claims, incentive payments are included in the transaction price if it is highly probable that a significant reversal of revenue will not occur once associated uncertainties are resolved.

Sale of Goods

An entity shall recognise revenue when (or as) the entity satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

Interest Income

Interest income is recognised in the Statement of Profit and Loss using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

2.17. Borrowing Cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

2.18. Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company divided by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company divided by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed to have been converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period.

2.19. Cash Flow statement

Cash flows are reported using the indirect method, whereby profit or loss for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

2.20. Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds.

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Actuarial gains/losses are recognized in the other comprehensive income.

2.21. Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement.

The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

2.22. Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are measured at the lower of carrying amount at designation and fair value less costs to sell.

2.23. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short-term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Note No. 28 - Employee benefits

(a) Defined Contribution Plan

The Company's contribution to Provident Fund aggregating INR 52.86 lakhs (previous year 41.92 Lakhs) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

A defined benefit plan is a post–employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of the defined benefit plan is calculated by estimating the amount of future benefit that employee has earned in exchange of their service in the current and prior periods and discounted back to the current valuation date to arrive at the present value of the defined benefit obligation. The defined benefit obligation is deducted from the fair value of plan assets, to arrive at the net asset / (liability), which need to be provided for in the books of accounts of the Company. As required by the Ind AS19, the discount rate used to arrive at the present value of the defined benefit obligations is based on the Indian government security yields prevailing as at the balance sheet date that have maturity date equivalent to the tenure of the obligation. The calculation is performed by a qualified actuary using the projected unit credit method. Remeasurements arising from defined benefit plans comprises of actuarial gains and losses on benefit obligations. The Company recognizes these items of remeasurements immediately in other comprehensive income and all the other expenses related to defined benefit plans as employee benefit expenses in their profit and loss account. When the benefits of the plan are changed, or when a plan is curtailed or settlement occurs, the portion of the changed benefit related to past service by employees, or the gain or loss on curtailment or settlement, is recognized immediately in the profit or loss account when the plan amendment or when a curtailment or settlement occurs.

<u>NATURE OF BENEFITS</u>

The Company operates a defined benefit final salary gratuity plan which is open to new entrants. The gratuity benefits payable to the employees are based on the employee's service and last drawn salary at the time of leaving. The employees

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

do not contribute towards this plan and the full cost of providing these benefits are met by the Company.

GOVERNANCE OF THE PLAN

The Company is responsible for the overall governance of the plan. Since the plan is Funded, the governance of the plan is limited to employees being paid gratuity as per the terms of the plan.

INHERENT RISKS:

The plan is of a final salary defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the Company that any adverse salary growth or demographic experience can result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature the plan is not subject to any longevity risks.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	31 March 2025	31 March 2024
Discount rate	**6.85%**	7.20%
Expected rate of salary increase	**9.00%**	9.00%

Note No. 31A - Fair Valuation techniques used to determine fair value

The Company maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date

The following methods and assumptions were used to estimate the fair values :

The Company has not disclosed the Fair values of cash and cash equivalents, trade payables and other financial assets and liabilities because their carrying amounts are reasonable approximation of fair values.

The fair values of trade receivables and current loans are calculated based on expected credit loss method and discounted cash flow using a current lending rate respectively. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including credit risk. The fair values of non-current loan are approximate at their carrying amount due to interest bearing features of these instruments.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Fair values of quoted financial instruments are derived from quoted market prices in active markets.

The fair value of investments in unlisted equity shares is determined using a combination of direct sales comparison and income approach

The fair value of the remaining financial instruments is determined using discounted cash flow analysis and/or direct sales comparison approach.

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:

Level 1 : Quoted prices / published NAV [unadjusted] in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date and financial instruments like mutual funds for which net assets value [NAV] is published by mutual fund operators at the balance sheet date.

Level 2 : Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly [that is, as prices] or indirectly [that is, derived from prices]. It includes fair value of the financial instruments that are not traded in an active market [for example, over-the-counter derivatives] is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.

Level 3 : Inputs for the asset or liability that are not based on observable market data [that is, unobservable inputs]. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Cash and Cash Equivalents, Other Financial Assets, Long Term and Short Term Borrowings, Trade Payables and Other financial liabilities are shown at amortised cost. The following table provides hierarchy of the fair value measurement of Company's asset and liabilities, grouped into Level 1 [Quoted prices in active markets], Level 2 [Significant observable inputs] and Level 3 [Significant unobservable inputs] as described below:

(₹ in Lakhs)

Financial Risk Management - Objectives and Policies

The Company is exposed to market risk, credit risk and liquidity risk. Risk management is carried out by the company under policies approved by the board of directors. This Risk management plan defines how risks associated with the Company will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by the Company. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear understanding of risk/benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks, and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage/optimize key risks. Activities are developed to provide feedback to management and other interested parties [e.g. Audit committee, Board etc.]. The results of these activities ensure that risk management plan is effective in the long term.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise of three types of risk: foreign currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits and investments. The sensitivity analysis is given relating to the position as at 31 March 2025 and 31 March 2024. The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations, provisions and on the non-financial assets and liabilities. The sensitivity of the relevant statement of profit and loss item is the effect of the assumed changes in the respective market risks. The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates. This is based on the financial assets and financial liabilities held as at 31 March 2025 and 31 March 2024.

Foreign exchange risk and sensitivity

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities. The Company regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions. There are no foreign currency receivables and payables outstanding as on 31 March 2025 and 31 March 2024.

Interest rate risk and sensitivity:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates

Commodity price risk:

The Company is exposed to the movement in price of key traded materials in domestic and international markets. The Company has entered into contracts for procurement of material. However the Company is not exposed to significant risk.

Equity price risk:

The Company has decided to fair value its equity instruments through Other Comprehensive Income and carry investment in controlled entities at cost. Therefore neither profit or loss nor equity will be affected by the equity price risk of those instruments. Accordingly, no sensitivity analysis is required.

Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities [primarily trade receivables] and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Liquidity Risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on operating cash flows and short term borrowings in the form of working capital loan to meet its needs for funds. Company does not breach any covenants on any of its borrowing facilities. The Company has access to a sufficient variety of sources of funding as per requirement.

Competition and price risk

The Company faces competition from local and foreign competitors. Nevertheless, it believes that it has competitive advantage in terms of high quality products and by continuously upgrading its expertise and range of products to meet the needs of its customers.

Note No. 32 - Capital Management

For the purpose of Company's capital management, capital includes issued capital, all other equity reserves and debts. The primary objective of the Company's capital management is to maximise shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using gearing ratio, which is net debt divided by total capital [equity plus net debt]. Net debt are noncurrent and current debts as reduced by cash and cash equivalents, other bank balances and current investments. Equity comprises all components including other comprehensive income.

(₹ in Lakhs)

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
RESURGENCE SOLARIZE URJA PRIVATE LIMITED

Report on the Audit of Ind AS Financial Statements

1. **Opinion**

We have audited the accompanying Ind AS financial statements of Resurgence Solarize Urja Private Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended and a summary of material accounting policies and other explanatory information (hereinafter referred to as 'Ind AS financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended of the state of affairs of the Company as at March 31, 2025, its loss, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

2. **Basis for Opinion**

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing, as prescribed under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 ("the Act") and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on Ind AS financial statements.

3. **Other Information (Information other than the Ind AS financial statements and Auditor's report thereon)**

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report, but does not include the Ind AS financial statements and our auditor's report thereon. These reports are expected to be made available to us after the date of our auditor's report.

Our opinion on the Ind AS financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

4. **Management's responsibility for the Ind AS financial statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

5. Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

i. Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

v. Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

6. Report on Other Legal and Regulatory Requirements

(i) As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

(ii) As required by section 143 (3) of the Act, based on our audit we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the Ind AS financial statements.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The Balance Sheet, Statement of Profit and Loss including Other comprehensive income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid Ind AS financial statements comply with the Ind AS specified under section 133 of the act read with rule 7 of Companies (Accounts) Rules 2015, as amended.

e) On the basis of written representations received from the directors as on March 31, 2025, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of section 164 (2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to Ind AS financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report.

g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the provisions of said section are not applicable to the Company for the year ended March 31, 2025;

h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have any pending litigations which would have an impact on its financial position;

ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. No dividend has been declared or paid during the year by the company in compliance with section 123 of the Companies Act, 2013.

vi. Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

ANNEXURE A TO THE INDEPENDENT AUDITOR’S REPORT

Annexure A to the Independent Auditor’s Report of even date on the Ind AS financial statements of Resurgence Solarize Urja Private Limited – Statement on the matters specified in paragraphs 3 and 4 of the Companies (Auditor’s Report) Order, 2020.

Referred to in paragraph [6(i)] under Report on Other Legal and Regulatory Requirements of our report of even date

(i) (a) (A) As per the information and explanations given to us and the records of the Company examined by us, the company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipments.

(B) According to the information and explanations given to us and the records of the Company examined by us, the Company does not have any Intangible assets and accordingly, reporting under Clause 3 (i) (a) (B) is not applicable.

(b) As per the information and explanations given to us and the records of the Company examined by us, the Property, Plant and Equipments have been physically verified by the management at regular intervals. As per the information and explanations given to us and the records of the Company examined by us, there were no material discrepancies noticed on such verification.

(c) According to information and explanations given to us, the title deeds of all the immovable properties (other than those where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the Company.

(d) According to information and explanation given to us, the company has not revalued any of its property, plant and equipment (including Right of Use assets) during the year.

(e) No proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(ii) (a) As per the information and explanations given to us, the company does not have any inventory during the year. hence, reporting under Clause 3(ii)(a) of the order is not applicable.

(b) Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. Hence, reporting under this Clause 3(ii)(b) is not applicable.

(iii) (a) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not provided loans or advances and guarantees or security to subsidiaries, joint ventures and associates, hence reporting under clause 3(iii)(a)(A and B) of the Order are not applicable to the Company.

(b) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the company has not made any investment and provided guarantees prejudicial to the company’s interest, hence reporting under clause 3(iii)(b) of the Order is not applicable to the Company.

(c) The Company has not granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(c), 3(iii)(d), 3(iii)(e) and 3(iii)(f) of the Order is not applicable to the Company.

(iv) In our opinion and according to the information and explanations provided to us, the Company has not given any loans and neither made any investments nor provided any guarantees and security as specified in Section 185 and 186 of the Companies Act, 2013 and accordingly provisions of clause (iv) of Order are not applicable.

(v) As informed, the Company has not accepted any deposits during the year from public within the meaning of the directives issued by Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and rules framed thereunder and thus the provisions of Clause 3(v) of the Order are not applicable.

(vi) According to the information and explanations given to us by the management and in our opinion, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Act, for the services provided by the Company. Accordingly, reporting under clause 3(vi) of the Order is not applicable.

(vii) a) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company is generally regular in depositing with appropriate authorities undisputed statutory dues including Income Tax, Goods and Service Tax, Cess. There were no undisputed amounts of statutory dues including Income Tax, Goods and Service Tax, Cess which were due for more than six months from the date they become payable as at the year end.

b) According to the records examined by us and as per the information and explanations given to us, there are no statutory dues outstanding as at March 31, 2025 which have not been deposited on account of disputes.

(viii) According to the information and explanations given to us, and on the basis of our verification of records of the Company, there are no transactions which are not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

(ix) a) According to the information and explanations given to us by the management and in our opinion, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.

b) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not been declared wilful defaulter by any bank or financial institution or other lender.

c) The Company has not taken any term loan, hence reporting under clause ix (c) of the order is not applicable.

d) According to the information and explanations given to us by the management and in our opinion, the Company has not raised any funds on short term basis during the year. Accordingly, reporting under clause 3(ix) (d) of the Order is not applicable.

e) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligation of its subsidiary, associates or joint ventures, hence reporting under clause ix (e) of the order is not applicable to the Company.

(f) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies, hence reporting under clause ix (f) of the order is not applicable to the Company.

(x) (a) (a) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the Company has not raised any money by way of initial public offer, further public offer (including debt instruments) during the year, hence reporting under clause (x) (a) of order is not applicable.

(b) According to the information and explanations given to us, and on the basis of our verification of records of the Company, the company has not made any preferential allotment of shares during the year and thus the provisions of this Clause are not applicable.

(xi) (a) Based on the audit procedure performed for the purpose of reporting the true and fair view of the Ind AS financial statements and according to the information and explanation given by the management, we report that no fraud by the company and no material fraud on the company has been noticed or reported during the year.

(b) No report under sub section (12) of section 143 of the Companies Act has been filed in the form of ADT-4 as prescribed under rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the central government during the year and up to the date of this audit report.

(c) According to the information and explanations given to us, and on the basis of our verification of records of the Company, there were no whistle blower complaints received by the company during the year and up to the date of this report.

(xii) In our opinion and according to the information and explanation given to us, the Company is not a nidhi Company. Accordingly, provision of clause 3 (xii) (a) to (c) of the order is not applicable.

(xiii) According to the information and explanation given to us and based on our verification of the records of the Company and on the basis of review and approvals by the Board of Directors, the transactions with the related parties are in compliance with Section 177 and 188 of the Act where applicable and the details have been disclosed in the Ind AS financial statements as required by applicable accounting standard.

(xiv) According to the information and explanations given by the management, the provisions of Section 138 of the Act relating to Internal Audit is not applicable to the Company and accordingly, reporting under clause 3(xiv)(a) and 3(xiv)(b) of the Order is not applicable for the year.

(xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or person connected with them. Accordingly, paragraph 3 (xv) of the Order is not applicable.

(xvi) (a) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company and hence reporting under clause 3 (xvi)(a) is not applicable to the Company.

(b) According to the information and explanations given by the management and in our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act,1934 and has not conducted any Non- Banking Financial or Housing Finance activities. Accordingly, reporting under clause 3 (xvi) (b) of the Order is not applicable.

(c) According to the information and explanations given by the management and in our opinion, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and hence reporting under clause 3 (xvi)(c) is not applicable to the Company.

(d) According to the information and explanation given to us by the management, the Group has four CIC as part of the group.

(xvii) According to the information and explanations given to us and based on our examination of the records of the Company, the company has incurred cash losses during the current financial year of Rs. 7,48,619/- and in the previous financial year of Rs. 3,81,568/-.

(xviii) There has been no resignation of the Statutory Auditors of the Company during the year.

(xix) According to the information and explanation given to us and on the basis of financial the ratios, aging and expected dates of realisation of financial assets and payment to financial liabilities, other information accompanying the Ind AS financial statements, our knowledge of the board of directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention which causes us to believe that any material uncertainty exists as on the date of the audit report that the company is not capable of meeting its liabilities existing as at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

(xx) The Provision of Section 135 of the Companies Act, 2013 are not applicable. hence, reporting under clause (xx) (a) and (b) not applicable to the Company as on reporting date.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Annexure B to the Independent Auditor's Report of even date on the Ind AS financial statements of Resurgence Solarize Urja Private Limited

Referred to in paragraph [6(ii)(f)] under Report on Other Legal and Regulatory Requirements of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls with reference to Ind AS Financial Statements of Resurgence Solarize Urja Private Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Ind AS Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by "The Institute of Chartered Accountants of India" (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to Ind AS Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Ind AS Financial Statements was established and maintained and if such controls operated effectively in all material respects.

   Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Ind AS Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Ind AS Financial Statements included obtaining an understanding of internal financial controls with reference to Ind AS Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

   We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Ind AS Financial Statements.

Meaning of Internal Financial Controls with reference to Ind AS Financial Statements

4. A company's internal financial control with reference to Ind AS Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Ind AS Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to Ind AS Financial Statements

5. Because of the inherent limitations of internal financial controls with reference to Ind AS Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Ind AS Financial Statements to future periods are subject to the risk that the internal financial control with reference to Ind AS Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

6. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Ind AS Financial Statements and such internal financial controls with reference to Ind AS Financial Statements were operating effectively as at March 31, 2025, based on the internal control with reference to Ind AS Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to Ind AS Financial Statements issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

Company Overview and Material Accounting Policies and Information

1. Company Overview

Resurgence Solarize Urja Private Limited (the 'company') is domiciled in India and is a subsidiary of Mahindra Solarize Private Limited. The Company has been incorporated under the provisions of the Companies Act, 2013 on August 29, 2022.

The Company is engaged in the business of providing services in the areas of Engineering, Procurement and Construction of power plants in renewable energy, operations and maintenance, analytics, energy management services, sale of power and sale of solar water pump. Currently the Company is engaged in setting up of a Solar Power Project at Tamil Nadu for generation and sale of electricity which is under construction at the year end.

2. Material Accounting Policies and Information

2.1 Basis of Preparation of financial statements

The Company's financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs under sections 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules 2017.

The financial statements of the Company for the year ended 31 March 2025 were approved for issue in accordance with the resolution of the Board of Directors on 14 April 2025.

2.2 Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

2.3 Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss, Cash Flow Statement and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards.

2.4 Current / Non-Current classification

An asset or liability is classified as 'current' when it satisfies any of the following criteria:

(i) it is expected to be realized or settled, or is intended for sale or consumption in, the company's normal operating cycle;

(ii) it is held primarily for the purpose of being traded;

(iii) it is expected to be realized or settled within twelve months from the reporting date; or

(iv) an asset is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for atleast twelve months from the reporting date

(v) in case of liability, the company does not have an unconditional right to defer settlement of the liability for atleast twelve months from the reporting date.

All other assets and liabilities are classified as non-current.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with Schedule III to the Act.

Operating Cycle

Based on the nature of products and services of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.5 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of material accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying material accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its material accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment

Determination of the estimated useful lives of Property, Plant and Equipment (PPE) and the assessment as to which components of the cost may be capitalized. Useful lives of items of PPE are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations.

c) Recognition of deferred tax assets

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of other provision

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

e) Discounting of long-term financial instruments

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

2.6 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest thousands, unless otherwise indicated.

2.7 Property, plant and equipment and Depreciation

Property, Plant and Equipment is recognized when it is possible that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company. Advance given towards acquisition of Property, Plant and Equipment outstanding at the reporting date are disclosed as capital advances under Non-Current Assets.

Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

2.8 Intangible Assets

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition at cost comprising the purchase price and directly attributable costs to prepare the assets for its intended use.

Intangible Assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Intangible assets that have finite lives are amortised over their useful lives by the straight-line method.

2.9 Investments in Subsidiaries, Associates and Joint ventures

Investments in Subsidiaries, Associates and Joint Ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

2.10. Inventories

Construction material, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on first in first out basis and comprise all cost of purchase, duties, taxes and all other costs incurred in bringing the inventory to their present location and condition.

2.11. Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

2.12. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in two broad categories:- i] Financial assets at fair value and ii] Financial assets at amortised cost. Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss [i.e fair value through profit or loss], or recognised in other comprehensive income [i.e. fair value through other comprehensive income]. A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Impairment of financial asset

For impairment of financial assets, Company applies expected credit loss (ECL) model. Following financial assets and credit risk exposure are covered within the ECL model:

a. Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

b. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The company follows ‘simplified approach’ for recognition of impairment loss allowance on trade receivables including receivables recognised under service concession arrangements.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, then the impairment loss is provided based on lifetime ECL.

Financial liabilities

Initial recognition

The company initially recognises borrowings, trade payables and related financial liabilities on the date on which they are originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities are initially recognised at fair value, net of transaction costs incurred.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

2.13. Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset (“ROU”) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.14. Provisions and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events, it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not provided for and are disclosed by way of notes unless the possibility of outflow of resources embodying economic benefits is remote

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

2.15. Revenue recognition

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably.

If the outcome of a construction contract can be estimated reliably, contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Revenue related to construction or upgrade services provided under a service concession arrangement is recognised based on the stage of completion of the work performed. Operation or service revenue is recognised in the period in which the services are provided by the company.

Interest income is recognised in the Statement of Profit and Loss using the effective interest method.

2.16. Borrowing Cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

2.17. Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed to have been converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period .

2.18. Cash Flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

2.19. Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds.

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Actuarial gains/losses are recognized in the other comprehensive income.

2.20. Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement.

The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

2.21. Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are measured at the lower of carrying amount at designation and fair value less costs to sell.

2.22. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short-term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Total	**3,93,491.76**	**4,27,801.22**	11,396.50	11,396.50

Note No. 18 - Fair Valuation techniques used to determine fair value

The Company maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values :

I) Fair value of cash and cash equivalents, trade payables, borrowings and other financial assets and liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.

II) The fair values of trade receivables and current loans are calculated based on expected credit loss method and discounted cash flow using a current lending rate respectively. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including credit risk. The fair values of non-current loan are approximate at their carrying amount due to interest bearing features of these instruments.

III) The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

IV) Fair values of quoted financial instruments are derived from quoted market prices in active markets.

V) The fair value of investments in unlisted equity shares is determined using a combination of direct sales comparison and income approach.

VI) The fair value of the remaining financial instruments is determined using discounted cash flow analysis and/or direct sales comparison approach.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:

Level 1: Quoted prices / published NAV [unadjusted] in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date and financial instruments like mutual funds for which net assets value [NAV] is published by mutual fund operators at the balance sheet date.

Level 2: Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly [that is, as prices] or indirectly [that is, derived from prices]. It includes fair value of the financial instruments that are not traded in an active market [for example, over-the-counter derivatives] is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.

Level 3: Inputs for the asset or liability that are not based on observable market data [that is, unobservable inputs]. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Cash and Cash Equivalents, Other Financial Assets, Trade Payables and Other financial liabilities are shown at amortised cost. The following table provides hierarchy of the fair value measurement of Company's asset and liabilities, grouped into Level 1 [Quoted prices in active markets], Level 2 [Significant observable inputs] and Level 3 [Significant unobservable inputs] as described below:

31 March 2025 **(Amount in Thousands)**

Particulars	**Level-1**	**Level-2**	**Level-3**
Financial Assets designated at amortised cost:			
Other Financial Assets	–	–	10,010.00
Financial Liabilities designated at amortised cost:			
Borrowings.........................	–	–	404,309.46
Trade payables..................	–	–	1,100.00
Other Financial Liabilities..	–	–	22,391.76

31 March 2024 **(Amount in Thousands)**

Particulars	**Level-1**	**Level-2**	**Level-3**
Financial Assets designated at amortised cost:			
Other Financial Assets	–	–	10,010.00
Financial Liabilities designated at amortised cost:			
Trade payables..................	–	–	31.50
Other Financial Liabilities..	–	–	11,365.00

There were no transfers between level 1 and level 2 during the year

Financial Risk Management - Objectives and Policies

The Company is exposed to market risk, credit risk and liquidity risk. Risk management is carried out by the company under policies approved by the board of directors. This Risk management plan defines how risks associated with the Company will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by the Company. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear understanding of risk/benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks, and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage/optimize key risks. Activities are developed to provide feedback to management and other interested parties [e.g. Audit committee, Board etc.]. The results of these activities ensure that risk management plan is effective in the long term.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise of three types of risk: foreign currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits and investments. The sensitivity analysis is given relating to the position as at 31 March 2025 and 31 March 2024. The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations, provisions and on the non-financial assets and liabilities. The sensitivity of the relevant statement of profit and loss item is the effect of the assumed changes in the respective market risks. The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates. This is based on the financial assets and financial liabilities held as at 31 March 2025 and 31 March 2024.

Foreign exchange risk and sensitivity
